#1 New Release in Cultural Heritage ? Making a Better America Black Americans who have shaped their country and beyond: We are familiar with a handful of African Americans who are mentioned in American history books, but there are also countless others who do not get recognized in mainstream media. Their actions may not have appeared to shake the world, but their contributions to shifting American culture were just as groundbreaking. There's more than one way to make a difference: The achievements of the Black Americans included in this book range from athletic to artistic, literary to scientific. Their biographies vary greatly, but each one contributes to the course of Black history and its influence on the greater world. Their stories encourage readers, especially teenage boys and girls, to find their own path to change. Celebrate the successes made possible by diversity: African Americans have made history by challenging and changing the American landscape. This was accomplished not by shedding layers of originality, but by wearing their colors proudly and openly in the world. Growth has been made possible by a resistance to conformity and a fusing of cultures, African and American alike. Monique L. Jones's *The Book of Awesome Black Americans* is more than a Black history book. It's a celebration

About Black Girl Magic CaShawn Thompson, a proud third-generation native of Washington, DC, came up with the concept “Black Girls Are Magic” when she was a little girl growing up with her mother, grandmother, and aunts. It sprang forth fully formed from the mind of a poor little Black girl who didn’t yet have the words to describe the brilliance she saw in the women in her family, but had heard countless tales of fairies, witches, and magicians. It was just magic to her. And it still is. Black Girls Are Magic became wildly popular in 2013 after CaShawn began using the phrase online (it was later shortened to the hashtag #BlackGirlMagic) to uplift and praise the accomplishments, beauty, and other amazing qualities of Black women.

African American history -- from the slave trade to the Black Lives Matter movement -- by award-winning author Jabari Asim. Jabari Asim goes beyond what's taught in the classroom to reveal a fact-filled history of African American history through politics, activism, sports, entertainment, music, and much more. You'll follow the road to freedom beginning with the slave trade and the middle passage through the abolitionist movement and the Civil War where many African Americans fought as soldiers. You'll learn how slave songs often contained hidden messages and how a 15-year-old Jamaican-born young man named Clive Campbell helped to create hip-hop in the early 1970's. You'll experience the passionate speeches, marches, and movements of the Civil Rights era along with and the sacrifices of Martin Luther King, Rosa Parks, Medgar Evers, and many others. Along the way there are dozens of profiles of political trailblazers like Shirley Chisholm, the first black woman elected to Congress in 1968; dominant athletes like Tiger Woods who, in 1995, was only the second African American to play in a Master's Golf Tournament which he went on to win in 1997; popular musicians like Miles Davis, one of the most influential artists of the twentieth century; and inspiring writers like Toni Morrison, the first African American to win the Nobel Prize in literature. Filled with beautiful illustrations by Lynn Gaines that bring these figures and events to life, plus a removable historical timeline poster, *A Child's Introduction to African American History* is a fascinating and comprehensive guide to this often overlooked yet immensely important part of American history.
