The role of the home, the domestic sphere and the intimate, ethno-cultural identities that are cultivated within it, are critical to understanding the polemical constructions of country and city; tradition and modernity; and regionalism and cosmopolitanism. The home is fundamental to ideas of the homeland that give nationalism its imaginative form and its political trajectory. This book explores positions that are vital to ideas of national belonging through the history of colonial, bourgeois self-fashioning and post colonial identity construction in Sri Lanka. The country remains central to related architectural discourses due to its emergence as a critical site for regional architecture, post-independence. Suggesting patterns of indigenous accommodation and resistance that are expressed through built form, the book argues that the nation grows as an extension of an indigenous private sphere, ostensibly uncontaminated by colonial influences, domesticating institutions and appropriating rural geographies in the pursuit of its hegemonic ideals. This ambitious, comprehensive, wide-ranging book presents an abundance of new and original material and many imaginative insights into the history of architecture and nationalism from the mid nineteenth century to the present day.

Sri Lanka, one of the most promising states in Asia following independence in 1948, has been torn apart for the past fifteen years by a vicious civil war. The majority Sinhala and minority Tamils have killed each other with increasing ferocity. The Tamils, who are primarily Hindu, fear losing their identity and being overwhelmed by the majority, who are Buddhist. The Sinhala, in turn, fear that the Tamils, with the backing of their ethnic kin in the Indian province of Tamil Nadu, will destabilize and take over control of the Sri Lankan government. Colonial-era rivalries and deep-rooted distrust fuel the tensions. What will bring about an end to this destructive conflict, and how will the island nation heal its physical and psychic wounds following a peace? How will a sustainable peace be arranged? Can mediation help? This book of essays by Sri Lankan and Western authors examines the causes of war and the possibilities for peace. Contributors are Chandra R. de Silva, Old Dominion University; Rohan Edrisinha, University of Colombo; Saman Kelegama, Institute of Policy Studies of Sri Lanka; David Little, United States Institute of Peace; Darini Rajasingham-Senanayake, Columbia University; Teresita C. Interdisciplinary in its approach, this book explores the dilemmas that Buddhism faces in relation to the continuing ethnic conflict and violence

in modern Sri Lanka. Prominent scholars in the fields of anthropology, history, Buddhist studies and Pali examine multiple dimensions of the problem. Buddhist responses to the crisis are discussed in detail, along with how Buddhism can help to create peace in Sri Lanka. Evaluating the role of Buddhists and their institutions in bringing about an end to war and violence as well as possibly heightening the problem, this collection puts forward a critical analysis of the religious conditions contributing to continuing hostilities.

Located in the war-torn eastern province of Sri Lanka, this book provides a rich ethnography of how Tamil-speaking communities in Batticaloa live through and make sense of a violence that shapes everyday life itself. The core of the book comes from the author's two-year close interaction with a group of (mainly women) human rights activists in the area. The book describes how the activists work in clandestine, informal ways to support families whose loved ones have been threatened, disappeared or killed and how they build networks of trust within the context of everyday violence. As Sri Lanka faces up to the enormity of the task of 'post-war reconciliation', this book aims to create a wider conversation about grief, resistance and healing in the context of violence and its long afterlife.

A Critical Analysis Of The Ethnic Conflict In Sri Lanka In The Eighties, Sri Lanka, Once Considered The Model Colony, Was Torn Apart By Ethnic Strife Between The Predominantly Buddhist Sinhalas, Constituting Almost Three-Quarters Of The Island S Inhabitants, And The Numerically Fewer Tamils, Who Were A Mix Of Hindus, Christians And Muslims. Massacres Occurred After The Riots Of May 1983, And Over Time About 1,25,000 Tamils Entered India As Refugees, Fleeing From A Virtual Civil War Which Still Afflicts The North Of The Island. The Author, A Renowned Sri Lankan Analyst Of Global Ethnic Conflict, Discusses The Historical Reasons Behind The Ethnic Violence, Especially The Growth Of The Sinhalas Feeling Of Being A Beleaguered Minority Despite Their Numerical Strength. Analysing The Present Conflict, He Shows How The Language Policy Of Sinhala Only , Followed By The Government In The Sixties, Supplanted Religion As A Divisive Factor And How Rivalry Over Educational And Employment Opportunities Fuelled The Schism. Bringing The Story Up To The Present, De Silva Examines The Role Played By

Indian And Tamil Nadu Politicians, And President Kumaratunga S Efforts Towards A Devolution Of Power To The Tamil Provinces. But Given The Ltte S Acceptance Of Nothing Less Than Eelam, He Sees Little Hope Of An Early End To The Violence That Has Racked Sri Lanka For Almost Two Decades Now.

Sri Lanka's conflict and peace processes have gained global attention during recent years. This book presents a comprehensive insight into the politics of reconstruction and development in Sri Lanka, focussing on the ceasefire which was negotiated between the Government of Sri Lanka and the separatist Liberation Tigers of Tamil Eelam in 2002 and which lasted until 2006. Based on extensive empirical fieldwork, the book provides a unique ethnographic account of this specific historical period of peace. It explains how development was shaped by interplay and cooperation, but also by the disparities and conflicts between a variety of local and intervening actors, including local organizations and civil society, LTTE, Government of Sri Lanka, international development cooperation and the Tamil diaspora. Starting from an interdisciplinary viewpoint, the author integrates findings from development sociology with new perspectives on transnationalization and the migration-development-nexus. This provides a fine grained analysis of the emerging development visions and perspectives in relation to transnationalization and global interconnectedness. Making an innovative contribution by linking the analysis of local reconstruction with contemporary phenomena of transnationalization, diasporization, and globalization, this book will appeal to those with an interest in Sociology, Social Anthropology and Political Science.

Have we reached an end to the era of peaceful third party intervention in conflict management and resolution? In the 1990s, with the ending of the Cold War, the intervention of third parties as a non-violent means of negotiating settlements of intra-state conflicts gained prominence but the emphasis in the twenty-first century has been increasingly on military responses. Peaceful Intervention in Intra-State Conflicts: Norwegian Involvement in the Sri Lankan Peace Process is an in-depth, impartial discussion on the background, decision making processes and procedures and related actions in the Norwegian facilitated peace process in Sri Lanka that gradually shifted towards a military solution. It provides the reader with evidence based comprehensive analysis on the attempts of peaceful third party intervention in a complex ethno-separatist intra-state conflict.

In this comprehensive and authoritative study of terrorism in Sri Lanka, K.M. de Silva turns the spotlight on the Liberation Tigers of Tamil Eelam (LTTE) and its role in Sri Lanka's upheavals over the last few decades. While tracing the emergence of this separatist group and the events that led to its recent collapse, de Silva also seeks to explore the complex relationship between the so-called moderates in Sri Lankan Tamil politics and the Tamil terrorist groups. What emerges is a layered portrait of the dynamics of Sri Lanka's political system. Extensively researched and loaded with perceptive insights, Sri Lanka and the Defeat of the LTTE is the most wide-ranging analysis so far on the LTTE and its violent legacy.

At the point of independence in 1948, Sri Lanka was projected to be a success story in the developing world. However, in July 1983 a violent ethnic conflict which pitted the Sinhalese against the Tamils began, and did not come to an end until 2009. This conflict led to nearly 50,000 combatant deaths and approximately 40,000 civilian deaths, as well as almost 1 million internally-

displaced refugees and to the permanent migration abroad of nearly 130,000 civilians. With a focus on Sri Lanka, this book explores the political economy of ethnic conflict, and examines how rival political leaders are able to convince their ethnic group members to follow them into violent conflict. Specifically, it looks at how political leaders can influence and utilize changes in the level of economic liberalization in order to mobilize members of a certain ethnic group, and in the case of Sri Lanka, shows how ethnic mobilization drives can turn violent when minority ethnic groups are economically marginalized by the decisions that the majority ethnic group leaders make in order to stay in power. Taking a political economy approach to the conflict in Sri Lanka, this book is unique in its historical analysis and provides a longitudinal view of the evolution of both Tamil and Sinhalese ethnic drives. As such, this interdisciplinary study will be of interest to policy makers as well as academics in the field of South Asian studies, political science, sociology, development studies, political economy and security studies.

This book reassesses the apparent collapse of Anuradhapura, Sri Lanka, through explicit reference to the archaeological record, rather than focusing solely upon textual sources which have been overly relied upon in previous studies.

Update of Sri Lanka (Ceylon) since independence (1948-1974) : a bibliographical survey of the literature in Sri Lanka in the field of social sciences.

Sri Lanka and the Defeat of the LTTE Penguin UK

The book provides a detailed historically-based analysis of the origin, evolution and potential resolution of the civil conflict in Sri Lanka over the struggle to establish a separate state in its Northern and Eastern provinces. This conflict between the Sri Lankan government and the secessionist LTTE (Liberation Tigers of Tamil Eelam) is one of the world's most intractable contemporary armed struggles. The internationally banned LTTE is considered the prototype of modern terrorism. It is known to have introduced suicide bombing to the world, and recently became the first terrorist organization ever to acquire an air force. The 'iron law of ethnicity' – the assumption that cultural difference inevitably leads to conflict – has been reinforced by the 9/11 attacks and conflicts like the one in Sri Lanka. However, the connections among ethnic difference, conflict, and terrorism are not automatic. This book broadens the discourse on the separatist conflict in Sri Lanka by moving beyond the familiar bipolar Sinhala versus Tamil ethnic antagonism to show how the form and content of ethnicity are shaped by historical social forces. It develops a multipolar analysis which takes into account diverse ethnic groups, intra-ethnic, social class, caste and other variables at the local, regional and international levels. Overall, this book presents a conceptual framework useful for comparative global conflict analysis and resolution, shedding light on a host of complex issues such as terrorism, civil society, diasporas, international intervention and secessionism.

This book analyzes the main achievements and challenges for human capital development in Sri Lanka. It draws several conclusions and provides strategic recommendations for the acceleration of future human capital development in the country.
