Get that body you've always dreamt of without sacrificing your paycheck on an overpriced gym membership. Are you tired of paying a ridiculous amount of money to your gym without actually having the urge to go there? Do you get frustrated by the jungle-like nature of the gym, just wanting to be able to workout anywhere, anytime, with little to no equipment needed for your training? Are you looking for a way to reach what seems to be a near-impossible task: you love what you see in the mirror, are confident in your own skin, and actually find it fun to workout? If you answered 'yes' to any of the above questions, then you and calisthenics training will get along quite well. Working out seems to get more complicated as the years go by, with new trendy equipment popping up in ads claiming to burn 10x the number of calories than 'regular' ways of exercising. Not only will getting this equipment be at the expense of your hard-earned money that you could be spending elsewhere, like for groceries or special occasions, but it will also take up space in your home and create unnecessary clutter. Calisthenics is a type of strength training that involves using only your bodyweight and combines strength, balance, mobility, and flexibility for the ultimate at-home training tool, so that you can get in shape without the hassle of going to the gym or buying fancy machinery. It doesn't matter how old or young you are, what experience level you have (if any), or how little space you have in your home--calisthenics training is something anyone can implement into their daily routine. And because there's no need for equipment, this means that you don't have to invest in any extra additions before starting your new healthy lifestyle. Having a well-formed body with the right amount of body fat takes a lot of hard work and commitment; this is something none can dispute. What we can dispute, however, is the fact that to get that nice toned body you need to spend thousands of hours in the gym 'hitting' weights as if your life depended on it. We live in a world where to make ends meet, the conventional person has to work a 9-5 job-sometimes even multiple jobs-not to mention the many hours we spend in transit or stuck in traffic jams-the average person loses 42 hours a year to traffic jams. As such, making time for the gym may not be feasible. Does this mean that just because you cannot make your way to the gym, you should let the fat accumulate and the muscles waste away? Definitely NO! Calisthenics is one such type of exercise. But what are calisthenics and how can you get started on the practice? That is the purpose of this guide: to show you how to use calisthenics to sculpt a beach-worthy body that you are proud of. Here Is A Preview Of What You'll Learn...
