Ronney is an introverted young woman with a disgraceful appearance. She lives humbly in one of the poorest neighborhoods of Sheryl Valley, a town corrupted by the mafia in Southern California. With no diploma, she works hard in her parents' restaurant and provides voice-overs for children's animated movies during the weekend. In accordance with a long-standing family tradition, Ronney's twenty-fifth birthday celebration comes with a dare from her cousins: she must knock on the front door of the infamous Khan household. The Khans' reputation proceeds them, rumored to be in association with the mafia. But when Ronney knocks on the door, before she has the chance to run, the Khan family matriarch, Camilia, takes an interest in Ronney. Ronney's lack of conventional beauty and disinterest in fashion draws Camilia in, leading her to offer Ronney the position of personal assistant to her eldest son, Yeraz, with a substantial salary at stake. It's an offer Ronney cannot refuse. To keep her job, Ronney's task is simple: do not fall in love with Yeraz. "Easy," she thinks. But what if destiny decides otherwise? Ugly Ronney is a romance in which the heroes enter the gallery of legendary lovers.

Mercedes Lackey's magical Elemental Masters series recasts familiar fairy tales in a richly-imagined alternate Victorian world. For seventeen years, Marina Roeswood had lived in an old, rambling farmhouse in rural Cornwall in the care of close friends of her wealthy, aristocratic parents. As the ward of bohemian artists in Victorian England, she had grown to be a free thinker in an environment of fertile creativity and cultural sophistication. But the real core of her education was far outside societal norms. For she and her foster parents were Elemental Masters of magic, and learning to control her growing powers was Marina's primary focus. But though Marina's life seemed idyllic, her existence was riddled with mysteries. Why, for example, had she never seen her parents, or been to Oakhurst, her family's ancestral manor? And why hadn't her real parents, also Elemental Masters, trained her themselves? That there was a secret about all this she had known from the time she had begun to question the world around her. Yet try as she might, she could get no clues out of her guardians. But Marina would have answers to her questions all too soon. For with the sudden death of her birth parents, Marina met her new guardian—her father's eldest sister Arachne. Aunt Arachne exuded a dark magical aura unlike anything Marina had encountered, a stifling evil that seemed to threaten Marina's very spirit. Slowly Marina realized that her aunt was the embodiment of the danger her parents had been hiding her from in the backwoods of Cornwall. But could Marina unravel the secrets of her life in time to save herself from the evil that had been seeking her for nearly eighteen years?
