

Cold War Thaws Out Guided Reading

How the modern world was shaped by super power rivalry through deception and propaganda This guide exposes the reality behind the war between capitalism and communism, two ideologies divided by the Iron Curtain. New revelations show that what was once regarded as simply a struggle between good and evil was in fact a far more complex affair.

Merrilyn Thomas peels back the layers of deception and intrigue and offers a penetrating assessment of the legacy of instability that continues today.

At no time in American history has an understanding of the role and the art of diplomacy in international relations been more essential than it is today. Both the history of U.S. diplomatic relations and the current U.S. foreign policy in the twenty-first century are major topics of study and interest across the nation and around the world. Spanning the entire history of American diplomacy—from the First Continental Congress to the war on terrorism to the foreign policy goals of the twenty-first century—Guide to U.S. Foreign Policy traces not only the growth and development of diplomatic policies and traditions but also the shifts in public opinion that shape diplomatic trends. This comprehensive, two-volume reference shows how the United States gained “the strength of a giant” and also analyzes key world events that have determined the United States’ changing relations with other nations. The two volumes’ structure makes the key concepts and issues accessible to researchers: The set is broken up into seven parts that feature 40 topical and historical chapters in which expert writers cover the diplomatic initiatives of the United States from colonial times through the present day. Volume II’s appendix showcases an A-to-Z handbook of diplomatic terms and concepts, organizations, events, and issues in American foreign policy. The appendix also includes a master bibliography and a list of presidents; secretaries of state, war, and defense; and national security advisers and their terms of service. This unique reference highlights the changes in U.S. diplomatic policy as government administrations and world events influenced national decisions. Topics include imperialism, economic diplomacy, environmental diplomacy, foreign aid, wartime negotiations, presidential influence, NATO and its role in the twenty-first century, and the response to terrorism. Additional featured topics include the influence of the American two-party system, the impact of U.S. elections, and the role of the United States in international organizations. Guide to U.S. Foreign Policy is the first comprehensive reference work in this field that is both historical and thematic. This work is of immense value for researchers, students, and others studying foreign policy, international relations, and U.S. history. ABOUT THE EDITORS Robert J. McMahon is the Ralph D. Mershon Professor of History in the Mershon Center for International Security Studies at The Ohio State University. He is a leading historian of American diplomatic history and is author of several books on U.S. foreign relations. Thomas W. Zeiler is professor of history and international affairs at the University of Colorado at Boulder and is the executive editor of the journal Diplomatic History.

Including extensive, balanced information, keen insights, and helpful research tools, this book provides a valuable resource for students or general readers interested in American policy, diplomacy, and conduct during the Cold War. • Provides a solid introduction to the Cold War era that incorporates information from the latest scholarship • Documents the myriad impacts, both obvious and subtle, of the Cold War on American culture • Supplies a thorough annotated bibliography that includes primary and secondary sources, both standards and very recent studies—ideal for students and others interested in research • Constitutes a convenient research tool for high school and undergraduate students writing term papers or preparing theses on Cold War-related topics

Gale Researcher Guide for: The Cold WarGale, Cengage Learning

A long ago war - still relevant today. Misunderstanding remains, and a lot is still unknown, of the Vietnam War. The Complete Idiot's Guide® to the Vietnam War, Second Edition provides an updated and revised guide giving readers the facts. It assesses policies and the reasons for them, shedding light on the controversies regarding the Vietnam War, what has been called the most complicated armed conflict of the 20th century. It offers: ?A big-picture look at the politics, public figures, and history of the war in Southeast Asia ?Present-tense relevance of Vietnam to the current wars in which the United States, and the rest of the world, is involved ?Clarification of details for those who lived through it and an explanation for younger generations

Historians are increasingly looking beyond the traditional, and turning to visual, oral, aural, and virtual sources to inform their work. The challenges these sources pose require new skills of interpretation and require historians to consider alternative theoretical and practical approaches. In order to help historians successfully move beyond traditional text, Sarah Barber and Corinna Peniston-Bird bring together chapters from historical specialists in the fields of fine art, photography, film, oral history, architecture, virtual sources, music, cartoons, landscape and material culture to explain why, when and how these less traditional sources can be used. Each chapter introduces the reader to the source, suggests the methodological and theoretical questions historians should keep in mind when using it, and provides case studies to illustrate best practice in analysis and interpretation. Pulling these disparate sources together, the introduction discusses the nature of historical sources and those factors which are unique to, and shared by, the sources covered throughout the book. Taking examples from around the globe, this collection of essays aims to inspire practitioners of history to expand their horizons, and incorporate a wide variety of primary sources in their work.

This comprehensive text provides a balanced survey of the Cold War in a genuinely global framework. Presenting not only Soviet and Western perspectives, but also the outlooks of peoples and leaders throughout Asia, the Middle East, Africa, and Latin America, Edward H. Judge and John W. Langdon offer in-depth treatment of imperialism, anti-imperialism, decolonization, national liberation struggles, and their Cold War connections. The authors explore the background and context for all major developments during the

era, as well as capsule biographies and character analyses of key figures. Tracing the Cold War from its roots in East–West tensions before and during World War II through its origins in the immediate postwar era, the book concludes with the Cold War’s legacy, which continues today. Written in a clear and lively style, this compelling text will bring the era to life for readers who didn’t experience its dramas and crises directly.

With its unique focus on how culture contributed to the blurring of ideological boundaries between the East and the West, this important volume offers fascinating insights into the tensions, rivalries and occasional cooperation between the two blocs. Encompassing developments in both the arts and sciences, the authors analyze focal points, aesthetic preferences and cultural phenomena through topics as wide-ranging as the East- and West German interior design; the Soviet stance on genetics; US cultural diplomacy during and after the Cold War; and the role of popular music as a universal cultural ambassador. Well positioned at the cutting edge of Cold War studies, this important work illuminates some of the striking paradoxes involved in the production and reception of culture in East and West.

This book takes a light-hearted look at what the author considers to have been the golden age of motoring journalism – the last two decades of the 20th century. As a writer and tester for Motor magazine, founding Editor of Fast Lane magazine, and a freelance journalist with a weekly column in The Daily Telegraph, Peter Dron has many tales to tell. In these pages we meet industry moguls, unusual motoring journalists and various other passers-by. The reasons why it has all gone wrong, both for the motor industry and motoring journalism, are examined with candour. Although this book is essentially about cars and car people, the author ambitiously hopes that it may amuse, irritate or even inform people who are not interested in cars at all. If the readers are not amused, irritated or informed, the author does not mind in the least, provided they have bought the book with their own money rather than stolen it or acquired it by other means, fair or foul.

Between 1945 and 1991, tension between the USA, its allies, and a group of nations led by the USSR, dominated world politics. This period was called the Cold War – a conflict that stopped short to a full-blown war. Benefiting from the recent research of newly open archives, the Encyclopedia of the Cold War discusses how this state of perpetual tensions arose, developed, and was resolved. This work examines the military, economic, diplomatic, and political evolution of the conflict as well as its impact on the different regions and cultures of the world. Using a unique geopolitical approach that will present Russian perspectives and others, the work covers all aspects of the Cold War, from communism to nuclear escalation and from UFOs to red diaper babies, highlighting its vast-ranging and lasting impact on international relations as well as on daily life. Although the work will focus on the 1945–1991 period, it will explore the roots of the conflict, starting with the formation of the Soviet state, and its legacy to the present day.

With beautifully commissioned photographs, and spectacular 3-D aerial views revealing the charm of each destination, these amazing travel guides show what others only tell. DK Eyewitness Travel Guides in ebook format have been updated to include: expanded hotel& restaurant listings, better maps, enhanced itineraries, and easier-to-read print! Fully Revised and Updated!

'You need this. Trust me, buy it now.' - Weekly GG 'a triumph... a must-read for newcomers and veterans alike' – Forbes Award-winning broadcaster Paul 'Redeye' Chaloner brings us the definitive book on esports, the fastest growing entertainment phenomenon in the world today. From slapping coins down on arcade cabinets to the lights of Madison Square Garden, competitive video gaming has come a long way. Today, esports is a billion-dollar industry, the best players becoming stars in their own right, battling for eight-figure prizes in front of a global audience of tens of millions. From Call of Duty to Counter-Strike, FIFA to Fortnite, a generation of players have turned multiplayer video games from a pastime into a profession. But there are questions. How did we get here? What exactly is competitive gaming – is it a sport? How much money do the top stars make? Do you really have to retire at 23? And just what the hell is Dota? This is esports (and How to Spell it) addresses all of this and more, as award-winning broadcaster Paul 'Redeye' Chaloner takes you inside the unstoppable rise of pro gaming to reveal the bitter rivalries, scandals and untold history of esports, from origins to sold-out arenas. With his trademark wit – and unrivalled access – Paul delivers the definitive book on the fastest-growing entertainment phenomenon in the world today. 'Paul Chaloner is a living legend in the esports space.' - Jason Lake, founder and CEO of the esports team Complexity Gaming 'Terrific stories and insights from the inside.' - T.L. Taylor, professor of Comparative Media Studies

There are so many books on so many aspects of the history of the United States, offering such a wide variety of interpretations, that students, teachers, scholars, and librarians often need help and advice on how to find what they want. The Reader's Guide to American History is designed to meet that need by adopting a new and constructive approach to the appreciation of this rich historiography. Each of the 600 entries on topics in political, social and economic history describes and evaluates some 6 to 12 books on the topic, providing guidance to the reader on everything from broad surveys and interpretive works to specialized monographs. The entries are devoted to events and individuals, as well as broader themes, and are written by a team of well over 200 contributors, all scholars of American history.

For over forty years much of the world was held captive by a conflict between two wholly incompatible economic ideologies--capitalism and communism--and the two primary superpower countries who practiced them, the United States and the Soviet Union. Written in accessible language for readers with little or no previous knowledge about the subject, this work is first a general history of the Cold War, with an overview of its root causes and the policies and theories that were in place from 1947 through 1990. A thoroughly annotated chronology of important Cold War events follows. Short biographies of some of the major United States political figures and world leaders conclude the work.

Following Stalin's death in 1953, during the period now known as the Thaw, Nikita Khrushchev opened up greater freedoms in cultural and intellectual life. A broad group of intellectuals and artists in Soviet Russia were able to take advantage of this, and in no realm of the arts was this perhaps more true than in music. Students at Soviet conservatories were at last able to use various channels--many of questionable legality--to acquire and hear music that had previously been forbidden, and visiting performers and composers brought young Soviets new sounds and new compositions. In the 1960s, composers such as Andrey Volkonsky, Edison Denisov, Alfred Schnittke, Arvo Pärt, Sofia Gubaidulina, and Valentin Silvestrov experimented with a wide variety of then new and unfamiliar techniques ranging from serialism to aleatory devices, and audiences eager to escape the music of predictable sameness typical to socialist realism were attracted to performances of their new and unfamiliar creations. This "unofficial" music by young Soviet composers inhabited the gray space between legal and illegal. Such Freedom, If Only Musical traces the changing compositional styles and politically charged reception of this music, and brings to life the paradoxical freedoms and sense of resistance or opposition that it suggested to Soviet listeners. Author Peter J. Schmelz draws upon interviews conducted with many of the most important composers and performers of the musical Thaw, and supplements this first-hand testimony with careful archival research and detailed musical analyses. The first book to explore this period in detail, Such Freedom, If Only Musical will appeal to musicologists and theorists interested in post-war arts movements, the Cold War, and Soviet music, as well as historians of Russian culture and society.

General Adams reflects on his experiences in the cold war, during which he served in both manned bombers and missile silos. He tells stories of famous and not-so-famous cold warriors, including some from the US Navy. Some stories are humorous; some stories are tragic. Having traveled extensively in Russia and some former Soviet Union states after retirement, General Adams tells us about his former adversaries, the Soviet cold warriors. In the process, he leaves no doubt about his respect for all who served so valiantly in the "strategic triad"-- the strategic command, the ICBM force, and the submarine Navy.

In WW2 information leaflets and posters proliferated. Soldiers were bombarded with Field Regulations, airmen with the latest updates about airborne early warning, bomb sights and radio navigation and sailors with material that helped them identify enemy aircraft and submarines and told them how to operate the new ship board weapons to destroy them.??An abundance of familiar slogans exhorted the population to do the utmost: 'Go To IT!', 'Come Into The Factories', 'Keep Calm and Carry On', 'Dig For Victory', 'Lend A Hand on the Land', 'Walk When You Can'. Other messages warned of the consequences of irresponsible behaviour: 'Careless Talk Cost Lives', 'Loose Lips Sink Ships', 'Keep It Under Your Hat' and 'Be Like Dad, Keep Mum', the latter illustrating just how much social mores have, thankfully, changed in the last 75 years.??This book is concerned with the plethora of printed ephemera that was designed to educate, instruct, inform and entertain. Such original material can still be bought and is easy to store %00 the posters also often making attractive items for display %00 but as with all other authentic historical material supply is finite and examples of wartime publications in first class condition command a high price. This is the first time a single volume has been dedicated entirely to a long overlooked component of wartime collectables. It is designed to complement books which focus on traditional militaria such as uniforms, equipment and regalia and is intended to reveal just how much material was produced, across the board, by each of the warring nations. It will advise enthusiasts about what was produced, what is still available and where to find it and, importantly, how to conserve and store such vintage printed items.

A brilliant, invigorating account of the great writers on both sides of the Iron Curtain who played the dangerous games of espionage, dissidence and subversion that changed the course of the Cold War. During the Cold War, literature was both sword and noose. Novels, essays and poems could win the hearts and minds of those caught between the competing creeds of capitalism and communism. They could also lead to exile, imprisonment or execution if they offended those in power. The clandestine intelligence services of the United States, Britain and the Soviet Union had secret agents and vast propaganda networks devoted to literary warfare. But the battles were personal, too: friends turning on each other, lovers cleaved by political fissures, artists undermined by inadvertent complicities. In Cold Warriors, Harvard University's Duncan White vividly chronicles how this ferocious intellectual struggle was waged on both sides of the Iron Curtain. The book has at its heart five major writers—George Orwell, Stephen Spender, Mary McCarthy, Graham Greene and Andrei Sinyavsky—but the full cast includes a dazzling array of giants, among them Aleksandr Solzhenitsyn, John le Carré, Richard Wright, Ernest Hemingway, Boris Pasternak, Gioconda Belli, Arthur Koestler, Vaclav Havel, Joan Didion, Isaac Babel, Howard Fast, Lillian Hellman, Mikhail Sholokhov —and scores more. Spanning decades and continents and spectacularly meshing gripping narrative with perceptive literary detective work, Cold Warriors is a welcome reminder that, at a moment when ignorance is celebrated and reading seen as increasingly irrelevant, writers and books can change the world. Cold Warriors includes 20-30 black-and-white photographs.

Coverage includes: the history of NASA, from its origins in the 1950s as the Jet Propulsion Laboratory and Projects Mercury and Gemini; the history and timeline, triumphs and tragedies of the famed Apollo missions, including the historic Apollo 11, which put the first men on the Moon in 1969; NASA's contributions to our everyday life, most notably on robotics and the creation of cutting-edge research on aerodynamics and chapters on important NASA discoveries: the Pioneer and Voyager Spacecraft, the Hubble Space Telescope, communications satellites such as the Echo, Telstar, and Syncom.

This book presents an approach to transform German Studies by augmenting its core values with a social justice mission rooted in Cultural Studies. ?German Studies is approaching a pivotal moment. On the one hand, the discipline is shrinking as programs face budget cuts. This enrollment decline is immediately tied to the effects following a debilitating scrutiny the discipline has received as a result of its perceived worth in light of local, regional, and national pressures to articulate the value of the humanities in the language of student professionalization. On the other hand, German Studies struggles to articulate how the study of cultural, social, and political developments in the German-speaking world can serve increasingly heterogeneous student learners. This book addresses this tension through questions of access to German Studies as they relate to student outreach and program advocacy alongside pedagogical models.

A Study Guide for Tim O'B "rien's Things They Carried," excerpted from Gale's acclaimed Short Stories for Students.This concise study guide includes plot summary; character analysis; author biography; study questions; historical context; suggestions for further reading; and much more. For any literature project, trust Short Stories for Students for all of your research needs. The Vietnam War was one of America's longest, bloodiest, and most controversial wars. This volume examines the complexities of this protracted conflict and explains why the lessons learned in Vietnam are

still highly relevant today. • More than 45 contributors, including Robert K. Brigham, Cecil B. Currey, Arnold R. Isaacs, Lewis Sorley, Spencer C. Tucker, and David T. Zabecki • Introductory essays provide a broad overview of the Vietnam War and help readers understand the causes and consequences of the conflict • Maps depicting South Vietnam, infiltration routes, and key battles

Britain in the 1950s had a distinctive political and intellectual climate. It was the age of Keynesianism, of welfare state consensus, incipient consumerism, and, to its detractors - the so-called 'Angry Young Men' and the emergent New Left - a new age of complacency. While Prime Minister Harold Macmillan famously remarked that 'most of our people have never had it so good', the playwright John Osborne lamented that 'there aren't any good, brave causes left'. Philosophers, political scientists, economists and historians embraced the supposed 'end of ideology' and fetishized 'value-free' technique and analysis. This turn is best understood in the context of the cultural Cold War in which 'ideology' served as shorthand for Marxist, but it also drew on the rich resources and traditions of English empiricism and a Burkean scepticism about abstract theory in general. Ironically, cultural critics and historians such as Raymond Williams and E.P. Thompson showed at this time that the thick catalogue of English moral, aesthetic and social critique could also be put to altogether different purposes. Jim Smyth here shows that, despite being allergic to McCarthy-style vulgarity, British intellectuals in the 1950s operated within powerful Cold War paradigms all the same.

The impact of the Cold War is still being felt around the world today. This insightful single-volume reference captures the events and personalities of the era, while also inspiring critical thinking about this still-controversial period. • Several analytical essays by prominent historians, plus 85 additional A–Z reference entries about conflicts, incidents, leaders, and issues • 35 examples of relevant primary source documents, including speeches, treaties, policy statements, and letters, such as the Marshall Plan and Winston Churchill's "Iron Curtain" speech • A detailed chronology of important events that occurred before, during, and after the Cold War • Numerous maps and images of key leaders and events • A comprehensive bibliography of print resources

A new edition of the ultimate and most essential guide to Doctor Who, now updated to include all thirteen incarnations of the Doctor and covering all her newest adventures from Series 11. With fascinating facts from all of space and time, as well as information on the Doctor's helpful companions and fearsome foes, this book will tell all about the Doctor's TARDIS, her regenerations, and much, much more! This book provides scholars and students examining Korea's place in modern world politics with an invaluable resource for understanding the causes, course, and consequences of the ongoing crisis on the Korean Peninsula. • Provides readers with an understanding of the reasons for the existence of two nations on the Korean Peninsula • Exposes how outside powers have intervened in Korean affairs throughout its modern history—with disastrous results • Explains the development of North Korea into an isolated nation with a government determined to possess nuclear weapons • Suggests avenues for Korea's reunification and the achievement of permanent peace and stability on the peninsula

The Vietnam War was a tragic and dismal failure—at least that is what the mainstream media and history books would have you believe. Yet, Phillip Jennings sets the record straight in *The Politically Incorrect Guide™ to the Vietnam War*. In this latest “P.I.G.,” Jennings shatters culturally-accepted myths and busts politically incorrect lies that liberal pundits and leftist professors have been telling you for years. The Vietnam War was the most important—and successful—campaign to defeat Communism. Without the sacrifices made and the courage displayed by our military, the world might be a different place. *The Politically Incorrect Guide™ to the Vietnam War* reveals the truth about the battles, players, and policies of one of the most controversial wars in U.S. history.

A book to challenge the status quo, spark a debate, and get people talking about the issues and questions we face as a country!

Build, reinforce and assess students' knowledge throughout their course; tailored to the 2016 CCEA specification and brought to you by the leading History publisher, this study and revision guide combines clear content coverage with practice questions and sample answers. - Ensure understanding of the period with concise coverage of all Unit content, broken down into manageable chunks - Develop the analytical and evaluative skills that students need to succeed in A-level History - Consolidate understanding with exam tips and knowledge-check questions - Practise exam-style questions matched to the CCEA assessment requirements for every question type - Improve students' exam technique and show them how to reach the next grade with sample student answers and commentary for each exam-style question - Use flexibly in class or at home, for knowledge acquisition during the course or focused revision and exam preparation

An accessible and ready reference for student research, this day-by-day guide highlights the importance of Asian Americans in U.S. history, highlighting the impact of specific individuals and this large ethnic group as a whole across time and documenting the evolution of policies, issues, and feelings concerning this particular American population. • Provides detailed information throughout history on the events, people, and places of Asian American history • Presents a unique calendar approach to recognizing the contributions of this significant ethnic demographic throughout U.S. history that demonstrates how all 365 days of the year can feature an achievement made by Asian Americans • Offers information on celebrities, inventors, events, and more that relate to Asian American life in the United States

Gale Researcher Guide for: *The Cold War* is selected from Gale's academic platform Gale Researcher. These study guides provide peer-reviewed articles that allow students early success in finding scholarly materials and to gain the confidence and vocabulary needed to pursue deeper research.

The Cold War was the longest conflict in American history, and the defining event of the second half of the twentieth century. Since its recent and abrupt cessation, we have only begun to measure the effects of the Cold War on American, Soviet, post-Soviet, and international military strategy, economics, domestic policy, and popular culture. *The Columbia Guide to the Cold War* is the first in a series of guides to American history and culture that will offer a wealth of interpretive information in different formats to students, scholars, and general readers alike. This reference contains narrative essays on key events and issues, and also features an A-to-Z encyclopedia, a concise chronology, and an annotated resource section listing books, articles, films, novels, web sites, and CD-ROMs on Cold War themes.

An indispensable reference for students studying the Court Specifically written to engage high-school students, *Student&BAD:’s Guide to the Supreme Court* presents a comprehensive overview of the history, traditions, and people of the highest court in the land. This one-stop source does not require any prior knowledge of the Supreme Court and covers topics that meet national high school curriculum standards. Part One consists of three informative essays: *The Supreme Court: The Weakest or the Strongest Branch?* *How Does the President Nominate a Supreme Court Justice?* *Do They Matter?* *How Supreme Court Decisions Affect Modern American Life*. Part Two is an alphabetical section of key words and legal concepts spanning abortion to writs of mandamus. The members of the current Roberts Court&BAD:—including Sonia Sotomayor&BAD:—are profiled here, as are all chief justices and notable associate justices. Part Three complements the first two sections with a generous sampling of influential primary source documents, including landmark decisions, excerpts from justices&BAD:’ papers, political

cartoons, and constitutional provisions related to the Supreme Court. Key Features Easy-to-read Aligns with high school curriculum Unique three-part format

This is an analysis of the first 10 post—Cold War novels of one of the most significant ethicists in contemporary fiction. This book challenges distinctions between “popular” and “serious” literature by recognizing le Carré as one of the most significant ethicists in contemporary fiction, contributing to an overdue reassessment of his literary stature. Le Carré’s ten post—Cold War novels constitute a distinctive subset of his espionage fiction in their response to the momentous changes in geopolitics that began in the 1990s. Through a close reading of these novels, Snyder traces how—amid the “War on Terror” and transnationalism—le Carré weighs what is at stake in this conflict of deeply invested ideologies.

A comprehensive look at the hundred-year history of the Cold War, from the rise of Lenin and communism to the foreign policy of George W. Bush. -- CNN's 24-part series, telecast in late 1998, is still alive and well on CNN Interactive. -- Who says the Cold War is over? Heard about the collision between the Chinese freighter and the U.S. Navy spy plane? New York Times political columnist Maureen Dowd said in April, "One veteran cold warrior who served under several presidents told me he was shocked that Bush II had refrozen the cold war." -- The Cold War International History Project Website at the Woodrow Wilson International Center for Scholars has up-to-date info on books published about the Cold War, as well as conferences, news, etc. The Complete Idiot's Guide "RM" to the Cold War covers: origins of the Cold War -- Karl Marx, the Treaty at Versailles, the Great Depression, the New Deal, and World War II; the China Lobby and the Marshall Plan, "American Caesar" in Korea and "Tail-Gunner Joe"; the birth of "talking head" journalism; those Happy Days 1950's; the Cuban Missile Crisis and death in Vietnam; the turbulent Sixties; Nixon visits China; Cold War America in the Seventies and Eighties -- the "Evil Empire, " Grenada, Nicaragua, and KAL Flight 007, and Post-Cold War policy, the Cold War legacy.
