I crawl away and shut myself in a room with my Beatle records, the music that would keep me from suicide and strong enough to care for our baby daughter. This was the aftermath of his tours of duty in Vietnam, bringing that war home to our front door, letting itself in uninvited, causing both of us to relive the demons of the violence he experienced over there. It is a story that many women of my era who were married to combat Vietnam vets seldom tell; and who certainly wouldn't commit to paper. It's not a book about The Beatles; but their music is the backdrop to my story, a passion, a love and a musical therapy at the time that absolutely kept me alive. It is the story of the terror a war can bring home and how it can continue with devastating consequences. At that time; when our soldiers returned home from Vietnam; there was no mental health support program for us or our families. They were simply dropped back into a society that despised them and the war they fought; forcing them to internalize the trauma and relive it every day in their minds, and in our homes. Too many committed suicide, too many took my husband's path of physical violence, until finally, during the Gulf Wars our government recognized the need for "debriefing" and PTSD therapy when soldiers returned home; but it is still a token gesture. My story highlights how bad it really was back then and how much more attention needs to be drawn towards the minimal mental health care that our returning veterans receive today.

Simplify life and amplify living by mastering the fundamentals of minimalism through this visual guide to embracing a minimalist lifestyle. How can living with less contribute to a greater sense of fulfillment? It seems contradictory, yet the minimalist lifestyle, which focuses on scaling back your possessions and simplifying your life to just the essentials, achieves just that. Adopt minimal living, and you'll find that less is more: More time because you don't waste it caring for and organizing stuff. More space because you don't fill it with objects of marginal value. More money because you don't spend it on unnecessary things. More clarity because your mind isn't bogged down by the clutter around you. More enjoyment because your energy is spent on experiences and connections. Using decision trees, flow charts, icons, and other graphics, Less shows how

minimalism can be applied to any area of life--including home, wardrobe, decor, cooking, cleaning, finances, and organizing your time--and how it can be adapted to suit your own goals and help you achieve your version of happiness.

You have plenty of ideas you want to put into a book, but you're stalled. Maybe you start, but can't find the time to continue. Or you're frustrated with the writing process. And when you seek advice, people tell you, "It's all about discipline," or they talk about what writing software to use. But that doesn't help you actually write your book. So you never finish your book, the world never gets the benefit of your wisdom, and you never get the benefits of being an author. Isn't there an easier way? Now there is. In "The Book In A Box Method," Tucker Max and Zach Obront show you the exact steps you can follow to go from idea to finished manuscript, in an easy, quick way -- even if you're not a writer. Using the same methods, processes, and templates that they use for their authors at their company, Tucker and Zach show you exactly how to: Crystallize your book idea  
Create your book outline  
Create all the content for your book  
Edit that content into a great manuscript  
With "The Book In A Box Method," you'll be able to write a better book - in less time - than you ever thought possible.

Color Psychology: Profit From The Psychology of Color: Discover the Meaning and Effect of ColorsThe book "Color Psychology" explains the different psychological effects that different colors have on the human mind. Color consultants believe that the colors used in the design of any object or environment (e.g. a website) can have a significant impact on the emotions and performance of people within that environment and that people respond, even at a psychological level, to colors. Based upon fundamentals in Color Psychology, with years of research by color psychologists, the characteristics of certain colors have been identified to cause an emotional response in people. world in order to isolate how certain colors make us feel. What You'll Learn: How Color Can Improve Your Bottom Line How Color Can Affect People's Emotions Which Colors Suit Your Target Market Which Are The "Magic" Colors Which Color makes Shoppers Spend More And Much, Much More... The effect that color has on human emotions can be profound. Researchers have studied the biological perception of color, the relationships between color and emotion, and how different colors can be used to affect mood and behavior in predictable ways. Although The Psychology of Color is a relatively new area of scientific research, ancient civilizations believed in the influence of color on humans; the ancient Chinese, Egyptians, and Indians believed in chromotherapy. The Future Use of The Psychology of Color...Case Study: With world-renowned Spanish chef, Ferran Adria, he focused on the color of the crockery. Guests sat down one side of a large table were given a pink strawberry dessert on a white plate. Down the other side of the table guests ate an identical dessert from a black plate. Those eating from the white plates rated the dessert as 10% sweeter than those who ate from the black plates. Subsequent experiments have shown that introducing a square or angular plate intensifies the difference, with roundness accentuating sweetness. "Clearly contextual perception is a big opportunity." For? Anyone interested in the influence of color will get something from this book. However, primarily I wrote this book as a guide for all Internet Business People, Marketers and Entrepreneurs because I think it's essential that we all understand the psychological influence of color. Changing the colors on your sales page or website won't suddenly bring in millions of dollars but there is no doubt that a change of color may well result in a change of mood in the viewer; it's how you use that power that can determine your profitability. The challenge for you as an Internet Business Person, Marketers or Entrepreneur is to understand the theories of color and to use them in a profitable but professional and ethical way.
