Most of us in this world live a survivable, if not comfortable and secure life. But what if our secure, comfortable civilization were swept away in a moment of unimaginable violence and horror, along with ninety percent of the earth's population and we found ourselves living in another one of history's darkest moments? Would we be able to muster the same tenacity, creativity and determination that motivated our ancestors to survive and continue? "Children of the Apocalypse" is a story about an event that hasn't yet happened, but could at any moment. The threat of Nuclear War has lived in our darkest fears and imaginings since the world first witnessed the cataclysmic destruction and desolation that these weapons can bring. This story pits a retired soldier, four neighborhood teenagers and a few new friends against an unimaginable environment. The world has become a place where mobs of radiation victims roam and plunder mindlessly, where the sun brings death rather than life, and the preserved food, left over from before Dooms Day, is running out fast. The little group struggles to survive for a day, for a week and then a month, and will soon be challenged to grow food in a poisoned world without sunlight. Civilization is seriously threatened and the world is about to become the most hostile savage and uncivilized place in all history. With each challenge this little group become stronger, more confident and better prepared for the next. Will they be ready for the environmental upheaval that the earth is about to go through in the Nuclear Winter? Do they dare to believe in the future enough to make plans, fall in love and have families? Will Mankind find a way to continue?

If a student does not meet the minimum required score set by the state, it's an indication that the student needs more academic preparation. The high school is then required to provide postsecondary preparatory instruction. All students enrolled in public high school in the state of Florida are required to take the PERT in the eleventh grade. The PERT tests students' abilities in math, reading, and writing. The test directly tests for competence for intermediate algebra and freshman level composition. The PERT is not timed, and each section has thirty questions. Scoring The PERT is not a test to pass or fail; it's used to determine the best academic path toward college for students. It's important for students to take the PERT seriously (even though it isn't graded) to ensure they are placed in the most appropriate classes. The PERT is scored by section in a range of 50 - 150, with "cut scores" throughout (so students will get three different scores). There are three or four tiers (depending on the section) of cut scores to determine what level students are currently at.

Our study guides are carefully designed to provide only that clear and concise information you need. That's precisely why we put "Clear & Concise" on our cover. The standard for the study guide industry is to "throw in the kitchen sink" when it comes to making a book, meaning you are stuck with hundreds of pages of repetitive information, redundant and confusing examples, and more practice questions than any person could be expected to work through. This results in students feeling overwhelmed, leading to reduced self-confidence, which leads to lower scores! Instead, Miller Test Prep has worked specifically with tutors. Why tutors you ask? Tutors specialize in helping students comprehend information that has already been presented by a teacher. That means they see time and again what students struggle with and what actually works to help them. They specialize in helping students who have previously failed, to succeed. We compiled their decades of experience helping students just like you into this study guide, so you pass the first time!
