

Criminology Exam Papers 2011

Ideal for undergraduate or graduate-level courses, *Research Methods for Criminology and Criminal Justice, Fourth Edition* introduces students to the functions of criminal justice research including basic ideas behind scientific theory, research language, and research design.

Introduction to Criminology, Why Do They Do It?, Second Edition, by Pamela J. Schram and Stephen G. Tibbetts, offers a contemporary and integrated discussion of the key theories that help us understand crime in the 21st century. With a focus on why offenders commit crimes, this bestseller skillfully engages students with real-world cases and examples to help students explore the fundamentals of criminology. To better align with how instructors actually teach this course, coverage of violent and property crimes has been integrated into the theory chapters, so students can clearly understand the application of theory to criminal behavior. Unlike other introductory criminology textbooks, the Second Edition discusses issues of diversity in each chapter and covers many contemporary topics that are not well represented in other texts, such as feminist criminology, cybercrime, hate crimes, white-collar crime, homeland security, and identity theft. Transnational comparisons regarding crime rates and the methods other countries use to deal with crime make this edition the most universal to date and a perfect companion for those wanting to learn about criminology in context.

Fundamentals of Research in Criminology and Criminal Justice is a concise resource for understanding the multifaceted subject of research methods in the field of criminology and criminal justice. This book uniquely helps to teach research design and techniques within the context of substantive criminology and criminal justice issues of interest

to students and the field. This is a briefer version of Ronet Bachman and Russell K Schutt's successful *The Practice of Research in Criminology and Criminal Justice*, written in a less formal style, with more concise examples drawn from everyday experience, and less coverage of complex or more rigorous methods. It is ideal for students who need to understand how criminal justice research is done and appreciate the results, but may never do research themselves in the professional lives.

"This is a great text. It is comprehensive and easy to understand. The illustrations will enable students to learn and remember the information. This is the first research methods text I have read that is actually fun to read." —Tina L.

Freiburger, University of Wisconsin-Milwaukee *Research Methods in Criminal Justice and Criminology* connects key concepts to real field research and practices using contemporary examples and recurring case studies that demonstrate how concepts relate to students' lives. Authors Callie M. Rennison and Timothy C. Hart introduce practical research strategies used in criminal justice to show students how a research question can become a policy that changes or influences criminal justice practices. The book's student-driven approach addresses both the why and the how as it covers the research process and focuses on the practical application of data collection and analysis. By demonstrating the variety of ways research can be used and reinforcing the need to discern quality research, the book prepares students to become critical consumers and ethical producers of research.

Criminology is in a period of much theoretical ferment. Older theories have been revitalized, and newer theories have been set forth. The very richness of our thinking about crime, however, leads to questions about the relative merits of these competing paradigms. Accordingly, in this volume advocates of prominent theories are asked to "take stock" of their perspectives. Their challenge is to assess the empirical status of their theory and to map out future directions for theoretical development. The volume begins with an assessment of three perspectives that have long been at the core of criminology: social learning theory, control theory, and strain theory. Drawing on these traditions, two major contemporary macro-level theories of crime have emerged and are here reviewed: institutional-anomie theory and collective efficacy theory. Critical criminology has yielded diverse contributions discussed in essays on feminist theories, radical criminology, peacemaking criminology, and the effects of racial segregation. The volume includes chapters examining Moffitt's insights on life-course persistent/adolescent-limited anti-social behavior and Sampson and Laub's life-course theory of crime. In addition, David Farrington provides a comprehensive assessment of the adequacy of the leading developmental and life-course theories of crime. Finally, Taking Stock presents essays that review the status of

perspectives that have direct implications for the use of criminological knowledge to control crime. Taken together, these chapters provide a comprehensive update of the field's leading theories of crime. The volume will be of interest to criminological scholars and will be ideal for classroom use in courses reviewing contemporary theories of criminal behavior.

The essays contained in this book capture the stories behind the invention of criminology's major theoretical perspectives and preserves information from the generation that defined the field for the past decades that otherwise would have been lost. This history shows criminology to be a human enterprise. Its ideas were not driven primarily by data, nor were the theories invented solely as part of the scientific process. To the contrary, American criminology's great theories most often preceded the collection of data; they guided and produced empirical inquiry, not vice versa. This volume demonstrates that humanity is what makes theory possible in that diverse experiences allow individual scholars to see the world differently, and thus shape theoretical paradigms based on their own unique life stories.

Peterson's Graduate Programs in Physical Education, Sports, and Recreation contains a wealth of information on colleges and universities that offer graduate work in Leisure Studies & Recreation, Physical Education & Kinesiology, and Sports Management. Institutions listed include those in the United States, Canada, and abroad that are accredited by U.S. accrediting agencies. Up-to-date data, collected through Peterson's Annual Survey of Graduate and Professional Institutions, provides valuable information on degree offerings, professional accreditation, jointly offered degrees, part-time and evening/weekend programs, postbaccalaureate distance degrees, faculty, students, degree requirements, entrance requirements, expenses, financial support, faculty

research, and unit head and application contact information. Readers will find helpful links to in-depth descriptions that offer additional detailed information about a specific program or department, faculty members and their research, and much more. In addition, there are valuable articles on financial assistance, the graduate admissions process, advice for international and minority students, and facts about accreditation, with a current list of accrediting agencies. This dynamic new Interactive eBook version of Pamela J. Schram and Stephen G. Tibbetts' bestselling text, *Introduction to Criminology: Why Do They Do It?* is ideal for students in online and traditional courses who prefer a more contemporary, multimedia-integrated presentation for learning. It provides students with integrated links to engaging video and audio as well as access to complete academic and professional articles, all from the same pages found in the printed text. Students will also have immediate access to study tools such as highlighting, bookmarking, note-taking, and more! We invite you to explore this chapter from the text: Chapter 12. background, and profiles that enrich key concepts in the text. *Note: the access code for this interactive eBook will be shipped to the address you indicate when you place your order.

Peterson's Graduate Programs in Engineering & Applied Sciences contains a wealth of information on colleges and universities that offer graduate degrees in the fields of Aerospace/Aeronautical Engineering; Agricultural Engineering & Bioengineering; Architectural Engineering, Biomedical Engineering & Biotechnology; Chemical Engineering; Civil & Environmental Engineering; Computer Science & Information Technology; Electrical & Computer Engineering; Energy & Power engineering; Engineering Design; Engineering Physics; Geological, Mineral/Mining, and Petroleum Engineering; Industrial Engineering; Management of Engineering & Technology; Materials Sciences & Engineering; Mechanical Engineering & Mechanics; Ocean Engineering; Paper & Textile Engineering; and Telecommunications. Up-to-date data, collected through Peterson's Annual Survey of Graduate and Professional Institutions, provides valuable information on degree offerings, professional accreditation, jointly offered degrees, part-time and evening/weekend programs, postbaccalaureate distance degrees, faculty, students, degree requirements, entrance requirements, expenses, financial support, faculty research, and unit head and

application contact information. As an added bonus, readers will find a helpful "See Close-Up" link to in-depth program descriptions written by some of these institutions. These Close-Ups offer detailed information about the specific program or department, faculty members and their research, and links to the program Web site. In addition, there are valuable articles on financial assistance and support at the graduate level and the graduate admissions process, with special advice for international and minority students. Another article discusses important facts about accreditation and provides a current list of accrediting agencies. We offer these texts bundled together at a discount for your students! Stephen G. Tibbetts, *Criminological Theory: The Essentials* Second Edition *Criminological Theory: The Essentials*, Second Edition is a brief, yet comprehensive overview of history's most renowned criminologists and their theories. Renowned author, Stephen G. Tibbetts, combines policy implications brought about by theoretical perspectives that have developed from recent critical work with practical applications to compel the reader to apply theories to the contemporary social milieu. The Second Edition includes new citations and references regarding empirical studies that have examined the validity of various theoretical models and propositions in recent years. The text is ideal for introductory criminology

courses covering criminological theory. Carter Hay, *Self-Control and Crime Over the Life Course* What exactly is self-control, and what life outcomes does it affect? What causes a person to have high or low self-control to begin with? What effect does self-control have on crime and other harmful behavior Using a clear, conversational writing style, *Self-Control and Crime Over the Life Course* answers critical questions about self-control and its importance for understanding criminal behavior. Authors Carter Hay and Ryan Meldrum use intuitive examples to draw attention to the close connection between self-control and the behavioral choices people make, especially in reference to criminal, deviant, and harmful behaviors that often carry short-term benefits but long-term costs. The text builds an overall theoretical perspective that conveys the multi-disciplinary nature of modern-day self-control research. Moreover, far from emphasizing only theoretical issues, the authors place public policy at the forefront, using self-control research to inform policy efforts that reduce the societal costs of low self-control and the behaviors it enables. Research Paper from the year 2011 in the subject Law - Criminal process, Criminology, Law Enforcement, grade: A+, The University of the West Indies, St. Augustine (Behavioural Sciences),

course: Crime, Police and Society, language: English, abstract: This research paper seeks to examine the implications of homicides in Trinidad and Tobago. The paper is divided into three distinct sections; however, the author first makes reference to the current crime situation that has become an important and noteworthy topic not only for past and present governments but also the business sector and other key stakeholders. The first main section alludes to the implications of homicides as it relates to Trinidad and Tobago. These implications have been categorized as will be seen. The second section provides a critical analysis of the death penalty as a means of deterring murder while the third and final section explores some alternatives to the death penalty making specific reference to the idiosyncrasies that exist in the Trinidad and Tobago context.

This ebook is a selective guide designed to help scholars and students of criminology find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books, chapters, and journal articles to online archives, electronic data sets, and blogs. Written by a leading international authority on the subject, the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the

cited sources are interrelated related. A reader will discover, for instance, the most reliable introductions and overviews to the topic, and the most important publications on various areas of scholarly interest within this topic. In criminology, as in other disciplines, researchers at all levels are drowning in potentially useful scholarly information, and this guide has been created as a tool for cutting through that material to find the exact source you need. This ebook is a static version of an article from Oxford Bibliographies Online: Criminology, a dynamic, continuously updated, online resource designed to provide authoritative guidance through scholarship and other materials relevant to the study and practice of criminology. Oxford Bibliographies Online covers most subject disciplines within the social science and humanities, for more information visit www.aboutobo.com.

This wide reaching text explores the origins and development of criminality from birth to adulthood.

Criminological Theory: The Essentials, Second Edition is a brief, yet comprehensive overview of history's most renowned criminologists and their theories. Renowned author, Stephen G. Tibbetts,

combines policy implications brought about by theoretical perspectives that have developed from recent critical work with practical applications to compel the reader to apply theories to the contemporary social milieu. The Second Edition includes new citations and references regarding empirical studies that have examined the validity of various theoretical models and propositions in recent years. The text is ideal for introductory criminology courses covering criminological theory. Kevin M. Beaver, *The Nurture Versus Biosocial Debate in Criminology: On the Origins of Criminal Behavior and Criminality* The Nurture Versus Biosocial Debate in Criminology: On the Origins of Criminal Behavior and Criminality takes a contemporary approach to address the sociological and the biological positions of human behavior by allowing preeminent scholars in criminology to speak to the effects of each on a range of topics. The text aims to facilitate an open and honest debate between the more traditional criminologists who focus primarily on environmental factors and contemporary biosocial criminologists who examine the interplay between biology/genetics and environmental factors. Please contact your Sales Representative for more information.

Travis Hirschi is one of the most cited criminologists of the twentieth century. His work has provoked controversy and heated debates about the causes of crime, proper research methods, and the most

effective policies to prevent and control crime. Known as a spokesperson for social control theory, Hirschi always ties his ideas to the mode of investigation and the mode of investigation to substantive concerns. Theoretical contributions and research methodology have been twin driving forces throughout his career. This book contains representative selections of Hirschi's work over many years. It is remarkable how little is known about Hirschi's life and career. John H. Laub's introduction combines a discerning account of Hirschi's life and work, accompanied by an interview with the author. Laub's volume covers various topics: methodological issues; principles of causal analysis; criteria of causality; longitudinal research on crime; rules and the study of deviant behavior; correlations between crime and delinquency; control theory of delinquency; intelligence, causes, and prevention of delinquency; family structure and crime; theory of crime; crime and criminality; deviance; white collar crime; and juvenile justice systems. Now available in paperback, this is an invaluable text for courses in criminology, as well as a valuable addition to professional libraries.

Introduction to Criminology: Why Do They Do It? offers a contemporary and integrated discussion of key criminological theories to help students understand crime in the 21st century. Focusing on why offenders commit crimes, authors Pamela J. Schram and Stephen G. Tibbetts apply established theories to real-life examples to explain criminal behavior. Coverage of violent and property crimes is included throughout theory chapters so that students can clearly understand the application of theory to criminal behavior.

Why do individuals exposed to the same environment turn out so differently, with some engaging in crime and others abiding by societal rules and norms? Why are males involved in violent crime more often than females? And why do the precursors of serious pathological behavior typically emerge in childhood? *Criminals in the Making: Criminality Across the Life Course, Second Edition*, by John Paul Wright, Stephen G. Tibbetts, and Leah E. Daigle, addresses key questions surrounding criminal propensity by discussing studies of the life-course perspective—criminological research that links biological factors associated with criminality with the social and environmental agents thought to cause, facilitate, or otherwise influence a tendency towards criminal activity. The book provides comprehensive, interdisciplinary coverage of the current thinking in

the field about criminal behavior over the course of a lifetime. Additionally, it highlights interventions proven effective and illustrates how the life-course perspective has contributed to a greater understanding of the causes of crime.

Joined by co-editors Theresa Severance and Alan Bruce, Joseph Jacoby continues to provide classic scholarly works on criminology in their original form, allowing readers to share in the discovery and unfolding of powerful ideas in the authors' own words. These writings from over the past two centuries represent the most influential approaches to, explanations of, and social responses to crime. The Fourth Edition offers seventy-five selections, thirteen of which are new to this edition. Included in this comprehensive volume are both authors whose work is widely recognized as significant in itself, and authors whose work substantially influenced the thinking of subsequent scholars. This inclusive collection is organized into three sections, each of which opens with a brief editorial introduction to provide context. Section I, *The Classic Descriptions of Crime*, contains

writings whose primary contribution is descriptive, although they also offer important theoretical insights. These works illuminate with great clarity certain aspects of the phenomenon of crime. Section II, Theories of Causation of Crime, covers over two centuries of theorizing about the causes of crime. Most of these writings are specifically about crime, although some emphasize larger social issues that have direct implications for criminology. Section III, The Social Response to Crime, includes writings that variously describe, theorize about, or advocate specific social responses to crime. Some of the best works on the criminal justice process as it operates internally and as it functions in its social setting are included here

The Handbook of Asian Criminology aims to be a key reference for international scholars with an interest in the broad theme of international criminology in general, and the Asian region in particular. Contextualization is a key theme in this book. The role of context is often underemphasized in international criminology, so the Handbook of Asian Criminology's premise that crime and the responses to it are best understood as deeply embedded in the cultural specificity of the environment which produces them will play a key role throughout the work. Attention will be given to country- and region specific attitudes towards crime and punishment.

This book provides the best of both worlds-- authored text sections with carefully selected accompanying readings covering criminological theory from past to present and beyond. The articles, from leading journals in criminology and criminal justice, reflect both classic studies and state-of-the-art research. Key Features " Begins with an introductory chapter that presents a succinct overview of criminological theory, and briefly describes the organization and content of the book " Features 'How to Read a Research Article'--a

perfect introduction to understanding how real-world research is organized and delivered in the journal literature " Includes a 'mini-chapter' for each Section, with figures and tables that present basic concepts and provide a background for the Readings that follow " Provides key terms, web resources, and thought-provoking discussion questions for each Section, along with questions for each Reading to help students develop their critical thinking skills " Instructor Resources on CD include a test bank, PowerPoint slides for each section, classroom activities, and more. " A Student study site provides additional articles, self-study quizzes, e-flashcards, and more.

Criminological Theory: Past to Present--Essential Readings is a comprehensive reader that exposes students to both classic and contemporary theories of crime. Editors Francis T. Cullen, Robert Agnew, and Pamela Wilcox provide accessible yet detailed introductions, preparing students for what they are about to read and placing each selection in context.

Visit the SAGE Study Skills website for tips, quizzes and videos on study success!

Criminological Theory: The Essentials, Third Edition offers you a brief yet comprehensive overview of classic and contemporary criminologists and their theories. Putting criminological theory in context, acclaimed author Stephen G. Tibbetts examines

policy implications brought about by theoretical perspectives to demonstrate to you the practical application of theories to contemporary social problems. New to the Third Edition: A new chapter dedicated entirely to feminist perspectives (Chapter 10) introduces you to feminist models of crime while underscoring the importance of examining the related research. Case studies that examine offender motives are now included to help you apply the theories discussed to interesting and memorable examples. Policy is now integrated into each section to allow you to see the practical policy implications of each theory. Coverage of critical topics has been expanded throughout to introduce you to important issues, such as the influence of employment on criminal behavior, the success of school programs in reducing delinquent behavior, and federal sentencing guidelines in regard to crack versus powder cocaine. Statistics, graphs, and tables have all been updated to demonstrate the most recent trends in criminology.

Over the last two decades, there has been increased interest in the distribution of crime and other antisocial behavior at lower levels of geography. The focus on micro geography and its contribution to the understanding and prevention of crime has been called the 'criminology of place'. It pushes scholars to examine small geographic areas within cities, often as small as addresses or street segments, for

their contribution to crime. Here, the authors describe what is known about crime and place, providing the most up-to-date and comprehensive review available. *Place Matters* shows that the study of criminology of place should be a central focus of criminology in the twenty-first century. It creates a tremendous opportunity for advancing our understanding of crime, and for addressing it. The book brings together eighteen top scholars in criminology and place to provide comprehensive research expanding across different themes. Bringing together a variety of diverse international contributors from the Convict Criminology community, *Convict Criminology for the Future* surveys the historical roots of Convict Criminology, the current challenges experienced by formerly incarcerated people, and future directions for the field. Over the past two decades research has been conducted in the field of Convict Criminology, recognizing that the convict voice has long been ignored or marginalized in academia, criminal justice practice, and public policy debates. This edited volume provides a much-needed update on the state of the field and how it has evolved. Seven primary themes are examined. Historical underpinnings of Convict Criminology Adaptations to prison life Longstanding challenges for prisoners and formerly incarcerated people Post-secondary education behind bars The expansion of Convict Criminology

beyond North America Conducting scholarly research in carceral settings Future directions in Convict Criminology A global line up of contributors, from the fields of Criminology, Criminal Justice, Law, Political Science, and Sociology, comprehensively tackle each topic, reviewing causes, reactions, and solutions to challenges. The volume also includes a chronology of significant events in the history of Convict Criminology. Integrating current events with research using a variety of methods in scholarly analysis, Convict Criminology for the Future is invaluable reading for students and scholars of corrections, criminology, criminal justice, law, and sociology.

National eligibility test is conducted twice in a year to determine eligibility for lectureship and for awarding JRF Scholarship. The NET exam is very crucial in determining to ensure minimum standards in the teaching profession (Indian university, colleges and Institutions) and in research work. This book promises last ten year MCQ (NET) on the subject of CRIMINOLOGY with a detailed explanation.
