

Deutz Engine Parts Catalog

Cranes on trains? Goats on boats? Dragons on wagons? Join in the fun with a host of colourful animals as they ride, soar, whizz and zoom on a whole range of exciting vehicles ... from tigers on gliders to ducks on trucks. Add to that a text to read aloud to the tune of 'The Wheels on the Bus' and ... What a combination! The whales on the bus ride round the town, Round the town, round the town. The whales on the bus ride round the town, All day long! Jam-packed with things on wheels and a whole lot of crazy creatures, this zany adventure provides endless fun for fans of planes, trains, cars, buses and animals of all kinds! Little ones will love singing along to the tune of a favourite nursery rhyme, with bold, colourful illustrations by the instantly recognisable Nick Sharratt and text by the talented Katrina Charman.

By the end of the twentieth century there were some half-million tractors on British farms - more machines than people to drive them. Brian Bell's encyclopaedic book traces the evolution of the farm tractor from the days of starting handle and pan seat to current 4-wheel drive machines with air-conditioned cabs and computer management systems. He deals in particular with developments of the classic period from the 1950s to the 1990s. The book is arranged alphabetically by manufacturer from Allis-Chalmers to Zetor, one hundred marques in total. These are all machines to be found on British farms irrespective of their country of manufacture. Brian runs concisely through the

histories of the companies and their major models, illustrated with a wealth of photographs and extracts from sales literature. He adds some special features on items such as hydraulic systems and cold-starting aids. He includes a glossary and full index. This book replaces the author's earlier, successful, *Fifty Years of Farm Tractors*. Many of the photographs are new and the text has been brought up to date to include developments of the early twenty-first century.

Deutz MagSpare Parts Catalogue, 298 1747 GF 0140-99, F1L 210 D.

Franklin, Jack, Marla, Thadius, and Caitlin... this unlikely group of assorted misfits are the Cemeterians, a group that will take on any job - no, really, we mean any bloody job (money's a bit tight right now)! Trudge through disgusting sewers to battle manatee-massacring mermaids and soggy cultists, creep through creepy, fog-littered cemeteries straight out of an ancient Hammer Film soundstage, confront undead lecherous lodgers and other assorted beasties, creepies, and ghoulies. It all comes down to whether an adolescent giant Automaton, a truly mad, Mad Scientist, a surly Necromancer, a Banshee's granddaughter, and a reluctant furry monster straight from under your little sister's bed can manage not to kill each other - or, at least, quit fighting over the tele-privilege-schedule long enough to get the job done! Not likely.

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.
