This enlightening study examines the relationship of the early Christians to the classical tradition. Based on the work of the Christian thinkers, Justine, Clement of Alexandria, and Origen, and existing pagan criticism of the Church, the book illustrates how rejection of the classical tradition combined with profound acceptance of its humanism were synthesized by the early Church.

Emilio Sereni's classic work is now available in an English language edition. History of the Italian Agricultural Landscape is a synthesis of the agricultural history of Italy in its economic, social, and ecological context, from antiquity to the mid-twentieth century. From his perspective in the Italian tradition of cultural Marxism, Sereni guides the reader through the millennial changes that have affected the agriculture and ecology of the regions of Italy, as well as through the successes and failures of farmers and technicians in antiquity, the middle ages, the Renaissance, and the Industrial Revolution. In this sweeping historical survey, he describes attempts by successive generations to adapt Italy's natural environment for the purposes of agriculture and to respond to its changing ecological problems. History of the Italian Agricultural Landscape first appeared in 1961. At the time of its publication it was a pathbreaking work, parallel in its importance for Italy to Marc Bloc's masterwork of 1931, The Original Characteristics of French Rural History. Sereni invented the concept of the historical "agricultural landscape": an interdisciplinary characterization of rural life involving economic and social history, linguistics, archeology, art history, and ecological studies. Originally published in 1997. New York Times–bestselling author: In 19th-century Spain, the son of a vineyard owner builds a life for himself, but a dangerous plot threatens it all . . . Josep Alvarez is a young man in the tiny grape-growing village of Santa Eulàlia, in northern Spain, where his father grows black grapes that are turned into cheap vinegar. Joseph loves the agricultural life, but he is the second son, and his father's vineyard will be inherited by his brother Donat, the firstborn. Josep needs to keep his hands in the soil. He yearns for a job growing grapes and for an opportunity to marry Teresa Gallego. In Madrid, an assassination plot, conceived against the political leader of Spain by men of wealth and power, creates a storm of

intrigue that sucks into its vortex a group of innocent young farm workers in Santa Eulália. How Josep's life is changed drastically by these events, and how, ironically, they gradually turn him into an inspired vintner with an evolving vision of life, is the fascinating story of *The Winemaker*.

Argues that affirming the irreducible differences between men and women can lead to more transformative politics than the struggle for abstract equality between the sexes. In *The Symbolic Order of the Mother* Luisa Muraro identifies the bond between mother and child as ontologically fundamental to the development of culture and politics, and therefore as key to achieving truly emancipatory political change. Both corporeal development and language acquisition, which are the sources of all thinking, begin in this relationship. However, Western civilization has been defined by men, and Muraro recalls the admiration and envy she felt for the great philosophers as she strove to become one herself, as well as the desire for independence that opposed her to her mother. This conflict between philosophy and culture on the one hand and the relationship with the mother on the other constitutes the root of patriarchy's symbolic disorder, which blocks women's (and men's) access to genuine freedom. Muraro appeals to the feminist practice of gratitude to the mother and the recognition of her authority as a model of unconditional nurture and support that must be restored. This, she argues, is the symbolic order of the mother that must overcome the disorder of patriarchy. The mediating power of the mother tongue constitutes a symbolic order that comes before all others, for both women and men.

Introducing readers to the study of law, media and popular culture, this text, using three original case studies, re-examines the assumptions underpinning existing research and suggests alternatives. Arguing that the study of law, media and popular culture should be embedded in the sociology of everyday life, the author focuses on four specific

topics, in which there is scope for further development. These are the facts that: the current literature in this field predominantly focuses on crime, neglecting the way the media portrays less spectacular, more run-of-the-mill legal topics fiction, primarily, has captured scholars' attention, with remarkably less being paid to representations of law, other than crime, in factual media textual analysis continues to be the preferred method in the study of law and the media the literature is dominated by a fear of corrosive media effects, while the potential of the media and popular culture to improve public legal knowledge, facilitate access to justice and promote legal change remains largely undocumented. Exploring the often uneasy relationship between law and popular culture from specific socio-legal perspectives, including systems theory, semiotics of law and legal pluralism, this book is an essential read for those studying and researching in this area.

On June 23rd, 1950, Pavese, Italy's greatest modern writer received the coveted Strega Award for his novel *Among Women Only*. On August 26th, in a small hotel in his home town of Turin, he took his own life. Shortly before his death, he methodically destroyed all his private papers. His diary is all that remains and for this the contemporary reader can be grateful. Contemporary speculation attributed this tragedy to either an unhappy love affair with the American film star Constance Dawling or his growing disillusionment with the Italian Communist Party. His Diaries, however, reveal a man whose art was his only means of repressing the specter of suicide which had haunted him since childhood: an obsession that finally overwhelmed him. As John Taylor notes, he possessed something much more precious than a political theory: a natural sensitivity to the plight and dignity of common people, be they bums, priests, grape-pickers, gas station attendants, office workers, or anonymous girls picked up on the street (though to women, the author could--as he admitted--be as misogynous as he was affectionate). Bitter and incisive, *This Business of Living*, is both moving and painful to read and stands with James Joyce's *Letters* and Andre Gide's *Journals* as one of the great literary testaments of the twentieth century.

Music is rooted in the heart of Western culture. The absence of music from the usual publications of medieval history and history of art of the Middle Ages is understandable, considering the rarity of sources. And yet, throughout the last decades, an intense activity of historico-musicological research has been carried out internationally by a select group of specialized scholars. The ambitious goal of this work is to set medieval music within its historical and cultural context and to provide readers interested in different disciplines with an overall picture of music in the Middle Ages; multi-faceted, enjoyable, yet scientifically rigorous. To achieve this goal, the most prominent scholars of medieval musicology were

invited to participate, along with archaeologists, experts of acoustics and architecture, historians and philosophers of medieval thought. The volume offers exceptional iconography and several maps, to accompany the reader in a fascinating journey through a network of places, cultural influences, rituals and themes.

First published in 1955-63, Sir John Pope-Hennessy's classic Introduction to Italian Sculpture still stands as the definitive introduction to the subject. A triumph of clear organization, sustained critical scholarship and certain aesthetic judgement, its three volumes bring order to a huge mass of material, and present a magisterial survey of one of the most creative phases in Western art. These books have long been indispensable for scholars, students, curators, collectors and dealers. For the fourth edition of this great work, the text has been revised and updated, and new notes and bibliographies have been added. The design has been dramatically transformed, with all the illustrations now appearing in a single sequence integrated with the narrative text. Many new photographs have been obtained, and duotone printing has been used to achieve the highest possible quality of reproduction. This classic work is now also reissued in a paperback edition, at a price that will make it available to students and a wider public.

"Intentions By Oscar Wilde was published in 1891 when Wilde was at the height of his form, these brilliant essays on art, literature, criticism, and society display the flamboyant poseur's famous wit and wide learning. A leading spokesman for the English Aesthetic movement, Wilde promoted art for art's sake against critics who argued that art must serve a moral purpose. On every page of this collection the gifted literary stylist admirably demonstrates not only that the characteristics of art are "distinction, charm, beauty, and imaginative power, but also that criticism itself can be raised to an art form possessing these very qualities. In the opening essay, Wilde laments the decay of Lying as an art, a science, and a social pleasure. He takes to task modern literary realists like Henry James and Emile Zola for their "monstrous worship of facts" and stifling of the imagination. What makes art wonderful, he says, is that it is absolutely indifferent to fact, invents, imagines, dreams, and keeps between herself and reality the impenetrable barrier of beautiful style, of decorative or ideal treatment."

Aesthetics deals with art, a human construction, but what one experiences when placed before nature is also an aesthetic feeling - the countryside is a place of reflection like no other. In The Art of the Landscape, Raffaele Milani interprets natural landscapes as an aesthetic category. Drawing from philosophical traditions, literature, and art, he calls the reader's attention to a special consciousness, originally established during the pre-Romantic age, that has become a distinctive feature of contemporary spirituality. Focusing on the definition of landscapes in relation to the concepts of nature, environment, territory, and man-made settings such as gardens and cities, Milani examines the origins of the

predilection for natural scenery in the works of landscape painters and in travel literature. He addresses the distinctness of the aesthetic experience of landscapes, analyses the role of aesthetic categories, and explores landscape art as a medium of contemplation. What emerges is an original morphology of natural beauty derived from the scrutiny of landscape elements most frequently associated with aesthetic emotion - the colour of water and the sky, earth and stones, fire and volcanic eruptions, ruins and the mountains - an analysis especially relevant given the increasing fragility of our natural environment.

Sixteen church historians here examine Martin Luther in an uncommon way -- not as Reformer or theologian but as pastor. Luther's work as parish pastor commanded much of his time and energy in Wittenberg. After first introducing the pastoral Luther, including his theology of the cross, these chapters discuss Luther's preaching and use of language (including humor), investigate his teaching ministry in depth, especially in light of the catechism, and explore his views on such things as the role of women, the Virgin Mary, and music. The book finally probes Luther's sentiments on monasticism and secular authority. Contributors: Charles P. Arand James M. Estes Eric W. Gritsch Robert Kolb Beth Kreitzer Robin A. Leaver Mickey L. Born in Imperia in 1945, Giuseppe Conte is one of the most important and powerful voices in Italian literature today. A talented and versatile writer, he has published numerous books of poetry, novels, criticism, essays, and plays. He has received major literary prizes (including the Premio Montale) and has translated into Italian the works of Shelley, D.H. Lawrence and Walt Whitman. He has traveled extensively, has visited the United States to present his poetry, and now lives in Imperia, Italy, and in Nice, France. *The Ocean and the Boy*, Conte's first full-length book of poetry, is written in an intensely personal style, fusing myth and everyday reality. In this dual-language edition, the first English translation of a complete poetry book by Conte, the editor-translator, Italian-born poet Laura Stortoni, has included a translator's note,

biographical and bibliographical data, endnotes and an introduction by Italo Calvino.

Since its publication almost forty years ago, *The Interpretation of the Fourth Gospel* has established itself as a classic of biblical scholarship. Regarded as a seminal text in Johannine studies, it provides a comprehensive and authoritative exposition of the major elements and themes contained in this more original and fascinating of ancient documents. The author reconstructs the background and intellectual milieu out of which the Fourth Gospel may be supposed to have taken shape. He then defines as precisely as possible the leading concepts that may be said to have determined the structure and arrangement of the book as we have it. The result is a massive achievement, and no serious student of the New Testament can afford to ignore this study's findings. *The Interpretation of the Fourth Gospel* represents the culmination of a lifetime's reflection on its subject by one of this century's most distinguished New Testament scholars, and will continue to stimulate and provoke generations of readers.

Il volume documenta il lavoro scientifico di un gruppo di studiosi che, nel riflettere sul gusto, privilegiano un approccio ecologico e dimostrano quanto sia fragile la pretesa di ancorare, in modo esclusivo, il concetto al sapore. In aggiunta a questo, il gusto intreccia il sapere e il piacere, dove l'esperienza gustativa si arricchisce di inediti significati che aprono la ricerca e la pratica educativa a promettenti sviluppi. In questo volume "buon gusto" non significa, riduttivamente, gusto buono oppure cattivo. Il riferimento è piuttosto alla "persona di buon gusto". Un soggetto capace di gustare le esperienze di vita nelle numerose declinazioni del concetto: estetica, corporeo-sensoriale, cognitiva. Nel quadro di un progetto identitario che, con riferimento al sé, attraversa conoscenza e cura, coltivazione e sviluppo, educare al (buon) gusto significa rafforzare nei soggetti – bambini, adolescenti, adulti – sia capacità di discernimento nelle decisioni e nelle scelte che guidano i comportamenti di acquisto e di consumo di tutti quei prodotti che veicolano gusto, sia capacità di attribuire originali valenze alle esperienze gustative. Argomenti che interessano un vasto pubblico: ricercatori, studenti e insegnanti, esperti e consumatori, produttori, trasformatori e distributori del gusto.

Leo is an Italian writer in his thirties. Thomas, his German lover, is dead. On a plane to Munich, Thomas's home town, Leo slips into a reverie of their meeting and life in Paris, nights in Thomas's flat in Montmartre and a desperate, drug-induced flight through the forests of northern France that spells the end for Leo and Thomas languid, erotic life together. Leo travels to find anonymity. Structured in three musical movements, *Separate Rooms* is a story of ideal love, broken by absence and separation. When Thomas was alive, he and Leo had separate rooms in order to preserve the urgency of their passion. Now, Leo faces solitude, the impossible striving of memory to recreate life and the hostility of a prejudiced world. *Separate Rooms*, Tondelli's last book, is a powerful novel of the strength of love and the trauma of death.

An important figure in the development of Nietzsche scholarship, Mazzino Montinari (1928-86) dedicated himself to the detailed study of the philosopher's writings. This lifetime of scholarship crystallized in Montinari's work as coeditor of the critical edition of

Nietzsche's collected writings. Reading Nietzsche, now available in English for the first time, is a group of essays that grew out of this monumental work. In Reading Nietzsche Montinari tackles such subjects as the relationship between Nietzsche and Wagner, early drafts of Thus Spoke Zarathustra, and the philosopher's reputation among the Nazis and Marxists of the 1930s and 1940s. He also deals authoritatively with a number of figures who have had an unfortunate influence upon the way Nietzsche has been understood, from the chief Nazi interpreter of Nietzsche, Alfred Bäumler, to the chief Marxist interpreter, Georg Lukàcs, to Nietzsche's sister, Elisabeth.

Both an exploration of character and a reflection on the meaning of history, "Memoirs of Hadrian" has received international acclaim since its first publication in France in 1951. In it, Marguerite Yourcenar reimagines the Emperor Hadrian's arduous boyhood, his triumphs and reversals, and finally, as emperor, his gradual reordering of a war-torn world, writing with the imaginative insight of a great writer of the twentieth century while crafting a prose style as elegant and precise as those of the Latin stylists of Hadrian's own era.

It is a sultry August at the very end of the twentieth century, and Tristano is dying. A hero of the Italian Resistance, Tristano has called a writer to his bedside to listen to his life story, though, really, “you don’t tell a life...you live a life, and while you’re living it, it’s already lost, has slipped away.” Tristano Dies, one of Antonio Tabucchi’s major novels, is a vibrant consideration of love, war, devotion, betrayal, and the instability of the past, of storytelling, and what it means to be a hero.
