In this sequel to his first volume of autobiography *Pride and Perjury*, Aitken starts his story as he is taken down from the courtroom and incarcerated at Her Majesty's Pleasure. How this Old Etonian former Cabinet Minister on Mrs Thatcher's inner circle managed to establish new relationships and lasting friendships with fellow prisoners is fascinating - so too is this account of how religious belief transformed his life. Aitken has lost none of his charm, fluency and determination - and he has found an authentic new life which readers of this entertaining new book will be able to judge for themselves. 'A rich collection of humorous tales of prison life... Aitken seems to have found a new vocation of both a funny writer and a

serious prison reformer.' Tablet

Following the death of her worthy liberal parents, Corlis McCrea moves back into her family's grand Reconstruction mansion in North Carolina, willed to all three siblings. Her timid younger brother has never left home. When her bullying black-sheep older brother moves into "his" house as well, it's war. Each heir wants the house. Yet to buy the other out, two siblings must team against one. Just as in girlhood, Corlis is torn between allying with the decent but fearful youngest and the iconoclastic eldest, who covets his legacy to destroy it. A Perfectly Good Family is a stunning examination of inheritance, literal and psychological: what we take

from our parents, what we discard, and what we are stuck with, like it or not.

This collection brings together some of the most influential sociologists of law to confront the challenges of current transnational constitutionalism. It shows the constitution appearing in a new light: no longer as an essential factor of unity and stabilisation but as a potential defence of pluralism and innovation. The first part of the book is devoted to the analysis of the concept of constitution, highlighting the elements that can contribute from a socio-legal perspective, to clarifying the principle meanings attributed to the constitution. The study goes on to analyse some concrete aspects of the functioning of constitutions in contemporary society. In applying Luhmann's General Systems Theory to a comparative analysis of the concept of constitution, the work contributes to a better understanding of this traditional concept in both its institutionalised and functional aspects. Defining the constitution's contents and functions both at the conceptual level and by taking empirical issues of particular comparative interest into account, this study will be of importance to scholars and students of sociology of law, sociology of politics and comparative public law.

The civil rights movement and immigration reform transformed American politics in the mid-1960s. Demographic diversity and identity politics raised the challenge of *e pluribus unum* anew, and multiculturalism emerged as a new ideological

response to this dilemma. This book uses national public opinion data and public opinion data from Los Angeles to compare ethnic differences in patriotism and ethnic identity and ethnic differences in support for multicultural norms and group-conscious policies. The authors find evidence of strong patriotism among all groups and the classic pattern of assimilation among the new wave of immigrants. They argue that there is a consensus in rejecting harder forms of multiculturalism that insist on group rights but also a widespread acceptance of softer forms that are tolerant of cultural differences and do not challenge norms, such as by insisting on the primacy of English.

Today, there are over 40 million conflict-induced internally displaced persons (IDPs) globally, almost double the number of refugees. Yet, IDPs are protected only by the soft-law Guiding Principles on Internal Displacement at the global level. Instead of a dedicated international organization, IDPs receive protection and assistance only through the UN's cluster approach. Orchard argues that while an international IDP protection regime exists, many aspects of it are informal, with IDP issues bound up in a humanitarian regime complex that divides the mandates of key organizations and even the question of IDP status itself. While the Guiding Principles mark an important step forward, implementation of laws and policies based on them at the domestic level remains haphazard. Action at the international level similarly reflects an all-too-often ad hoc approach to IDP issues. Through an in-

depth examination of IDP efforts at the international level and across the forty states which have adopted IDP laws and policies, Orchard argues that while progress has been made, new and greater monitoring and accountability mechanisms at both the domestic and international levels are critical. This work will be valuable to scholars, students, and practitioners of forced migration, international relations theory, and the Responsibility to Protect doctrine.

Picture a frustrated office worker of twenty-five. One rainy,  
miserable Monday he resolves to grab life with both hands  
and embark on an adventure: the first entirely human-  
powered journey around the world. Although he had never  
been on an expedition of any kind and had no money, Stevie  
and his friend Jason dreamed up a voyage that would take  
them from England to Hawaii by bicycle, inline skates and  
ocean-going pedal boat. For 111 days, they pedalled 7,500  
kilometers across the Atlantic, and then crossed the United  
States to take on the challenge of the Pacific. Pedalling to  
Hawaii is hilarious, entertaining and refreshingly non-heroic,  
packed with thrills and spills as the intrepid and sometimes  
blundering duo make their way around the world. It is also a  
meditative account of a search for simplicity and integrity.  
Now in its seventh edition, 'Digital Marketing' provides

can get the most out of digital media and technology to  
meet their marketing goals.

Follow two abolitionists who fought one of the most

shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno
