A Magic Summer tells of that remarkable season by chronicling the major events as viewed twenty years later. Interviews conducted twenty years after with members of the team—Seaver, Ryan, McGraw, and others—provide immediacy and, with that, fascinating updates and insights. This is a unique record and celebration of a season that Mets fans—and all baseball fans—will not soon forget. This book critically analyzes the European Union's role in Security Sector Reform (SSR), a topical issue with regards to European security. While the literature on SSR has increased significantly in the past decade, too little remain in the way of comparative analyses of SSR case studies that are geared toward theory development. This collection strives to push the SSR literature in that direction. One key question it focuses on is whether the EU pursues a holistic approach vis-à-vis SSR. Another question the book addresses is why and how the EU activities towards SSR in conflict management, peacebuilding and statebuilding have produced a wide variety of outcomes that range from the failure to reform any or all of the sub-set of security sectors (police, justice, military, etc.) to complete and integrated reform. The volume encompasses all relevant cases of SSR in terms of the financial, human, and political resources involved at the EU level. Cases are drawn from the Balkans (Kosovo; Bosnia-Herzegovina), Africa (Democratic Republic of Congo), the Middle East (Palestinian Territories), Post-Soviet Space (Georgia), and Asia (Aceh, Indonesia). The end product is a welcome contribution to the literature, providing both an empirically and theoretically grounded approach to the study of SSR. This book was originally published as a special issue of European Security.

Tracing the origins and evolution of the most enduring dance form of the twentieth century, the author of *The Flash of the Spirit* looks at the diverse influences that led to the creation of the tango and examines the tango as a musical form, philosophy of life, art, and expression of Latin American culture. Reprint.

By shedding light on EULEX - the EU mission to Kosovo – this open access book investigates the EU's peacebuilding activities in that country, in the light of the normative power theory in the post-conflict setting and peacebuilding theory. Ten years after the massive engagement of the EU in the country torn by war, the authors critically assess the effects of the EU projecting its normative power – the enforcement of its standards, 'good' or 'bad' – through the EULEX mission, taking into consideration also the local aspects, so far neglected in this field of research. Inspecting thoroughly the EULEX activities in the police, customs and judiciary sector, the authors reveal that the mission can contribute to a positive change, but only in those cases which do not request a heavy political involvement and broad leverage by other international players (for example in improving standards of work in police and customs). When it comes to the most serious cases of organized crime, corruption and war crimes, EULEX, however, has not been able to address them effectively due to several internal mission's deficiencies and external factors; the perceived ineffectiveness of EULEX among the local population led to the lowering of trust not only in this CSDP mission, but also in the EU in general. This open access book offers a comprehensive assessment of the EULEX mission, based on two Horizon2020 research projects: IECEU - Improving the Effectiveness of Capabilities in EU Conflict Prevention, and KOSNORTH – The European Union and its Normative Power in a Post-conflict Society: A Case Study of Northern Kosovo (Marie Skłodowska-Curie Individual Fellowship). As such it is an invaluable resource for scholars, students and policymakers interested in security questions in South Eastern Europe and EU external action.

Global Tangos: Travels in the Transnational Imaginary argues against the hackneyed rose-in-mouth clichés of Argentine tango, demonstrating how the dance may be used as a way to understand transformations around the world that have taken place as a result of two defining features of globalization: transnationalism and the rise of social media. Global Tangos demonstrates the cultural impact of Argentine tango in the world by assembling an unusual array of cultural narratives created in almost thirty countries, all of which show how tango has mixed and mingled in the global imaginary, sometimes in wildly unexpected forms. Topics include Tango Barbie and Ken, advertising for phone sex, the presence of tango in political upheavals in the Middle East and in animated Japanese children's television programming, gay tango porn, tango orchestras and composers in World War II concentration camps, global tango protests aimed at reclaiming public space, the transformation of Buenos Aires as a result of tango tourism, and the use of tango for palliative care and to treat other ailments. They also include the global development of queer tango theory, activism, and festivals. Global Tangos shows how the rise in social media has heralded a new era of political activism, artistry, solidarity, and engagement in the world, one in which virtual global tango communities have indeed become very "real" social and support networks. The text engages some key concepts from contemporary critics in the fields of tourism studies, geography, dance studies, cultural anthropology, literary studies, transnational studies, television studies, feminism, and queer theory. Global Tangos underscores the interconnectedness of cultural identity, economics, politics, and power in the production, marketing, distribution, and circulation of global images related to tango—and, by extension, Latin America—that travel the world.

Introduces rhythm, melody, form, instruments, music history, and dance using a variety of illustrated folk songs, rhythmic poems, and stories with musical themes. Contemporary security governance often relies on markets and networks to link public agencies to non-governmental actors. This book explores the rise, nature, and future of these new forms of security governance across various domestic, transnational, and international settings. The chapters reveal similarities and differences in the way security governance operates in various policy settings. The contributors argue that the similarities generally arise because policy elites, at various levels of governance, have come to believe that security depends on building resilience and communities through various joined-up arrangements, networks, and partnerships. Differences nonetheless persist because civil servants, street level bureaucrats, voluntary sector actors, and citizens all draw on diverse traditions to interpret, and at times resist, the joined-up security being promoted by these policy elites. This book therefore decentres security governance, showing how all kinds of local traditions influence the way it works in different settings. It pays particular attention to the meanings, cultures, and ideologies by which policy actors encounter, interpret, and evaluate security dilemmas. This book was originally published as a special issue in *Global Crime*. In compiling this landmark sourcebook, Finnish guitarists Hannu Annala and Heiki Matlik consulted more than 70 music texts as well as dozens of composer resumes acquired from the musical information centers of several countries.

During the writing process, which lasted for more than three years, they received additional information from many modern composers, including Leo Brouwer and Reginald Smith Brindle among others. In addition, several internationally renowned performing guitarists provided valuable information; these include Magnus Andersson (Sweden), Remi Boucher (Canada), Margarita Escarpa (Spain), Aleksander Frauchi (Russia) and David Tanenbaum (USA) among others. The authors' aim was to write a well-structured book with separate chapters for each instrument, such as the Renaissance and Baroque guitar, the Renaissance and Baroque lute, the vihuela, etc. This unique structure enables the reader to easily discover which composers wrote for a certain instrument during any given period. In addition to the composers one would expect to find in such a comprehensive listing, the book documents several historical and modern composers for whom little previous information has been available. The book's list of more than 400 guitar and lute concertos dating from the Baroque era to the present day is a totally unprecedented. Short introductions regarding guitar and lute-like instruments as well as their basic histories are provided at the beginning of the book. The authors hope that the Handbook of Guitar and Lute Composers will serve as a practical guide for both amateurs and professionals, encouraging further study of the history of these instruments and expanding the repertoire heard on today's concert stage.

Cinema has been long associated with France, dating back to 1895, when Louis and Auguste Lumi_ere screened their works, the first public viewing of films anywhere. Early silent pioneers Georges MZli_s, Alice Guy BlachZ and others

followed in the footsteps of the Lumi_re brothers and the tradition of important filmmaking continued throughout the 20th century and beyond. In Encyclopedia of French Film Directors, Philippe Rège identifies every French director who has made at least one feature film since 1895. From undisputed masters to obscure one-timers, nearly 3,000 directors are cited here, including at least 200 filmmakers not mentioned in similar books published in France. Each director's entry contains a brief biographical summary, including dates and places of birth and death; information on the individual's education and professional training; and other pertinent details, such as real names (when the filmmaker uses a pseudonym). The entries also provide complete filmographies, including credits for feature films, shorts, documentaries, and television work. Some of the most important names in the history of film can be found in this encyclopedia, from masters of the Golden Age_Jean Renoir and RenZ Clair_to French New Wave artists such as Fran_ois Truffaut and Jean-Luc Godard.

Nine Battles to Stanley is a soldiers account of the ground fighting on South Georgia and the Falklands. What makes this book unique is the fascinating and objective way the author describes the experiences, view points and comparative qualities of both sides to the conflict. Fresh light is shed on the whole campaign even the best known battles at Goose Green (where Col. H. Jones won his VC) and the night attack on Mount Tumbledown.

Regarding the Tango Dance Amalgamation, it includes the original Argentine Tango and its Genre which Musically featured its Bandonean sound, the American Tango, Continental Tango, and the International Tango, among others. This book is the story of Tango.

This volume brings together revised versions of a selection of papers presented at the 2003 International Conference on "Recent Advances in Natural Language Processing". A wide range of topics is covered in the volume: semantics, dialogue, summarization, anaphora resolution, shallow parsing, morphology, part-of-speech tagging, named entity, question answering, word sense disambiguation, information extraction. Various 'state-of-the-art' techniques are explored: finite state processing, machine learning (support vector machines, maximum entropy, decision trees, memory-based learning, inductive logic programming, transformation-based learning, perceptions), latent semantic analysis, constraint programming. The papers address different languages (Arabic, English, German, Slavic languages) and use different linguistic frameworks (HPSG, LFG, constraint-based DCG). This book will be of interest to those who work in computational linguistics, corpus linguistics, human language technology, translation studies, cognitive science, psycholinguistics, artificial intelligence, and informatics.
