

Generazione Sex La Guida Felice Al Sesso Ancora Pi Felice

This book argues that Italy represents a privileged entry point into the comparative analysis of ideologies and experiences of modernity. The book compares how thinkers and politicians belonging to different ideological clusters - Liberalism, Communism, Fascism, Christian Democracy - came to formulate multiple and often antagonistic visions of Italy's road to the modern. By revisiting Italian political history from the late nineteenth century until the present with a focus on transition periods, Italian Modernities explores how competing historical narratives influenced shifting understandings of Italian nationhood, thus foregrounding the active role of memory politics in the formulation of multiple modernities.

Situated at the intersection of animal studies and literary theory, this book explores the remarkable and subtly pervasive web of animal imagery, metaphors, and concepts in the work of the Jewish-Italian writer, chemist, and Holocaust survivor Primo Levi (1919-1987). Relatively unexamined by scholars, the complex and extensive animal imagery Levi employed in his literary works offers new insights into the aesthetical and ethical function of testimony, as well as an original perspective on contemporary debates surrounding human-animal relationships and posthumanism. The three main sections that compose the book mirror Levi's approach to non-human animals and animality: from an unquestionable bio-ethical origin ("Suffering"); through an investigation of the relationships between writing, technology, and animality ("Techne"); to a creative intellectual project in which literary animals both counterbalance the inevitable suffering of all creatures, and suggest a transformative image of interspecific community ("Creation").

Queer Italia gathers essays on Italian literature and film, medieval to modern. The volume's chronological organization reflects its intention to define a queer tradition in Italian culture. While fully cognizant of the theoretical risks inherent in trans-historicizing sexuality, the contributors to this volume share an interest in probing the multi-form dynamics of sexual desires in Italian texts through the centuries. The volume aims not to promote the mistaken notion of a single homosexuality through history. Rather, these essays together upset and undo the equally misguided assumption of an omnipresent heterosexuality through time by uncovering the various, complex workings of desire in texts from all periods. Somewhat paradoxically, a kind of queer canon results. These essays open a much-needed critical space in the Italian tradition wherein fixed definitions of sexual identity collapse. Queer Italia is the first and only work of its kind in Italian criticism. As such, it will be of interest to a wide audience of Italianists, medieval to modern, and queer cultural theorists.

What was the appeal and the tropes of national-patriotic discourse in nineteenth-century Italy? How did Romanticism intersect with nationalist politics? Why did a young man or woman become a patriot, join a nationalist movement and, if necessary, fight and die for the cause? By addressing these and other questions, the innovative essays of this collection provide fresh and topical perspectives on a central period in modern Italian history. Beside confronting the narrative of 'Risorgimento', its gendered tropes, and the actual experiences of men and women, the authors approach neglected areas of investigation on the Risorgimento - from the relationship between religion and the nation to the connections with the issue of empire and the aspirations of other peoples in the Mediterranean region. An important contribution to our understanding of Italian and more

generally European nationalism, this volume also enlightens current discussions about the role of patriotism and the nature of nationalism in present-day Italy.

Who are the censors of foreign literature? What motives influence them as they patrol the boundaries between cultures? Can cuts and changes sometimes save a book? What difference does it make when the text is for children, or designed for schools? These and other questions are explored in this wide-ranging international collection, with copious examples: from Catullus to Quixote, Petrarch to Shakespeare, Wollstonecraft to Waugh, Apuleius to Mansfield, how have migrating writers fared? We see many genres, from Celtic hero-tales to histories, autobiographies, polemics and even popular songs, transformed on their travels by the censor's hand.

The refreshed insights into early-imperial Roman historiography this book offers are linked to a recent discovery. In the spring of 2014, the binders of the archive of Robert Marichal were dusted off by the ERC funded project PLATINUM (ERC-StG 2014 n°636983) in response to Tiziano Dorandi's recollections of a series of unpublished notes on Latin texts on papyrus. Among these was an in-progress edition of the Latin rolls from Herculaneum, together with Marichal's intuition that one of them had to be ascribed to a certain 'Annaeus Seneca'. PLATINUM followed the unpublished intuition by Robert Marichal as one path of investigation in its own research and work. Working on the Latin P.Herc. 1067 led to confirm Marichal's intuitions and to go beyond it: P.Herc. 1067 is the only extant direct witness to Seneca the Elder's *Historiae*. Bringing a new and important chapter of Latin literature arise out of a charred papyrus is significant. The present volume is made up of two complementary sections, each of which contains seven contributions. They are in close dialogue with each other, as looking at the same literary matter from several points of view yields undeniable advantages and represents an innovative and fruitful step in Latin literary criticism. These two sections express the two different but interlinked axes along which the contributions were developed. On one side, the focus is on the starting point of the debate, namely the discovery of the papyrus roll transmitting the *Historiae* of Seneca the Elder and how such a discovery can be integrated with prior knowledge about this historiographical work. On the other side, there is a broader view on early-imperial Roman historiography, to which the new perspectives opened by the rediscovery of Seneca the Elder's *Historiae* greatly contribute.

Bringing together scholars from the Italian and English-speaking worlds, Bosworth and Dogliani's edited book reviews the history of the memory and representation of Fascism after 1945. Ranging in their study from patriotic monuments to sado-masochistic films, the essays here collected ask how and why and when Mussolini's dictatorship mattered after the event, and so provide a fascinating study of the relationship between a traumatic past and the changing present and future.

Slutever is a call-to-arms, a confessional memoir, and a slut manifesto—and it's all thanks to a sex-radical hedonist in a pink PVC mini dress. "Slut" is a great word. It just sounds perfect—so sharp and clear and beautiful. It's one of those satisfying four letter words, like cunt and fuck. Slut also happens to be an anagram for lust, which is one of those divine coincidences that makes you wonder if God actually exists. We're lucky that slut is such a great word, because it's safe to say that almost every woman will be called a slut at least once in her lifetime. Despite a slowly shifting sexual double standard, it's still taboo to be a woman who's openly sexual—let alone one who sleeps around. Now Vogue columnist Karley Sciortino is on a mission to reclaim the word "slut" to represent a person who seeks out visceral experiences through sex, and who isn't ashamed about it. Sluts are special. Sluts are radical. And sluts are skilled at time management, because they can handle multiple partners on rotation, plus their jobs and their blogs and their beauty routines. Not everyone is qualified for this coveted position. *Slutever* is a thoughtful, first-person account of a modern woman, navigating sex, love, casual hookups, open relationships,, bisexuality, BDSM, breakups, sex work, sex parties, and the power of sexual agency, as told from the front lines.

Ethics, Politics and Justice in Dante presents new research by international scholars on the themes of ethics, politics and justice in the works of Dante Alighieri, including chapters on Dante's modern 'afterlife'. Together the chapters explore how Dante's writings engage with the contemporary culture of medieval Florence and Italy, and how and why his political and moral thought still speaks compellingly to modern readers. The collection's contributors range across different disciplines and scholarly traditions – history, philology, classical reception, philosophy, theology – to scrutinise Dante's *Divine Comedy* and his other works in Italian and Latin, offering a multi-faceted approach to the evolution of Dante's political, ethical and legal thought throughout his writing career. Certain chapters focus on his early philosophical *Convivio* and on the accomplished Latin *Eclogues* of his final years, while others tackle knotty themes relating to judgement, justice, rhetoric and literary ethics in his *Divine Comedy*, from hell to paradise. The closing chapters discuss different modalities of the public reception and use of Dante's work in both Italy and Britain, bringing the volume's emphasis on morality, political philosophy, and social justice into the modern age of the nineteenth, twentieth, and twenty-first centuries.

The author of *The Mental Load* returns with more "visual essays which are transformative agents of change." After the success of *The Mental Load*, Emma continues in her new book to tangle

with issues pertinent to women's experiences, from consent to the "power of love," from the care and attentiveness that women place on others' wellbeing and social cohesion, and how it constitutes another burden on women, to contraception, to the true nature of gallantry, from the culture of rape to diets, from safety in public spaces to retirement, along with social issues such as police violence, women's rights, and green capitalism. And, once more, she hits the mark.

This open access book presents theoretical and practical research relating to the vast, publicly financed program for the construction of new schools and the reorganization of existing educational buildings in Italy. This transformative process aims to give old buildings a fresh identity, to ensure that facilities are compliant with the new educational and teaching models, and to improve both energy efficiency and structural safety with respect to seismic activity. The book is divided into three sections, the first of which focuses on the social role of the school as a civic building that can serve the needs of the community. Innovations in both design and construction processes are then analyzed, paying special attention to the Building Information Modeling (BIM) strategy as a tool for the integration of different disciplines. The final section is devoted to the built heritage and tools, technologies, and approaches for the upgrading of existing buildings so that they meet the new regulations on building performance. The book will be of interest to all who wish to learn about the latest insights into the challenges posed by, and the opportunities afforded by, a comprehensive school building and renovation program.

This book presents a semiotic study of the re-elaboration of Christian narratives and values in a corpus of Italian novels published after the Second Vatican Council (1960s). It tackles the complex set of ideas expressed by Italian writers about the biblical narration of human origins and traditional religious language and ritual, the perceived clash between the immanent and transcendent nature and role of the Church, and the problematic notion of sanctity emerging from contemporary narrative.

Based on previously unexplored archival documentation, this book offers the first general overview of the history of Italian eugenics, not limited to the decades of Fascist regime, but instead ranging from the beginning of the 1900s to the first half of the 1970s. The Author discusses several fundamental themes of the comparative history of eugenics: the importance of the Latin eugenic model; the relationship between eugenics and fascism; the influence of Catholicism on the eugenic discourse and the complex links between genetics and eugenics. It examines the Liberal pre-fascist period and the post-WW2 transition from fascist and racial eugenics to medical and human genetics. As far as fascist eugenics is concerned, the book provides a refreshing analysis, considering Italian eugenics as the most important case-study in order to define Latin eugenics as an alternative model to its Anglo-American, German and Scandinavian counterparts. Analyses in detail the nature-nurture debate during the State racist campaign in fascist Italy (1938–1943) as a boundary tool in the contraposition between the different institutional, political and ideological currents of fascist racism.

In the last few decades a number of European scholars have paid an increasing amount of attention to children's literature in translation. This book not only provides a synthetic account of what has been achieved in the field, but also makes us fully aware of all the textual, visual and cultural complexities that translating for children entails.... Students of this subject have had problems in finding a book that attempted an up-to-date and comprehensive review of the field. Gillian Lathey's Reader does just this. Dr Piotr Kuhiwczak, Director, Centre for Translation and Comparative Cultural Studies University of Warwick.

Dante Alighieri's Divine Comedy has, despite its enormous popularity and importance, often stymied readers with its multitudinous characters, references, and themes. But until the publication in 2007 of Guy Raffa's guide to the Inferno, students lacked a suitable resource to help them navigate Dante's underworld. With this new guide to the entire Divine Comedy, Raffa provides readers—experts in the Middle Ages and Renaissance, Dante neophytes, and everyone in between—with a map of the entire poem, from the lowest circle of Hell to the highest sphere of Paradise. Based on Raffa's original research and his many years of teaching the poem to undergraduates, The CompleteDanteworlds charts a simultaneously geographical and textual journey, canto by canto, region by region, adhering closely to the path taken by Dante himself through Hell, Purgatory, and Paradise. This invaluable reference also features study questions, illustrations of the realms, and regional summaries. Interpreting Dante's poem and his sources, Raffa fashions detailed entries on each character encountered as well as on many significant historical, religious, and cultural allusions.

The essays on Dante collected in this volume interpret his *Commedia* as the attempt of a renewal of the Christian work of salvation by means of literature. In the view of his author, the sacro poema responds to a historical moment of extreme danger, in which nothing less than the redemption of mankind is at stake. The degradation of the medieval Roman Empire and the rise of an early capitalism in his birth town Florence, entailing a pernicious moral depravation for Dante, are to him nothing else but a variety of symptoms of the backfall of the world into its state prior to its salvation by the incarnation of Christ. Dante presents his journey into the other world as an endeavor to escape these risks. Mobilizing the traditional procedures of literary discourse for this purpose, he aims at writing a text that overcomes the deficiencies of the traditional Book of Revelation that, on its own terms, no longer seems capable of fulfilling his traditional tasks. The immense revaluation of poetry implied in Dante's *Commedia*, thus, contemporarily involves the claim of a substantial weakness of the institutional religious discourse.

Margaret Atwood's *Power Politics* first appeared in 1971, startling its audience with its vital dance of woman and man. It still startles, and is just as iconoclastic as ever. These poems occupy all at once the intimate, the political, and the mythic. Here Atwood makes us realize that we may think our own personal dichotomies are unique, but really they are multiple, universal. Clear, direct, wry, unrelenting - Atwood's poetic powers are honed to perfection in this important early work.

A book about the wonders of sex

Following Adam Gopnik's best-selling *Paris to the Moon*, the adventure continues against the panorama of another storied city. *Autumn, 2000*: the Gopnik family moves back to a New York that seems, at first, safer and shinier than ever. Here are the triumphs and travails of father, mother, son and daughter; and of the teachers, coaches, therapists, adversaries and friends who round out the extended urban family. From *Bluie*, a goldfish fated to meet a Hitchcockian end, to *Charlie Ravioli*, an imaginary playmate who, being a New Yorker, is too busy to play, Gopnik's New York is charmed by the civilization of childhood. It is a fabric of living, which, though rent by the events of 9/11, will reweave itself, reviving a world where Jewish jokes mingle with debates about the problem of consciousness, the price of real estate and the meaning of modern art. By turns elegant and exultant, written with a signature mix of mind and heart, *Through the Children's Gate* is at once a celebration of a newly fragile city and a poignant study of a family trying to find its way, and joy, within it.

The Years of Alienation in Italy offers an interdisciplinary overview of the socio-political, psychological, philosophical, and cultural meanings that the notion of alienation took on in Italy between the 1960s and the 1970s. It addresses alienation as a social condition of estrangement caused by the capitalist system, a pathological state of the mind and an ontological condition of subjectivity. Contributors to the edited volume explore the pervasive influence this multifarious concept had on literature, cinema, architecture, and photography in Italy. The collection also theoretically reassesses the notion of alienation from a novel perspective, employing Italy as a paradigmatic case study in its pioneering role in the revolution of mental health care and factory work during these two decades.
