

Girlfriend Men Women And Drag

A gripping new novel from one of the best-known names in survivalist fiction. Former Marine-turned-author, G. Michael Hopf grabs readers from page one with his breathtaking blend of action, adventure, and political intrigue. The End—the first book in Hopf's New World series—has sold more than 50,000 copies, and word of mouth is quickly building on the series as a whole. In the fourth book, *The Line of Departure*, the United States is on the brink of total anarchy in the wake of a super-EMP attack. Gordon Van Zandt and his family have managed to beat the odds so far, but can they survive once war erupts?

How do you know what you feel? Why are some bad habits so hard to shake? Why do people do what they are told? Are we players or puppets? What is 'society'? These are some of the questions that new undergraduate student Mila begins to ask as she sets out on her journey to find out what sociology is and why it matters. This is a novel of ideas, a textbook in which we follow Mila and her friends as they grapple with sociological ideas and problems. It offers refreshingly clear explanations of the most important aspects of sociology and exposes students to social theory and how it relates to our everyday experiences. Through Mila's thoughts and actions, and the events in her social and family life, students are encouraged to engage critically and personally with sociological ideas, and in the process learn how to interpret, use and reshape them. Bringing the subject to life with humour, storytelling and doodles, this revised second edition of *Dead White Men and Other Important People* remains the ideal introduction to sociological thinking for students at all levels.

During the tumultuous formative years of the Canadian welfare state, many women rose through the ranks of the federal civil service to oversee the massive recruitment of Canadian women to aid in the Second World War. Ironically, it became the task of these same female mandarins to encourage women to return to the household once the war was over. *Pick One Intelligent Girl* reveals the elaborate psychological, economic, and managerial techniques that were used to recruit and train women for wartime military and civilian jobs, and then, at war's end, to move women out of the labour force altogether. Negotiating the fluid boundaries of state, community, industry, and household, and drawing on a wide range of primary sources, Jennifer A. Stephen illustrates how women's relationships to home, work, and nation were profoundly altered during this period. She demonstrates how federal officials enlisted the help of a new generation of 'experts' to entrench a two-tiered training and employment system that would become an enduring feature of the Canadian state. This engaging study not only adds to the debates about the gendered origins of Canada's welfare state, it also makes an important contribution to Canadian social history, labour and gender studies, sociology, and political science.

But no matter what you think of it, there can be no denying that drag is everywhere--*The Adventures of Priscilla, Queen*

of the Desert; Dennis Rodman

In the early 1970s, a number of West German left-wing activists took up arms, believing that revolution would lead to social change. In the years to come, the bombings, shootings, kidnappings and bank robberies of the Red Army Faction (RAF) and Movement 2nd June dominated newspaper headlines and polarized legislative debates. Half of the terrorists declaring war on the West German state were women who understood their violent political actions to be part of their liberation from restrictive gender norms. As women participating in a brand of systematic violence usually associated with masculinity, they presented a cultural paradox, and their political decisions were viewed as gender transgressions by the state, the public, and even the burgeoning women's movement, which considered violence as patriarchal and unfeminist. *Death in the Shape of a Young Girl* questions this separation of political violence from feminist politics and offers a new understanding of left-wing female terrorists' actions as feminist practices that challenged existing gender ideologies. Patricia Melzer draws on archival sources, unpublished letters, and interviews with former activists to paint a fresh and interdisciplinary picture of West Germany's most notorious political group, from feminist responses to sexist media coverage of female terrorists to the gendered nature of their infamous hunger strikes while in prison. Placing the controversial actions of the Red Army Faction into the context of feminist politics, *Death in the Shape of a Young Girl* offers an innovative and engaging cultural history that foregrounds how gender shapes our perception of women's political choices and of any kind of political violence.

Maiden USA: Girl Icons Come of Age explores images of powerful, contradictory pop culture icons of the past decade, which run the gamut from Mean Girls and their Endangered Victims to Superheroines and Ingenue Goddesses. Are girls of the Title IX generation in need of Internet protection, or are they Supergirls evolving beyond gender stereotypes to rescue us all? *Maiden USA* provides an overview of girl trends since the '90s including the emergence of girls' digital media-making and self-representation venues on MySpace, Facebook and YouTube as the newest wave of Girl Power. *Revealing Male Bodies* is the first scholarly collection to directly confront male lived experience. There has been an explosion of work in men's studies, masculinity issues, and male sexuality, in addition to a growing literature exploring female embodiment. Missing from the current literature, however, is a sustained analysis of the phenomenology of male-gendered bodies. *Revealing Male Bodies* addresses this omission by examining how male bodies are physically and experientially constituted by the economic, theoretical, and social practices in which men are immersed. Contributors include Susan Bordo, William Cowling, Terry Goldie, Maurice Hamington, Don Ihde, Greg Johnson, Björn Krondorfer, Alphonso Lingis, Patrick McGann, Paul Mcllvenny, Terrance MacMullan, Jim Perkinson, Steven P. Schacht, Richard Schmitt, Nancy Tuana, Craig L. Wilkins, and John Zuern.

One of the founding fathers of the gay and lesbian liberation movement, Jack Nichols was a warrior for gay equality. Journalist, activist, co-founder of the Mattachine Societies of Washington, DC, and Florida, and editor of the first gay weekly newspaper in the United States, his death in 2005 left a legacy of gay rights, gay pride, and tremendous courage. Jack Nichols, Gay Pioneer: "Have You Heard My Message?" is his story, blending the man, the movement, and the moment into a memory of his work before and after Stonewall, and during the AIDS epidemic.

From its first publication in 1992, *Men, Women, and Chain Saws* has offered a groundbreaking perspective on the creativity and influence of horror cinema since the mid-1970s. Investigating the popularity of the low-budget tradition, Carol Clover looks in particular at slasher, occult, and rape-revenge films. Although such movies have been traditionally understood as offering only sadistic pleasures to their mostly male audiences, Clover demonstrates that they align spectators not with the male tormentor, but with the females tormented—notably the slasher movie's "final girls"—as they endure fear and degradation before rising to save themselves. The lesson was not lost on the mainstream industry, which was soon turning out the formula in well-made thrillers. Including a new preface by the author, this Princeton Classics edition is a definitive work that has found an avid readership from students of film theory to major Hollywood filmmakers.

This important collection contains selections by twenty scholars who have won Woodrow Wilson Fellowships in Women's Studies over the last 30 years, and have helped establish and further women's studies; they write about the changes in their fields, their recent research, and the theoretical underpinnings of their work. A collection that shows how a feminist approach illuminates history, political science, anthropology, sociology, literature, and art. This is an indispensable book for those who want to know what contemporary scholars can tell us about women's lives and notions of gender.

In war films, the portrayal of deep friendships between men is commonplace. Given the sexually anxious nature of the American imagination, such bonds are often interpreted as carrying a homoerotic subtext. In *Armed Forces*, Robert Eberwein argues that an expanded conception of masculinity and sexuality is necessary in order to understand more fully the intricacy of these intense and emotional human relationships. Drawing on a range of examples from silent films such as *What Price Glory* and *Wings* to sound era works like *The Deer Hunter*, *Platoon*, *Three Kings*, and *Pearl Harbor*, he shows how close readings of war films, particularly in relation to their cultural contexts, demonstrate that depictions of heterosexual love, including those in romantic triangles, actually help to define and clarify the nonsexual nature of male love. The book also explores the problematic aspects of masculinity and sexuality when threatened by wounds, as in *The Best Years of Our Lives*, and considers the complex and persistent analogy between weapons and the male body, as in *Full Metal Jacket* and *Saving Private Ryan*.

Over time, male homosexuality and effeminacy have become indelibly associated, sometimes even synonymous. In *Faeries, Bears, and Leathermen*, Peter Hennen contends that this stigma of effeminacy exerts a powerful influence on gay subcultures. Through a comparative ethnographic analysis of three communities, Hennen explores the surprising ways that conventional masculinity is being collectively challenged, subverted, or perpetuated in contemporary gay male culture. Hennen's colorful study focuses on a trio of groups: the Radical Faeries, who parody effeminacy by playfully embracing it, donning prom dresses and glitter; the Bears, who strive to appear like "regular guys" and celebrate their larger, hairier bodies; and the Leathermen, who emulate hypermasculine biker culture, simultaneously paying homage to and undermining notions of manliness. Along with a historical analysis of the association between effeminacy and homosexuality, Hennen examines how this connection affects the groups' sexual practices. Ultimately, he argues, while all three groups adopt innovative approaches to gender issues and sexual pleasure, masculine norms continue to constrain members of each community.

An inside look at the devastating impact of the HIV/AIDS epidemic on poor African American women *Black Women's Risk for HIV: Rough Living* is a valuable look into the structural and behavioral factors in high-risk environments—specifically inner-city neighborhoods like the "Rough" in Atlanta—that place black women in danger of HIV infection. Using black feminism to deconstruct the meaning and significance of race, class, and gender, this text gives a voice to a unique disenfranchised population and legitimizes their lives and experiences. This important ethnographic study focuses not only on the problems associated with the continued rise in HIV rates among African American women, but provides viable solutions to these problems as well. As we move into the 21st century, unsafe heterosexual contact has become a common route of HIV infection and an overwhelming majority of those infected are women. More and more, these are women of color who reside in poor inner-city neighborhoods. *Black Women's Risk for HIV: Rough Living* uses ethnographic methods to define and break down the social, economic, and political factors directly affecting women in high-risk environments. An informative and compassionate rendering of a growing problem, this text offers an inside look at the devastating impact of the HIV/AIDS epidemic on poor African American women and works to link these women's individual circumstances to the larger social context. Some topics *Black Women's Risk for HIV: Rough Living* explores in-depth are: the 20-year change in the Rough—in inner-city Atlanta—from a middle-class African American neighborhood to a high-risk hub of chronic drug users and sellers the history and implementation of the Health Intervention Project (HIP) in the Rough theoretical frameworks that shape the analysis of the impact of this neighborhood as a on the lives of women at high-risk for contracting HIV women's living arrangements in the Rough and their relation to the structural constraints that place them at risk a living-arrangement-based categorization of women in the Rough—street women and house women—and the defining characteristics of each family relations and the personal histories of women as influential factors women's intimate partner relationships and motivation for condom use in those relationships mother-child relations and views of parenting that cycle between "hopeful" and "hopeless" mothering the disappearance of work and welfare from the inner-city community and women's methods of economic survival the meaning and significance of church and religion in the lives of high-risk women four primary methods of reducing HIV risk in these environments and much more! While qualitative health researchers interested in race, class, gender, and behavioral perspectives of HIV risk and protective factors will find *Black Women's Risk for HIV: Rough Living* a valuable resource, so too will public health practitioners, medical sociologists, substance abuse and mental

health researchers, and graduate students focusing on public health, sociology, community psychology, and women's health.

The Advocate is a lesbian, gay, bisexual, transgender (LGBT) monthly newsmagazine. Established in 1967, it is the oldest continuing LGBT publication in the United States.

Brought up as female for fifteen years, Jon can remember feeling different from other girls since he was only five years old. But it will take years of depression, incessant bullying, self-harm and isolation before he discovers why. When Jon eventually confides to his mother that he feels like a boy, Luisa commits herself unconditionally to helping her child. For Jon, the changes that follow are his path to happiness. But for Luisa, this means coming to terms with the enormous loss of her daughter.

A study of the iconographic significance of the Ziegfeld girl in twentieth-century American conceptions of sexuality, race, class, and consumerism.

In examining the links between gender and the media, this volume asks questions involving the relationship between global media flows, gender and modernity in the region.

Named one of "40 Gifts for the Book Lover on Your List," by Good Housekeeping: The definitive book about Joan Rivers' tumultuous, victorious, tragic, hilarious, and fascinating life. Joan Rivers was more than a legendary comedian; she was an icon and a role model to millions, a fearless pioneer who left a legacy of expanded opportunity when she died in 2014. Her life was a dramatic roller coaster of triumphant highs and devastating lows: the suicide of her husband, her feud with Johnny Carson, her estrangement from her daughter, her many plastic surgeries, her ferocious ambition and her massive insecurities. But Rivers' career was also hugely significant in American cultural history, breaking down barriers for her gender and pushing the boundaries of truth-telling for women in public life. A juicy, intimate biography of one of the greatest comedians ever -- a performer whose sixty year career was borne, simply, out of a desire to make people laugh so she could feel loved -- Last Girl Before Freeway delves into the inner workings of a woman who both reflected and redefined the world around her.

For fans of Tina Fey, Amy Poehler, Amy Schumer—and every other "funny woman"—comes a candid feminist comedy manifesto exploring the sisterhood between women's comedy and women's liberation. "I'm not funny at all. What I am is brave." —Lucille Ball From female pop culture powerhouses dominating the entertainment landscape to memoirs from today's most vocal feminist comediennes shooting up the bestseller lists, women in comedy have never been more influential. Marking this cultural shift, The Girl in the Show explores how comedy and feminism have grown hand in hand to give women a stronger voice in the ongoing fight for equality. From I Love Lucy to SNL to today's rising cable and web series stars, Anna Fields's entertaining, thoughtful, and candid retrospective combines personal narratives with the historical, political, and cultural contexts of the feminist movement. With interview subjects such as Abbi Jacobson, Molly Shannon, Mo Collins, and Lizz Winstead—as well as actresses, stand-up comics, writers, producers, and female comedy troupes—Fields shares true stories of wit and heroism from some of our most treasured (and underrepresented) artists. Creating a blueprint for the feminist comedians of tomorrow using lessons of the past, The Girl in the Show encourages readers to revel in—and rebel against—our collective ideas of "women's comedy."

On Making Sense juxtaposes texts produced by black, Latino, and Asian queer writers and artists to understand how knowledge is acquired and produced in contexts of racial and gender oppression. From James Baldwin's 1960s novel Another Country to Margaret Cho's turn-of-the-century stand-up comedy, these works all exhibit a preoccupation with intelligibility, or the labor of making sense of oneself and of making

sense to others. In their efforts to "make sense," these writers and artists argue against merely being accepted by society on society's terms, but articulate a desire to confront epistemic injustice—an injustice that affects people in their capacity as knowers and as communities worthy of being known. The book speaks directly to critical developments in feminist and queer studies, including the growing ambivalence to antirealist theories of identity and knowledge. In so doing, it draws on decolonial and realist theory to offer a new framework to understand queer writers and artists of color as dynamic social theorists.

Edited by two of the field's most prominent researchers, this best-selling reader on men and masculinity contains the most current articles available. Organized around themes that define masculinity, this reader takes a life-course perspective, using the idea that men (as well as women) are "gendered" and that this gendering process is a central experience for men. New to This Edition Twenty-four readings are new to this edition. New topics include: being a male, pro-feminist college instructor; the meaning of being labeled a "fag"; growing up as a "sissy" (gender non-conforming) boy; ritualized homosexual behavior among the "Tarfs," a subculture of the Nacirema; sexual assault in military academies; male cheerleaders; drag queens; fathering in modern American society; images of masculinity in beer and liquor ads; sexuality and sports talk radio; and the culture of aggression and violence among ice hockey players.

This is a remarkable set of linked essays on the African American male experience. Alexander picks a number of settings that highlight Black male interaction, sexuality, and identity—the student-teacher interaction, the black barbershop, drag queen performances, the funeral eulogy. From these he builds a theory of Black masculine identity using auto-ethnography and ideas of performance as his base.

Journalist, party girl, bookworm, artist, muse: by the time she'd hit thirty, Eve Babitz had played all of these roles. Immortalized as the nude beauty facing down Duchamp and as one of Ed Ruscha's Five 1965 Girlfriends, Babitz's first book showed her to be a razor-sharp writer with tales of her own. Eve's Hollywood is an album of vivid snapshots of Southern California's haute bohemians, of outrageously beautiful high-school ingenues and enviably tattooed Chicanas, of rock stars sleeping it off at the Chateau Marmont. And though Babitz's prose might appear careening, she's in control as she takes us on a ride through an LA of perpetual delight, from a joint serving the perfect taquito, to the corner of La Brea and Sunset where we make eye contact with a roller-skating hooker, to the Watts Towers. This "daughter of the wasteland" is here to show us that her city is no wasteland at all but a glowing landscape of swaying fruit trees and blooming bougainvillea, buffeted by earthquakes and the Santa Ana winds—and every bit as seductive as she is.

Audiences for musical theater are predominantly women, yet shows are frequently created and produced by men. Onstage, female characters are depicted as victims or sex objects and lack the complexity of their male counterparts. Offstage, women are under-represented among writers, directors, composers and choreographers. While other areas of the arts rally behind gender equality, musical theater demonstrates a disregard for women and an authentic female voice. If musical theater reflects prevailing

societal attitudes, what does the modern musical tell us about the place of women in contemporary America, the UK and Australia? Are women deliberately kept out of musical theater by men jealously guarding their territory or is the absence of women a result of the modernization of the genre? Based on interviews with successful female performers, writers, directors, choreographers and executives, this book offers a unique female viewpoint on musical theater today.

Out is a fashion, style, celebrity and opinion magazine for the modern gay man.

As the HIV epidemic moves into its fourth decade, it is clear that the global response has failed to adequately address the needs of a wide range of vulnerable populations and groups. Chief among these are gay, bisexual and other men who have sex with men, and transgender persons, who globally face the disproportional burden of HIV infection. This volume rethinks HIV prevention and health promotion for sexual and gender minorities – in both the industrialised societies of the West, as well as in the developing nations of the Global South. The chapters it contains offer a critical analysis of past and present HIV research employing categories to designate gay and other men who have sex with men, transgender persons, and/or other persons and communities with diverse gender and sexual identities. Contributors question the politics of many of the existing classifications and categories in HIV research and argue for a more sophisticated analysis of gender and sexual diversity in order to tackle the social and political barriers that impede the design of successful HIV prevention and health promotion approaches. This book was originally published as a special issue of *Global Public Health*.

Contributions by Grace Elizabeth Hale, Katie Knowles, Ted Ownby, Jonathan Prude, William Sturkey, Susannah Walker, Becca Walton, and Sarah Jones Weicksel Fashion studies have long centered on the art and preservation of finely rendered garments of the upper class, and archival resources used in the study of southern history have gaps and silences. Yet, little study has been given to the approach of clothing as something made, worn, and intimately experienced by enslaved people, incarcerated people, and the poor and working class, and by subcultures perceived as transgressive. The essays in the volume, using clothing as a point of departure, encourage readers to imagine the South's centuries-long engagement with a global economy through garments, with cotton harvested by enslaved or poorly paid workers, milled in distant factories, designed with influence from cosmopolitan tastemakers, and sold back in the South, often by immigrant merchants. Contributors explore such topics as how free and enslaved women with few or no legal rights claimed to own clothing in the mid-1800s, how white women in the Confederacy claimed the making of clothing as a form of patriotism, how imprisoned men and women made and imagined their clothing, and clothing cooperatives in civil rights-era Mississippi. An introduction by editors Ted Ownby and Becca Walton asks how best to begin studying clothing and fashion in southern history, and an afterword by Jonathan Prude asks how best to conclude.

New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and

excitement of the city itself, while celebrating New York as both a place and an idea.

Tyler Perry has made over half a billion dollars through the development of storylines about black women, black communities and black religion. Yet, a text that responds to his efforts from the perspective of these groups does not exist.

The Miss America pageant has been held in Atlantic City for the past hundred years, helping to promote the city as a tourist destination. But just a few streets away, the city hosts a smaller event that, in its own way, is equally vital to the local community: the Miss'd America drag pageant. *Drag Queens and Beauty Queens* presents a vivid ethnography of the Miss'd America pageant and the gay neighborhood from which it emerged in the early 1990s as a moment of campy celebration in the midst of the AIDS crisis. It examines how the pageant strengthened community bonds and activism, as well as how it has changed now that *Rupaul's Drag Race* has brought many of its practices into the cultural mainstream. Comparing the Miss'd America pageant with its glitzy cisgender big sister, anthropologist Laurie Greene discovers how the two pageants have influenced each other in unexpected ways. *Drag Queens and Beauty Queens* deepens our understanding of how femininity is performed at pageants, exploring the various ways that both the Miss'd America and Miss America pageants have negotiated between embracing and critiquing traditional gender roles. Ultimately, it celebrates the rich tradition of drag performance and the community it engenders. Drawing on interviews with leading gay and lesbian activists across Canada, Warner chronicles and analyzes a tumultuous grassroots struggle for sexual liberation, legislated equality, and fundamental social change.
