Organizations, like people, are creatures of habit. They tend to approach problems in predictable ways. This revolutionary book argues that such ingrained habits, which often masquerade as efficient procedures, actually obstruct growth. The 2,000 Percent Solution introduces "stall busting," a process that shows you how to recognize typical stalls (like poor communications, disbelief, misconceptions, procrastination, tradition and bureaucracy) and how to overcome them. Through unorthodox examples ranging from the sinking of the Titanic to sketches attributed to Leonardo da Vinci for a bicycle, The 2,000 Percent Solution redirects knee-jerk reactions onto more productive paths. In addition, you'll learn about a new set of thought processes for designing and implementing solutions that will reap benefits 20 times greater or faster than the same tired "normal" solutions. Packed with specific examples, advice and questions to help you improve your organization's process weaknesses, you'll learn how to go beyond today's best practices into the uncharted realm of what needs to be imagined and accomplished. Since the first printing of this book in 1999, organizations all over the world have made The 2,000 Percent Solution a daily

This chronicle of daily life at the US Military Academy is “a fascinating, funny and tremendously well written account of life on the Long Gray Line” (Time). In 1998, West Point made an unprecedented offer to Rolling Stone writer David Lipsky: Stay at the Academy as long as you like, go wherever you wish, talk to whomever you want, to discover why some of America’s most promising young people sacrifice so much to become cadets. Lipsky followed one cadet class into mess halls, barracks, classrooms, bars, and training exercises, from arrival through graduation. By telling their stories, he also examines the Academy as a reflection of our society: Are its principles of equality, patriotism, and honor quaint anachronisms or is it still, as Theodore Roosevelt called it, the most “absolutely American” institution? During an eventful four years in West Point’s history, Lipsky witnesses the arrival of TVs and phones in dorm rooms, the end of hazing, and innumerable other shifts in policy and practice. He uncovers previously

unreported scandals and poignantly evokes the aftermath of September 11, when cadets must prepare to become officers in wartime. Lipsky also meets some extraordinary people: a former Eagle Scout who struggles with every facet of the program, from classwork to marching; a foul-mouthed party animal who hates the military and came to West Point to play football; a farm-raised kid who seems to be the perfect soldier, despite his affection for the early work of Georgia O’Keeffe; and an exquisitely turned-out female cadet who aspires to “a career in hair and nails” after the Army. The result is, in the words of David Brooks in the New York Times Book Review, “a superb description of modern military culture, and one of the most gripping accounts of university life I have read. . . . How teenagers get turned into leaders is not a simple story, but it is wonderfully told in this book.”
