A dark relationship evolves between a high schooler and her English teacher in this breathtakingly powerful memoir about a young woman who must learn to rewrite her own story. "Have you ever read Lolita?" So begins seventeen-year-old Alisson's metamorphosis from student to lover and then victim. A lonely and vulnerable high school senior, Alisson finds solace only in her writing—and in a young, charismatic English teacher, Mr. North. Mr. North gives Alisson a copy of Lolita to read, telling her it is a beautiful story about love. The book soon becomes the backdrop to a connection that blooms from a simple crush into a forbidden romance. But as Mr. North's hold on her tightens, Alisson is forced to evaluate how much of their narrative is actually a disturbing fiction. In the wake of what becomes a deeply abusive relationship, Alisson is faced again and again with the story of her past, from rereading Lolita in college to working with teenage girls to becoming a professor of creative writing. It is only with that distance and perspective that she understands the ultimate power language has had on her—and how to harness that power to tell her own true story. Being Lolita is a stunning coming-of-age memoir that shines a bright light on our shifting perceptions of consent, vulnerability, and power. This is the story of what happens when a young woman realizes her entire narrative must be rewritten—and then takes back the pen to rewrite it.

Reproduces ukiyo-e prints from the incomparable collection of Japanese art at the Museum of Fine Arts, Boston. Many tattoo connoisseurs consider the Japanese tradition to be the finest in the world for its detail, complexity, and compositional skill. Its style and subject matter are drawn from the visual treasure trove of Japanese popular culture, in particular the colour woodblock prints of the early nineteenth century known as ukiyo-e. This book tells the fascinating story of how ukiyo-e first inspired tattoo artists as the pictorial tradition of tattooing in Japan was just beginning. It explores the Japanese tattoo's evolving meanings, from symbol of devotion to punishment and even to crime, and reveals the tales behind specific motifs. With lush, colourful images of flowers blooming on the arm of a thief, sea monsters coiling across the back of a hero, and legendary warriors battling on the chests of actors, the tattoos in these Japanese prints can offer the same vivid inspiration today as they did two hundred years ago.

Jerry Thigpen's study on the history of the Combat Talon is the first effort to tell the story of this wonderfully capable machine. This weapons system has performed virtually every imaginable tactical event in the spectrum of conflict and by any measure is the most versatile C-130 derivative ever produced. First modified and sent to Southeast Asia (SEA) in 1966 to replace theater unconventional warfare (UW) assets that were limited in both lift capability and speed the Talon I quickly adapted to theater UW tasking including infiltration and resupply and psychological warfare operations into North Vietnam. After spending four years in SEA and maturing into a highly respected UW weapons system the Joint Chief of Staff (JCS) chose the Combat Talon to lead the night low-level raid on the North Vietnamese prison camp at Son Tay. Despite the outcome of the operation the Talon I cemented its reputation as the weapons system of choice for long-range clandestine operations. In the period following the Vietnam War United States Air Force (USAF) special operations gradually lost its political and financial support which was graphically demonstrated in the failed Desert One mission into Iran. Thanks to congressional supporters like Earl Hutto of Florida and Dan Daniel of Virginia funds for aircraft upgrades and military construction projects materialized to meet the ever-increasing threat to our nation. Under the leadership of such committed hard-driven officers as Brenci Uttaro Ferkes Meller and Thigpen the crew force became the most disciplined in our Air Force. It was capable of penetrating hostile airspace at night in a low-level mountainous environment covertly to execute any number of unconventional warfare missions.
