As seen in Time, USA TODAY, The Atlantic, The Wall Street Journal, and on CBS This Morning, BBC, PBS, CNN, and NPR, iGen is crucial reading to understand how the children, teens, and young adults born in the mid-1990s and later are vastly different from their Millennial predecessors, and from any other generation. With generational divides wider than ever, parents, educators, and employers have an urgent need to understand today's rising generation of teens and young adults. Born in the mid-1990s up to the mid-2000s, iGen is the first generation to spend their entire adolescence in the age of the smartphone. With social media and texting replacing other activities, iGen spends less time with their friends in person—perhaps contributing to their unprecedented levels of anxiety, depression, and loneliness. But technology is not the only thing that makes iGen distinct from every generation before them; they are also different in how they spend their time, how they behave, and in their attitudes toward religion, sexuality, and politics. They socialize in completely new ways, reject once sacred social taboos, and want different things from their lives and careers. More than previous generations, they are obsessed with safety, focused on tolerance, and have no patience for inequality. With the first members of iGen just graduating from college, we all need to understand them: friends and family need to look out for them; businesses must figure out how to recruit them and sell to them; colleges and universities must know how to educate and guide them. And members of iGen also need to understand themselves as they communicate with their elders and explain their views to their older peers. Because where iGen goes, so goes our nation—and the world.

A short, thoughtful piece by Virginia Woolf on reading. 'I have sometimes dreamt, at least, that when the Day of Judgement dawns and the great conquerors and lawyers and statesmen come to receive their rewards – their crowns, their laurels, their names carved indelibly upon imperishable marble – the Almighty will turn to Peter and will say, not without a certain envy when he sees us coming with our books under our arms, 'Look, these need no reward. We have nothing to give them here. They have loved reading.'

School Essays, Letters & Phrases Lotus Press The Lovely Bones Bloomsbury Publishing This book charts the connections between the language of journalism in England and its social impact on audiences and social and political debates from the first emergence of periodical publications in the seventeenth century to the present day. It extends work done on the language of the media to include an historical perspective, adding to wider contemporary debates about the social impact of the media. It draws upon the field of historical pragmatics, while retaining a concentration on the development of a particular form of media language, the newspaper, and its role in refracting and contributing to social developments. Dialogue is created between sociolinguistics and journalism studies. It is ideally suited to advanced students in these areas and in linguistics and media studies in general.

This book examines how Coleridge staged his private woes in the public space of the newspaper. It looks at his publications in the Morning Post, which first published one of his most famous poems, Dejection. An Ode. It reveals how he found a socially sanctioned public outlet for poetic disappointments and personal frustrations which he could not possibly articulate in any other way. Featuring fresh, contextual readings of established major poems; original readings of epigrams, sentimental ballads, and translations; analyses of political and human-interest stories, this book reveals the remarkable extent to which Coleridge used the public medium of the newspaper to divulge his complex and ambivalent private emotions about his marriage, his relationship with the Wordsworths and the Hutchinsons, and the effect of these dynamics on his own poetry and poetics.

Provides a single-volume introduction to the important connection of Frankfurt School thought and modernist culture Tyrus Miller's book offers readers a focused introduction to the Frankfurt School's important attempts to relate the social, political, and philosophical conditions of modernity to innovations in twentieth-century art, literature, and culture. The book pursues this interaction of modernity and modernist aesthetics in a two-sided, dialectical approach. Not only, Miller suggests, can the Frankfurt School's penetrating critical analyses of the phenomena of modernity help us develop more nuanced, historically informed and contextually sensitive analyses of modernist culture; but also, modernist culture provides a field of problems, examples, and practices that intimately affected the formation of the Frankfurt School's theoretical ideas. The individual chapters, which include detailed discussions of Walter Benjamin, Theodor Adorno, Herbert Marcuse as well as a survey of later Frankfurt School influenced thinkers, discuss the ideas of a given figure with an emphasis on particular artistic media or contexts: Benjamin with lyric poetry and architecture as urban art forms; Adorno with music; Marcuse with the liberationist art performances and happenings of the 1960s. Key Features: Introduces well-studied major figures such as Benjamin and Adorno in a new light, while connecting their ideas with problems in modernist art and culture Offers a clear, thorough, and relevant survey of major ideas and figures Provides a revisionary view of the rigorous connection of Frankfurt School theory and modernist culture Re-evaluates Jose Marti's contribution to Latin America's literature and political evolution.

Beginning with a dilemma about whether he spends more money on reading or smoking, George Orwell's entertaining and uncompromising essays go on to explore everything from the perils of second-hand bookshops to the dubious profession of being a critic, from freedom of the press to what patriotism really means.

News is to the mind what sugar is to the body. In 2013 Rolf Dobelli stood in front of a roomful of journalists and proclaimed that he did not read the news. It caused a riot.

Now he finally sets down his philosophy in detail. And he practises what he preaches: he hasn't read the news for a decade. *Stop Reading the News* is Dobelli's manifesto about the dangers of the most toxic form of information - news. He shows the damage it does to our concentration and well-being, and how a misplaced sense of duty can misdirect our behaviour. From the author of the bestselling *The Art of Thinking Clearly*, Rolf Dobelli's book offers the reader guidance about how to live without news, and the many potential gains to be had: less disruption, more time, less anxiety, more insights. In a world of increasing disruption and division, *Stop Reading the News* is a welcome voice of calm and wisdom.

Essays that demonstrate ways to "read" the pasts of Vietnam through detailed analyses of its art, chronicles, legends, documents, and monuments. The importance of critical thinking has surged as academics in higher education realize that many students, upon entering college, lack the critical thinking skills necessary to succeed. While much has been written regarding the 'lack' of critical thinking, less has been written on the success of methods implemented to develop this fundamental skill. *The Handbook of Research on Advancing Critical Thinking in Higher Education* explores the effective methods and tools being used to integrate the development of critical thinking skills in both undergraduate and graduate studies. Due to the difficulties associated with teaching critical thinking skills to learners of any age, this publication is a crucial addition to the scholarly reference works available to pre-service and early career teachers, seasoned educational professionals, professors across disciplines, curriculum specialists, and educational administrators.

Palmer clearly states that his purpose is to explain 'the ways of critics to theatre practitioners, the ways of theatre to inexperienced reviewers, and the dynamic convergence of theatre and critic to anyone interested in theatre.' . . . The work is a well-written 'primer' for writers and it will be useful primarily to performers who object to unfavorable 'criticism' without understanding the nature and purpose of reviewing. Accessible to general readers and undergraduates. Choice Palmer begins with an examination of the theatrical review as a medium for informing and entertaining theatregoers, documenting events of artistic or community importance, and supporting theatre through critical evaluation and publicity. He next comments on how journalistic pressures affect reviewers. Citing brief examples from hundreds of reviews, the author devotes a chapter to each of the elements that needs to be covered in a review, including performers, script, direction, music, and choreography, together with stage and lighting design and other physical aspects of the production. The final chapter develops criteria for assessing the strengths and weaknesses of a theatrical review, based on aesthetic standards, the cultural tastes of theatregoers, and the interests of the community. Palmer's experience as both a theatre professional and a journalist gives him an intimate understanding of the antagonism that often develops between reviewers and those who feel themselves to be the target of

irresponsible criticism. His book provides a clear perspective on theatrical matters and guidelines that will help to improve standards of reviewing and create an appreciation of the essential relationship between the theatre and its critics.
