The seventies encompass strikes that brought down governments, shock general election results, the rise of Margaret Thatcher and the fall of Edward Heath, the IMF crisis, the Winter of Discontent and the three-day week. When the Lights Went Out goes in search of what really happened, what it felt like at the time, and where it was all leading. It includes vivid interviews with many of the leading participants, from Heath to Jack Jones to Arthur Scargill, and it travels from the once-famous factories where the great industrial confrontations took place to the suburbs where Thatcherism was created and to remote North Sea oil rigs. The book also unearths the stories of the forgotten political actors, from the Gay Liberation Front to the hippie anarchists of the free festival movement. This book is not an academic history but something for the general reader, bringing the decade back to life in all its drama and complexity.

Created through a "student-tested, faculty-approved" review process with hundreds of students and faculty, HIST3 provides an engaging and accessible solution for the U.S. History course--and one that appeals to the diverse learning styles of today's learners.

Organizational Behavior: Human Behavior at Work, 14e is a solid research-based and referenced text known for its very readable style and innovative pedagogy. While minimizing technical jargon, John Newstrom carefully blends theory with practice so that basic theories come to life in a realistic context. As in previous editions, this edition will be filled with practical, applied advice and a widely accepted, and specially updated, presentation of five models of organizational behavior that provides an integrating framework throughout the book.

Franny is thrilled when she's accepted by the Allbright Academy, an elite private boarding school designed to train leaders. But she knows she's not as smart as the other kids there—or as beautiful, accomplished, confident, or mature. The fact is, the Allbright students—from their shining teeth and flawless complexions to their sky-high test scores and long lists of honors—are absolutely perfect. Then the Allbright magic begins to rub off on Franny, too. The question is: Is this a good thing? Can Franny and her friends Cal, Brooklyn, and Prescott un-ravel the Allbright Academy's secret, or will they, too, succumb to its eerie perfection?

American-born Skye is a good student and a star soccer player who never really gives any thought to the fact that her father is Japanese. Her cousin, Hiroshi, lives in Japan, and never really gives a thought to his uncle's family living in the United States. Skye and Hiroshi's lives are thrown together when Hiroshi's family, with his grandfather (who is also his best friend), suddenly moves to the U.S. Now Skye doesn't know who she is anymore: at school she's suddenly too Japanese, but at home she's not Japanese enough. Hiroshi has a hard time adjusting to life in a new culture, and resents Skye's intrusions on his time with Grandfather. Through all of this is woven Hiroshi's expertise, and Skye's growing interest in, kite making and competitive rokkaku kite flying.

Natural and man-made risks have long been recognised as vital conditioning factors in the formation of social institutions and the conduct of social life. In this volume internationally recognised experts examine in detail the implications in practice of the modern concept of risk in particular legal fields. The chapters explore the ways in which the law in its many branches can accommodate, manage and reduce the extent of risk in the modern "Risk Society", matters of pressing importance for the development of all branches of law in all jurisdictions. The fields of activity affected by the issues discussed include law, medicine, insurance, state security and public health. The collection also contributes to comparative legal studies in respect of risk and the law, presenting a perspective which has largely been neglected outside the works of general theory. Thus the topics considered range from the civil law of injuries in Germany and the food law of the European Union, through sales of goods, including international sales, in English, German and French law, to the English law of torts. Risk and the Law, written by specialists who are authorities in their fields, will be of interest to academics and students who are interested in new developments and ideas regarding the relationship between risk, law and social change in many different fields.

This fundamentals text introduces the reader to Autodesk's AutoCAD Architecture 2012 software. The book covers the Layer Manager, Design Center, Structural Members, Doors, Windows, and Walls. Readers are provided with in-depth coverage of toolbars, dialog boxes and commands. Educators will appreciate the quizzes and practice exam included in the text.

This work is a multidisciplinary analysis of the issue of insider dealing from the perspective of the applicability of criminal law to regulate it. First, it examines the nature of its prohibition in the European Union and in the United States of America. The text includes a more extensive overview of prohibition in four Member States of the European Union (France, the United Kingdom, Luxembourg and Poland). Then, it summarises the arguments presented by ethicists and economists in favour of and against insider dealing. Further, it analyses the foundations of criminal law and justifications that are given for its application. On the basis of this analysis, it presents a new two-step theory of criminalisation. The first step is based on a liberal theory of wrongfulness that makes reference to protection of the basic human rights. The second step relies on classical but often forgotten principles of criminal law. Finally, it examines possible

alternatives to criminal rules.

A literary study guide that includes summaries and commentaries.

The financial crisis has been blamed on reckless bankers, irrational exuberance, government support of mortgages for the poor, financial deregulation, and expansionary monetary policy. Specialists in banking, however, tell a story with less emotional resonance but a better correspondence to the evidence: the crisis was sparked by the international regulatory accords on bank capital levels, the Basel Accords. In one of the first studies critically to examine the Basel Accords, *Engineering the Financial Crisis* reveals the crucial role that bank capital requirements and other government regulations played in the recent financial crisis. Jeffrey Friedman and Wladimir Kraus argue that by encouraging banks to invest in highly rated mortgage-backed bonds, the Basel Accords created an overconcentration of risk in the banking industry. In addition, accounting regulations required banks to reduce lending if the temporary market value of these bonds declined, as they did in 2007 and 2008 during the panic over subprime mortgage defaults. The book begins by assessing leading theories about the crisis—deregulation, bank compensation practices, excessive leverage, "too big to fail," and Fannie Mae and Freddie Mac—and, through careful evidentiary scrutiny, debunks much of the conventional wisdom about what went wrong. It then discusses the Basel Accords and how they contributed to systemic risk. Finally, it presents an analysis of social-science expertise and the fallibility of economists and regulators. Engagingly written, theoretically inventive, yet empirically grounded, *Engineering the Financial Crisis* is a timely examination of the unintended—and sometimes disastrous—effects of regulation on complex economies.

Based on the authors' market-leading *E-Commerce. Business. Technology. Society.*, this brief book offers the same thought-provoking and current content but in a brief format. *E-Commerce Essentials* emphasizes the three major driving forces behind E-commerce—technology change, business development, and social issues—to provide a coherent conceptual framework for understanding the field.

A fascinating account of the phenomenon known as the Black Death, this volume offers a wealth of documentary material focused on the initial outbreak of the plague that ravaged the world in the fourteenth century. A comprehensive introduction that provides important background on the origins and spread of the plague is followed by nearly 50 documents organized into topical sections that focus on the origin and spread of the illness; the responses of medical practitioners; the societal and economic impact; religious responses; the flagellant movement and attacks on Jews provoked by the plague; and the artistic response. Each chapter has an introduction that summarizes the issues explored in the documents; headnotes to the documents provide additional background material. The book contains documents from many countries — including Muslim and Byzantine sources — to give students a variety of perspectives on this devastating illness and its consequences. The volume also includes illustrations, a chronology of the Black Death, questions to consider, a selected bibliography, and an index.

Utilizing a unique debate format, this criminal justice book addresses some of the most controversial, topical issues in policing today. Drawing on previously unpublished materials, the book includes contributions by well known authors from a variety of backgrounds and perspectives, all with expertise in their particular topic and an enthusiasm for debating that is guaranteed to hold reader interest. The unique "Yes/No/Rejoinder" format lets the reader examine both sides of each issue without researching additional sources. Part I discusses the legal framework in which police operate; topics include interpretation of the Fourth Amendment, civil forfeiture, a police officer bill of rights, and juvenile curfews. Part II looks at police personnel practices, including education and contracts. Part III asks questions about the police organization, including its paramilitary structure, the existence of a subculture, and the effectiveness of pursuits. In Part IV community policing issues are covered, including the role of citizen review boards and the media. For anyone interested in hot topics and current issues in law enforcement.

The book is about Rev. Grady Caldwell, who was in the 1960s the first African American to integrate the Albany (GA) High School football team. Grady knew and spent time with Dr. Martin Luther King Jr. and other civil rights leaders in Georgia. For a short period Grady, after graduating from college, became a political leader. But then he became addicted to drugs and for nearly 20 years remained that way and spent time in and out of prison. All the while his wife Kathleen did not leave him. Finally with Kathleen and God's help, Grady overcame his addiction and by 2007 became a Baptist minister with his own church in Griffin, Georgia. This is a compelling story about faith, love, and the power of God's forgiveness. The story of Grady Lee Caldwell, Jr. is revealed with remarkable candor in this inspiring book Grady's story will touch your heart When you see what God did for Grady Caldwell, you will never again wonder if God could somehow use you. Dr. J. Robert White, Executive Director, Georgia Baptist Convention *To Dance with the Devil's Daughter* is a must read for all men who desire to be courageous men. The book tells the honest account of Grady's bold journey toward God's purpose for his life. His story will draw you in because in some ways his story parallels with all our lives. Daniel Simmons, Senior Pastor, Mount Zion Baptist Church in Albany, Georgia I always believed in God but never really had the need to call on Him for myself until I realized I was addicted to drugs and I could not stop on my own. I had to go from a place of promise, to the problem of addiction and all of its negative consequences including prison, before totally committing myself to His purpose for me pastoring. From *To Dance with the Devil's Daughter*
