The three-volume set, LNCS 2667, LNCS 2668, and LNCS 2669, constitutes the refereed proceedings of the International Conference on Computational Science and Its Applications, ICCSA 2003, held in Montreal, Canada, in May 2003. The three volumes present more than 300 papers and span the whole range of computational science from foundational issues in computer science and mathematics to advanced applications in virtually all sciences making use of computational techniques. The proceedings give a unique account of recent results in computational science.

The five volume set LNCS 10960 until 10964 constitutes the refereed proceedings of the 18th International Conference on Computational Science and Its Applications, ICCSA 2018, held in Melbourne, Australia, in July 2018. Apart from the general tracks, ICCSA 2018 also includes 34 international workshops in various areas of computational sciences, ranging from computational science technologies, to specific areas of computational sciences, such as computer graphics and virtual reality. The total of 265 full papers and 10 short papers presented in the 5-volume proceedings set of ICCSA 2018, were carefully reviewed and selected from 892 submissions.

The New York Times bestselling graphic memoir from actor/author/activist George Takei returns in a deluxe edition with 16 pages of bonus material! Experience the forces that shaped an American icon -- and America itself -- in this gripping tale of courage, country, loyalty, and love. George Takei has captured hearts and minds worldwide with his magnetic performances, sharp wit, and outspoken commitment to equal rights. But long before he braved new frontiers in STAR TREK, he woke up as a four-year-old boy to find his own birth country at war with his father's -- and their entire family forced from their home into an uncertain future. In 1942, at the order of President Franklin D. Roosevelt, every person of Japanese descent on the west coast was rounded up and shipped to one of ten "relocation centers," hundreds or thousands of miles from home, where they would be held for years under armed guard. **THEY CALLED US ENEMY** is Takei's firsthand account of those years behind barbed wire, the terrors and small joys of childhood in the shadow of legalized racism, his mother's hard choices, his father's tested faith in democracy, and the way those experiences planted the seeds for his astonishing future. What does it mean to be American? Who gets to decide? George Takei joins cowriters Justin Eisinger & Steven Scott and artist Harmony Becker for the journey of a lifetime.

The untold story of how Japan became a cultural superpower through the fantastic inventions that captured--and transformed--the world's imagination. "A masterful book driven by deep research, new insights, and powerful storytelling."--W. David Marx, author of *Ametora: How Japan Saved American Style* Japan is the forge of the world's fantasies: karaoke and the Walkman, manga and anime, Pac-Man and Pokémon, online imageboards and emojis. But as Japan media veteran Matt Alt proves in this brilliant investigation, these novelties did more than entertain. They paved the way for our perplexing modern lives. In the 1970s and '80s, Japan seemed to exist in some near future, gliding on the superior technology of Sony and Toyota. Then a catastrophic 1990 stock-market crash ushered in the "lost decades" of deep recession and social dysfunction. The end of the boom should have plunged Japan into irrelevance, but that's precisely when its cultural clout soared--when, once again, Japan got to the future a little ahead of the rest of us. Hello Kitty, the Nintendo Entertainment System, and multimedia empires like *Dragon Ball Z* were more than marketing hits. Artfully packaged, dangerously cute, and dizzyingly fun, these products gave us new tools for coping with trying times. They also transformed us as we consumed them--connecting as well as isolating us in new ways, opening vistas of imagination and pathways to revolution. Through the stories of an indelible group of artists, geniuses, and oddballs, *Pure Invention* reveals how Japan's pop-media complex remade global culture.

Jack Larson after losing his wife of 35 years, hopes to find peace in the remote area of northern Wisconsin, but instead finds himself involved in a conflict with the winter snowmobile recreational tourist industry. He is harassed by a local snowmobile gang; who damage his property and eventually kill his dog. Jack finds he cannot contain his outrage after the death of his dog and sets out on a one man mission to get revenge on the gang and those that are connected with snowmobiling. It becomes a personal war. As he proceeds he comes into conflict with the town's only detective that is out to preserve his way of life and that of the town's. What happens next are a series of events that leads Jack Larson down a path to the final conflict with no way out. What makes matters worse for Jack is that he has fallen in love with someone new and is caught between his love for her and his own personal need for revenge. Michael Putzer is 63 years old and has been married to his wife Donna for 42 years. He has lived his entire life in Wisconsin with the exception of a two years stay in the U.S. Army in the late sixties. Since his retirement in 2002 from the Kimberly-Clark Corporation, they have lived in their home on forty acres of land outside of Hurley, Wisconsin. They have two grown up married children and a Chinese Shar-pei dog named China. During the author's 33 years with Kimberly-Clark he worked in consumer products Research. Much of that time was spent in the international products which resulted in travel to the Far East, Latin America and Europe. A

Winter's Rage is his first book. It has always been his ambition to write a novel, but over the years with work there had never been enough time to complete the task. Once retired there was the time available. While the author is not a hunter or a fisherman, he considers himself an environmentalist. Both he and his wife enjoy the outdoors, hiking in the summer and snow shoeing in the winter. They have a great appreciation for the beauty of the outdoors and the land. Their favorite time of the year is winter looking forward to the abundance of snow that this area receives. They do not snowmobile.

The rhyming misadventures of a group of zany sheep on a pirate ship.

One of the most common complaints parents hear is that their child has great potential but is lazy. In the workplace one hears that a colleague is brilliant but just can't seem to deliver on time. Dr Levine believes that in reality very few people are truly lazy. Nearly all 'lazy' children and unproductive adults are in fact suffering from some sort of 'output failure,' that is, some problem of the mind that inhibits their productivity, despite their good intentions. In this book Dr Levine draws heavily on his years of clinical experience to construct the stories of representative children and adults who failed to be productive for the most common reasons. Too often we focus only on failure but people benefit enormously from recognition of their successes. In explaining outside or environmental factors that can affect productivity, Dr Levine points to the role of parents as well as teachers in identifying a child's weaknesses and nurturing the capacity to deliver, with such practical suggestions as describing the ideal study environment for a child. Whether the problem is manifested in motor breakdown, memory shortfall, verbal problems, lack of mental energy or underlying disorganization, Dr Levine provides a workable solution and dismisses the 'lazy' label.
