Named one of the top health and wellness books for 2016 by MindBodyGreen Depression is not a disease. It is a symptom. Recent years have seen a shocking increase in antidepressant use the world over, with 1 in 4 women starting their day with medication. These drugs have steadily become the panacea for everything from grief, irritability, panic attacks, to insomnia, PMS, and stress. But the truth is, what women really need can't be found at a pharmacy. According to Dr. Kelly Brogan, antidepressants not only overpromise and underdeliver, but their use may permanently disable the body's self-healing potential. We need a new paradigm: The best way to heal the mind is to heal the whole body. In this groundbreaking, science-based and holistic approach, Dr. Brogan shatters the mythology conventional medicine has built around the causes and treatment of depression. Based on her expert interpretation of published medical findings, combined with years of experience from her clinical practice, Dr. Brogan illuminates the true cause of depression: it is not simply a chemical imbalance, but a lifestyle crisis that demands a reset. It is a signal that the interconnected systems in the body are out of balance – from blood sugar, to gut health, to thyroid function– and inflammation is at the root. A Mind of Your Own offers an achievable, step-by-step 30-day action plan—including powerful dietary interventions, targeted nutrient support, detoxification, sleep, and stress reframing techniques—women can use to heal their bodies, alleviate inflammation, and feel like themselves again without a single prescription. Bold, brave, and revolutionary, A Mind of Your Own takes readers on a journey of self-empowerment for radical transformation that goes far beyond symptom relief.

In this original and groundbreaking book, Dr Andrew Newberg and Mark Robert Waldman turn their attention to the pinnacle of the human experience: enlightenment. Through his brain-scan studies on Brazilian psychic mediums, Sufi mystics, Buddhist meditators, Franciscan nuns, Pentecostals, and participants in secular spirituality rituals, Newberg has found the specific neurological mechanisms responsible for an enlightenment experience - and how we can activate those circuits in our own brains. In his survey of more than one thousand people who have experienced enlightenment, Newberg has also discovered that in the aftermath they have had profound, positive life changes.

Enlightenment offers us the possibility to become permanently less stress-prone, to break bad habits, to improve our collaboration and creativity skills, and to lead happier, more satisfying lives. Relaying the story of his own transformational experience as well as including the stories of others who try to describe an event that is truly indescribable, Newberg brings us a new paradigm for deep and lasting change.

With their national bestseller The Go-Giver, Bob Burg and John David Mann took the business world by storm, showing that giving is the most fulfilling and effective path to success. That simple, profound story has inspired hundreds of thousands of readers around the world-but some have wondered how its lessons stand up to the tough challenges of everyday real-world business. Now Burg and Mann answer that question in Go-Givers Sell More, a practical guide that makes giving the cornerstone of a powerful and effective approach to selling. Most of us think of sales as convincing potential customers to do something they don't really want to. This mentality sets up an adversarial relationship and makes the sales process much harder than it has to be. As Burg and Mann demonstrate, it's far more productive (and satisfying) when salespeople think like Go-Givers. Cultivate a trusting relationship and focus exclusively on creating value for the other person, say the authors, and great results will follow automatically. Drawing on a wide range of examples of real-life salespeople who have prospered by giving more, Burg and Mann offer tips and strategies that anyone in sales can start applying right away.

Creativity is critical. *Out of Our Minds* explores creativity: its value in business, its ubiquity in children, its perceived absence in many adults and the phenomenon through which it disappears — and offers a groundbreaking approach for getting it back. Author Sir Ken Robinson is an internationally recognised authority on creativity, and his TED talk on the subject is the most watched video in TED's history. In this book, Sir Ken argues that organisations everywhere are struggling to fix a problem that originates in schools and universities. Organisations everywhere are competing in a world that changes in the blink of an eye — they need people who are flexible enough to adapt, and creative enough to find novel solutions to problems old and new. *Out of Our Minds* describes how schools, businesses and communities can work together to bring creativity out of the closet and realise its inherent value at every stage of life. This new third edition has been updated to reflect changing technologies and demographics, with updated case studies and coverage of recent changes to education. While education and training are the keys to the future, the key can also be turned the other way; locking people away from their own creativity. Only by actively fostering creativity can businesses unlock those doors and achieve their true potential. This book will help you to: Understand the importance of actively promoting creativity and innovation. Discover why creativity stagnates somewhere between childhood and adulthood. Learn how to re-awaken dormant creativity to help your business achieve more. Explore ways in which we can work together to keep creativity alive for everyone. Modern business absolutely demands creativity of thought and action. We're all creative as children — so where does it go? When do we lose it? *Out of Our Minds* has the answers, and clear solutions for getting it back.

At any one time, hundreds of thousands of people feel stuck professionally and don't know what to do to get out of their rut. In today's complex business world, the brutal reality is that there are no guarantees for success. John Assaraf has developed a unique and amazing formula that will help people overcome obstacles, transform their careers and businesses and start making the kind of money needed to live an extraordinary life. In his latest book, *The Answer*, Assaraf draws on new findings in neuroscience, understanding why we do what we do and, more importantly, why we don't do what we know we should be doing. A gut-wrenching memoir of brutal crime, prison time, and ultimate redemption. "The Upside of Fear" allows readers to experience the harsh reality of a criminal life and creates a riveting portrait of true crime at its fundamental level. From buying the duct tape for an armed robbery to saving the life of a prison guard, author Weldon Long recounts his harrowing journey of self-discovery and how he went from being a drunk in a jail cell to the CEO of a multimillion-dollar business. Twenty years of drinking, drugging, robbing, and lying led Long to more than a decade of time spent in prisons, jails, and halfway houses -- and a strained re-relationship with a son he barely knew. Through the revealing perspective of an eloquent criminal, readers will discover how to use fear as a positive motivating force and use the mind to strengthen the will, even in the bleakest of circumstances. Long's story demonstrates that love can redeem even the most hopeless criminal, and that there can be no emotions stronger than the desire for redemption and the love of a father separated from his son by prison bars.

In "Secrets of the Miracle Inside" the author Paul McCormick speaks about how to attract what you want into your life. Here, "Secrets of the Miracle Inside" combines it all into one message with the full story.

If money were about math, none of us would be carrying any debt. The numbers are simple. What's complicated is what we do with money. We use money to soothe our feelings and buy respect, to show how much we care or how little. We don't simply earn, save, and spend money: we flirt with it, crave it, and scorn it; we punish and reward ourselves with it. Without realizing it, we give money meaning it doesn't really have—what former psychiatrist and current business coach David Krueger calls our "money story." And in the process of playing out that money story, we often sacrifice the most important things in our life: our health, freedom, relationships, and happiness. What is your money story? Do you consistently spend more than you have? Do you follow the herd in your investments—even though you know the herd is usually wrong? Have you neglected to save for the future, even when you have the means? Do you feel controlled or shackled by debt? Is your money somehow never "enough"? Is money, or the lack of it, always on your mind? *The Secret Language of Money* is a guided tour to the subconscious meanings we give money, the conflicted ways our brains deal with money, the reasons we tend to make the same money mistakes over and over—and most importantly, how you can change all that. A brilliant blend of cutting-edge science and real-world application, *The Secret Language of Money* helps you rewrite your money story and find that elusive balance of wealth, health, and joy we all seek.

Most people wake up and drive to a job that they hate. Think about your five closest friends. Are they happy? Do they live their lives with purpose? Do you? We put on a fake front for what we want people to see and think about us, but the reality is most people aren't happy. We're lost. We settle. We aren't happy with where we are. You can't be happy if you don't know your purpose. It's not possible. You want more but you don't even know where to start. You know there is more out there. You see others having success and you want it, too; there is nothing wrong with that. You just need help finding your purpose so you can find the success you see all around you. You can be productive, crush your goals, pretend that all the things that you've acquired actually mean something...but at the end of the day, if you don't know your purpose, you'll always feel like there's something missing. You'll know that you're capable of more and that you're not living the life you should be. You might be fooling the world, but you're not fooling the person looking back at you in the mirror. You need to find your actual power source. Your purpose is your source of power. Once you find your purpose it'll fuel you for life. You'll do things that you never thought you were capable of. Achieving your purpose will force you to morph into a stronger version of yourself. You'll have to push through fears, insecurities, and doubts that held you back. But somehow it'll all feel possible and necessary because you're purpose-driven now...and that's the only thing you'll ever need.

Why do we keep getting the same jobs, taking on the same relationships, and finding ourselves in the same emotional traps? Dr. Joe Dispenza not only teaches why people tend to repeat the same negative behaviors, he shows how readers can release themselves from these patterns of disappointment. With the dynamic combination of science and accessible how-to, Dispenza teaches how to use the most important tool in ones body and life—the brain. Featured in the underground smash hit of 2004, "What

the Bleep Do We Know!?", Dispenza touched upon the brain's ability to become addicted to negative emotions. Now, in his empowering book *Evolve Your Brain* he explains how new thinking and new beliefs can literally rewire one's brain to change behavior, emotional reactions, and habit forming patterns. Most people are unaware of how addicted they are to their emotions, and how the brain perpetuates those addictions automatically. In short, we become slaves to our emotional addictions without even realizing it. By observing our patterns of thought, and learning how to 're-wire the brain' with new thought patterns, we can break the cycles that keep us trapped and open ourselves to new possibilities for growth, happiness and emotional satisfaction.

Secrets of the Millionaire Mind reveals the missing link between wanting success and achieving it! Have you ever wondered why some people seem to get rich easily, while others are destined for a life of financial struggle? Is the difference found in their education, intelligence, skills, timing, work habits, contacts, luck, or their choice of jobs, businesses, or investments? The shocking answer is: None of the above! In his groundbreaking *Secrets of the Millionaire Mind*, T. Harv Eker states: "Give me five minutes, and I can predict your financial future for the rest of your life!" Eker does this by identifying your "money and success blueprint." We all have a personal money blueprint ingrained in our subconscious minds, and it is this blueprint, more than anything, that will determine our financial lives. You can know everything about marketing, sales, negotiations, stocks, real estate, and the world of finance, but if your money blueprint is not set for a high level of success, you will never have a lot of money—and if somehow you do, you will most likely lose it! The good news is that now you can actually reset your money blueprint to create natural and automatic success.

Secrets of the Millionaire Mind is two books in one. Part I explains how your money blueprint works. Through Eker's rare combination of street smarts, humor, and heart, you will learn how your childhood influences have shaped your financial destiny. You will also learn how to identify your own money blueprint and "revise" it to not only create success but, more important, to keep and continually grow it. In Part II you will be introduced to seventeen "Wealth Files," which describe exactly how rich people think and act differently than most poor and middle-class people. Each Wealth File includes action steps for you to practice in the real world in order to dramatically increase your income and accumulate wealth. If you are not doing as well financially as you would like, you will have to change your money blueprint. Unfortunately your current money blueprint will tend to stay with you for the rest of your life, unless you identify and revise it, and that's exactly what you will do with the help of this extraordinary book. According to T. Harv Eker, it's simple. If you think like rich people think and do what rich people do, chances are you'll get rich too!
