In recent years, social scientists have engaged in a deep debate over the methods appropriate to their research. Their long reliance on passive observational collection of information has been challenged by proponents of experimental methods designed to precisely infer causal effects through active intervention in the social world. Some scholars claim that field experiments represent a new gold standard and the best way forward, while others insist that these methods carry inherent inconsistencies, limitations, or ethical dilemmas that observational approaches do not. This unique collection of essays by the most influential figures on every side of this debate reveals its most important stakes and will provide useful guidance to students and scholars in many disciplines.

An inspiring battle cry for sanity in the college application process that looks beyond the rankings to successfully determine what's truly the best school for you or your child After spending years as an admissions director at Dartmouth, Becky Sabky had seen it all. The perfect grades, the perfect scores, and the perfect extracurriculars. Valedictorians were knocking at the gate, but Becky realized that in their quest for admission many of these students were missing something. Their transcripts were golden, their interviews polished, but they weren't applying for college, they were competing for it—and in the end they didn't know what prize they were really striving for. In *Valedictorians at the Gate*, Sabky looks beyond the smoke and mirrors of the intimidating admissions gauntlet and places the power firmly where it should be: in the hands of the students themselves. Offering prescriptive,

actionable advice for students and their (hopefully not helicoptering) parents, Sabky illuminates the pathway to finding the school that is the ideal match. Witty and warm, informative and inspiring, *Valedictorians at the Gate* is the needed tonic for overstressed, overworked, and overwhelmed students on their way to the perfect college for them.

This biography of Beverly Kimes, was written by her beloved husband, Jim Cox. This is not a book about the illustrious career of Beverly Kimes, first woman editor of *Automobile Quarterly*, renowned author, or the foremost classic car historian of her time. But, a story about Beverly Kimes; daughter, sister, friend, mentor, wife, and inspiration to women and men who had the distinct honor of having her be part of their lives. Determination is everything. This was her mantra, the creed that she lived by from the time she was a small girl growing up West Chicago, until the day she died in 2008. Beverly Kimes was a woman on a mission: to do whatever it was she was destined to do (and she did plenty!) by taking on a leadership role, and helping those who travelled with her. This biography chronicles Beverly's early years, taken from copious notes, letters and pictures found in numerous personal scrapbooks saved over the years. It follows her adult life in New York, through her rise up the ranks to editor of *Automobile Weekly*, her notoriety as an automobile historian, and life with her husband, family and friends. How does someone so determined for greatness, make it happen in a career she initially knew nothing about? When she went to her interview with Scott Baily at *Automobile Quarterly*, she told him, "The only thing I know about automobiles, is that I have a driver's license." This inspiring story is about a woman, in a man's world, overcoming odds, getting involved, and touching the hearts of all types of people worldwide along the way. The road to greatness was not easy for Beverly, in fact it took its rocky turns. Life was filled with obstacles due to illness, circumstances, or just plain fate. But she travelled on, nonetheless, with dignity and style. And for all who had come to know and love her, it was a hell of a ride!

Women in America have come a long way in the last hundred years, from lacking the right to vote to holding some of the highest profile positions in the country. But this change has not come without struggle. *More Than Title IX* highlights the impact of one of the most powerful instruments of change—education. The book takes readers behind the scenes of some of the most influential moments for gender equity in education and tells the dramatic stories of the women and men who made these changes possible. The narrative blends historical analysis with dynamic interview excerpts with people whose actions made a difference in both educational equity and in the country as a whole. By showing how hard-won changes in education have improved life for women and men in America over the past century, the authors remind readers not to take freedoms for granted.
