The role of technology in the learning process can offer significant contributions to help meet the increasing needs of students. In the field of language acquisition, new possibilities for instructional methods have emerged from the integration of such innovations. The Handbook of Research on Foreign Language Education in the Digital Age presents a comprehensive examination of emerging technological tools being utilized within second language learning environments. Highlighting theoretical

frameworks, multidisciplinary perspectives, and technical trends, this book is a crucial reference source for professionals, curriculum designers, researchers, and upper-level students interested in the benefits of technology-assisted language acquisition. This book is the culmination of educational know-how and systematic grammar organization acquired by the three authors from their experience actually teaching Korean to foreigners in the classroom. In focusing strictly on Korean grammar, this series represents a departure from most current integrated teaching materials, allowing foreign learners to more easily concentrate on grammar in their study of Korean. The authors have included real dialogues and illustrations to make the study of Korean more interesting, especially for those students who have heretofore felt Korean grammar to be difficult. Further, this series equally serves as a general Korean grammar reference that can be used by Korean language instructors both in Korea and abroad who regularly experience the difficulty of teaching Korean grammar first-hand.

The new kid in school needs a new name! Or does she? Being the new kid in

school is hard enough, but what about when nobody can pronounce your name? Having just moved from Korea, Unhei is anxious that American kids will like her. So instead of introducing herself on the first day of school, she tells the class that she will choose a name by the following week. Her new classmates are fascinated by this no-name girl and decide to help out by filling a glass jar with names for her to pick from. But while Unhei practices being a Suzy, Laura, or Amanda, one of her classmates comes to her neighborhood and discovers her real name and its special meaning. On the day of her name choosing, the name jar has mysteriously disappeared. Encouraged by her new friends, Unhei chooses her own Korean name and helps everyone pronounce it—Yoon-Hey.
