The practice paper packs in this series contain 3 sets of papers, each of which emulates the exact format of the SATs exam that your child will sit. Each test contains questions that reflect the latest curriculum changes.

The Sutherland Inquiry, (HCP 62, session 2008-09, ISBN 9780102958393), is an independent inquiry remitted by the Office of the Qualifications and Examinations Regulator (Ofqual) and the Secretary of State for Children, Schools and Families, into the delivery of the National Curriculum tests in 2008. In July 2008, 1.2 million pupils heard that their National Curriculum test results would be delayed. The test delivery service represented a failure in customer delivery service, to the pupils, schools and also the markers upon whom the National Curriculum testing regime relies. The primary responsibility must therefore rest with the American organisation, ETS Global BV (ETS), which won the public contract to deliver the tests and failed its customers. This report examines how this organisation secured the contract, what its plans were, and why its systems and process as a whole were not properly tested. The report will also describe how ETS's systems failed during the test delivery process. There was also a failure on the part of the Government's Non-Departmental Public Body, the Qualifications and Curriculum Authority to deliver its remit. The report also sets out the procurement process that QCA used to select its delivery supplier, ETS, and how it managed the contract. The report sets out a number of recommendations on how test delivery can improve in future years, and has set out a number of key priorities, including: that the delivery process of the National Curriculum tests should be modernised and improved, in consultation with the marking community, including piloting online marking; that whatever process is used should be thoroughly piloted and project managed to ensure schools and pupils get their results on time; that the customer service provided to markers must be vastly improved to ensure that they are properly supported and are able to access up-to-date information.

This pack of actual examination papers from 1999 is designed to assist school students in preparing for their national tests. It offers support and guidance both for students and parents, and gives a clear explanation of the marking schemes.

KS3 Science Complete Study & Practice (with online edition)

This revision guide for Key Stage 3 science contains in-depth course coverage and advice on how to get the best results in the Year 9 National Test. It has progress check questions and exam practice questions.

In 2004, the Government announced 110 Public Service Agreement (PSA) targets for 17 Departments covering the period 2005-08. PSA targets express the priority outcomes that Departments are seeking to achieve nationally and internationally, and cover key aspects of the Government's social, economic and environmental policy. Large sums of public money are devoted to the programmes designed to deliver them. This NAO report contains the detailed results of its examination of the data systems used by six government departments to monitor and report progress against their 2005-08 PSA targets, covering a total of 65 data systems. The six Departments are: the Cabinet Office, the Department for Culture, Media and Sport, the Department for Education and Skills, the Department for the Environment, Food and Rural Affairs, the Ministry of Defence and HM Treasury. Findings include that 75 per cent of the data systems used are broadly appropriate, but less than half of these were fully fit for purpose. Most required some action to strengthen measurement or reporting arrangements. A companion volume (HCP 127-I, session 2006-07, ISBN 0102944040) is available separately which contains the NAO's summarised findings.

This official National Tests Pack includes the ACTUAL 2004 National Tests and an easy-to-use booklet to help students revise for the Key Stage 3 Science National Tests at ages 13 14. sections featuring charts, boxed text and diagrams that help make the material absolutely clear. preparing and revising, questions and answers, examples and top tips in the margins on each page.
