One of music's true global superstars and most admired figures, Elton John has sold an estimated 200 million albums worldwide to date, and continues to appear regularly in the singles charts, thanks largely to a series of high-profile collaborations with new faces. But he is loved as much for his outrageous personality and witty outspokenness as for his music: recent memorable outbursts have included a public comment that "people who charge £75 and lip-sync should be shot" and calling some pushy photographers "rude, vile pigs." He has even admitted that, in one of his more comedic cocaine-fueled moments, he phoned one of his management team "to tell him to do something about the wind outside my hotel room." Such shamelessness and sheer silliness rivals anything uttered by punk rockers, yet it is so typically Elton: honest and wittily intemperate. Tragedy and heartbreak have played a large part in his life too. Behind the parties, the hedonism, the lavish stage costumes and silly glasses lies a more somber story. There have been disputes with managers, legal wranglings, splits with partners, and a divorce. Added to that there have been serious health problems, a very public battle with his expanding waistline and receding hairline, drug addictions, and spells when he wanted to quit the music business altogether. But now, at 60 years old, Elton enjoys a stable relationship with his husband David Furnish. His demons have been overcome. His commercial and critical stock is rising. With popular acts like the Scissor Sisters sounding more like Elton than Elton himself, Elton John is finally cool again. Drawing on many firsthand interviews with his associates and musical collaborators, this page-turning story of high drama and prodigious talent traces Elton's astonishing journey through life as the colossus of camp, while also offering a critical history of his work and analyzing afresh his contribution to popular music.

A revealing look at austerity measures that succeed—and those that don't Fiscal austerity is hugely controversial. Opponents argue that it can trigger downward growth spirals and become self-defeating. Supporters argue that budget deficits have to be tackled aggressively at all times and at all costs. Bringing needed clarity to one of today's most challenging economic issues, three leading policy experts cut through the political noise to demonstrate that there is not one type of austerity but many. Austerity assesses the relative effectiveness of tax increases and spending cuts at reducing debt, shows that austerity is not necessarily the kiss of death for political careers as is often believed, and charts a sensible approach based on data analysis rather than ideology.

A richly textured historical novel offers a fictional portrait of the life of Maria Anna Mozart, the older sister of Wolfgang Amadeus Mozart and a musical prodigy in her own right, who was forced by their father to put aside her talent to become a piano teacher to support his ambitious plans for her brother, until a potential suitor helps her find a way to express her musical genius. A first novel. Reprint. 40,000 first printing.

This book argues that contemporary Italian history has been marked by a tendency towards divided memory. Events have been interpreted in contrasting ways, and the facts themselves often contested. Moreover, with so little agreement over what happened, and why it happened, it has been extremely difficult to create any consensus around memory. These divisions have been seen at all levels, but take on particular importance when linked to the great traumatic and life-changing events of the Twentieth century - war, terrorism, disaster - but can also be applied to more cultural fields such as sport and everyday life. Social change also has an impact on memory. This book will take the form of a voyage through Italy (and into Italy's past), looking at stories of divided memory over various periods in the twentieth century. These stories will be interwoven with analysis and discussion.

We all know the stories of Cinderella, Snow White, and Rapunzel. But have you ever heard of Alice Bingley-Beckerman, Reena Paruchuri, or Molly Miller? Of course you haven't. Not yet. What these girls have in common with their fairy tale sisters is this: they are the stepdaughters of three very evil stepmothers. And they're not happy about it. They think they are alone in their unhappiness until they arrive at Putnam Mount McKinsey, a posh boarding school located in lovely rural Massachusetts. Here is where they will plot their revenge. But first they have to meet. In her first novel, Lily Archer tells a knowing, wickedly funny story about how friendship just may turn out to be more happily-ever-after than family.

One of Italy's best-known writers takes a Grand Tour through her cities, history, and literature in search of the true character of this contradictory nation. There is Michelangelo, but also the mafia. Pavarotti, but also Berlusconi. The debonair Milanese, but also the infamous captain of the Costa Concordia cruise ship. This is Italy, admired and reviled, a country that has guarded her secrets and confounded outsiders. Now, when this "Italian paradox" is more evident than ever, cultural authority Corrado Augias poses the puzzling questions: how did it get this way? How can this peninsula be simultaneously the home of geniuses and criminals, the cradle of beauty and the butt of jokes? An instant #1 bestseller in Italy, Augias's latest sets out to rediscover the story-different from the history-of this country. Beginning

with how Italy is seen from the outside and from the inside, he weaves a geo-historical narrative, passing through principal cities and rereading the classics and the biographies of the people that have, for better or worse, made Italians who they are. From the gloomy atmosphere of Cagliostro's Palermo to the elegant court of Maria Luigia in Parma, from the ghetto of Venice to the heroic Neapolitan uprising against the Nazis, Augias sheds light on the Italian character, explaining it to outsiders and to Italians themselves. The result is a "novel of a nation," whose protagonists are both the figures we know from history and literature and characters long hidden between the cracks of historical narrative and memory.

A paperback original, Bloom's stand-alone introduction to *The Best Poems of the English Language*. A notable feature of Harold Bloom's poetry anthology *The Best Poems English Language* is his lengthy introductory essay, here reprinted as a separate book. For the first time Bloom gives his readers an elegant guide to reading poetry—a master critic's distillation of a lifetime of teaching and criticism. He tackles such subjects as poetic voice, the nature of metaphor and allusion, and the nature of poetic value itself. Bloom writes "the work of great poetry is to aid us to become free artists of ourselves." This essay is an invaluable guide to poetry. This edition will also include a recommended reading list of poems.

Few things are more important than the quality and credibility of leaders, as they play a vital role in every aspect of our modern lives. Yet strong leadership is a difficult skill to master. Good leaders must learn not only to manage, analyse and appraise, but also to encourage, improve and inspire. Here, John Adair, the celebrated expert on leadership training, shows how Confucian philosophy can help you become a better leader. He demonstrates how, far from merely being interesting ideas from centuries ago, Confucius's sayings, or *Analects*, will help you to develop the confidence, characteristics and skills you need to be the best leader you can be.

The former Prime Minister of Italy shares his impressions of the United States and American-Italian relations over the last thirty years

In 1848, a violent storm of revolutions ripped through Europe. The torrent all but swept away the conservative order that had kept peace on the continent since Napoleon's defeat at Waterloo in 1815—but which in many countries had also suppressed dreams of national freedom. Political events so dramatic had not been seen in Europe since the French Revolution, and they would not be witnessed again until 1989, with the revolutions in Eastern and Central Europe. In 1848, historian Mike Rapport examines the roots of the ferment and then, with breathtaking pace, chronicles the explosive spread of violence across Europe. A vivid narrative of a complex chain of interconnected revolutions, 1848 tells the exhilarating story of Europe's violent "Spring of Nations" and traces its reverberations to the present day.

The book explains in detail and with many examples the concept of responsible innovation by answering the following questions: How will the fashion industry be in 2030? What can the different stakeholders do in order to speed the responsible innovation? Which will be the role of traceability, circularity, cradle-to-cradle, collaborative consumption, B-corporations? How technologies can catalyze the change? How the consumers interested in sustainability can contribute to this change?

"Robb deftly interweaves a complex story of love, passion and murder into the troubled and tangled fabric of Welsh history . . . A rich and satisfying novel" (*Publishers Weekly*).

In fourteenth-century England, Owen Archer and Geoffrey Chaucer are carrying out a mission for the Duke of Lancaster—under the pretense of escorting Owen's father-in-law and the archbishop's secretary on a pilgrimage to the sacred city of St. David's in Wales. England and France are at war, and the southern Welsh coast is vulnerable to invasion, so Owen and Geoffrey are to recruit archers for the duke's army and inspect his fortifications on the coast, while quietly investigating whether the duke's steward at Cydweli Castle is involved in a French plot to incite rebellion in Wales. But trouble precedes them in the cathedral city of St. David's. On Whitesands Beach beyond the city, a young man is beaten and left for dead, then spirited away by a Welsh bard. Shortly afterward, a corpse clothed in the livery of the Duke of Lancaster is left at the city gate, his shoes filled with white sand. Meanwhile at Cydweli Castle, the theft of money from the castle's exchequer is followed by a violent death and the disappearance of the steward's beautiful young wife. Owen and Geoffrey begin to see connections linking the troubles in city and castle, and learn they must unravel a complex story of betrayed love and political ambition . . . "This compelling historical mystery lives up to the standard set by master medievalist Ellis Peters." —*Booklist*

Cees Nooteboom wrote the poems that make up *Monk's Eye* on two islands: he began them on the Dutch island of Schiermonnikoog and finished them on the Spanish island of Minorca, where he has spent summers for decades. The poems--which can be read individually or, all together, as the record of a poet's life--are about the two islands. But they're also about islands as an archetype, about the serenity that we can find on beaches and amid dunes, the sea sweeping imperturbably around us. Accompanied by Sunandini Banerjee's collages, the poems in this volume are rich in allusion; they address the past, memories, illusions, dreams, and the heart of all poetry--which Nooteboom locates in the opening line of Plato's *Phaedrus*, when Socrates, walking with his admirer, asks, "My dear Phaedrus, whence came you, and whither are you going?"

An introduction to theologians who greatly affected Christian thought includes portraits of Paul, Origen, Augustine, Thomas Aquinas, Martin Luther, Friedrich Schleiermacher, and Karl Barth

Tough and street-smart, a principled rebel against an establishment he has always scorned, Dan Lazar has risen from the working class to become one of Philadelphia's top criminal defenders. But now divorced and badly missing his young son, disillusioned by years of representing vicious criminals, humiliated by the politically ambitious DA's charge that he bribed a witness in a brutal rape-homicide case, Dan is burned out, depressed, and ready to call it quits. On the surface he would seem to have nothing in common with Susan Boelter, the beautiful and patrician wife of Peter Boelter, who runs the city's dominant newspaper and heads one of its most powerful families. But when Peter deserts her and files for divorce, moving to seize everything that is precious to her, including custody of their thirteen-year-old daughter, Susan turns to a reluctant Dan for help.

A tribute to Roberto Capucci, one of Italy's most famous fashion designers. Considered one of the fathers of Italian fashion, Capucci represents the excellence of Italian creativity combined with a unique taste for colour that is flanked by the ability to choose the rarest of fabrics, some produced expressly for him. This book illustrates the original creativity, the great versatility and the absolute contemporaneity of the Capucci universe, the only fashion designer invited to exhibit clothes that have become part of the history of international art in the world's leading museums. Capucci's work is marked by elaborately constructed garments that are reminiscent of fashions from earlier times, but which still remain very modern. He employs a lot of brocade and ornamentation and his garments use a great deal of structure, with some dresses seeming to have wings or headdresses. He is perhaps best known for his signature use of folds. Some dresses look like origami because of the their intensely folded construction, while others look like finely accordioned crepe paper. Fan shapes predominate and many of his incredibly inventive creations, looking like they have unfolded before our eyes, have been called sculptures in fabric. This small, attractive monograph includes beautiful photographs of his creations, sketches and writings from Capucci himself, photographs of the designer at work, and examples of his designs from all phases of his career.

This landmark collection of essays by one of the world's greatest living authors makes Durs Grünbein's wide-ranging and multifaceted prose available in English for the first time, and is a welcome complement to *Ashes for Breakfast*, his first book-length collection of poetry in English. Covering two decades, *The Bars of Atlantis* unfurls the entire breadth and depth of Grünbein's essayistic genius. Memoiristic and autobiographical pieces that introduce Grünbein, the man and the author, and tell the story of the making of a poet and thinker toward the end of a century marked by global political strife, unprecedented human suffering, long decades of totalitarian rule, and, in its final quarter, the dawn of a new, post-Cold War world order; essays that focus on Grünbein's major philosophical and aesthetic concerns, such as the intersection of art and science, literature and biology; extended reflections on the existential, cultural, political, and ethical import of the poet's craft in the contemporary world; and, finally, explorations of the meaning of classical antiquity for the present—all contribute to making.

For readers of Roddy Doyle, Nick Hornby, and Mark Haddon, *The Adulterants* is a piercingly funny—and cringingly poignant—take on how hard it is to grow up and how hard it is when you don't. Ray Morris is a tech journalist with a forgettable face, a tiresome manner, a small but dedicated group of friends, and a wife, Garthene, who is pregnant. He is a man who has never been punched above the neck. He has never committed adultery with his actual body. He has never been caught up in a riot, nor arrested, nor tagged by the state, nor become an international hate-figure. Not until the summer of 2011, when discontent is rising on the streets and within his marriage. Ray has noticed none of this. Not yet. *The Adulterants* would be a coming-of-age story if its protagonist could only forget that he is thirty-three years old. Throughout a series of escalating catastrophes, our deadpan antihero keeps up a merciless mental commentary on the foibles and failings of those around him, and the vicissitudes of modern urban life: internet trolls, buy-to-let landlords, open marriages, and the threat posed by more sensitive men. But the wonder of *The Adulterants* is how we feel ourselves rooting for Ray even as we acknowledge that he deserves everything he gets.

A rich, sultry, ambitious novel about a young American writer/curator, fleeing a crumbling marriage in New York who travels with her nine-year old daughter to one of the remote islands in the north of Scotland, birthplace of her grandfather. Commissioned to set up a museum there and to write the biography of the island's celebrated poet and chronicler, Mhairi McPhail is slowly drawn in by the complicated life she is uncovering and writing about--the Bard of Fascaray--as she finds herself being transformed, awakened by the ferocity and power of the island. Who was the celebrated poet, Grigor McWatt, The Bard of Fascaray? What was his past? Details of his life are elusive. As Mhairi struggles to adapt to her island life and put her disappointment and troubles behind her, she begins to unearth the astonishing secret history of the poet, regarded by many as the custodian of Fascaray's--and Scotland's--soul. In McAfee's rich novel of invented island life, she interweaves extracts from Mhairi's journal entries, her discoveries and writings of McWatt, and tales of Fascaray itself into a resonant, compelling, dimensional narrative that at its heart explores identity, love, belonging and the universal quest for home.
