

Lighthouses Great Lakes 2018 7 X 7 Inch Monthly Mini Wall Calendar Usa United States Of America Ocean Sea Coast

Award-winning nature author Jerry Dennis reveals the splendor and beauty of North America's Great Lakes in this "masterwork"* history and memoir of the essential environmental and economical region shared by the United States and Canada. No bodies of water compare to the Great Lakes. Superior is the largest lake on earth, and together all five contain a fifth of the world's supply of standing fresh water. Their ten thousand miles of shoreline border eight states and a Canadian province and are longer than the entire Atlantic and Pacific coasts of the United States. Their surface area of 95,000 square miles is greater than New York, New Jersey, Connecticut, Massachusetts, Vermont, New Hampshire, and Rhode Island combined. People who have never visited them—who have never seen a squall roar across Superior or the horizon stretch unbroken across Michigan or Huron—have no idea how big they are. They are so vast that they dominate much of the geography, climate, and history of North America, affecting the lives of tens of millions of people. *The Living Great Lakes: Searching for the Heart of the Inland Seas* is the definitive book about the history, nature, and science of these remarkable lakes at the heart of North America. From the geological forces that formed them and the industrial atrocities that nearly destroyed them, to the greatest environmental success stories of our time, Superior, Michigan, Huron, Erie, and Ontario are portrayed in all their complexity. A Michigan native, Jerry Dennis also shares his memories of a lifetime on or near the lakes, including a six-week voyage as a crewmember on a tallmasted schooner. On his travels, he collected more stories of the lakes through the eyes of biologists, fishermen, sailors, and others he befriended while hiking the area's beaches and islands. Through storms and fog, on remote shores and city waterfronts, Dennis explores the five Great Lakes in all seasons and moods and discovers that they and their connecting waters—including the Erie Canal, the Hudson River, and the East Coast from New York to Maine—offer a surprising and bountiful view of America. The result is a meditation on nature and our place in the world, a discussion and cautionary tale about the future of water resources, and a celebration of a place that is both fragile and robust, diverse, rich in history and wildlife, often misunderstood, and worthy of our attention. "This is history at its best and adventure richly described."—*Doug Stanton, author of *In Harm's Way: The Sinking of the U.S.S. Indianapolis and the Extraordinary Story of Its Survivors* and *12 Strong: The Declassified True Story of the Horse Soldiers* Sigurd Olson Nature Writing Award Winner Winner of Best Book of 2003 by the Outdoor Writers Association of America Ten-year-old Birdie moves with her family in 1855 from a town on the Maine coast to rugged Turtle Island where her father is to be the lighthouse keeper, and when he is taken ill, Birdie must summon up the courage to keep the lighthouse's strong beam running. Reprint.

The Maps for Curious Minds series is back—with 100 vivid infographic maps that transform the way we understand the cultural and geographical wonders of North America No matter how well you think you know North America, the 100 infographic maps in this singular atlas uncover a trove of fresh wonders that make the continent seem like the center of the universe. Did you know that North America is where the first T. rex was found? Or that it's where you can visit the world's biggest geode as well as its oldest, tallest, and largest trees—not to mention the world's tallest and steepest roller coasters?! Brimming with fascinating insight (Who is the highest-paid public employee in each state?) and whimsical discovery (Where can you visit the world's largest island in a lake on an island in a lake on an island?), this book highlights the unexpected contours of geography, history, nature, politics, and culture, revealing new ways to see North America—and the hundreds of millions who call it home.

A history of the lighthouse which examines its technical development in the United States

Theodore J. Karamanski's sweeping maritime history demonstrates the far-ranging impact that the tools and infrastructure developed for navigating the Great Lakes had on the national economies, politics, and environment of continental North America. Synthesizing popular as well as original historical scholarship, Karamanski weaves a colorful narrative illustrating how disparate private and government interests transformed these vast and dangerous waters into the largest inland water transportation system in the world. Karamanski explores both the navigational and sailing tools of First Nations peoples and the dismissive and foolhardy attitude of early European maritime sailors. He investigates the role played by commercial boats in the Underground Railroad, as well as how the federal development of crucial navigational resources exacerbated sectionalism in the antebellum United States. *Ultimately Mastering the Inland Sea* shows the undeniable environmental impact of technologies used by the modern commercial maritime industry. This expansive story illuminates the symbiotic relationship between infrastructure investment in the region's interconnected waterways and North America's lasting economic and political development.

How can we tell one lighthouse from another? What does a lighthouse keeper do? Where are the most unusual lighthouses in the world? Depart on an enchanting voyage with the school children in this book to discover the answers to these questions along with other fascinating facts about lighthouses and how they work. A charming journey through the science and history of lighthouses around the world.

New York Times Bestseller Winner of the Los Angeles Times Book Prize Winner of the J. Anthony Lukas Award "Nimbly splices together history, science, reporting and personal experiences into a taut and cautiously hopeful narrative.... Egan's book is bursting with life (and yes, death)." —Robert Moor, New York Times Book Review The Great Lakes—Erie, Huron, Michigan, Ontario, and Superior—hold 20 percent of the world's supply of surface fresh water and provide sustenance, work, and recreation for tens of millions of Americans. But they are under threat as never before, and their problems are spreading across the continent. *The Death and Life of the Great Lakes* is prize-winning reporter Dan Egan's compulsively readable portrait of an ecological catastrophe happening right before our eyes, blending the epic story of the lakes with an examination of the perils they face and the ways we can restore and preserve them for generations to come.

Lighthouses have long been the symbol of salvation, warning sailors away from dangerous rocks and shallow waters. Along the Great Lakes, America's inland seas, lighthouses played a vital role in the growth of the nation. They shepherded settlers traveling by water to places that had no roads. These beacons of light required constant tending even in remote and often dangerous places. Brave men and women battled the elements and loneliness to keep the lights shining. Their sacrifice kept goods and immigrants moving. Seven romances set between 1883 and 1911 bring hope to these lonely keepers and love to weary hearts. *Anna's Tower* by Pegg Thomas 1883—Thunder Bay Island Lighthouse Anna Wilson's plan to be the next lighthouse keeper is

endangered when Maksim Ivanov is shipwrecked on Thunder Bay Island. Handsome and capable, he could steal her dream. Or provide a new one. Beneath a Michigan Moon by Candice Sue Patterson 1885—New Presque Isle Lighthouse Ava Ryan's father has passed, leaving her alone, and ill, to tend the light with nowhere else to go. Logging foreman Benjamin Colfax needs the height of the lighthouse to determine the best cutting route, but he senses something amiss in Ava and her determination to remain reclusive. Can he get her to open up, or will she keep herself locked away? Safe Haven by Rebecca Jepson 1892—Old Mission Point Lighthouse Rose Miller was found on the lighthouse doorstep as an infant, and now she must hide her quest to find the child who left her there from Captain Nathan Perry, the man she loves to hate. Love's Beacon by Carrie Fancett Pagels 1898—Round Island Lighthouse Valerie Fillman's best hope for a future lies on the tiny island that holds her worst memories. Can Paul Sholtus, the new lightkeeper, and his daughter help bring healing? And love? The Last Memory by Kathleen Rouser 1899—Mackinac Point Lighthouse Natalie Brooks loses her past to amnesia, and Cal Waterson, the lighthouse keeper who rescues her, didn't bargain on risking his heart—when her past might change everything. The Disappearing Ship by Lena Nelson Dooley 1902—Whitefish Point Lighthouse Romance and mystery collide at Whitefish Point Lighthouse when unemployed doctor Norma Kimbell and Drake Logan, owner of a steamship line, search for evidence of a supposed shipwreck. The Wrong Survivor by Marilyn Turk 1911—Au Sable Lighthouse Lydia Palmer's dream for happiness as a lighthouse keeper's wife shatters when her fiancé Nathan Drake drowned in a shipwreck, but his brother Jesse survived.

The only guide to Michigan lighthouses that includes maps and directions. Includes a photo of each light, plus concise text that combines color description, fascinating history, and practical advice. A must-have resource.

The first hand account of Frank Mays, survivor of the November, 1958, sinking of the Great Lakes freighter Carl D. Bradley. Mays was one of only two men from the crew of 35 to survive. He spent 15 hours adrift on a small liferaft amidst towering waves and gale force winds. Also includes accounts by the Captain and three crew members of the rescue ship, USCGC Sundew along with media accounts and the official record of the investigation into the sinking.

Lake Winnebago has a rich history as a major settlement area in the Midwest, and a significant part of its times gone by involved water transportation for both commerce and passengers. Throughout its history, the 137,700-acre lake has been home to six current lighthouses, two navigation lanterns that have long disappeared from the landscape, and one that was scheduled to be built but never came to fruition. History has forgotten a few, but Lighthouses of Lake Winnebago will take you on a trip around the largest lake within Wisconsin's borders and show you the familiar, while introducing you to the forgotten.

This richly illustrated book offers a concise overview of the geology of Egypt in the context of the geology of the Arab Region and Northeast Africa. An introductory chapter on history of geological research in Egypt sheds much light on the stages before and after the establishment of Egyptian Geological Survey (the second oldest geological survey worldwide), Hume's book and Said's 1962, 1990 books. The book starts with the Precambrian geology of Egypt, in terms of lithostratigraphy and classifications, structural and tectonic framework, crustal evolution and metamorphic belts. A dedicated chapter discusses the Paleozoic-Mesozoic-Cenozoic tectonics and structural evolution of Egypt. A chapter highlights the Red Sea tectonics and the Gulf of Suez and Gulf of Aqaba Rifts. Subsequent chapters address the Phanerozoic geology from Paleozoic to Quaternary. The Egyptian Impact Crater(s) and Meteorites are dealt with in a separate chapter. The Earth resources in Egypt, including metallic and non-metallic ore deposits, hydrocarbon and water resources, are given much more attention throughout four chapters. The last chapter addresses the seismicity, seismotectonics and neotectonics of Egypt.

From the duo behind the massively successful and award-winning podcast Stuff You Should Know comes an unexpected look at things you thought you knew. Josh Clark and Chuck Bryant started the podcast Stuff You Should Know back in 2008 because they were curious—curious about the world around them, curious about what they might have missed in their formal educations, and curious to dig deeper on stuff they thought they understood. As it turns out, they aren't the only curious ones. They've since amassed a rabid fan base, making Stuff You Should Know one of the most popular podcasts in the world. Armed with their inquisitive natures and a passion for sharing, they uncover the weird, fascinating, delightful, or unexpected elements of a wide variety of topics. The pair have now taken their near-boundless "whys" and "hows" from your earbuds to the pages of a book for the first time—featuring a completely new array of subjects that they've long wondered about and wanted to explore. Each chapter is further embellished with snappy visual material to allow for rabbit-hole tangents and digressions—including charts, illustrations, sidebars, and footnotes. Follow along as the two dig into the underlying stories of everything from the origin of Murphy beds, to the history of facial hair, to the psychology of being lost. Have you ever wondered about the world around you, and wished to see the magic in everyday things? Come get curious with Stuff You Should Know. With Josh and Chuck as your guide, there's something interesting about everything (...except maybe jackhammers).

A Michigan writer recounts the chilling tales of the UP's spectral history. Michigan's beautiful Upper Peninsula plays host to some of the state's most spine-tingling ghost stories. At Old Victoria, a ghostly apparition continues to rock in her favorite chair. Visitors can still hear the screams of miners trapped and killed in the wreckage of the Mansfield Mine disaster. Trampled to death over false claims of fire, the victims of the Italian Hall Disaster linger on in Calumet. And Mackinac is home to more than one hundred ghosts, making the island one of the state's most haunted places.

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B. Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

A spectacular collection of America's most iconic and stunning lighthouses. Through gorgeous photography, this book celebrates these unique and magnificent beacons and their history. The construction of lighthouses began as this new nation's first public-works project in 1789 and established the United States as a maritime world power by making ports safe for navigation. These structures--many still active and serving their original purpose even in the era of global positioning systems--are living museums, yet they often prove difficult to access for visitors due to their necessary remoteness. From Maine's West Quoddy Head on the easternmost headlands to the iconic Cape Hatteras Lighthouse, and the West Coast lighthouses from New Point Loma to New Dungeness and Michigan's Grand Haven Pier Lighthouse, the images here will delight both the armchair traveler and those who have taken the back roads or trekked across sandy beaches to visit these special and often artful buildings. This is a great gift for lovers of lighthouses, boaters, and those who live or dream of living on the seashore.

Hundreds of American women have kept the lamps burning in lighthouses since Hannah Thomas tended Gurnet Point Light in Plymouth, Massachusetts, while her husband was away fighting in the War for Independence. *Women Who Kept the Lights* details the careers of 34 intrepid women who were official keepers of light stations on the Atlantic, Gulf, and Pacific coasts, on Lake Champlain and the Great Lakes, staying at their posts for periods ranging from a few years to half a century. Most of these women served in the nineteenth century, when the keeper lit a number of lamps in the tower at dusk, replenished their fuel or replaced them at midnight, and every morning polished the lamps and lanterns to keep their lights shining brightly. Several of these stalwart women were commended for their courage in remaining at their posts through severe storms and hurricanes. A few went to the rescue of seamen when ships capsized or were wrecked. Their varied stories paint a multifaceted picture of a unique profession in our maritime history.

A Traveler's Guide to 116 Michigan Lighthouses Penrose Pub

The oldest freshwater port in the United States is nestled firmly into the southeastern shore of Lake Ontario at Oswego, New York. Since 1822, four lighthouses have guided the mariner's safe passage to shore, and just as those lighthouses stood watch, so did the men and women who manned them. Members of the US Life-Saving Service, Revenue Cutter Service, and Coast Guard followed and remained vigilant in the face of danger, always ready to assist those in distress on the inland sea. *Lighthouses and Life Saving at Oswego* allows readers to step back in time and explore the iconic landmarks and exemplary individuals that afforded Oswego its commercial prominence for nearly two centuries.

Generation after generation, families of vacationers have returned to northwestern Iowa's Okoboji and the Iowa Great Lakes for summertime rest and recreation. From the earliest pioneer days to the Spirit Lake Massacre to the first rustic outdoorsmen's accommodations, this deep glacial lake and its sister prairie lakes have been embraced by visitors for more than 150 years. Slow growing until rail service in 1882, the area saw investment in the form of the Orleans, the grandest hotel west of the Mississippi, which was demolished a scant 15 years later. By then, though, word had gotten out, and Lake Okoboji's wooded bluffs and sandy beaches became places of quiet repose for vacationers. Resorts of all sizes drew the wealthy and modest alike. Among the area's attractions were Arnolds Park Amusement Park; the Roof Garden; the Casino, Central, and Inn ballrooms; thrilling boat rides; skating; and summertime "bathing" in the revitalizing waters. Now largely given over to private residences of all sizes, the many marinas and public areas still draw summertime visitors intent on forging their own indelible memories. *Reproduction of the original: A Child of the Sea; and life among the Mormons by Elizabeth Whitney Williams*

The third volume in the *Lost In Michigan* book series. Fun and informative stories that are off the beaten path throughout the "Mitten State" that are. Tales of tragic accidents, to historic places and inspirational people that showcases Michigan's unique history. If you have traveled to the popular tourist destinations in Michigan, and are looking for something a little different, you will enjoy reading this book. It's the perfect book to take on a road trip and get "Lost In Michigan."

Find Your Way to Michigan's Most Beautiful Waterfalls Waterfalls create a feeling of serenity, a sense of restrained power. Their grandeur takes our breath away. Their gentle sounds complement periods of meditation. Let professional photographer and Michigan native Greg Kretovic guide you to the top-ranked waterfalls in the state. Your bucket list should include these gorgeous locales that decorate Michigan's landscape. The waterfalls are organized geographically and ranked by beauty. Entries include all the information you need, like directions, distance, and hike difficulty, as well as details about each waterfall, such as height, width, and the best time of year to visit. Not-to-miss sights and nearby activities are also called out, so you can make the most of every outing. Plus, Greg's incomparable photography makes this guidebook worthy of any coffee table. From the Porcupine Mountains area and its many impressive waterfalls to the most famous falls in the state—Tahquamenon Falls—experience them all with this wonderful guidebook. These natural wonders prove that the Great Lake State is home to some of the most picturesque sites in America!

February issue includes Appendix entitled Directory of United States Government periodicals and subscription publications; September issue includes List of depository libraries; June and December issues include semiannual index

The sheer beauty of the elegant, lonely lighthouses along our shores—and their unspoiled, scenic natural settings—has captivated our collective imagination. More than simply picturesque, the lighthouse has become an enduring symbol of salvation, fortitude, and heroic folklore. *The Ultimate Book of Lighthouses* is a comprehensive and fascinating work, where you'll discover: - Profiles of every kind of lighthouse, from the boldly striped 196-foot tower overlooking the notorious Diamond Shoals off Cape Hatteras, North Carolina, to the many octagonal and pyramidal beacons built to guide sailors into North American harbors - Fascinating information about lightships, foghorns, and modest beacons - Many remarkable engineering techniques used in constructing lighthouses - Historical examples of our ancestors' courageous efforts to guide mariners through treacherous seas and storms - Scores of stunning full-color photographs, and more! A celebration of one of America's purest landmarks, *The Ultimate Book of Lighthouses* is a must-have for any home.

Florida's lighthouses guide shipping south from the St. Marys River to the tip of the Keys, then north to Pensacola Bay. See some of Florida's oldest and most historic structures, with diverse styles of architecture and daymark designs, including the black-and-white bands of the St. Augustine Lighthouse and the spider-legged iron structures along the Florida Reef. This guide has been revised and updated from previous edition, with new photos of renovated lighthouses. It discusses four lighthouses not included in first edition.

Thirtyauthentic sentinels include accurate depictions of the ancient Pharos light in Alexandria, Egypt (one of the Seven Wonders of the World);an early 18th-century construction in Riga,

Latvia; and 28 other structures."

In 1861, at the age of 37, Harriet Colfax took on the job of lighthouse keeper for the Michigan City lighthouse off Lake Michigan. It was a bold and determined endeavor, especially since there were very few female lighthouse keepers in the country at that time. For 43 years, until the age of 80, Harriet kept her light burning, through storms, harsh winters, and changes in technology. This true story focuses on Harriet's commitment and determination to fulfilling her charge and living life on her own terms. Excerpts from her actual log are included.

Milwaukee is an Algonquin word meaning "the gathering place." Wisconsin's 11 American Indian tribes have long gathered in the city, contributing to its name and origins. American Indians continue to assist in Milwaukee's growth through nationally recognized innovations in education, gaming, and cultural representation. The city's "founding mother," a Menominee Indian, continued trading partnerships with the area's native residents until Indian removal in the 1830s. Over the next century, Indians returned to Milwaukee as visitors, creating villages at the state fair and lakefront grounds. By the 1930s, Indians again called the city home and expressed their common heritage through Pan-Indian organizations. Later the new ideals of the national Red Power movement helped transform those organizations into successful city institutions such as the Indian Community School, Potawatomi Bingo and Casino, and Indian Summer Festival.

"Jean Pendziwol's beautifully written novel captured me from the very first page. Its descriptions of the windswept lightkeeper's station of Elizabeth's and Emily's youth are so crisply rendered I felt I was standing on its shores watching the great ships cross the stormy waters of Lake Superior. Even more than its vivid evocation of a unique time and place, *The LightKeeper's Daughters* is a sensitive and moving examination of the nature of identity, the importance of family, and the possibility of second chances."—Heather Young, author of *The Lose Girls* With the haunting atmosphere and emotional power of *The Language of Flowers*, *Orphan Train*, and *The Light Between Oceans*, critically acclaimed children's author Jean E. Pendziwol's adult debut is an affecting story of family, identity, and art that involves a decades-old mystery. Though her mind is still sharp, Elizabeth's eyes have failed. No longer able to linger over her beloved books or gaze at the paintings that move her spirit, she fills the void with music and memories of her family, especially her beloved twin sister, Emily. When her late father's journals are discovered after an accident, the past suddenly becomes all too present. With the help of Morgan, a delinquent teenager performing community service at her senior home, Elizabeth goes through the diaries, a journey through time that brings the two women closer together. Entry by entry, these unlikely friends are drawn deep into a world far removed from their own, to Porphyry Island on Lake Superior, where Elizabeth's father manned the lighthouse and raised his young family seventy years before. As the words on these musty pages come alive, Elizabeth and Morgan begin to realize that their fates are connected to the isolated island in ways they never dreamed. While the discovery of Morgan's connection sheds light onto her own family mysteries, the faded pages of the journals will shake the foundation of everything Elizabeth thinks she knows and bring the secrets of the past into the light.

Stories from fifty historic female lighthouse keepers

Good Night Great Lakes highlights Lake Michigan, Lake Superior, Lake Erie, Lake Ontario, Lake Huron, wildlife, sailing, kayaking, swimming, beaches, dunes, lighthouses, hiking, fishing, camping, museums, winter activities, and more. This delightful board book gives little ones an up-close and personal tour of our spectacular Great Lakes region. This book is part of the bestselling *Good Night Our World* series, which includes hundreds of titles exploring iconic locations and exciting themes. Many of North America's most beloved regions are artfully celebrated in this board book series, which is artfully designed to soothe children before bedtime while instilling an early appreciation for our natural and cultural wonders. Each book stars a multicultural group of people visiting the featured area's attractions as rhythmic language guides children through the passage of both a single day and the four seasons while saluting the iconic aspects of each place. From Superior to Ontario, young readers will be amazed at everything the Great Lakes region has to offer, all while being lulled to a peaceful night's sleep.

On Thursday, November 6, the Detroit News forecasted "moderate to brisk" winds for the Great Lakes. On Friday, the Port Huron Times-Herald predicted a "moderately severe" storm. Hourly the warnings became more and more dire. Weather forecasting was in its infancy, however, and radio communication was not much better; by the time it became clear that a freshwater hurricane of epic proportions was developing, the storm was well on its way to becoming the deadliest in Great Lakes maritime history. The ultimate story of man versus nature, November's Fury recounts the dramatic events that unfolded over those four days in 1913, as captains eager—or at times forced—to finish the season tried to outrun the massive storm that sank, stranded, or demolished dozens of boats and claimed the lives of more than 250 sailors. This is an account of incredible seamanship under impossible conditions, of inexplicable blunders, heroic rescue efforts, and the sad aftermath of recovering bodies washed ashore and paying tribute to those lost at sea. It is a tragedy made all the more real by the voices of men—now long deceased—who sailed through and survived the storm, and by a remarkable array of photographs documenting the phenomenal damage this not-so-perfect storm wreaked. The consummate storyteller of Great Lakes lore, Michael Schumacher at long last brings this violent storm to terrifying life, from its first stirrings through its slow-mounting destructive fury to its profound aftereffects, many still felt to this day.

This easy-to-use guide has everything you need to plan the trip of a lifetime, whether that includes snow sports in the Canadian Rockies, witnessing the power of Niagara Falls, or simply discovering the best restaurants in Montreal. Stunning photography and detailed descriptions, plus DK's unique illustrations and floor plans, allow this guide to showcase the best places to visit in Canada. Packed with valuable insider information, from the quiet beauty of Prince Edward Island to Vancouver's buzzing nightlife and top things to do in Toronto, alongside a wealth of practical tips including hotel and restaurant listings, *DK Eyewitness Travel Guide: Canada* is your ideal travel companion to this incredible country. With hundreds of full-color photographs, hand-drawn illustrations, and custom maps that illuminate every page, *DK Eyewitness Travel Guide: Canada* truly shows you this city as no one else can.

A beloved picture book from two-time Caldecott Medal award-winner Sophie Blackall that transports readers to the seaside in timeless, nautical splendor! Watch the days and seasons pass as the wind blows, the fog rolls in, and icebergs drift by. Outside, there is water all around. Inside, the daily life of a lighthouse keeper and his family unfolds as the keeper boils water for tea, lights the lamp's wick, and writes every detail in his logbook. Step back in time and through the door of this iconic lighthouse into a cozy dollhouse-like interior with the extraordinary award-winning artist Sophie Blackall.
