Yachtmaster for Sail and Power is a major reference book that has proved invaluable for the many sailors following the RYA Coastal Skipper/Yachtmaster Offshore course. This highly respected and refreshingly practical study guide covers the whole syllabus in detail, all illustrated with colour photographs, charts and worked examples throughout. It covers: · Chartwork - with useful worked examples · Electronic navigation - how to use the latest technology for safe navigation: radar, electronic chart plotting and GPS · Pilotage - buoyage fully explained and illustrated · Communications - information on current maritime communications including GMDSS · Weather - the elements of meteorology, weather sources and forecasts · Safety and survival - all the new SOLAS regulations detailed · Stability and buoyancy - the principles simply explained. Including the latest updates, new artwork and a modern design, this fourth edition compliments the syllabus and assists with exam preparation - an essential companion for anyone enrolling on the RYA Yachtmaster course, whether for sail or power.

New Navigation Rules and Regulations Handbook 2014 edition can be found here: <https://bookstore.gpo.gov/products/sku/050-012-00517-6>

Contains the International Regulations for Preventing Collisions at Sea, 1972 (COLREGS), incorporating amendments, which became effective on November 19, 1989 and November 1995. Also included are the Inland Navigation Rules which have been in effect for all inland waters, including the Great Lakes, since March 1, 1983. These Rules are applicable on waters outside of established navigational lines of demarcation. The lines are called COLREGS Demarcation Lines and delineate those waters upon which mariners shall comply with the Inland and International Rules. COLREGS Demarcation Lines are contained in this book. Collisions are expensive! Learning, understanding and remembering the International Regulations for Preventing Collisions at Sea (COLREGs) is essential for anyone venturing onto the water. Leisure boaters, as much as professional mariners, need to know the rules, and a firm understanding is required to pass many nautical exams. But with the COLREGs stretching to over 12,000 words, this is no small task. This is where Paul Boissier's excellent book comes in. Paul knows the COLREGs backwards having used them extensively in his career with the Royal Navy – from the bridges of submarines and warships which he has commanded, with each giving a rather different perspective on other shipping! He also knows the other side well with his extensive cruising experience, from his early years with his father to now, sailing his own yacht. These experiences mean that he knows and understands the COLREGs from both sides and this gives him the ability to take you through the COLREGs from a mariners' and sailors' perspective. He brings the vital, but dry, document to life, going through it not in order, but by topics which are relevant to the mariner and sailor. Paul explains the intention of each rule and how it should be applied when at sea. He includes personal anecdotes (not all favourable to him!) which make everything real and tells us how he remembers different aspects of the Regulations through mnemonics and other devices. Finally, each chapter ends with a self-test to reinforce what has been learnt – other tests are also available online on the Fernhurst Books' website. This new edition has been updated with the 2016 changes to the COLREGS. Whether you want to increase your confidence, pass an exam, require an on-board reference, or wish to improve your understanding of the nautical rules of the road, this is the ideal book for you.
