From the incomparable New York Times and New Yorker illustrator Tamara Shopsin, a debut novel about a NYC printer repair technician who comes of age alongside the Apple computer—featuring original artistic designs by the author. NAMED A MOST ANTICIPATED BOOK OF 2021 BY LIT HUB. LaserWriter II is a coming-of-age tale set in the legendary 90s indie NYC Mac repair shop TekServe—a voyage back in time to when the internet was new, when New York City was gritty, and when Apple made off-beat computers for weirdos. Our guide is Claire, a 19-year-old who barely speaks to her bohemian co-workers, but knows when it's time to snap on an antistatic bracelet. Tamara Shopsin brings us a classically New York novel that couldn't feel more timely. Interweaving the history of digital technology with a tale both touchingly human and delightfully technical, Shopsin brings an idiosyncratic cast of characters to life with a light touch, a sharp eye, and an unmistakable voice. Filled with pixelated philosophy and lots of printers, LaserWriter II is, at its heart, a parable about an apple.

When journalist and author Alison Stewart was confronted with emptying her late parents' overloaded basement, a job that dragged on for months, it got her thinking: How did it come to this? Why do smart, successful people hold on to old Christmas bows, chipped knick-knacks, and books they will likely never reread? *Junk* details Stewart's three-year investigation into America's stuff. Stewart rides along with junk removal teams like Trash Daddy, Annie Haul, and Junk Vets. She goes backstage at Antiques Roadshow, and learns what makes for compelling junk-based television with the executive producer of *Pawn Stars*. And she even investigates the growing problem of space junk—23,000 pieces of manmade debris orbiting the planet at 17,500 mph, threatening both satellites and human space exploration. But it's not all dire. Readers will also learn that there are creative solutions to America's crushing consumer culture. The author visits with Deron Beal, founder of FreeCycle, an online community of people who would rather give away than throw away their no-longer-needed possessions. She spends a day at a Repair Café, where volunteer tinkerers bring new life to broken appliances, toys, and just about anything. *Junk* is a delightful journey through 250-mile-long yard sales, resale shops, and packrat dens, both human and rodent, that for most readers will look surprisingly familiar.

The press has called Tekserve Corporation, the idiosyncratic Macintosh repair store in New York City, "The Epicenter of Mac Culture in NYC", "The leader in Apple triage services" and "warm and eclectic - maybe even a little eccentric". Unfortunately, not everyone can get down to Tekserve's West 23rd St location for the clear, down-to-earth Mac troubleshooting advice that Tekserve's owners dispense. For the rest of us, O'Reilly & Associates has published the *Macintosh Troubleshooting Pocket Guide* (\$12.95) written by David Lerner and Aaron Freimark, of "the world's best Macintosh repair shop". This slim pocket guide has the answers to frequently asked Macintosh troubleshooting questions. Imagine the quirky record store in the movie "High Fidelity," or the popular "Car Talk" show on National Public Radio, and you'll have a good idea of this book's flavor. Tekserver has long

provided its customers with a free "Frequently Asked Questions" document. We recently discovered this FAQ sheet and realized that-- like New York itself-- it was too good to leave just for the New Yorkers. With the help of Tekserve, we turned this FAQ sheet into the Macintosh Troubleshooting Pocket Guide. The Macintosh Troubleshooting Pocket Guide covers the most common user hardware and software trouble, from disks stuck in drives to lost files. It's not just a book for Mac OS X (although it includes tips for OS X and Jaguar, the latest release), it's for anyone who owns a Mac of any type-- there are software tips going back as far as OS 6. The Macintosh Troubleshooting Pocket Guide distills the answers to the urgent questions that Tekserve's employee's answer every week into a handy guide that fits in your back pocket or alongside your keyboard.
