Within the first week, she has the entire town up in arms over her outlandish teaching methods, which include collecting leaves, catching bugs, making snow angels, and stringing ropes in strange patterns all over the schoolyard. Joel can't help but notice that she's also mighty pretty with her rosy lips, fashionable clothes, and fancy way of speaking. When Edythe decides to take her pupils to hear Miss Susan Anthony speak on the women's suffrage amendment, the town's outcry reaches new heights. Napoleon's line infantry was founded upon that of the Ancien Régime. A total re-organisation began on 1 January 1791 with the abolition of the old regimental titles, and over the next two years an increasing number of conscript and volunteer battalions were formed. Their quality varied from the proficiency of the early National Guard regiments to the untrained and ill-equipped rabble of the levée. To combine the discipline and steadiness of the regular army with the revolutionary fervour of the new army, the Amalgame was decreed on 21 February; by this measure each regular battalion became the nucleus of a new Demi-Brigade.

Very few cars inspire as much affection as the original Mini. It's the small car everyone loves to eulogise because it oozes energetic fun, classless minimalism and evergreen style. But it's also of massive historical importance: the 1959 Mini, designed by Alec Issigonis, set the template from which all successful compact cars have been created ever after. It was the technological wonder of its age. The original Mini was on sale for 41 years, during which its 5.3m sales made it the best-selling British car of all time – an achievement unlikely ever to be beaten. And just when it looked like the little car would shrivel and die, BMW had the vision to reinvent it as the planet's most desirable small car range, and put it back on the serious motoring map as the MINI. Here, award-winning writer Giles Chapman tells the whole, amazing story.

In this pathbreaking and provocative new treatment of some of the oldest dilemmas of psychology and relationship, Gordon Wheeler challenges the most basic tenet of the West cultural tradition: the individualist self. Characteristics of this self-model are our embedded yet pervasive ideas that the individual self precedes and transcends relationship and social field conditions and that interpersonal experience is somehow secondary and even opposed to the needs of the inner self. Assumptions like these, Wheeler argues, which are taken to be inherent to human nature and development, amount to a controlling cultural paradigm that does considerable violence to both our evolutionary self-nature and our intuitive self-experience. He asserts that we are actually far more relational and intersubjective than our cultural generally allows and that these relational capacities are deeply built into our inherent evolutionary nature. His argument progresses from the origins and lineage of the Western individualist self-model, into the basis for a new model of the self, relationship, and experience out of the insights and implications of Gestalt psychology and its philosophical derivatives, deconstructivism and social constructionism. From there, in a linked series of experiential chapters, each of them a groundbreaking essay in its own right, he takes up the essential dynamic themes of self-experience and relational life: interpersonal orientation, meaning-making and adaptation, support, shame, intimacy, and finally narrative and gender, culminating in considerations of health, ethics, politics, and spirit. The result is a picture and an experience of self that is grounded in the active dynamics of attention, problem solving, imagination, interpretation, evaluation, emotion, meaning-making, narration, and, above all, relationship. By the final section, the reader comes away with a new sense of what it means to be human and a new and more usable definition of health.

Giller Prize-winner M. G. Vassanji gives us a powerfully emotional novel of love and loss, of an African/Indian man who returns to the town of his birth in search of the girl he once loved—and the sense of self that has always eluded him. Kamal Punja is a physician who has lived in Canada for the past forty years, but whom we first meet in a Tanzanian hospital. He is delirious and says he has been poisoned with hallucinogens. But when Kamal finds a curious and sympathetic ear in a local publisher, his ravings begin to reveal a tale of extraordinary pathos, complexity, and mystery. Raised by his African mother, deserted when he was four by his Indian father, married to a woman of Indian heritage, and the father of two wholly Westernized children, Kamal had reached a stage of both undreamed-of material success and disintegrating personal ties. Then, suddenly, he “stepped off the treadmill, allowed an old regret to awaken,” and set off to find the girl he had known as a child, to finally keep his promise to her that he would return. The girl was Saida, granddaughter of a great, beloved Swahili poet.

Kamal and Saida were constant companions—he teaching her English and arithmetic, she teaching him Arabic script and Swahili poetry—and in his child's mind, she was his future wife. Until, when he was eleven, his mother sent him to the capital, Dar es Salaam, to live with his father's relatives, to "become an Indian" and thus secure his future. Now Kamal is journeying back to the village he left, into the maze of his long-unresolved mixed-race identity and the nightmarish legacy of his broken promise to Saida. At once dramatic, searching, and intelligent, *The Magic of Saida* moves deftly between the past and present, painting both an intimate picture of passion and betrayal and a broad canvas of political promise and failure in contemporary Africa. It is a timeless story—and a story very much of our own time.

The R-Series BMW MINI had a lot to live up to. Launched in 2001, it was riding in the wake of the classic 1959-2000 Mini. At the time, BMW were going to have to create something as special and innovative as its longstanding predecessor in order to silence the naysayers. And they did. Since its launch in 2001, BMW's modern MINI has become the pinnacle of small yet funky family cars in the premium small (and sometimes not so small) car segment. Now in its third generation, having unveiled the new F-Series in 2014, BMW MINI offers 3- and 5-door hatchback models and convertibles, the estate Clubman, the five-door Countryman, the Coupe, the Roadster and the three-door crossover Paceman. MINI enthusiast and motoring journalist Sophie Williamson-Stoothert explores the journey from 1959 to the present day, covering design and development of the new MINI, launch and reception by the press, its many model variations and special editions, and an owner's and buyer's guide. Superbly illustrated with 170 colour photographs.

In *The Trap*, Ana Maria Matute explores ties that bind family, society and culture. Through her compelling use of a powerful feminine first-person narrative, Matute highlights the experience of women during the tumultuous years of the Spanish Civil War (1936-1939). Matute delicately weaves a feminist subtext into the larger context of Spain's difficulties in dealing with gender, class and cultural distinctions. She draws from her own experiences to paint a literary picture of the conflict between two groups: the people she calls the merchants - who deny the vitality of life - and the soldiers - who believe in tolerance. In this third novel of the famous trilogy, *The Merchants*, Matute examines the lasting effects of social upheaval, discrimination and lives trapped in conflict.
