Mount Hope Cemetery was established in 1834 by the Bangor Horticultural Society to accommodate the growing needs of a booming lumber town. Shortly after it was created, its founders reincorporated as the Mount Hope Cemetery Corporation and proceeded to establish a nonsectarian, horticultural-based cemetery. The corporation began to beautify its grounds, creating walkways, gardens, bridges and ponds--making it the second garden cemetery in the United States and earning it a spot on the National Register of Historic Places. From Bangor mayors, Civil War heroes and a United States vice president to lumber barons and gangsters, the cemetery is the resting place of the city's most colorful and venerable residents. With the erection of monuments and the donation of land, Mount Hope Cemetery also made important contributions to the City on the Penobscot. In the twenty-first century, it remains a popular location for burials and with visitors to its picturesque ground. Join historian Trudy Irene Scee as she celebrates this enduring centerpiece of the Bangor community. September 16, 1973. Now, over four decades later, Filey's column has enjoyed an uninterrupted stretch as one of the newspaper's most popular features. In 1992 a number of his columns were reprinted in Toronto Sketches: "The Way We Were." Since then another ten volumes have been published. Each column looks at Toronto as it was and contributes to our understanding of how the city became what it is. Illustrated with photographs of the city's people and places of the past, Toronto Sketches are nostalgic journeys for the long-time Torontonians and a voyage of discovery for the newcomer. This special bundle collects volumes seven to nine, packed with fascinating information about Toronto's history. Includes Toronto Sketches 7 Toronto Sketches 8 Toronto Sketches 9

Offers an intriguing glimpse into the daily life of an average Toronto woman in the mid-nineteenth century. Mary Armstrong's diaries are a window into the daily life of a middle-class woman in a new and changing land, and a revealing account of life in early Toronto just before and after confederation. Her journals are one of very few published by Canadian women, especially women outside the upper classes, in the decades surrounding the mid-nineteenth century. Mary Armstrong was the wife of a butcher / farmer who lived in what is now the Yorkville and Deer Park area of Toronto from the 1830s to the 1880s. She had immigrated with her

parents and siblings from England in 1834. Her diaries, which cover five months in 1859 and eight months in 1869, reflect her multiplicity of interests and concerns including family, women's work, faith, status and class, occupation and trade, community networks, and local and national identity. Jackson W. Armstrong's introduction examines who Mary was, what her world was like, and how she saw her own place in it; it also explains the origin and history of the diaries. His extensive primary research supports the well-annotated diaries, and gives contextual information on the events, people, and places that Mary mentions. *Seven Eggs Today* offers new information and a new perspective on mid-Victorian English Canada, and will be welcomed by general readers and scholars interested in colonial life, biography, immigrant experiences, family or local history, or women's studies.

The history of the oldest parish church in the Toronto area is also the history of North Toronto and a changing culture. The War of 1812 was barely over when the people of York Mills felled the trees that would become the first St. John's Anglican Church. Built in 1816 on land donated by pioneer settlers Joseph and Catherine Shepard, the little log church was the first outpost of St. James Church in the Town of York and the first parish church in what would one day become the City of Toronto. The brick church that stands there today, high on the land

overlooking Hogg's Hollow, was completed in 1844. Though enlarged and improved over the years, it continues to serve as a welcoming place of worship and a valuable repository of Canadian history. The Bulletin changed its title to Families beginning with vol. 10 (1971).

Established in 1876, Mount Pleasant Cemetery has a rich and textured history. It is the keeper of thousands of stories, each of which has contributed to the history of our city, province, and country. Many of Canada's most beloved figures rest there - William Lyon Mackenzie King, Foster Hewitt, Glenn Gould, and Timothy Eaton are just a few. Other, less known historical figures are buried there also - the first Canadian soldier killed in First World War and victims of the 1949 Noronic disaster. Along with a fascinating account of the cemetery's history, this illustrated guide includes descriptions of the remarkable monuments and the beautiful horticultural features. Accompanying maps detailing their locations make this book a perfect companion for a walking tour through the grounds.

Toronto Sun columnist Mike Filey is back with Toronto Sketches 8, the series that captures the people, politics, and architecture of Toronto's past with photographs and anecdotes that will change the way you see the city forever. The book brings us back to the time of Toronto's original horse-drawn streetcar, the construction of Maple Leaf Gardens,

and other memories of Toronto, many of which show how history repeats itself, as in the gas price wars of the early 20th century or the debate in 1911 over building a bridge to Toronto island.

In 1882, Robert Koch identified tuberculosis as an infectious bacterial disease. In the sixty years between this revelation and the discovery of an antibiotic treatment, streptomycin, the disease was widespread in Canada, often infecting children within their family homes. Soon, public concerns led to the establishment of hospitals that specialized in the treatment of tuberculosis, including the Toronto sanatorium, which opened in 1904 on the outskirts of the city. Situated in the era before streptomycin, *Building Resistance* explores children's diverse experiences with tuberculosis infection, disease, hospitalization, and treatment at the Toronto sanatorium between 1909 and 1950. This early sanatorium era was defined by the principles of resistance building, recognizing that the body itself possessed a potential to overcome tuberculosis through rest, nutrition, fresh air, and sometimes surgical intervention. Grounded in a rich and descriptive case study and based on archival research, the book holistically approaches the social and biological impact of infection and disease on the bodies, families, and lives of children. Lavishly illustrated, compassionate, and informative, *Building Resistance* details the inner dimensions and

The Tale of Mr. Jeremy Fisher endures as one of Beatrix Potter's most popular and well-loved tales. It tells of an optimistic and slightly accident-prone frog, who sets off on a fishing expedition across the pond, only to find himself bitten on the toe by a water-beetle, fighting with a stickleback, and eventually nearly eaten by a trout! The Tale of Jeremy Fisher is number seven in Beatrix Potter's series of 23 little books, the titles of which are as follows: 1 The Tale of Peter Rabbit 2 The Tale of Squirrel Nutkin 3 The Tailor of Gloucester 4 The Tale of Benjamin Bunny 5 The Tale of Two Bad Mice 6 The Tale of Mrs. Tiggy-Winkle 7 The Tale of Mr. Jeremy Fisher 8 The Tale of Tom Kitten 9 The Tale of Jemima Puddle-Duck 10 The Tale of the Flopsy Bunnies 11 The Tale of Mrs. Tittlemouse 12 The Tale of Timmy Tiptoes 13 The Tale of Johnny Town-Mouse 14 The Tale of Mr. Tod 15 The Tale of Pigling Bland 16 The Tale of Samuel Whiskers 17 The Tale of The Pie and the Patty-Pan 18 The Tale of Ginger and Pickles 19 The Tale of Little Pig Robinson 20 The Story of a Fierce Bad Rabbit 21 The Story of Miss Moppet 22 Appley Dapply's Nursery Rhymes 23 Cecily Parsley's Nursery Rhymes

local history enthusiast Jennifer Grainger has, through extensive research and much personal exploration, produced a valuable document chronicling the "rise and fall" of these pioneering settlements, truly the foundation of all that exist in the area today. Nostalgia buffs, armchair adventurers, genealogists and curious daytrippers alike will welcome the arrival of this timely publication with its many fascinating stories and countless visual reminders of the past.

When William Barker died in an air crash in March 1930, his state funeral was the largest in the history of Toronto. The cortege was two miles long, with 2000 uniformed men as escort and 50,000 spectators looking on. He was, after all, a magnificent airman, a great war hero and holder of the Victoria Cross, the DSO and Bar, the MC and two Italian Silver Medals for Valour and three Mentions-in-Despatches. Moreover, he had 50 Great War victories in the air to his credit. But his life and achievements have, to all intents and purposes, been forgotten or at best overlooked when compared to that other great Canadian war hero, Billy Bishop. Why? Wayne Ralph made it his mission to find out. In what was to become for him "a five-year emotional journey," Ralph has solved many mysteries and laid to rest many half-truths about the man. His book is detailed, meticulously researched and excellently crafted. It holds the interest from beginning to end and deserves to be viewed as the definitive biography of Lieutenant Colonel William Barker; warts and all, and a fitting testimony to the life and time of a legend.

From the earliest memorials used by Native Americans to the elaborate structures of the present day, Richard Veit and Mark Nonestied use grave markers to take an off-beat look at New Jersey's history that is both fascinating and unique. *New Jersey Cemeteries and Tombstones* presents a culturally diverse account of New Jersey's historic burial places from High Point to Cape May and from the banks of the Delaware to the ocean-washed Shore, to explain what cemeteries tell us about people and the communities in which they lived. The evidence ranges from somber seventeenth-century decorations such as hourglasses and skulls that denoted the brevity of colonial life, to modern times where memorials, such as a life-size granite Mercedes Benz, reflect the materialism of the new millennium. Also considered are contemporary novelties such as pet cemeteries and what they reveal about today's culture. To tell their story the authors visited more than 1,000 burial grounds and interviewed numerous monument dealers and cemetarians. This richly illustrated book is essential reading for history buffs and indeed anyone who has ever wandered inquisitively through their local cemeteries.

asks what a deeper exploration of that phenomenon can tell us about American history more broadly.

Comparative in scope, and regionally diverse, chapters look to immigrants, communities of color, the colonized, the enslaved, rich and poor, and religious minorities as they buried kith and kin in locales spanning the Northeast to the Spanish American Southwest. Whether African Americans, Muslim or Christian Arabs, Indians, mestizos, Chinese, Jews, Poles, Catholics, Protestants, or various whites of European descent, one thing that united these Americans was a drive to keep their dead apart. At times, they did so for internal preference. At others, it was a function of external prejudice. Invisible and institutional borders built around and into ethnic cemeteries also tell a powerful story of the ways in which Americans have negotiated race, culture, class, national origin, and religious difference in the United States during its formative centuries.

Authors in this volume include: Diane Arbus Nina Kiriki Hoffman Michael Moore The group of prominent Bostonians who founded Mount Auburn in 1831 had many motives. Although their criticism of urban burials in the name of public health had been to no avail in obtaining public support, the removal of new burials from the center of the expanding city eliminated a particularly bothersome nuisance to real estate developers and urban boosters. By creating a picturesque "rural" cemetery within easy distance from the city center, Mount Auburn's founders solved an

urban land use problem while establishing a multifunctional cultural institution where they could attempt to improve experimental horticulture, cultivate taste for fine art and architecture, and, most importantly, shape a usable past in the aesthetic terms then in international vogue. "Silent City on a Hill" traces Mount Auburn's inception, development, and influence on the urban cemetery and landscape movements, and its many illustrations show what the original visitors to the cemetery saw.
