TV. Web Surfing. IMing. Text Messaging. Video Games. iPods. Kids today are plugged into so much, so much of the time, it's hard to keep track. But parents do know this much: It's too much, already! In this book, parent and scholar David Dutwin, Ph.D., shows parents everywhere how to cut the digital cord and free their children to play and learn the old-fashioned way - actively! Organized in three sections, this practical, prescriptive book offers a balanced - and realistic - approach for every age, including how to: introduce toddlers to TV - or not; let little kids use computers; control pre-teens' online access; evaluate the pros and cons of video games; filter the Internet for teens; combat the impact of the media; and counteract all that sex and violence. This guide arms parents with all the tricks and tools they need to make sure their kids remain happy, healthy, active, and aware, no matter how pervasive the digital world we live in becomes. For the majority of students, the skills and work habits crucial to successful learning are not in place when they arrive at the school door. These skills must be explicitly taught by teachers who recognize the unique learning styles, preferences, and interests of their students. Ready, Set, Learn focuses on the importance of encouraging students to set their own learning goals and persevere to achieve them. It illustrates ways in which every lesson can be an opportunity for students to develop the skills and strategies they need in order to learn. Along with organizers, prompts, and specific activities, this timely book presents new ways to plan lessons that explicitly teach key learning skills, including organization, collaboration, communication, independence, memory, and initiative. This remarkable book shows how incorporating learning strategies into everyday work will improve students achievement, and create responsible, independent learners. "50 engaging reproducible activity sheets, management strategies, and tips for differentiating instruction that help kids build key strategies independently"--Cover.

According to Eleanor Roosevelt, Women are like tea bags. We dont know how strong we are Until we are in hot water. Building on that idea, Hot Water Sisters presents a series of stories about ordinary women that find themselves in extraordinary situations. Faced with unusual and sometimes dangerous circumstances, each woman finds solutions in her own unique way. Along the way, each woman discovers inner strength that she never realized she possessed. Beverly, Janice, Kassie and many others surprise themselves with the wellsprings of courage, humor, and faith they unearth, even in times of great difficulty. Each woman is astonished when she realizes that she is capable of so much more than she ever dreamed possible. Each woman represents the best of all people, everywhere. These uplifting stories feature women that rise above strange and difficult circumstances with strength and integrity. Women who can Women who do Women like you

In 2003, when Terrence Graham was sixteen, he and three other teens attempted to rob a barbecue restaurant in Jacksonville, Florida. Though they left with no money, and no one was seriously injured, Terrence was sentenced to die in prison for his involvement in that crime. As shocking as Terrence's sentence sounds, it is merely a symptom of contemporary American juvenile justice practices. In the United States, adolescents are routinely transferred out of juvenile court and into adult criminal court without any judicial oversight. Once in adult court, children can be sentenced without regard for their youth. Juveniles are housed in adult correctional facilities, they may be held in solitary confinement, and they experience the highest rates of sexual and physical assault among inmates. Until 2005, children convicted in America's courts were subject to the death penalty; today, they still may be sentenced to die in prison--no matter what efforts they make to rehabilitate themselves. America has waged a war on kids. In *The War on Kids*, Cara Drinan reveals how the United States went from being a pioneer to an international pariah in its juvenile sentencing practices. Academics and journalists have long recognized the failings of juvenile justice practices in this country and have called for change. Despite the uncertain political climate, there is hope that recent Supreme Court decisions may finally make those calls a reality. *The War on Kids* seizes upon this moment of judicial and political recognition that children are different in the eyes of the law. Drinan chronicles the shortcomings of juvenile justice by drawing upon social science, legal decisions, and first-hand correspondence with Terrence and others like him--individuals whose adolescent errors have cost them their lives. At the same time, *The War on Kids* maps out concrete steps that states can take to correct the course of American juvenile justice.

Every upper-elementary and middle school educator can teach news literacy and connected literacies, including text, visual, graphic, and video literacy, using this book. This book suggests that news literacy is made up of several other literacies and skills that must not only be explored across the subject areas, but also connected to students' real-world consuming and sharing habits. A series of lessons, some using technology, lay a foundation for building these multiple literacies and skills. While not meant to be a complete program, the lessons provide a holistic experience and are adaptable to personalize students' learning. The author melds strategies for finding and making meaning from information, the multiple literacies that young consumers of news must be familiar with to navigate news and other information, and the digital skills necessary to navigate today's news options. Whether students encounter news in the firewall-protected classroom or pushed out to them on their phones, the series of lessons encourage them to give pause and ask important questions as they move beyond simply consuming to become critical readers of the news. Understand what news literacy is, how it connects to other literacies, and the need for teaching news literacy in upper-elementary and middle school grades Reflect on areas of instruction, learning objectives, and pedagogical approaches to teaching news literacy Be able to implement and adapt targeted lessons focused on learning objectives that build news literacy and other connected literacies in a variety of upper-elementary and middle school learning environments Help students gain writing confidence with this comprehensive collection of easy, super-engaging lessons that invite

them to describe a dream, write a mystery story, create a movie review, compose a business letter, and so many more! Everything you need is here: Complete how-to's, quick mini-lessons, pre-writing graphic organizers, and reproducible assessment forms. A great way to prepare kids to shine on the standardized tests!
