In this innovative guide, master art instructor William Maughan demonstrates how to create a realistic human likeness by using the classic and highly accurate modeling technique of chiaroscuro (Italian for "light and dark") developed by Leonardo da Vinci during the High Renaissance. Maughan first introduces readers to the basics of this centuries-old technique, showing how to analyze form, light, and shadow; use dark pencil, white pencil, and toned paper to create a full range of values; use the elements of design to enhance a likeness; and capture a sitter's gestures and proportions. He then demonstrates, step by step, how to draw each facial feature, develop visual awareness, and render the head in color with soft pastels.

Superior education can only be obtained by acquiring information. Laws are fundamental parts of our lives. Knowing them should be a requisite of basic knowledge and indispensable for each individual who lives in the United States. The primary objective of this book is to make a bilingual legal book available to all who enjoy learning and need information about the legal world: judges, lawyers, legal secretaries, law students, paralegals, students in the political sciences, employees of the court, and any individual who is interested in understanding the rights and laws of a citizen of the United States. As you know, the vocabulary used in law books, whether it is written in Spanish or English, is very technical and therefore difficult to understand. Learning law terminology can be compared to learning a foreign language. As a knowledgeable professional, I encountered these problems when I was reading various law books, and it is one of the reasons that I was motivated to write this book. When I worked at the Norwalk Superior Court in Norwalk, California, under the supervision of Mr. Edward Hinz, I was privileged to become acquainted with the various judges, district attorneys, paralegals, clerks, legal secretaries, and officers. Although I realized that most were well acquainted with English legal terminology, I also observed that many people who came to court to represent themselves in propria persona didn't know or understand the correct legal terminology to be able to present their simple cases nor could they understand how to fill out the technical forms required. I am confident that this book will be a useful resource and that it can be easily used by all who want to become familiar with legal terms in English and Spanish. This book covers nine areas of law: alternative dispute resolutions, bankruptcy, business law, criminal law, family law, juvenile procedures, probate, real estate law/landlord and tenant, and wills and trusts. The terms are presented in English and Spanish. It is organized in such a manner that every term can be easily translated and understood. Each division contains the terms that are necessary for each area of law. Obviously, individuals who are already bilingual will have an advantage. Nevertheless, those who are not bilingual but who are interested in learning legal terms in Spanish or English, for one reason or another, will benefit from this book as well. "

The first comprehensive catalogue of the Getty Museum's significant collection of French Rococo ébénisterie furniture. This catalogue focuses on French ébénisterie furniture in the Rococo style dating from 1735 to 1760. These splendid objects directly reflect the tastes of the Museum's founder, J. Paul Getty, who started collecting in this area in 1938 and continued until his death in 1976. The Museum's collection is particularly rich in examples created by the most talented cabinet masters then active in Paris, including Bernard van Risenburgh II (after 1696–ca. 1766), Jacques Dubois (1694–1763), and Jean-François Oeben (1721–1763). Working for members of the French royal family and aristocracy, these craftsmen excelled at producing veneered and marquetry pieces of furniture (tables, cabinets, and chests of drawers) fashionable for their lavish surfaces, refined gilt-bronze mounts, and elaborate design. These objects were renowned throughout Europe at a time when Paris was considered the capital of good taste. The entry on each work comprises both a curatorial section, with description and commentary, and a conservation report, with construction diagrams. An introduction by Anne-Lise Desmas traces the collection's acquisition history, and two technical essays by Arlen Heginbotham present methodologies and findings on the analysis of gilt-bronze mounts and lacquer. www.getty.edu/publications/rococo
