

Personalities And Problems Interpretive Essays In World Civilizations V 2

Primarily for use in college survey courses in American history.

An ideal complement for any history course, *A Short Guide to Writing About History* stresses thinking and writing like an historian. This engaging and practical text helps students get beyond merely compiling dates and facts; it teaches them how to incorporate their own ideas into their papers and to tell a story about history that interests them and their peers. Covering brief essays and the documented resource paper, the text explores the writing and researching processes, different modes of historical writing (including argument), and offers guidelines for improving style as well as documenting sources.

This biography traces the career of Frenchman Jacques Coeur, royal official, merchant, and financier, amidst war and exploration in Fifteenth-Century Europe, and invites readers to consider Coeur's career against a broad historical context. The titles in the Library of World Biography series make ideal supplements for World History survey courses or other courses in the history curriculum where figures in history are explored. Paperback, brief and inexpensive, each interpretative biography in this series focuses on a figure whose actions and ideas significantly influenced the course of World history, and relates the life of its subject to the broader themes and developments of the times. This biography traces the career of Jacques Coeur as a royal official, merchant, bursar, a supply officer catering to the needs of the royal household, and powerful financier to Charles the VII (1422-1461), amidst war and exploration

Online Library Personalities And Problems Interpretive Essays In World Civilizations V 2

in Fifteenth-Century Europe, and invites the reader to consider Coeur's career from its high point as one of the richest and most powerful men in France to his startling downfall, disgrace, and banishment against the broad historical background of the Fifteenth Century, a transitional time between the traditional medieval period and the early modern era.

Trained in the German tradition, Rolf Knierim is a scholar who has made many significant contributions to the ongoing discussion of form criticism, tradition history, and theology. He is also a passionate and charismatic teacher and a widely respected author and editor who has served the scholarly world most visibly in his role as coeditor of the Forms of the Old Testament Literature commentary series. Problems in Biblical Theology is an erudite collection of twenty four essays produced to honor Knierim's contribution to the study of biblical theology. It also stands in its own right as a vade mecum of current trends in biblical scholarship. Written by an international array of respected scholars--Knierim's colleagues, former students, and fellow commentators--this volume includes detailed exegetical studies, discussions of theological methods and approaches from a variety of standpoints, and efforts at relating Old Testament exegesis, theology, and hermeneutics to current interests in social scientific methods of interpretation or postmodern thought. In all, the breadth of interests found in this volume reflects the intellectual vitality and passion that Knierim himself has brought to the discipline. A biographical narrative written by Hildegard Knierim and a foreword by James M. Robinson provide additional insight into the historical and social contexts within which Knierim's work has unfolded.

What kind of psychology should be used in historical interpretation? How should it be used, and on what range of historical problems? These are some of the basic questions addressed

Online Library Personalities And Problems Interpretive Essays In World Civilizations V 2

by the distinguished contributors.

This work provides a broad introduction to the evolution of world civilizations from ancient times to 1700. Short documents, photographs and charts, along with introductions, commentaries, guides and questions, are included to help clarify the material presented. Organized chronologically and regionally, the text also offers an alternate topical table of contents. This anthology aims to give students insight into how historians use evidence and make the interpretations that underlie our understandings of world civilizations.

This handbook presents a comprehensive introduction to the core areas of philosophy of education combined with an up-to-date selection of the central themes. It includes 95 newly commissioned articles that focus on and advance key arguments; each essay incorporates essential background material serving to clarify the history and logic of the relevant topic, examining the status quo of the discipline with respect to the topic, and discussing the possible futures of the field. The book provides a state-of-the-art overview of philosophy of education, covering a range of topics: *Voices from the present and the past* deals with 36 major figures that philosophers of education rely on; *Schools of thought* addresses 14 stances including Eastern, Indigenous, and African philosophies of education as well as religiously inspired philosophies of education such as Jewish and Islamic; *Revisiting enduring educational debates* scrutinizes 25 issues heavily debated in the past and the present, for example care and justice, democracy, and the curriculum; *New areas and developments* addresses 17 emerging issues that have garnered considerable attention like neuroscience, videogames, and radicalization. The collection is relevant for lecturers teaching undergraduate and graduate courses in philosophy of education as well as for colleagues in teacher training. Moreover, it helps junior

researchers in philosophy of education to situate the problems they are addressing within the wider field of philosophy of education and offers a valuable update for experienced scholars dealing with issues in the sub-discipline. Combined with different conceptions of the purpose of philosophy, it discusses various aspects, using diverse perspectives to do so. Contributing Editors: Section 1: Voices from the Present and the Past: Nuraan Davids Section 2: Schools of Thought: Christiane Thompson and Joris Vlieghe Section 3: Revisiting Enduring Debates: Ann Chinnery, Naomi Hodgson, and Viktor Johansson Section 4: New Areas and Developments: Kai Horsthemke, Dirk Willem Postma, and Claudia Ruitenberg

The Homeric Hymn to Demeter, composed in the late seventh or early sixth century B.C.E., is a key to understanding the psychological and religious world of ancient Greek women. The poem tells how Hades, lord of the underworld, abducted the goddess Persephone and how her grieving mother, Demeter, the goddess of grain, forced the gods to allow Persephone to return to her for part of each year. Helene Foley presents the Greek text and an annotated translation of this poem, together with selected essays that give the reader a rich understanding of the Hymn's structure and artistry, its role in the religious life of the ancient world, and its meaning for the modern world.

Personalities and Problems Interpretive Essays in World Civilizations Encyclopedia of Historians and Historical Writers Routledge

This book focuses on the great War's effect on Africa in general and Malawi in particular. It describes the outbreak of the war, the recruitment of soldiers, the drafting of porters, the conditions of military life, the conditions on the home front, and the war's end.

This informative anthology provides convenient, inexpensive access to a wide range of current,

carefully selected articles from some of the most respected magazines, newspapers, and journals published today. Within the pages of this volume are interesting well-illustrated articles by historians, educators, researchers, and writers, providing an effective and useful perspective on world history from prehistory to 1500. The title is supported by our student website, Dushkin Online. (<http://www.dushkin.com/online>)

A Penguin Classics Deluxe Edition of a counterculture classic, and the inspiration for the new Netflix original series *Ratched*, with a foreword by Chuck Palahniuk Boisterous, ribald, and ultimately shattering, Ken Kesey's 1962 novel has left an indelible mark on the literature of our time. Now in a new deluxe edition with a foreword by Chuck Palahniuk and cover by Joe Sacco, here is the unforgettable story of a mental ward and its inhabitants, especially the tyrannical Big Nurse Ratched and Randle Patrick McMurphy, the brawling, fun-loving new inmate who resolves to oppose her. We see the struggle through the eyes of Chief Bromden, the seemingly mute half-Indian patient who witnesses and understands McMurphy's heroic attempt to do battle with the powers that keep them all imprisoned. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators. A collection of over 150 speeches reflecting a broad range of issues before the American public between 1937 and 1997, organized around sixteen interconnected themes, including civil rights, education, and war.

The success of this best-selling text lies in the author's belief that a good text talks with, rather than at, its readers. Shaffer does an extraordinary job of anticipating students' interests, questions, and concerns while treating them as active participants in the process of learning about social and personality development. The Sixth edition of **SOCIAL AND PERSONALITY DEVELOPMENT** features clearly written, current coverage of social and personality development that aids students in discovering the causes, processes, and complexities that underlie developmental change. Students learn why biological and environmental factors, contextual factors such as cross-cultural, familial, neighborhood, school, and peer-group influences cause change in children. Shaffer also explores the approaches that researchers use to test their theories and answer important questions about developing children and adolescents. This book's effective coverage of field research stands out from other texts not only for its accuracy and currency, but because Shaffer consistently juxtaposes classic research with the latest breakthroughs in a way that helps students appreciate how knowledge builds on earlier findings. This edition features a much stronger emphasis on cultural influences on development. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama. Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day, including individuals from related disciplines like Jürgen Habermas and Clifford Geertz, whose theoretical contributions have informed historical debate. Additionally, the Encyclopedia includes some 200 essays treating

the development of national, regional and topical historiographies, from the Ancient Near East to the history of sexuality. In addition to the Western tradition, it includes substantial assessments of African, Asian, and Latin American historians and debates on gender and subaltern studies.

A surprising range of scholars return to the works of Aristotle as a source of fresh perspectives on their disciplines. Furthering that aim, an eclectic group of classicists and political scientists discusses the importance of Aristotle's political and ethical writings--for example, the Poetics, the Rhetoric, the Politics, and ethical and historical treatises--to contemporary approaches in political and social science. The collection examines underlying concepts such as production, race, class, and gender, as well as more traditional Aristotelian topics such as justice, monarchy and democracy, and the relationship between law and constitution. Emphasizing contemporary relevance and following Aristotle himself, this volume proceeds on the premise that the human sciences do not seek simply to increase knowledge but rather to benefit human life. but rather to benefit human life.

In this book, Nancy C. M. Hartsock offers her current thinking about the development of feminist political economy, focusing on the relationships between feminist theory and activism, feminism and Marxism, and postmodernism and feminist politics.

First published in 1875 and read by more than eight million people, this nondenominational book has a 119-year history of healing and inspiration. To attract a new audience, this time-honored message of healing has a powerful new cover, easy-to-read page layout, and word index. Named one of "75 Books by Women Whose Words Have Changed the World".

In *The Mystery of Personality: A History of Psychodynamic Theories*, acclaimed professor and historian Eugene Taylor synthesizes the field's first century and a half into a rich, highly readable account. Taylor situates the dynamic school in its catalytic place in history, re-evaluating misunderstood figures and events, re-creating the heady milieu of discovery as the concept of "mental science" dawns across Europe, revisiting the widening rift between clinical and experimental study (or the couch and the lab) as early psychology matured into legitimate science. Gradual but vital evolutions form the heart of this chronicle: the ebb and flow of analytic theory and practice, the shift from doctor-centered to client-centered therapy, the movement from exclusionary to multidisciplinary, the evolving role of the therapist. And as can be expected from the author, there is special emphasis on the sublime in psychology: the philosophy/psychology fusion of the New England transcendentalists, the battle between spiritualism and science in 1880s America, and early versions of today's spiritually-attuned therapies. Pivotal concepts and key individuals covered are: Charcot, Janet, and the origins of dynamic personality theory in the so-called French, Swiss, English, and American

Online Library Personalities And Problems Interpretive Essays In World Civilizations V 2

psychotherapeutic axis. Person and personality: William James's "radical empiricism" The rise of psychoanalysis: Freud, the Freudians, and the Neo-Freudians Adler and Jung, who were never "students" of Freud: Toward, within, and beyond the self Murray, Allport, and Lewin at Harvard in the 30s Culture and personality, pastoral counseling, and Gestalt Psychology in New York in the '40s and '50s An Existential-humanistic and Transpersonally oriented depth psychology in the 60s The current era: "science confronts itself", as neuroscience enters the picture. Students of psychology and its history will find in this inspiring narrative both possibilities for further study and a new appreciation of their own work. The Mystery of Personality: A History of Psychodynamic Theories is a stimulating course conducted by a master teacher.

Some programs include also the programs of societies meeting concurrently with the association.

A major national goal is to improve the health of the populace while advancing our opportunities to pursue happiness. Simultaneously, there are both increasing health costs and increasing demands that more be accomplished with less financial support. The number of deaths attributable to the consumption of alcohol in the US is about 100,000 per year, and the annual cost of this addiction is over \$100 billion. Improved treatment methods can both reduce these costs and improve health by preventing the continued exposure of abusers to the toxic effects of alcohol. This third volume of Drug and Alcohol Abuse Reviews focuses on the strategies currently thought best for the treatment of alcohol and tobacco abuse. A variety of approaches to treating alcohol abuse employ those psychosocial factors that are known to influence alcohol use in youth and adults. Pharmacotherapy has also been evaluated at the

Online Library Personalities And Problems Interpretive Essays In World Civilizations V 2

National Institute of Alcohol Abuse and Alcoholism by leaders in alcohol treatment research. One key review investigates forming a developmental framework for the treatment of adolescent alcohol abusers, a major challenge. Although the main emphasis is on the treatment of alcoholism, a major cofactor for many drug users is nicotine (tobacco) addiction, whose treatment is also reviewed. And the roles of learning and outpatient services are shown to affect treatment significantly. Thus, the problems confronted and solutions used in alcohol abuse treatment have here been analyzed in concise reviews that provide evidence for today's best hypotheses and conclusions.

Taking Sides volumes present current controversial issues in a debate-style format designed to stimulate student interest and develop critical thinking skills. Each issue is thoughtfully framed with an issue summary, an issue introduction, and a postscript or challenge questions. Taking Sides readers feature an annotated listing of selected World Wide Web sites. An online Instructor's Resource Guide with testing material is available for each volume. Using Taking Sides in the Classroom is also an excellent instructor resource. Visit www.mhcls.com for more information.

A resource book for teachers of world history at all levels. The text contains individual sections on art, gender, religion, philosophy, literature, trade and technology. Lesson plans, reading and multi-media recommendations and suggestions for classroom activities are also provided. First published in 1982, this is one of Mary Douglas' favourite books. It is based on her meetings with friends in which they attempt to apply the grip/group analysis from Natural Symbols. The essays have been important texts for preparing grid/group exercises ever since. She is still trying to improve the argument of Natural Symbols and is always hoping to find

Online Library Personalities And Problems Interpretive Essays In World Civilizations V 2

better applications to illustrate the power of the two dimensions used for accurate comparison. Donald W. Fiske's professional life and collaborations are themselves a textbook in the development of the field of personality. From the field's early origins in personnel selection, rating accuracy, and psychotherapy outcomes, to its current status of theoretical and methodological maturity -- complete with mid-life crises -- the field has been fundamentally changed by Fiske's work, and the changes have influenced generations of scholars. This festschrift is a celebration of Fiske's impact, but not merely of his impact on the history of personality research. Instead, the volume focuses on ongoing debates and issues that have been framed or influenced by Fiske's work. The festschrift's three sections are organized around three themes in Fiske's writings -- themes that also correspond to three periods in his career. This volume examines current thinking about what can be known about personality, how constructs relevant to personality psychology are best measured, and how to approach specific research problems in personality and related fields. The contributors create an eminent cross-section of the development and current status of personality methods. In addition to Fiske's eminent contemporaries, the contributors to this volume include Fiske's former students, collaborators, and his two children, both of whom are behavioral scientists. The accomplishments of his students, colleagues, and children

Online Library Personalities And Problems Interpretive Essays In World Civilizations V 2

testifies to the range of psychologists who have benefited from his scholarly and practical wisdom. This collection is a valuable textbook for an advanced graduate course as well as appealing as a scholarly resource. Many of the contributors are renown psychological leaders who have made available their latest original thoughts. The book concludes with an essay by Fiske offering his perspective on the central themes: behavioral and social science metatheory, methods, and strategies.

An African-American family is united in love and pride as they struggle to overcome poverty and harsh living conditions, in the award-winning 1959 play about an embattled Chicago family
