The presidential historian charts the progression of American power from George Washington to George W. Bush, revealing the exercise of power through the office as it has developed into an "imperial" seat of authority, in an updated edition of the classic history. Reprint.

Pearson Edexcel A Level US Government and Politics Hodder Education

In this provocative book, one of our most eminent political scientists questions the extent to which the American Constitution furthers democratic goals. Robert Dahl reveals the Constitution's potentially antidemocratic elements and explains why they are there, compares the American constitutional system to other democratic systems, and explores how we might alter our political system to achieve greater equality among citizens. In a new chapter for this second edition, he shows how increasing differences in state populations revealed by the Census of 2000 have further increased the veto power over constitutional amendments held by a tiny minority of Americans. He then explores the prospects for changing some important political practices that are not prescribed by the written Constitution, though most Americans may assume them to be so.

Exam board: Edexcel Level: A-level Subject: Politics First teaching: September 2017
