It was a simple incident in the life of James Clavell—a talk with his young daughter just

home from school—that inspired this chilling tale of what could happen in twenty-five quietly devastating minutes. He writes, "The Children's Story came into being that day. It was then that I really realized how vulnerable my child's mind was —any mind, for that matter—under controlled circumstances. Normally I write and rewrite and re-rewrite, but this story came quickly—almost by itself. Barely three words were changed. It pleases me greatly because I kept asking the questions... Questions like, What's the use of 'I pledge allegiance' without understanding? Like Why is it so easy to divert thoughts? Like What is freedom? and Why is so hard to explain? The Children's Story keeps asking me all sorts of questions I cannot answer. Perhaps you can—then your child will...."

Participatory development and government accountability depend in part on the existence of media that provide broad access to information from varied sources and that equip and encourage people to raise and debate issues and develop public opinion. Conducive policies, laws, and regulations are essential for media to develop that are independent and widely accessible and that enable the expression of diverse perspectives and sources of information. Broadcasting, Voice, and Accountability presents a framework to inform analysis of existing policies and support the development of a vigorous media sector, with a particular emphasis on broadcasting. It focuses on broadcasting because that is the medium with the greatest potential to reach and involve society at large, including the most disadvantaged and illiterate segments of society in developing countries. Information on good practices in broadcasting policy is in demand in countries of every region—particularly in countries that are opening their economies, democratizing, and decentralizing public service delivery. This book provides development practitioners with a wide overview of the key policy and regulatory issues involved in supporting freedom of information and expression and enabling development of a pluralistic, independent, and robust broadcasting sector. Policy, regulation, capacity, and institutional development are important development levers that shape the ownership, content, and social impacts of broadcasting systems. The guide shows the importance of enabling a mix of ownership and uses, commonly classified in terms of commercial, public service, and community broadcasting, that serves the public interest. With the guidance of this book, broadcasting policy and regulation can be tackled as a mainstream development topic, with important consequences for government transparency, government accountability, and enabling disadvantaged constituencies to voice their concerns and press for action. This book is the World Bank's first publication presenting good practices from around the world in media and broadcasting policy and regulation and complements existing work in governance, public sector reform, and access to information. It is a useful tool for policymakers, reform managers, development practitioners, and students alike. "Most books on the state of broadcasting in the third world tend either to lament the lack of governance, accountability and competence, or to speak down to their readers. This book is part of a new generation that acknowledges ability and a willingness to move forward into the twenty-first century with integrity and imagination. It is not patronizing, and it is certainly not boring. It focuses on really useful approaches to setting up, sustaining, and governing broadcasting systems across the world. This is an excellent book whose combination of sound scholarship and intelligent advice will be welcomed by policymakers and broadcasters alike. It is relevant, interesting, and a jolly

good read." ---Ruth Teer-Tomaselli, UNESCO Chair in Communication for Southern Africa, Culture, Communication and Media Studies, University of KwaZulu-Natal

Indian Railways is popularly known as the lifeline of the common man. It holds the pride of being the largest railway network all over the world. In recent years, the government has collaborated with many technical and scientific agencies to provide safer, more comfortable, and more efficient services to its customers. Well, this has led to the immense growth and achievement of the Railway sector including embedded systems, security cameras, fog vision technologies, and solar heat engines, etc. Besides, the Indian Railways stands as one of the largest employers in the nation. Recruitment to this sector is made by the Railway Recruitment Board (RRB).

The High Court of Telangana is the High Court of the Indian state Telangana. Founded

by the 7th Nizam H.E.H Mir Osman Ali Khan, initially, it was set up as High Court of Hyderabad for the then Princely State of Hyderabad Deccan and later renamed High Court of Andhra Pradesh, as it was set up on 5 November 1956 under the States Reorganisation Act, 1956. The Andhra Pradesh High Court was renamed as High Court of Judicature at Hyderabad in view of bifurcation of Andhra Pradesh state.

Designed as a textbook for undergraduate and postgraduate students of journalism, mass communication, visual communication, electronic media and other related media courses, this compact text provides a detailed description of the rules, acts and ethics concerning print, electronic, film and advertising media as prevalent in India. The book begins with the history of media law in India and discusses the specific provisions in the Constitution of India which are essential for a journalist to know. It then goes on to define the concepts of freedom of media, defamation and Intellectual Property Rights. Besides, the text discusses in detail the provisions of the Indian Penal Code and the Criminal Procedure Code relevant to the media. In addition to covering different types of cyber crimes such as hacking, cracking and e-mail bombing, it includes regulations related to film media and advertising. Finally, the book throws light on media law concerning women and children. The book also includes several important cases to enable students to relate various acts and regulations to real-life situations. Besides students, journalists and other media professionals who cover courts and law-related beats would also find this book immensely valuable.

The Engineering Assistant Passbook(R) prepares you for your test by allowing you to take practice exams in the subjects you need to study. This book is an endeavor of Oswaal Books to assist RRB NTPC aspirants prepare for and excel in this examination. It has been written to provide the aspirants well-conceptualized and structured practice material.

A stereotype image of Nara Chandrababu Naidu has been formed in the last 40 years. His story is remarkable at every level. But often questions, which is the important story? The one where he evolves into one of the extraordinary leaders in Indian politics over four decades? Or that of an ordinary man from a farming family who worked his way to the top by keeping his family and political party together? That which reflects his political acumen, intellect, and hardwork? Or the one that unveils the person who introduced Andhra Pradesh to India? This book attempts to show how Naidu has been a quintessential survivor in Indian politics. This book analyses how Naidu's ability to combine politics and governance has touched every aspect of Indian domestic and foreign policy, from the struggle for social, technological, economic and administrative reforms to creating world-class institutions. It establishes the fact that Naidu, today, is a symbol and an embodiment of many Indias - modern, progressive, rural and cultural.

16 years (1999–2014) authentic question papers of Combined Medical Services (UPSC) with answers, detailed explanations, and references Lucid and stylized presentation with tables, flowcharts, and complete coverage of the related topics

Coverage of the topics from the point of view of NEET as well as other PG and DNB entrance exams
