

Pu Cet Sample Papers

What is Punjabyat? What are the different notions of Punjab? This volume analyses these ideas and explores the different aspects that constitute Punjab as a region conceptually in history, culture, and practice. Each essay examines a different Punjabi culture—language-based and literary; religious and those that define a 'community'; rural, urban, and middle class; and historical, contemporary, and cosmopolitan. Together, these essays unravel the complex foundations of Punjabyat. The volume also shows how the recent history of Punjab—partition, aspirations of statehood, and a large and assertive diaspora—has had a discernible impact on the region's scholarship. Departing from conventional studies on Punjab, this book presents fresh perspectives and new insights into its regional culture.

For cracking any competitive exam one need to have clear guidance, right kind of study material and thorough practice. When the preparation is done for the exams like JEE Main and NEET one need to have clear concept about each and every topic and understanding of the examination pattern are most important things which can be done by using the good collection of Previous Years' Solved Papers.

This book reports in detail the newly developed Communicative Listening Comprehension Test (CLCT) for the National College English Test (CET) of China. Following the principles of communicative testing in general and test construction approach proposed by Bachman and Palmer (1996) in particular, the project develops CLCT for CET-4 and CET-6. The research begins with the construction of frameworks of listening task characteristics and communicative listening ability. Subsequently, based on a survey of Chinese college students' English listening needs and an analysis of listening tasks in influential English listening course books and public tests, CLCT-4 and CLCT-6 test specifications are developed. Finally, sample papers are produced and a series of posteriori studies are conducted to examine the difficulty and usefulness of the newly developed notes-completion task type in two CLCT tests. As an example of successful integration of communicative testing theories and test construction practice, this research provides valuable insights into listening test development for other large-scale tests.

Mastering the previous years' papers is a sure-shot method of ensuring better performance in the actual examination.
