@wmpublications Testimonials * Hi there - I'm just emailing you to tell you how much I love your Oboe duet books, especially the vast range of Christmas music! I have all of them! I'm an oboe and double bass teacher based in Dublin, and I am very much a Christmas enthusiast. I'm known among my students for wearing Christmas socks 365 days a year (they've checked!!) I've taken on some very keen adult double bass students this year, and I'll be buying your double bass Xmas duets to play with them as the time approaches... Given the brilliance of the oboe books, I'm really looking forward to it. Many thanks and keep up the good work!

Children are inherently musical. They respond to music and learn through music. Music expresses children's identity and heritage, teaches them to belong to a culture, and develops their cognitive well-being and inner self worth. As professional instructors, childcare workers, or students looking forward to a career working with children, we should continuously search for ways to tap into children's natural reservoir of enthusiasm for singing, moving and experimenting with instruments. But how, you might ask? What music is appropriate for the children I'm working with? How can music help inspire a well-rounded child? How do I reach and teach children musically? Most importantly perhaps, how can I incorporate music into a

curriculum that marginalizes the arts? This book explores a holistic, artistic, and integrated approach to understanding the developmental connections between music and children. This book guides professionals to work through music, harnessing the processes that underlie music learning, and outlining developmentally appropriate methods to understand the role of music in children's lives through play, games, creativity, and movement. and Italian baroque music. O'Carolan's music was not published during his lifetime; therefore, various versions of his melodies have been handed down through the aural tradition. It is also not known how he accompanied his melodies. This collection presents 39 favorite O'Carolan melodies in easily playable, lively arrangements for alto (treble) recorder, with guitar chords above the staves. Included are four original melodies by Richard Voss inspired by and in the style of the early master.

Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting "by the textbook" implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning In Ditch That Textbook, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods. Ditch That Textbook is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms.
