

Royally Entangled A Reverse Harem Fantasy Her Royal Harem Book 1

I'd needed a job and found myself applying at Lyrics, an intimate jazz bar in the heart of the city. My goal was simple-earn enough money so my ailing father didn't have to worry about anything. What hadn't been in my plans was instantly being attracted to Bishop, my new boss and the resident bartender. The attraction was insane, and the chemistry was off the charts between us. And the obsession he threw my way should have frightened me, but instead it made me want him even more. He was protective, making me feel as if I were the only woman in the world for him. And after a heated night of passionate abandon, I realized he ruined me for all other men. It was the single most incredible experience of my life. He said-vowed-he'd never let me go, that I was meant to be his... that it was meant to be between us. And when I all but snuck out of his bed while he still slept, doing the Walk of Shame, I worried things could never work between us. What I knew for certain was the one-night stand I just had with my boss was something I wanted to experience over and over again. Because I realized I'd already fallen in love with Bishop. But life was full of conflict, and mine especially was chaos. Sometimes that was too much for anyone to take on, even for a man who said I was meant to be his.

Tora's been on a lot of awful blind dates. All she wants is to find someone who loves her for who she is, which might be a tall order considering she's part demon. But then she goes out with the gorgeous Edan, and the pair immediately hit it off. Edan's forthcoming about being a dragon, and royalty, to boot, which only makes Tora even more reluctant to risk ruining things by telling him about her demon heritage. However, no matter how hard she tries, she can't keep it a secret forever. First published in Germany in 1929, *The End and the Beginning* is a lively personal memoir of a vanished world and of a rebellious, high-spirited young woman's struggle to achieve independence. Born in 1883 into a distinguished and wealthy aristocratic family of the old Austro-Hungarian Empire, Hermynia Zur Muhlen spent much of her childhood travelling in Europe and North Africa with her diplomat father. After five years on her German husband's estate in czarist Russia she broke with both her family and her husband and set out on a precarious career as a professional writer committed to socialism. Besides translating many leading contemporary authors, notably Upton Sinclair, into German, she herself published an impressive number of politically engaged novels, detective stories, short stories, and children's fairy tales. Because of her outspoken opposition to National Socialism, she had to flee her native Austria in 1938 and seek refuge in England, where she died, virtually penniless, in 1951. This revised and corrected translation of Zur Muhlen's memoir - with extensive notes and an essay on the author by Lionel Gossman - will appeal especially to readers interested in women's history, the Central European aristocratic world that came to an end with the First World War, and the culture and politics of the late nineteenth and early twentieth centuries.

Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control – from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed “beguiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of

confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

In doing so, the book highlights the conjoined history of broad transnational processes and local political change. From USA Today bestselling author K Webster and Nikki Ash comes an angsty, new adult, why choose romance. Oh, look, Ashton Carter destroyed his life-again. Dad's disappointed in me. No shocker there. But with them, it's worse. We're torn apart and I'm responsible for the shredding. Selfish. Liar. Unworthy. I've made a mess of it all. I'm not sure it's even fixable. Four broken hearts... Anyone got any tape? I may be self-destructive and have sucked them into my mess, destroying everyone's lives in the process, but I'm sure I can fix it. It's gonna take focus and determination, both of which I'm sorely lacking. I'm a spoiled boy who's used to getting what I want. In this case, I want them. All of them. And I sure as hell won't stop until I succeed. Not until we're bound together by... Me. Authors' note: Bound Together is a full-length mature, new

adult, why choose romance between friends to lovers, enemies to lovers, with a bit of taboo thrown in. This story contains MF/MFMM/MM scenes. It's the epic conclusion in the Torn and Bound duet. Torn Apart must be read first.

I was, after all, worse than ordinary, a 27-year-old bespectacled workaholic who cared so little about her appearance that she didn't mind leaving the house without taking a shower. I never wore makeup and had my hair up all the time so I wouldn't have to drag a comb through the occasional knots. The only reason people didn't think I was a social misfit was because Korean fashion had claimed global domination; I could now leave the house in hoodies and sweat pants and still have my outfit considered as stylish. So I was that kind of person, and Ioniko being another kind of person, you could see why I had to think I was imagining things. There were times when I would be on my desk, tapping away on my iPad when I'd feel his gaze on me. Times when I would browse the latest magazines on the racks and I'd feel his eyes following every unconscious sway of my hips. Times when his stare would just burn so effing much that my body couldn't help reacting, and I'd start tingling and aching all over. Times when I wanted to forget all my inhibitions and be just like almost every other girl at Associate and imagine him making love to me. There were lots of times that it almost felt undeniable he was staring at me, but even so. Every time I felt he might be staring at me, I simply told myself nope. Just nope, nope, nope. Could he really be staring at me while I was waiting for his sister to issue me a replacement card at the counter? Nope. Were those his eyes digging holes into my back while I was chatting with Wyatt? Nope. I was determined to never let myself think otherwise, thinking that would end things, but it didn't. Note: This is a steamy, insta-love, standalone no-cliffhangers romance. 100% escapist fiction.

I've never been afraid of the dark...but that doesn't mean I wanted to live in it. And maybe everyone wants what they can't have, but I should've thought it over before I accepted the key and unlocked the door to their forbidden world. Number One is mostly silent. He watches me with them very carefully. His gaze never wanders. His interest never wanes. Number Two is mostly gentle. But it's the other side of him I like best. The wild side. Number Three is mostly reserved. He refuses to cross the line. Even when I beg. It was carnal, it was sensual, and it was erotic. That's it. That's all it was supposed to be. A trip into the dark. A peek into the forbidden. I just didn't expect to like them. All I wanted was a night out alone to try and feel normal again. Instead, I spent most of my time drowning my sorrows in whiskey and listening to every song that Blondie has ever produced. I left before the liquor got the best of me, but not before putting the jukebox out of commission, and the self-appointed DJ wasn't impressed. I tried to get away, but he followed. When I decided to confront my newfound demon, I found myself face-to-face with one of the most beautiful men I had ever laid eyes on. But there's a saying about the Devil appearing as everything you ever wanted, and it's true. Because to me, for that one moment, he was everything I needed. I didn't want him to come home with me, yet he refused to leave. He wanted to have some fun. I was going to be his new game and he was going to play with me until he was bored and went on his merry way again. See, he doesn't know that I'm a monster too. He only sees the outside and not the in. One night with the devil is what I've got and I'll show him that not everything that's as equally beautiful as he is, is made of innocence and grace. He wants to play ... and now? So do I. **A Brush with the Devil** brings together Gray Talbot from *Death Blooms* and Lakyn Meyer from the *Maldecition Duet* for one night of hell that you won't soon forget.
