

Sage Readings For Introductory Sociology By Kimberly McGann

This bundle includes Chambliss: Discover Sociology, 2e and McGann: SAGE Readings for Introductory Sociology Essentials of Sociology, adapted from George Ritzer's Introduction to Sociology, provides the same rock-solid foundation from one of sociology's best-known thinkers in a shorter and more streamlined format. With new co-author Wendy Wiedenhoft Murphy, the Third Edition continues to illuminate traditional sociological concepts and theories and focuses on some of the most compelling features of contemporary social life: globalization, consumer culture, the internet, and the "McDonaldization" of society. New to this Edition New "Trending" boxes focus on influential books by sociologists that have become part of the public conversation about important issues. Replacing "Public Sociology" boxes, this feature demonstrates the diversity of sociology's practitioners, methods, and subject matter, featuring such authors as o Michelle Alexander (The New Jim Crow) o Elizabeth Armstrong and Laura Hamilton (Paying for the Party) o Matthew Desmond (Evicted) o Arlie Hochschild (Strangers in Their Own Land) o Eric Klinenberg (Going Solo) o C.J. Pascoe (Dude, You're a Fag) o Lori Peek and Alice Fothergill (Children of Katrina) o Allison Pugh (The Tumbleweed Society) Updated examples in the text and "Digital Living" boxes keep pace with changes in digital technology and online practices, including Uber, Bitcoin, net neutrality, digital privacy, WikiLeaks, and cyberactivism. New or updated subjects apply sociological thinking to the latest issues including: the 2016 U.S. election Brexit the global growth of ISIS climate change further segmentation of wealthy Americans as the "super rich" transgender people in the U.S. armed forces charter schools the legalization of marijuana the Flint water crisis fourth-wave feminism

This reader was developed to be used in numerous courses taught in sociology. It is appropriate for an introductory course, as well as a social problems or special topics course. The readings have been selected from numerous well respected sociology journals and they have been edited to make them more "user friendly" for the undergraduate student. This reader allows undergraduate students to read about the major topics in sociology in the words of the original authors. The reader includes a topic guide to help the instructor better integrate the material into their course and well-crafted section openers place each article in context for the student. This series of readings has been vetted by an Advisory Board of sociology instructors to ensure quality.

Wake up your introductory sociology classes! Sociology in Action helps your students learn sociology by doing sociology. Sociology in Action by Kathleen Odell Korgen and Maxine P. Atkinson will inspire your students to do sociology through real-world activities designed to increase learning, retention, and engagement with course material. Packed with new activities and thought-provoking questions to help explain key concepts, the Second Edition of this innovative bestselling text immerses students in an active learning experience that emphasizes hands-on work, application, and learning by example. Each chapter has been updated to reflect recent societal changes including: the causes for and ramifications of the 2016 election; the latest issues facing the LGBT community, people of color, immigrants and refugees, and the shrinking middle class; and student loan debt. The comprehensive Activity Guide that accompanies the text provides everything you need to assign, carry out, and assess the activities that will best engage your students, fit the format of your course, and meet your course goals. Also available as a digital option (courseware). Contact your rep to learn more about Sociology in Action, Second Edition - Vantage Digital Option. A rallying cry to link the food justice movement to broader social justice debates The United States is a nation of foodies and food activists, many of them progressives, and yet their overwhelming concern for what they consume often hinders their engagement with social justice

more broadly. *Food Justice Now!* charts a path from food activism to social justice activism that integrates the two. It calls on the food-focused to broaden and deepen their commitment to the struggle against structural inequalities both within and beyond the food system. In an engrossing, historically grounded, and ethnographically rich narrative, Joshua Sbicca argues that food justice is more than just a myopic focus on food, allowing scholars and activists alike to investigate the causes behind inequities and evaluate and implement political strategies to overcome them. Focusing on carceral, labor, and immigration crises, Sbicca tells the stories of three California-based food movement organizations, showing that when activists use food to confront neoliberal capitalism and institutional racism, they can creatively expand how to practice and achieve food justice. Sbicca sets his central argument in opposition to apolitical and individual solutions, discussing national food movement campaigns and the need for economically and racially just food policies—a matter of vital public concern with deep implications for building collective power across a diversity of interests.

Drawing from a wide selection of classic and contemporary works, this best-selling reader includes 56 readings that represent a plurality of voices and views within sociology.

This brief anthology for introductory sociology is a collection of 24 classic statements and contemporary favorites that illustrate key concepts in sociology, relate to the everyday lives of students, and spark good classroom discussions. The Second Edition places more emphasis on a diverse range of social experiences, and several of the new selections are from sociologists whose work has attracted widespread media attention. New to this Edition: There are more readings in this edition on the experiences of minorities, including LGBTQ Americans, Hispanics, Asians, and African Americans. The book now reflects a more diverse authorship as well, with an even split between male and female scholars and almost one-third of the readings written by nonwhite authors. The introduction has been updated to incorporate the results of 2016 election and to make the case for sociology as a discipline ideally suited for navigating the social and political changes in contemporary American society, as well as individual students' day-to-day challenges. Several new readings are from sociologists who have been in the national spotlight for their contributions to major public debates: Tressie McMillian Cottom; Lisa Wade; Matthew Desmond (Pulitzer Prize winner); Elizabeth Armstrong and Laura Hamilton.

SOCIOLOGICAL ODYSSEY: CONTEMPORARY READINGS IN INTRODUCTORY SOCIOLOGY, Fourth Edition, helps bring sociology to life through a wide range of engaging, current articles, covering issues such as Internet dating, the black middle class, homosexuality, the straight edge movement, welfare recipients, and children's clique behavior.

This brief anthology for introductory sociology is a collection of 24 short readings that illustrate key concepts in sociology, relate to the everyday lives of students, and spark good classroom discussions. The selections represent four theoretical traditions in sociology (functionalism, symbolic interaction, conflict theory, feminism) and show the range and diversity of sociology and the people who practice it. The book is designed for instructors who want to expose students to some

original scholarship in their first sociology course, but who do not want to adopt a comprehensive reader along with the core text they are using.

The Eighth edition of David Newman's *Sociology: Exploring the Architecture of Everyday Life* once again invites students into the world of sociological thought. Sociology encourages students to think less about the next test and more about how the subject applies to their everyday lives. In addition to updated coverage and fresh examples, this edition features revamped Micro-Macro Connections that have been even further honed to help students understand the link between individual lives and the structure of society.

Featuring a new emphasis on how to be awake in the world and how to better see the patterns we use to make sense of our own lives, this fifth edition of Jodi O'Brien's popular book introduces the major theories, concepts, and perspectives of contemporary social psychology in a uniquely engaging manner. Compelling, original essays that introduce relevant concepts are followed by a wide-ranging, eclectic, enjoyable set of readings. By grounding social psychology in student experiences and explaining theories through stories and narratives, this one-of-a-kind book is a fascinating read that helps students understand the forces that shape their feelings, thoughts, and actions.

"*Ways of Social Change* is very readable and has great discussion questions and suggested activities. It is one of the few books where I have had students volunteer praise for the book!" - Connie Robinson, Central Washington University

The world is at our fingertips, but understanding what is going on has never been more daunting. *Ways of Social Change* is a primer for making sense of both rapidly moving events and the cultural and structural forces on which social life is built, while teaching critical thinking skills needed to understand social change. With an approach that is fresh, timely, challenging, and engaging, *Ways of Social Change* shows students how social change is both a lived experience and the result of our actions in the world. It invites the reader into the realm of social science, where clarification, understanding, and inquiry provide for both informed opinions and a path to effective involvement. The core of the book focuses on five forces that powerfully influence the direction, scope and speed of social change: science and technology, social movements, war and revolution, large corporations, and the state. A concluding chapter encourages students to examine their own perspectives and offers ways to engage in social change, now and in their lifetime.

SAGE Readings for Introductory Sociology SAGE Publications, Incorporated

[This text] helps you apply sociological perspectives to real-life situations. [It includes] topic [on] politics, economics, education, deviance, socialization, cultural stratification. studies.-Pref.

Introduction to Sociology 2e adheres to the scope and sequence of a typical, one-semester introductory sociology course. It offers comprehensive coverage of core concepts, foundational scholars, and emerging theories, which are supported by a wealth of engaging learning materials. The textbook presents detailed section reviews with rich questions, discussions that help students apply their knowledge, and features that draw learners into the discipline in meaningful ways. The second edition retains the book's conceptual organization, aligning to most courses, and has been significantly updated to reflect the latest research and provide examples most relevant to today's students. In order to help instructors transition to the revised version, the 2e changes are described within the preface. The images in this textbook are grayscale. Authors include: Heather Griffiths, Nathan Keirns, Eric Strayer, Susan Cody-Rydzewski, Gail Scaramuzzo, Tommy Sadler, Sally Vyain, Jeff Bry, Faye Jones

Brings the subject matter of sociology to life for students. Linking theory and practice, this textbook explores how sociological knowledge is used in the community to fight for social change and justice.

Co-authored by Karen A. Cerulo, the Eastern Sociological Society's Robin L. Williams Lecturer for 2013-2014 Do birds of a feather flock together or do opposites attract? Is honesty the best policy? Are children our most precious commodity? Is education the great equalizer? Adages like these shape our social life. This Sixth Edition of Second Thoughts reviews several popular beliefs and notes how these conventional wisdoms cannot be taken at face value, but instead require careful second thoughts. This unique text encourages students to step back and sharpen their analytic focus with 25 essays that use social research to expose the gray areas of commonly held beliefs, revealing the complexity of social reality and sharpening students' sociological vision.

The 58 readings in Mapping The Social Landscape follow the organization of a typical introductory sociology course, and represent a plurality of voices and views within sociology, including classic statements from the discipline's great thinkers as well of the works of contemporary scholars who address current social issues.

This bundle includes Ritzer: Essentials of Sociology, 2e and McGann: SAGE Readings for Introductory Sociology.

Explore sociology's key concepts, theories, methods, and original voices--all in one innovative text. Imagining Society: An Introduction to Sociology is an versatile and economical resource for your introductory course. With this single text, you can: Teach the discipline's history, key concepts, subfields, and contributions to social science. Expose students to the central building blocks of sociology—short excerpts from the original works of classical and contemporary sociologists. Explain sociology's key theoretical insights by connecting them to specific issues. Describe and illustrate the methods used by sociologists—not just in the opening chapter, but throughout the entire text. Engage students in thoughtful, self-directed projects and activities. Sociological Theory in the Contemporary Era, Second Edition, combines well-edited, important original writings from sociology's core contemporary theorists with introductory text that provides a historical and theoretical framework for understanding them. Authors Scott Appelrouth and Laura Desfor Edles use this unique text/reader approach to introduce students to contemporary sociological theory in a lively and engaging fashion. The text/reader provides not only a biographical and theoretical summary of each theorist's works but also an overarching scaffolding that students can use to examine, compare, and contrast each theorist's major themes and concepts. The book also offers discussions of past social and intellectual milieus to provide a holistic picture of the development of the theories discussed.

The McDonaldization of Society is George Ritzer's seminal work of critical sociology that links classical sociological theory to many aspects of contemporary life in a globalized world--Max Weber's rationalization thesis updated and applied to the the late 20th and early 21st century. Where Weber focused on bureaucracies as the "iron cages" of rationalization in his time, the central premise of McDonaldization is that the fast food restaurant has become the model for the rationalization process today. The book examines ways in which fast food businesses have created a system of operation based on efficiency, calculability, predictability, and control; and how the same principles have been applied to other settings and contexts as diverse as motel chains, "big box" stores, churches, child care centers, college rankings, health care providers, political participation, and most recently, the Internet. *Understanding the Sociology of Health* continues to offer an easy to read introduction to sociological theories essential to understanding the current health climate. Up-to-date with key policy and research, and including case studies and exercises to critically engage the reader, this book shows how sociology can answer complex questions about health and illness, such as why health inequalities exist. To better help with your studies this book contains: · a global perspective with international examples; · a new chapter on health technologies; · online access to videos of the author discussing key topics as well as recommended further readings; · a glossary, chapter summaries and reflective questions to help you engage with the subject. Though aimed primarily at students on health and social care courses and professions allied to medicine, this textbook provides valuable insights for anyone interested in the social aspects of health.

This comprehensive reader in the sociology of education examines important topics and exposes students to examples of sociological research on schools. Drawing from classic and contemporary scholarship, the editors have chosen readings that examine current issues and reflect diverse theoretical approaches to studying the effects of schooling on individuals and society.

The authors are proud sponsors of the 2020 SAGE Keith Roberts Teaching Innovations Award—enabling graduate students and early career faculty to attend the annual ASA pre-conference teaching and learning workshop. The *Kaleidoscope of Gender: Prisms, Patterns, and Possibilities* provides an accessible, timely, and stimulating overview of the cutting-edge literature and theoretical frameworks in sociology and related fields in order to understand the social construction of gender. The kaleidoscope metaphor and its three themes—prisms, patterns, and possibilities—unify topic areas throughout the book. By focusing on the prisms through which gender is shaped, the patterns which gender takes, and the possibilities for social change, the reader gains a deeper understanding of ourselves and our relationships with others, both locally and globally. Editors Catherine Valentine, Mary Nell Trautner, and the work of Joan Spade, focus on the paradigms and approaches to gender studies that are constantly changing and evolving. The Sixth Edition includes incorporation of increased emphasis on global perspectives, updated contemporary social movements, such as #BlackLivesMatter and #MeToo, and an updated focus on gendered violence. Free online resources are available at The SAGE Gender and Sexuality Resource Center. This site is intended to provide you with an array of multimedia resources to enhance your studies of gender and sexuality.

This bundle includes Ritzer: *Introduction to Sociology*, 3e and McGann: *SAGE Readings for Introductory Sociology*. This anthology provides vivid examples of how sociology can be put to good use in today's world. Every reading focuses on public issues concerning race, class, gender, ethnicity, nationality, and sexuality. Each chapter includes stories from practicing sociologists that help students better understand how their sociology studies can be applied and provides answers to the question, "...but what can I do with a sociology degree?" Discussion questions and suggested additional readings and resources at the end of each chapter give students the opportunity to delve further into the topics covered and carry out full and nuanced discussions, grounded in the "real world" work of public sociologists.

This definitive history of American xenophobia is "essential reading for anyone who wants to build a more inclusive society" (Ibram X. Kendi, New York Times-bestselling author of *How to Be an Antiracist*). The United States is known as a nation of immigrants. But it is also a nation of xenophobia. In *America for Americans*, Erika Lee shows that an irrational fear, hatred, and hostility toward immigrants has been a defining feature of our nation from the colonial era to the Trump era. Benjamin Franklin ridiculed Germans for their "strange and foreign ways." Americans' anxiety over Irish Catholics turned xenophobia into a national political movement. Chinese immigrants were excluded, Japanese incarcerated, and Mexicans deported. Today, Americans fear Muslims, Latinos, and the so-called browning of America. Forcing us to confront this history, Lee explains how xenophobia works, why it has endured, and how it threatens America. Now updated with an epilogue reflecting on how the coronavirus pandemic turbocharged xenophobia, *America for Americans*

is an urgent spur to action for any concerned citizen.

The authors are proud sponsors of the 2020 SAGE Keith Roberts Teaching Innovations Award—enabling graduate students and early career faculty to attend the annual ASA pre-conference teaching and learning workshop. What key social forces construct and transform our lives as individuals and as members of society? How does our social world shape us? How do we shape our world? Discover Sociology presents sociology as a discipline of curious minds. The authors inspire curiosity about the social world and empower students by providing the theoretical, conceptual, and empirical tools they need to understand, analyze, and even change the world in which they live. Organized around four main themes—The Sociological Imagination, Power and Inequality, Technological Transformations of Society, and Globalization—the book illuminates the social roots of diverse phenomena and institutions, ranging from poverty and deviance to capitalism and the nuclear family. "Behind the Numbers" features illustrate the practical side of sociology and shows students how to be critical consumers of social science data reported in the media. And every chapter addresses the question, "What can I do with a sociology degree?" by linking the knowledge and skills acquired through studying sociology with specific jobs and career paths. This Fourth Edition of George Ritzer's Introduction to Sociology shows students the relevance of sociology to their lives. While providing a rock-solid foundation, Ritzer illuminates traditional sociological concepts and theories, as well as some of the most compelling contemporary social phenomena: globalization, consumer culture, the digital world, and the "McDonaldization" of society. With examples on every page from current events and contemporary research, and stories

about “public” sociologists who are engaging with the critical issues of today, the text demonstrates the power of sociology to explain the world, and the diversity of questions that sociologists seek to answer. New to this Edition New “Trending” boxes focus on influential books written by sociologists that have become part of the public conversation about important issues. Replacing “Public Sociology” boxes, these boxes demonstrate the diversity of sociology's practitioners, methods, and subject matter, and feature such authors as: Michelle Alexander (The New Jim Crow) Elizabeth Armstrong and Laura Hamilton (Paying for the Party) Randol Contreras (The Stick-Up Kids) Matthew Desmond (Evicted) Kimberly Hoang (Dealing in Desire) Arlie Hochschild (Strangers in Their Own Land) Eric Klinenberg (Going Solo) C.J. Pascoe (Dude, You're a Fag) Lori Peek and Alice Fothergill (Children of Katrina) Allison Pugh (The Tumbleweed Society) Updated examples in the text and "Digital Living" boxes keep pace with changes in digital technology and online practices, including Uber, bitcoin, net neutrality, digital privacy, WikiLeaks, and cyberactivism. New or updated subjects apply sociological thinking to the latest issues including: the 2016 U.S. election Brexit the global growth of ISIS climate change President Trump's proposed Mexican border wall further segmentation of wealthy Americans in the "super rich" transgender people in the U.S. armed forces charter schools the legalization of marijuana the Flint water crisis fourth-wave feminism
