Sap Business Planning And Consolidation

Bonus offer!!!!Buy or read this book and get access to a free SAP course on udemy.com as well as discounts on three additional courses!SAP's latest iteration of BPC Embedded brings powerful new functions to the marketplace. Organizations rely on this planning and forecasting software and they need to see, with guidance from their BPC consultants, where this software can take them.This book aims to provide a practical guide to teach you the fundamentals of implementing SAP BPC Embedded. The book is designed so that you can master all the techniques gradually, starting from basic and relatively simple techniques before moving on to the more demanding techniques that Business Intelligence Professionals use to create planning applications for their customers. The book will take you step-by-step through the process of creating a revenue planning application. From this book you will learn: -Fundamentals of BI-IP, -The structures involved, such as InfoProviders, Aggregation Levels, Filters, Sequences and more, -Create all the required objects in BI-IP, tips and tricks and more advanced design considerations;-Query design for planning applications;-Basic FOX to enhance our application with calculations and;-Tying the whole planning application together into a BoA workbook.

"See how SAP S/4HANA will change your BI processes! Explore the embedded analytics architecture and data model to learn how to perform analytics on live transactional data. Business user? Walk step-by-step through SAP Smart Business KPIs and multidimensional reporting. Analytics specialist? Master the virtual data model and creating KPIs. Jack of all trades? Create CDS views, apply custom fields and logic, or see what's coming up with machine learning. This is your complete guide to SAP S/4HANA embedded analytics!"--

What is SAP BW/4HANA? More importantly, what can it do for you? Between these pages, you'll explore the answers to these questions, from simplified data models and SAP BW/4HANA Analytics to automated data lifecycle management. You'll find step-by-step instructions for installation and setup, a guide to administrative tasks to keep your SAP BW/4HANA system in tip-top shape, and the low-down on security in your new system. Explore the data warehouse of the future! Highlights: -SAP HANA -SAP BW/4HANA Analytics -Installation and deployment -Data modeling -Reporting and analytics -Data lifecycle management -Administration -Security -Data warehousing solution

For the executive: what SAP HANA is and how it can help you For the practitioner: details on data modeling, data provisioning, and the SAP HANA client tools For everyone: the latest and greatest developments Suite on SAP HANA, advanced applications for SAP HANA, and more 2nd edition updated and expanded HANA is shifting SAP into high gear don t get left in the dust. In this updated edition of our best-selling book, explore the what, why, when, and how of SAP HANA. From building a business strategy to administering a system (and all the pit stops in between), you'll have the big picture you need to get started.

Buckle up, because this is one car that doesn t travel in the slow lane. Business Strategy Learn how big data, in-memory computing, and SAP HANA come together to influence your business strategies, from trend reporting to predictive analysis. Implementation Options Which type of SAP HANA implementation is right for you? Learn what you need to know about your different options, and get started planning an implementation: technical requirements, sizing, and migration considerations.Data Modeling and Provisioning Introduce yourself to Studio and Information Composer, SAP HANA s data modeling tools. Then get information about data provisioning in SAP HANA, including step-by- step instructions for SAP Data Services. SAP BusinessObjects BI Understand how the SAP BusinessObjects BI platform hooks up to SAP HANA, including information on SAP BusinessObjects Design Studio and SAP Visual Intelligence. Administration Take a look into the SAP HANA Administration Console and understand the most important administrative tasks in an SAP HANA system.

Start making better business decisions backed by data About This Book Predict new opportunities and risks in a few mouse clicks Eliminate complexity with tools that let you plan, analyze, and collaborate in context—in real time Discover, visualize, plan, and predict in a single product with agile BI tools Who This Book Is For This book targets IT professionals, business analysts, BI developers, managers, newcomers to SAP Analytics Cloud, and ultimately anyone who wants to learn from self-paced, professional guidance and needs a solid foundation in SAP Analytics Cloud. What You Will Learn A clear understanding of SAP Analytics Cloud platform Create data models using different data sources, including Excel and text files . Present professional analyses using different types of charts, tables, geo maps, and more Using stories, drill up and down instantly to analyze data from various angles Share completed stories with other team members or compile them in SAP Digital Boardroom agendas for presentation to major stakeholders Export the results of a story to a PDF file Save time by planning, analyzing, predicting, and collaborating in context Discover, visualize, plan, and predict in one product as opposed to separate solutions In Detail The book starts with the basics of SAP Analytics Cloud (formerly known as SAP BusinessObjects Cloud) and exposes almost every significant feature a beginner needs to master. Packed with illustrations and short, essential, to-the-point descriptions, the book provides a unique learning experience. Your journey of exploration starts with a basic introduction to the SAP Analytics Cloud platform. You will then learn about different segments of the product, such as Models, Stories, Digital Boardroom, and so on. Then, you are introduced to the product's interface: the Home screen, the main menu, and more. Then comes the hands-on aspect of the book, which starts with model creation. Next, you learn how to utilize a model to prepare different types of stories(reports) with the help of charts, tables, Geo Maps, and more. In the final chapters of this book, you will learn about Digital Boardroom, Collaboration, and Administration. Style and approach The easy-to-follow visual instructions provided in this book help

business users and report developers create simple and complex stories (reports) quickly

Managing your SAP data in Microsoft Excel? This is your guide to using SAP Analysis for Microsoft Office! Get started with the basics, from creating your first workbook to navigating through reports. Then, follow step-by-step instructions to process data, analyze data, develop planning applications, customize reports, and work with tools such as formulas and macros. Including details on troubleshooting, UI customization, and more, this book is your all-in-one resource! In this book, you'll learn about: a. Reporting and Data Analysis Learn to work with reports in SAP Analysis for Microsoft Office: define parameters with prompts, adjust formatting and styles, and extend reports with local data. Filter, sort, and display your data using hierarchies, and refine data analysis with simple and advanced calculations. b. Planning Use your SAP data to develop planning workbooks. Plan your data both manually and with functions and sequences. Understand key settings for cell locking, the planning model, and more. c. Advanced Features Take your skills to the next level. Write formulas to use in your reports, and create and use macros in your workbooks, including steps to use API methods, callbacks, and design rules. Highlights include: 1) Workbook creation 2) Report navigation 3) Prompts 4) Data processing, organization, and analysis 5) Planning applications 6) Report customization and formatting 7) Formulas 8) Macros 9) Configuration 10) Troubleshooting

One more time Dr. Marco Sisfontes-Monge has released a new book on SAP BPC, and this time it includes both SAP BPC 7.x and SAP BPC EPM10. Designed based on requests from users, consultants, and managers from all over the world that were extremely satisfied with Volume 1: Foundations, this new volume will support their needs to improve any financial, planning, forecasting, consolidation, and reporting processes. This publication has been engineered to take your skills to the next level with detailed discussions and with lots of pictures!

• Explore the entire financial close process from financial accounting to entity and corporate closing• Maximize the potential of SAP Financial Solutions like FI, CO, and Disclosure Management• Meet the latest regulatory and reporting requirements with ease• Based on ERP 6.0 and EPM 10.0Your course is set and the light is green. Find what you need to make CO-PA work best for your business, and benefit from new information on integration topics, SAP BusinessObjects, and more.Business and Technical KnowledgeDecide whether costing- or account-based CO-PA is best for your business requirements, and understand how to configure the software for a successful implementation.Step-by-Step InstructionsFollow process-oriented steps, learn how to configure master data so it can be transferred to CO-PA from other SAP components, create reports, and define your planning environments.Supplement CO-PALearn about tools and technologies that can supplement your CO-PA practices such as SAP BPC, SAP HANA, SAP NetWeaver BW, and SAP BusinessObjects Analytics.Introduction to SAP HANAUnderstand what new in-memory trends mean for your ability to process and analyze business data with CO-PA.Updated and ExpandedBenefit from expanded content on topics like top-down distribution, work in process, reporting with CO-PA in the SAP NetWeaver BW environment,

and much more.

Are you an SAP Business One user who wants to make your life easier? Tune out the wide world of SAP and zone in on the SAP B1 tasks and transactions that support all of your critical processesfrom financials to production and beyond. With step-by-step instructions and tips from members of the SAP Business One North American Partner Advisory Council, including Carl Britton Lewis, this book is what youve been waiting for: The key to doing your job better in SAP B1. This book will provide in-depth analysis of concepts and step by step configurations for planning and consolidation for SAP BPC 10.1 classic version. We start with detail explanation of BPC components used for both planning and consolidation then we move on to consolidation specific pieces. We will examine the purpose of each component, where it fits into the whole process, and what options are available to configure the system. Rather than just reading about how to create an object, we'll actually perform a demo exercise with step-by-step instructions for configuration. I had also included backup copies which can be installed on your system directly if needed, rather developing them. For planning demo, I had used cost center planning which includes features like creating dimensions and models; master and transactional data loads; input schedules; reports; logic scripts and so on. For consolidation demo, I had considered commonly used legal consolidation process flow which includes net Income to retained earnings movements, currency translations, IC Matching and Booking, US Eliminations, COI, Minority Interest and Goodwill. Along with the configuration steps, each chapter provides analysis of the results of the exercise and their significance within a financial statement.

SAP S/4HANA is here, and the stakes are high. Get your project right with this guide to SAP Activate! Understand the road ahead: What are the phases of SAP Activate? Which activities happen when? Start by setting up a working system, then walk through guided configuration, and learn how to deploy SAP S/4HANA in your landscape: on-premise, cloud, or hybrid. Take advantage of SAP Activate's agile methodology, and get the guidance you need for a smooth and successful go-live! In this book, you'll learn about: a. Foundations Get up to speed with SAP Activate. Learn about key concepts like fit-to-standard and fit/gap analysis, understand the methodology, and walk through the key phases of project management. b. Tools and Technologies Open up your SAP Activate toolkit. See how to access SAP Activate content with SAP Best Practices Explorer, SAP Solution Manager, and more. Then, use SAP Best Practices and SAP Model Company to set up a working system for your workshops. c. Deployment Deploy SAP S/4HANA, step by step. Follow detailed instructions to plan, prepare for, and execute your on-premise or cloud deployment activities according to SAP Activate. Walk through key scenarios for a hybrid implementation of SAP S/4HANA in your landscape. Highlights Include: 1) Deployment 2) Guided configuration 3) Agile project delivery 4) SAP Best Practices 5) SAP Model Company 6) Organizational change management 7)

SAP S/4HANA 8) SAP S/4HANA Cloud 9) Hybrid landscapes 10) C_ACTIVATE05 certification

"This book is the definitive guide for SAP NetWeaver BI professionals. Based on their extraordinary expertise with the product, the authors provide deep insights about key innovations in the areas of user experience, query performance, integrated planning, and enterprise-wide data warehousing." —Stefan Sigg, Vice President, SAP NetWeaver Business Intelligence The long-anticipated publication of this second edition reflects the growing success of SAP NetWeaver as well as the various Business Intelligence (BI) capabilities that are embedded with SAP BW version 7.0. Written by SAP insiders, this comprehensive guide takes into account the ever-changing features, functionality, and toolsets of SAP NetWeaver to bring you the most updated information on how to use SAP BW to design, build, deploy, populate, access, analyze, present, and administer data. You'll discover the options that are available in SAP NetWeaver and uncover a new means to improve business performance. This book reflects the process an organization goes through during an implementation of the software. The authors begin with an introduction to BI and SAP NetWeaver and quickly progress to information modeling and enterprise data warehouse concepts. You'll learn how to access and deliver meaningful analytic information to the organization, as well as perform integrated planning functions. Finally, the authors share invaluable insight on warehouse administration, performance, and security. With more than 50 percent new or revised material, this second edition of Mastering the SAP Business Information Warehouse shows you how to: Extract data from online transaction processing systems Store transformed data in a way that best supports reporting and analysis Use the various Business Explorer tools such as BEx Report Designer, BEx Analyzer, BEx Broadcaster, and BEx Web Application Designer Schedule, monitor, troubleshoot, and archive data loads The companion Web site contains sample chapters in Wiki format and the authors' blog where readers may enter discussions about the book and SAP. Wiley Technology Publishing Timely. Practical. Reliable. Visit our Web site at www.wiley.com/compbooks/ Visit the companion Web site at www.wiley.com/compbooks/mcdonald The companion Web site contains the sample code presented in the text of the book, plus implementation templates. Introduction to IFRS 15 and SAP revenue accounting and reporting -- Project execution approach -- Configuring SAP revenue accounting and reporting -- Transition strategy and options -- Business cases: telecom and high tech -- Conclusion

Calling all SAP BPC users! Learn to handle tricky financials planning, forecasting, and budgeting with this book on SAP Business Planning and Consolidation. Step-by-step instructions will guide you through completing daily SAP BPC tasks such as data consolidation, workflow management, and report creation. Explore preconfigured system reports and learn to tailor custom reports to your specific business requirements. Use SAP BPC productively to enhance your

organization's planning processes. Routine BPC Activities Plan, budget, and forecast using SAP BPC data with the EPM Add-In or the Web Client. Mediation 7) Reporting and analytics 8) Implementation 9) Project management
Preparing consolidated financial statements for an enterprise with a parent and one or more
subsidiaries requires a detailed review of underlying transactions in order to properly reflect
results and financial position. For large, integrated, and multinational organizations, likely with
millions of transactions, it is imperative that the financial accounting software facilitate this
process. This expertly written guide focuses on leveraging SAP S/4HANA Finance for group
reporting. Explore key functionality and how the universal journal has led to the evolution of the
group reporting solution. Using a detailed case study, the author discusses configuration and
master data and walks the reader through the period-end process for consolidation and
explores reports using financial transactions that have already been entered into SAP
S/4HANA Finance for group reporting. Explore reports delivered with SAP S/4HANA Finance
for group reporting. This book is targeted at both finance professionals and the functional
consultants who perform the configuration and execution of processes for preparing
consolidated financial statements. By using practical examples, tips, and screenshots, this
book covers: - SAP S/4HANA Finance for group reporting and the universal journal -
Configuration and master data - Period-end process for consolidation - Reporting and analysis
Managing your cash is critical--so master cash management in SAP S/4HANA! Follow step-by-
step instructions to run bank account management, cash positioning and operations, and
liquidity management, and then tailor each process to your system. Walk through the One
Exposure from Operations data model, including integration scenarios, transactions, and
configuration. Discover extensibility options for bank account management and key SAP Fiori
apps. Get equipped for cash management! In this book, you'll learn about: a. Bank Account
Management Manage your accounts in SAP S/4HANA. Maintain your banks, house banks,
and bank account master data with key SAP Fiori apps. Use new features such as the Monitor
Bank Fees App and the treasury executive dashboard. Configure settings to suit your
requirements. b. Cash Positioning and Operations Analyze your cash position, transfer and
concentrate cash, and integrate bank statements for cash flow reconciliation. Get insight into
new features and SAP Fiori apps for bank statements, reporting, configuration, and more. c.
Liquidity Management Forecast liquidity and analyze actual cash flow with SAP S/4HANA; then
develop liquidity plans with SAP Analytics Cloud. Tailor your settings for each process based
on your needs. Highlights include: 1) Master data 2) Configuration 3) Bank account
management 4) Cash positioning 5) Cash operations 6) Liquidity management 7) One
Exposure from Operations hub 8) Extensibility 9) Migration
Discover the next generation of BI with this guide to SAP Analytics Cloud! Get your data into
the system and see which data models to use in which situations. Next, learn about
stories--how to create visualizations for them, publish them, and enhance them. With
information on using SAP Analytics Cloud for financial planning, predictive analytics,
dashboard creation, and more, this book is your one-stop shop! Highlights include: 1) Data
modeling 2) Stories 3) Visualizations 4) Dashboards 5) Financial planning 6) Predictive
analytics 7) SAP Analytics Cloud, analytics designer 8) SAP Digital Boardroom 9) SAP
Analytics Hub 10) Data integration 11) Configuration
This book presents a comprehensive introduction to Integrated Business Planning (IBP),
building on practitioner's experience and showcasing the value gains when moving from
disconnected planning to IBP. It also proposes a road map for the transformation of planning,
including technological initiatives, business priorities and organizational processes, and
demonstrates how to motivate different IBP stakeholders to work together, when and how to
connect strategic (to be understood as long term SC&O), tactical and operational planning and
how to leverage functional and data integration features of SAP IBP. Real-world business-
process use cases help to show the practical implications of implementing SAP IBP.
Furthermore the book explores new capabilities, talent acquisition and retention, career

development leadership, IBP Center of Expertise. A discussion of how disruptive technology trends like big data, Internet of Things, machine learning and artificial intelligence can influence IBP now and in the near future rounds out the book.

Enter the fast-paced world of SAP HANA 2.0 with this introductory guide. Begin with an exploration of the technological backbone of SAP HANA as a database and platform. Then, step into key SAP HANA user roles and discover core capabilities for administration, application development, advanced analytics, security, data integration, and more. No matter how SAP HANA 2.0 fits into your business, this book is your starting point. In this book, you'll learn about: a. Technology Discover what makes an in-memory database platform. Learn about SAP HANA's journey from version 1.0 to 2.0, take a tour of your technology options, and walk through deployment scenarios and implementation requirements. b. Tools Unpack your SAP HANA toolkit. See essential tools in action, from SAP HANA cockpit and SAP HANA studio, to the SAP HANA Predictive Analytics Library and SAP HANA smart data integration. c. Key Roles Understand how to use SAP HANA as a developer, administrator, data scientist, data center architect, and more. Explore key tasks like backend programming with SQLScript, security setup with roles and authorizations, data integration with the SAP HANA Data Management Suite, and more. Highlights include: 1) Architecture 2) Administration 3) Application development 4) Analytics 5) Security 6) Data integration 7) Data architecture 8) Data center

"Ready for SAP BW/4HANA 2.0? This comprehensive guide will teach you all there is to know about the next generation business warehouse from SAP! Start with a fresh installation or migrate from an existing system. Then understand the new architecture, explore administration tasks with SAP HANA Studio, learn to model and analyze data, and find out how to connect to frontend BI tools"--

From standard features to content packages and accelerators, see how you can jumpstart financial planning and consolidation with SAP S/4HANA. -- Customize extraction and loading processes, reporting, and planningOptimize your system by learning from detailed examples and commented codeReference a new appendix that outlines exits and enhancements in SAP NetWeaver BW 7.33rd Edition Updated for SAP NetWeaver BW 7.3 Steer your BW-specific programming and push your implementation beyond standard BI business requirements! This book is your trusted guide to the most often-used and helpful custom enhancements in SAP NetWeaver BW. Dive into user exits and BAdIs for data extracting, importing, reporting, and planning.
