Two best friends document their post-college lives in a hilarious, relatable, and powerfully honest epistolary memoir. Fast friends since they met at Brown University during their freshman year, Jessica Pan and Rachel Kapelke-Dale vowed to keep in touch after their senior year through in-depth—and brutally honest—weekly e-mails. After graduation, Jess packs up everything she owns and moves to Beijing on a whim, while Rachel heads to New York to work for an art gallery and to figure out her love life. Each spends the next few years tumbling through adulthood and reinventing themselves in various countries, including France, China, and Australia. Through their messages from around the world, they swap tales of teaching classes of military men, running a magazine, and flirting in foreign languages, along with the hard stuff: from harrowing accidents to breakups and breakdowns. Reminiscent of Sloan Crosley's essays and Lena Dunham's *Girls*, *Graduates in Wonderland* is an intimate, no-holds-barred portrait of two young women as they embark upon adulthood.

Revised and Updated, Featuring a New Case Study How do successful companies create products people can't put

down? Why do some products capture widespread attention while others flop? What makes us engage with certain products out of sheer habit? Is there a pattern underlying how technologies hook us? Nir Eyal answers these questions (and many more) by explaining the Hook Model—a four-step process embedded into the products of many successful companies to subtly encourage customer behavior. Through consecutive “hook cycles,” these products reach their ultimate goal of bringing users back again and again without depending on costly advertising or aggressive messaging. Hooked is based on Eyal’s years of research, consulting, and practical experience. He wrote the book he wished had been available to him as a start-up founder—not abstract theory, but a how-to guide for building better products. Hooked is written for product managers, designers, marketers, start-up founders, and anyone who seeks to understand how products influence our behavior. Eyal provides readers with:

- Practical insights to create user habits that stick.
- Actionable steps for building products people love.
- Fascinating examples from the iPhone to Twitter, Pinterest to the Bible App, and many other habit-forming products.
