Shaw's Directory of Courts in the United Kingdom Sweet & Maxwell

This book is a practical guide to practice and procedure in courts and tribunals. It is aimed at the recently qualified practitioner, pupil barristers, trainee solicitors, or lawyers unversed in advocacy and procedure. It provides a guide to applications in most areas of the law, with brief discussions of the relevant law, rules of procedure and practical tips. The applications covered are those which practitioners are likely to encounter in their first years of practice. In addition, each chapter attempts to anticipate likely pitfalls, with suggested solutions. The court system and techniques of advocacy are also covered. This is not a legal textbook, and provides no substitute for legal research. It is designed to be starting point for advocates faced with an unfamiliar task.

This directory includes names, addresses, telephone, fax and DX numbers, area codes, court codes and times and sittings of courts for 2004/05.

The guide clearly and concisely shows how to source legal information, and how to deal with legal databases and the need-it-now demands of the marketplace. This second edition has been fully revised and updated, and will include for the first time: Internet addresses for the leading law information sites (both free and subscriber-only), and information on the law publications/Internet sites of the newly formed Scottish Parliament and Welsh Assembly. Contents: Introduction; Finding and using a law collection; The literature of law in the British Isles; The literature of law in selected countries outside the British Isles; Contacts.

There is a queue, the phone is ringing, the photocopier has jammed and your enquirer is waiting for a response. You are stressed

and you can feel the panic rising. Where do you go to find the information you need to answer the question promptly and accurately? Answering queries from users is one of the most important services undertaken by library and information staff. Yet it is also one of the most difficult, least understood subjects. There are still very few materials available to help frontline staff - often paraprofessional - develop their reader enquiry skills. This award-winning sourcebook is an essential guide to where to look to find the answers quickly. It is designed as a first point of reference for library and information practitioners, to be depended upon if they are unfamiliar with the subject of an enquiry - or wish to find out more. It is arranged in an easily searchable, fully cross-referenced A-Z list of around 150 of the subject areas most frequently handled at enquiry desks. Each subject entry lists the most important information sources and where to locate them, including printed and electronic sources, relevant websites and useful contacts for referral purposes. The authors use their extensive experience in reference work to offer useful tips, warn of potential pitfalls, and spotlight typical queries and how to tackle them. This new edition has been brought right up-to-date with all sources checked for currency and many new ones added. The searchability is enhanced by a comprehensive index to make those essential sources even easier to find - saving you valuable minutes! Readership: Offering quick and easy pointers to a multitude of information sources, this is an invaluable reference deskbook for all library and information staff in need of a speedy answer, in reference libraries, subject departments and other information units.

Never before have people been so aware of the importance of sound environmental law, as every week stories of controversial planning developments and prosecutions for the release of toxic substances feature in the news. Environmental Law and Citizen Action sets out and explains the ways that ordinary citizens can use the law to ensure the environment is protected. There are a number of existing UK laws which require local authorities to control pollution and protect the environments and many more which can be used to tackle environmental offenders, yet often local government officers themselves are unaware of the full scope of their powers. Writing in a clear, accessible style, Alan Murdie explains how to get access to the relevant information, participate in public enquiries, use the courts to challenge public and government bodies and prosecute polluters. This book maps a path through the intricate legal maze to show what rights every citizen has, and how those rights can be enforced. Alan Murdie is a barrister with long-standing interest and involvement in local government issues, and a lecturer at Thames Valley University. He is co-author of *To Pay or Not To Pay*, a best-selling analysis of the poll tax debate, and has contributed to a wide range of legal and government periodicals. Originally published in 1993
