Now, virtually anyone with a vision can also have a voice. The formerly formidable barriers to producing highly professional video projects are crumbling as high-quality camcorders and nonlinear editing software become increasingly affordable. And this powerful creative medium is finding its way into the hands of all kinds of people - company training directors, aspiring moviemakers, independent news hawks, product promotion specialists, documentarians, even home-movie Andy Warhols. The Rough Guide to Guitar is a one-stop shop for all your guitar-related needs - whether you're buying, playing, gigging, recording or a complete beginner. Covering everything from the basics a new player needs to hints and tips for experienced guitarists, and even how to successfully start a band. Written by Dave Hunter, one of the world's leading guitar authors and contributor to Guitar Player and Vintage Guitar magazines, The Rough Guide to Guitar covers it all, in a language that players of all experiences and ages will understand and enjoy. From classic rock guitar sounds through to indie, punk and psychedelic, and from home recording methods to how to put a band together; The Rough Guide to Guitar is the guide for you.

Today's children face a multitude of pressures, from the everyday challenges of life to the increasing threats of poverty, exploitation, and trauma. Central to growing up successfully is learning to deal with stress, endure hardships, and thrive despite adversity. Resilience – the ability to cope with and overcome life's difficulties – is a quality that can potentially be nurtured in all young people. The second edition of the Handbook of Resilience in Children updates and expands on its original focus of resilience in children who overcome adversity to include its development in those not considered at risk, leading to better outcomes for all children across the lifespan. Expert contributors examine resilience in relation to environmental stressors, as a phenomenon in child and adolescent disorders, and as a means toward positive adaptation into adulthood. New and revised chapters explore strategies for developing resilience in the family, the therapist's office, and the school as well as its nurturance in caregivers and teachers. Topics addressed include: Resilience in maltreated children and adults. Resilience and self-control impairment. Relational resilience in young and adolescent girls. Asset-building as an essential component of treatment. Assessment of social and emotional competencies related to resilience. Building resilience through school bullying prevention programs. Large-scale longitudinal studies on resilience. The second edition of the Handbook of Resilience in Children is a must-have reference for researchers, clinicians, allied practitioners and professionals, and graduate students in school and clinical psychology, education, pediatrics, psychiatry, social work, school counseling, and public health.

The Great Smoky Mountains National Park is one of America's most beautiful and popular national parks. Located in the southern Appalachian Mountains of Tennessee and North Carolina, it is home to more than 100,000 species of plants and animals. The grandeur and sheer scale of the park has been captured in Donald W. Linzey's new book, *Natural History Guide to the Great Smoky Mountains National Park*. It is the most extensive volume available on the park's natural history. Written from the perspective of a naturalist who has spent over fifty years conducting research in the park, this volume not only discusses the park's plant and animal life but also explores the impact that civilization has played in altering the area's landscape. Linzey, who has been a major contributor to the All Taxa Biodiversity Inventory, a concentrated effort to identify every species of plant and animal living within the park, draws from this deep reservoir of research. His book provides a thorough overview of everything a visitor to the park would need to know, without complex jargon. Both casual readers and those more interested in the ecology of the Great

Smoky Mountains will find this book an enlightening and educational guide. Donald W. Linzey, a wildlife biologist and ecologist, is professor of biology at Wytheville Community College in Wytheville, Virginia. He is an authority on the mammals of the Great Smoky Mountains National Park and its environs.

A Library Journal Best Book of 2015 Go behind the scenes of seven of today's most popular narrative radio shows and podcasts, including *This American Life* and *RadioLab*, in graphic narrative. Every week, millions of devoted fans tune in to or download *This American Life*, *The Moth*, *Radiolab*, *Planet Money*, *Snap Judgment*, *Serial*, *Invisibilia* and other narrative radio shows. Using personal stories to breathe life into complex ideas and issues, these beloved programs help us to understand ourselves and our world a little bit better. Each has a distinct style, but every one delivers stories that are brilliantly told and produced. *Out on the Wire* offers an unexpected window into this new kind of storytelling—one that literally illustrates the making of a purely auditory medium. With the help of *This American Life*'s Ira Glass, Jessica Abel, a cartoonist and devotee of narrative radio, uncovers just how radio producers construct narrative, spilling some juicy insider details. Jad Abumrad of *RadioLab* talks about chasing moments of awe with scientists, while *Planet Money*'s Robert Smith lets us in on his slightly goofy strategy for putting interviewees at ease. And Abel reveals how mad—really mad—Ira Glass becomes when he receives edits from his colleagues. Informative and engaging, *Out on the Wire*

demonstrates that narrative radio and podcasts are creating some of the most exciting and innovative storytelling available today.
