'Another indispensable classic' The Times "Ray Bradbury's gift for storytelling reshaped our culture and expanded our world" Barack Obama Guy Montag is a fireman. His job is to burn books, which are forbidden, being the source of all discord and unhappiness. Even so, Montag is unhappy; there is discord in his marriage. Are books hidden in his house? The Mechanical Hound of the Fire Department, armed with a lethal hypodermic, escorted by helicopters, is ready to track down those dissidents who defy society to preserve and read books. In this Hugo Award–winning alternative history classic—the basis for the Amazon Original series—the United States lost World War II and was subsequently divided between the Germans in the East and the Japanese in the West. It's America in 1962. Slavery is legal once again. The few Jews who still survive hide under assumed names. In this world, we meet characters like Frank Frink, a dealer of counterfeit Americana who is himself hiding his Jewish ancestry; Nobusuke Tagomi, the Japanese trade minister in San Francisco, unsure of his standing within the bureaucracy and Japan's with Germany; and Juliana Frink, Frank's ex-wife, who may be more important than she realizes. These seemingly disparate characters gradually realize their connections to each other just as they realize that something is not quite right about their world. And it seems as though the answers might lie with Hawthorne Abendsen, a mysterious and reclusive author, whose best-selling novel describes a world in which the US won the War... The Man in the High Castle is Dick at his best, giving readers a harrowing vision of the world that almost was. “The single most resonant and carefully imagined book of Dick’s career.” —New York Times

I was born to the name of Rachel Weatere in the year 1684, more than three hundred years ago. The one who changed me named me Risika, and Risika I became, though I never asked what it meant. I continue to call myself Risika, even though I was transformed into what I am against my will. By day, Risika sleeps in a shaded room in Concord, Massachusetts. By night, she hunts the streets of New York City. She is used to being alone. But now someone is following Risika. Someone has left her a black rose, the same sort of rose that sealed her fate three hundred years ago. Three hundred years ago Risika had a family -- a brother and a sister who loved her. Three hundred years ago she was human. Now she is a vampire, a powerful one. And her past has come back to torment her. This atmospheric, haunting tale marks the stunning debut of a promising fourteen-year-old novelist. From the Hardcover edition.

Guy Montag, a fireman of the future, is responsible for starting fires, not stopping them. In his society, books have been banned - all books, save the firemen's own rule books, which contain the ominous order: "Burn everything." Montag finds pleasure in enforcing the status quo - which is that pleasure in the ultimate good, and intellectual pursuits are bad because they breed dissatisfaction and superiority. At least, he finds pleasure in his job until one autumn evening when a teenage neighbor, Clarisse McClellan, asks him a simple, haunting question: "Are you happy?" The question takes on greater urgency when Montag discovers that his wife Mildred has overdosed on pills in a suicide attempt. After she is perfunctorily and mechanically revived by technicians, she has no memory of her actions and resumes her distraction-filled days as though nothing has happened. She continues to insist she is happy, spending her time in the ironically named "living room" with her televised, life-sized "family" entertaining her from three wall-sized screens. The final shock to Montag's complacency occurs when he and his fellow firemen respond to an alarm at 11 North Elm Street, where a woman possesses a contraband library. Rather than passively submit to the firemen's kerosene, she lights the match that ignites the books and herself. As a result of this self-immolation, Montag clearly sees a new truth: "There must be something in books, things we can't imagine..." and perhaps, he thinks, that something can heal not only his life and his marriage, but also his happiness-hunting society. And so Montag begins to read forbidden books that he has hidden in his home, putting his career and life in danger. With the help of Faber, a former professor of literature, Montag seeks a way to help - or force - his society to remember what it has forgotten. With Fire Captain Beatty, the firemen, and their lethal Mechanical Hound in pursuit of him, Montag races against time to save a society unaware that it is heading toward self-destruction. The origins and evolution of Bradbury's darkly magnificent tale are explored in *A Pleasure to Burn*, a collection of sixteen selected shorter works that prefigure the grand master's landmark novel. Classic, thematically interrelated stories alongside many crucial lesser-known ones—including, at the collection's heart, the novellas "Long After Midnight" and "The Fireman"—*A Pleasure to Burn* is an indispensable companion to the most powerful work of America's preeminent storyteller, a wondrous confirmation of the inimitable Bradbury's brilliance, magic . . . and fire.

A Gen-X librarian's laugh-out-loud funny, deeply moving collection of love letters and break-up notes to the books in her life. Librarians spend their lives weeding. Not weeds, but books! Books that have reached the end of their shelf life, both literally and figuratively. They remove the ones that patrons no longer check out, and they put back the ones they treasure. Annie Spence, who has a decade of experience as a Midwestern librarian, does this not only at her Michigan library but also at home, for her neighbors, at cocktail parties—everywhere. In *Dear Fahrenheit 451*, she addresses those books directly. We read her love letters to *Just Kids* and *Frog and Toad Storybook Treasury*, as well as her break-ups with *The Giving Tree* and *Dear John*. Her notes to *The Goldfinch* and *The Time Traveler's Wife* feel like classics.

Through the lens of the books in her life, Annie comments on everything from feminism to health to poverty to childhood aspirations. Hilarious, compassionate, and wise, *Dear Fahrenheit 451* is the consummate book-lover's book.

What are "essential questions," and how do they differ from other kinds of questions? What's so great about them? Why should you design and use essential questions in your classroom? Essential questions (EQs) help target standards as you organize curriculum content into coherent units that yield focused and thoughtful learning. In the classroom, EQs are used to stimulate students' discussions and promote a deeper understanding of the content. Whether you are an Understanding by Design (UbD) devotee or are searching for ways to address standards—local or Common Core State Standards—in an engaging way, Jay McTighe and Grant Wiggins provide practical guidance on how to design, initiate, and embed inquiry-based teaching and learning in your classroom. Offering dozens of examples, the authors explore the usefulness of EQs in all K-12 content areas, including skill-based areas such as math, PE, language instruction, and arts education. As an important element of their backward design approach to designing curriculum, instruction, and assessment, the authors

- *Give a comprehensive explanation of why EQs are so important;
- *Explore seven defining characteristics of EQs;
- *Distinguish between topical and overarching questions and their uses;
- *Outline the rationale for

using EQs as the focal point in creating units of study; and *Show how to create effective EQs, working from sources including standards, desired understandings, and student misconceptions. Using essential questions can be challenging—for both teachers and students—and this book provides guidance through practical and proven processes, as well as suggested "response strategies" to encourage student engagement. Finally, you will learn how to create a culture of inquiry so that all members of the educational community—students, teachers, and administrators—benefit from the increased rigor and deepened understanding that emerge when essential questions become a guiding force for learners of all ages.

Fireman Guy Montag loves his job. Since houses have been made fireproof, firemen no longer put out house fires--now they burn books. No one is allowed to read books--no one wants to read books. Books are only filled with confusing and contradictory ideas, and it is more important to have fun and be entertained. But then Montag meets a new young neighbor girl who actually seems to think. When she asks him, "Are you happy?" he finds he has no answer. And when an old woman refuses to leave her books and dies in the flames, he wonders, what in her books inspires such passion? He determines to discover it for himself, though his rebellion, and his confusion, may cost him his life. A good examination of censorship and our responsibility to understand.
