The breakout star of Discovery's hit automotive restoration show Fast N' Loud takes readers on an entertaining ride through his wild life and behind the scenes of his hit show in this memoir and automotive handbook, revving with outrageous details and jaw-dropping stories, and injected with the quick-witted, foul-mouthed charm viewers love. "If we're gonna have fun, it better have a motor!" In Fast N' Loud, Richard Rawlings pushes into high gear, sharing the story of his rise to success, his show, and the automotive know-how that has made him famous. He begins with his own story—how he went from flat broke to a seat at the table with some of history's most iconic car guys. His road to the top is full of dangerous twists and hilarious turns, with a few precipitous cliffs in between, including getting shot defending his beloved 1965 Mustang fastback from carjackers, blowing out of town Fear-and-Loathing style, and picking up chicks and vagrants along the way. Rawlings then takes readers behind the scenes of Fast N' Loud, the series, sharing details on everything from the toughest car to restore to the easiest, his favorite restorations, travel and war anecdotes, and the best and worst cars to make it to the small screen. He finishes with a handy guide for classic and antique car enthusiasts that includes insider tricks of the trade. Want to know how to find a Model-T in mint condition? Need a carburetor for your '73 Ford Mustang? Want to meet other '60s Porsche owners? The answers are all here.

Volume One traces the history of Opel and Vauxhall separately from inception through to the 1970s and thereafter collectively to 2015. Special attention is devoted to examining innovative engineering features and the role Opel has taken of providing global platforms for GM. Each model is examined individually and supplemented by exhaustive supporting specification tables. The fascinating history of Saab and Lotus begins with their humble beginnings and examines each model in detail and looks at why these unusual marques came under the GM Banner. Included is a penetrating review of Saab through to its unfortunate demise. Volume Two examines unique models and variations of Chevrolet and Buick manufactured in the Southern Hemisphere and Asia but never offered in North America. Daewoo, Wuling and Baojun are other Asian brands covered in detail. This volume concludes with recording the remarkable early success of Holden and its continued independence through to today. Volume Three covers the smaller assembly operations around the world and the evolution of GM's export operations. A brief history of Isuzu, Subaru and Suzuki looks at the three minority interests GM held in Asia. The GM North American model specifications are the most comprehensive to be found in a single book. Global and regional sales statistics are included. GM executives and management from around the globe are listed with the roles they held. An index ensures that these volumes serve as the ideal reference source on GM.
