In an easy-to-digest list format, it offers concise yet comprehensive coverage of everything from arthritis, imaging, and wound care to implants, pediatrics, and trauma – all at your fingertips in one convenient place.

The extraordinary story of a Dalit family in southern India Poised to inherit a huge tract of land gifted by the Nizam to his father, twenty-one-year-old Narsiah loses it to a feudal lord. This triggers his migration from Vangapally, his ancestral village in the Karimnagar District of Telangana - the single most important event that would free his family and future generations from caste oppression. Years later, it saves his son Baliah from the fate reserved for most Dalits: a life of humiliation and bonded labour. A book written with the desire to make known the inhumanity of untouchability and the acquiescence and internalization of this condition by the Dalits themselves, Y.B. Satyanarayana chronicles the relentless struggle of three generations of his family in this biography of his father. A narrative that derives its strength from the simplicity with which it is told, My Father Baliah is a story of great hardship and greater resilience.

Our monogram series is available in A-Z, 1-9, various icons (in some series) and multiple interior formats (with most). Find variations by altering the Title and Series Title in a search. [View other cover designs by searching the Series Title or just the Title.]

Introduction to Botany's comprehensive coverage captures readers' attention by showing them why plants are a fascinating and essential part of their everyday lives. The clear, concise text focuses on four major themes—plants and people, conservation biology, evolution, and biotechnology—and gives readers practical and relevant information about the world of botany. Thematic boxes throughout each chapter further highlight the relationship between plants and readers' lives. Nabors' clear and engaging writing style keeps students interested in the science without ever becoming encyclopedic. Plants & people, conservation biology, evolution, and biotechnology. For college instructors, students, and anyone interested in plant biology or botany.

A woman with an obsession for prehistoric fiction, Olivia Keller gets more than she bargains for, as she is kidnapped and used as a guinea pig by scientists conducting time travel experimental trials. Cast into a world she could not have understood if she'd read a thousand books, fantasies are abandoned as survival remains the only goal. As the realization of her true mission is revealed to her, she is given the extraordinary

power to change the course of earth's history.

Meet Cole: hapless space rogue and part-time smuggler. His sidekick just stole his girlfriend. The galaxy's most hideous and feared bounty hunter wants to lay eggs in his brain. And the luxury space yacht Cole just hijacked turns out to be filled with interstellar do-gooders, one especially loathsome stowaway, and a cargo of freeze-dried orphans. Cole gathers a misfit crew for a desperate journey to the far reaches of the galaxy. But little does Cole suspect that this legendary utopia is home to a band of outlaws bent on destroying the planet's tiny, peaceful community.

"Shell shock, battle fatigue, posttraumatic stress disorder, lacking moral courage-different terms for the same mental condition and a haunting presence in wars throughout history. This is the unique story of one young Pennsylvanian, Angelo M. Crapsey, who marched off to war with a patriotic chip on his shoulder only to stagger home two years later under the crushing burden that war had imposed on him. The specter of psychological destruction has marched beside all soldiers in all wars, forever standing at the ready to ravish minds. The topic became much too familiar to the American public in the aftermath of the Vietnam War. As veterans of World War II and Korea reach their advanced years, many of them are purging themselves of half-century-long nightmares. Sadly, we continue to fill casebooks with new stories of psychological damage inflicted on those now struggling in Iraq and Afghanistan. Yet rarely does the subject reveal itself when discussing America's great conflict, the Civil War. A public that venerates the many well preserved battlefields never seems to offer more than passing notice of the mindwasting terror that affected the men who fought there. That is why this book exists. Its detailed view of mental stress makes it almost unique in the vast literature of the American Civil War. Gleaned almost exclusively from extensive primary accounts, most previously unpublished and none well known, Pathway to Hell offers sobering insight into the horrors that war wreaked upon one young man. His voice is critical to a proper recounting and appears often in the telling, even though he seemed oblivious about what was happening to him. Other voices are heard as well, including those who influenced him before the war and who may have contributed to his destruction. It is also a tale of a town that fought both him and his ideals and is a fresh insight into a famous regiment in which he so nobly served. Lastly, it is a search - a necessarily frustrating one - for the reasons why it all happened. Equally as important to the author is his method of telling the story. This is an account of human suffering, of how one man did and did not deal with fear and overwhelming emotions. To recount it with dry, academic terminology would be to this soldier - indeed, all soldiers - a grave disservice because it would reach a smaller audience when we should all be made aware of what happened to Crapsey. With that goal in mind, the author constructed this book to reach the widest possible readership." "The psychological punishment that war metes out is a topic the reader mayor may not enjoy reading, but it is guaranteed that it will enlighten them."--BOOK JACKET.

When famous horror novelist Frank Goolz and his two daughters move next door to Harold, he begins to notice a strange specter in the attic, causing Harold to wonder if the stories Goolz writes may be true.

Just the core concepts you need to write and speak French correctly If you have some knowledge of French and want to polish your skills, French Essentials For Dummies focuses on just the core concepts you need to communicate effectively. From

Presents an account of the largest diamond heist in history as a group known as "The School of Turin" stole half a billion dollars in diamonds and other valuables from the Antwerp Diamond Center in Belgium.

Armies of Fellspawn march upon Highmount. The Iron Gods have awoken from their slumber. E'blis, the Prince of Pain, is preparing a very special sacrifice to raise the Fallen One from his tomb. Sarah Bean must beseech the Kay'lo to join the war and help her to save Seythe from total destruction. Will they agree to help her? Can Highmount survive such an onslaught of evil? Or will this be the beginning of the end for the Thirteen Worlds?

Jaina canonical text on doctrines of Karma.

Durrell and the City commemorates the 50th anniversary of the publication of the Quartet with a collection of fourteen new essays by a group of international scholars and critics. The collection provides a critical understanding of all Durrell's urban landscapes, but focuses on the place that made him famous—the city of Alexandria—in order to provide a reassessment of his career and achievement.

The acclaimed author of Sweetness in the Belly journeys to Vietnam in this rich and tantalizing new novel. Raised in the United States but Vietnamese by birth, Maggie has come to Hanoi seeking clues to the fate of her father, a dissident artist who disappeared during the war. Her search brings her to Old Man Hu'ng's pho stall. The old man once had a shop frequented by revolutionary artists, but now Tu', a hustling young entrepreneur, is his most faithful customer. Maggie, Hu'ng, and Tu' come together during a highly charged season that will mark them forever. Exploring the indelible legacies of war and art, as well as love's power to renew, The Beauty of Humanity Movement is a stellar achievement by a globally renowned literary light. New York Times bestselling author Keri Arthur continues her Dark Angels series as half-werewolf, half-Aedh Risa Jones races to save the world from descending into ultimate chaos.... Risa has angered several powerful people, and she's starting to feel the pressure from all sides. She also finds herself under the scrutiny of the vampire council, some of whom consider her a monster who should be destroyed. But they offer her a bloody bargain: Take on the lethal head of the council and others will support her. As the search for the keys to hell heats up, Risa realizes that she has no choice. For the sake of the people she loves, she must find the keys—and get rid of Hunter—before the

next gate is opened and brings the world closer to all hell breaking loose....

Puzzles and brain twisters to keep your mind sharp and your memory intact are all the rage today. More and more people -- Baby Boomers and information workers in particular -- are becoming concerned about their gray matter's ability to function, and with good reason. As this sensible and entertaining guide points out, your brain is easily your most important possession. It deserves proper upkeep. *Your Brain: The Missing Manual* is a practical look at how to get the most out of your brain -- not just how the brain works, but how you can use it more effectively. What makes this book different than the average self-help guide is that it's grounded in current neuroscience. You get a quick tour of several aspects of the brain, complete with useful advice about:

- Brain Food: The right fuel for the brain and how the brain commands hunger (including an explanation of the different chemicals that control appetite and cravings)
- Sleep: The sleep cycle and circadian rhythm, and how to get a good night's sleep (or do the best you can without it)
- Memory: Techniques for improving your recall
- Reason: Learning to defeat common sense; logical fallacies (including tactics for winning arguments); and good reasons for bad prejudices
- Creativity and Problem-Solving: Brainstorming tips and thinking not outside the box, but about the box -- in other words, find the assumptions that limit your ideas so you can break through them
- Understanding Other People's Brains: The battle of the sexes and babies developing brains

Learn about the built-in circuitry that makes office politics seem like a life-or-death struggle, causes you to toss important facts out of your memory if they're not emotionally charged, and encourages you to eat huge amounts of high-calorie snacks. With *Your Brain: The Missing Manual* you'll discover that, sometimes, you can learn to compensate for your brain or work around its limitations -- or at least to accept its eccentricities. Exploring your brain is the greatest adventure and biggest mystery you'll ever face. This guide has exactly the advice you need.

The Matriarch of Ramunna needs an heir. Only the lost healing magic of the ancient wizards can help her conceive and bear the daughter who will ensure Ramunna's future. She sends an expedition to seek the wizards legends say still dwell somewhere far across the uncharted ocean. Tevenar hovers on the brink of disaster. Elkan, Josiah, and the rest of the Wizard's Guild battle a virulent wheat blight, but even the Mother's power might not be enough to prevent a deadly famine. Two lands, separated for a millennium by divine decree. Each holds the key to the other's survival. But in order to strike the bargain that could save them both, they'll have to persuade the Mother herself to change her Law and end the isolation that has protected Tevenar for centuries.

This survey text presents the Western intellectual tradition within a chronology of political history. Known for its accessible writing style, *Western Civilization* appeals to students and instructors alike for its brevity, clarity, and careful selection of content. New technology resources, including Houghton Mifflin's Eduspace course management system, make learning more engaging and instruction more efficient. In the Eighth Edition, several new pedagogical features support students throughout the term. Chapter-opening focus questions direct students to important themes, while a glossary reinforces key terms and concepts. New icons in the text direct students to online resources such as maps, primary sources, and practice test questions. In addition, the new edition retains many popular features, including comparative timelines, full-color

maps with physical geography essays, and primary source excerpts.

Essential game idea for all ages for summer vacations. Easy fit in a purse, tote and messenger bag to play in restaurants, planes, trains, car trips, waiting rooms, picnics, home.

As a teenager 'Tich' Palliser became 'hooked on this flying game' and aspired to take to the skies. The Royal Air Force Volunteer Reserve provided the opportunity and a few months before the Second World War broke out the Yorkshire-born novice was called-up to learn and develop his skills as a combat fighter pilot. In August 1940 the young sergeant aviator, at the controls of a Hawker Hurricane, entered the ferocious aerial melees of the Battle of Britain, fighting for his life, and his colleague's lives, as he became one of Churchill's 'Few' in the defense of his homeland. Tich met with some combat success but also witnessed the attrition of war at a personal level, losing many squadron friends. Indeed in December 1940 Tich fell victim to enemy fighters. Tich was commissioned in April 1941 and arrived in Malta a month later to play his part in the defense of the beleaguered island. Steadily his score of combat kills rose. He passed the 'ace' status and early in 1942 was awarded the Distinguished Flying Cross. Soon after he took up instructing duties, and for the remainder of the war, despite the continual threat of sabotage, Tich passed on his hard-won experience to novice pilots in South Africa. This is Tich's story in his own words, illustrated with numerous previously unpublished photographs, as the reader accompanies him through the physical tensions and emotional trials of being a Second World War fighter pilot. Tich provides an intimate account of squadron life, including the acquaintances made and coping with the loss of friends. They Gave Me a Hurricane is an extraordinary, gripping, and enthralling account, as told by one of the RAF's 'ace' fighter pilots – a fitting tribute to an outstanding airman and well respected veteran.

French Essentials For Dummies John Wiley & Sons

It's rare to discover a candid sports autobiography-- even rare when the author is one of the most recognizable athletes in the world. But in Shaq Talks Back, Shaquille O'Neal for the first time talks frankly about his childhood, his life, his rivalries, and his career, culminating in a dramatic, behind-the-scenes account of the Los Angeles Lakers' drive to the NBA Championship. At seven feet one inch tall and 330 pounds, Shaq has always faced outsized expectations, even as a child when he towered over other kids. Shaq Talks Back is the story of how potential became reality-- how someone expected to be a champion finally learned to become one. Beginning with his memory of crying on the court after the Lakers defeated the Indiana Pacers, Shaq takes us back to his

younger days in Newark and Jersey City, New Jersey, then to Georgia and finally to Germany, where he began to harness some of his height and strength. From there, he recounts the remarkable progress of his basketball career, changing from a big but inexperienced teenager to a dominant college and professional player. Shaq talks about: * Playing at Louisiana State University for the unpredictable coach Dale Brown * Signing the biggest rookie contract ever with the Orlando Magic-- and going to the NBA Finals for the first time * What happened next: dissention, disappointment, and his decision to leave for Los Angeles * The dysfunctional Lakers who were never able to win the big games * Dealing with egos as he finds the right chemistry with Kobe Bryant, Phil Jackson, and new additions to the team * Rivalries with Alonzo Mourning, Patrick Ewing, Hakeem Olajuwon, David Robinson, and others * The trouble with free throws... * "Bling-bling" and women: the larger-than-life world of NBA players off the court * Inside the Lakers' comeback from the brink against Portland and the drive to the NBA championship Funny, insightful, opinionated, and unexpectedly moving, Shaq Talks Back is the true voice of the NBA's best player.

Military history has established that musical units are an integral part of the Marine Corps (Appendix A). Marine Corps Bands are an important stimulus to morale and esprit de corps and provide the Commanding General, and the unit, a vital link to ceremonial traditions. In combat, musical units continue musical functions and augment security on a temporary basis during periods of heightened combat intensity when use of the band in its primary role is impractical.

An anthology of fantasy tales featuring feline heroes and heroines includes twenty-four new stories by such authors as Mercedes Lackey, David Drake, Barry Longyear, Lawrence Watt-Evans, and Andre Norton

A comprehensive training guidebook for educators who are committed to diversity and the full inclusion of LGBT students in every aspect of the Catholic high school experience.

THE FULL STORY BEHIND THE BORGIIAS, NOW A MAJOR TV DRAMA STARRING JEREMY IRONS 'Either Caesar or nothing' was the motto of Cesare Borgia, whose name has long been synonymous with evil. Almost five centuries have passed since his death, yet his reputation still casts a sinister shadow. He stands accused of treachery, cruelty, rape, incest and, especially, murder - assassination by poison, the deadly white powder concealed in the jewelled ring, or by the midnight band of bravos lurking in the alleys of Renaissance Rome. This classic book by acclaimed historian and biographer Sarah Bradford (author of Lucrezia Borgia and Diana), is the drama of a man of exceptional gifts and a driving lust for power. Cesare Borgia dared fortune for the highest goals and when fate turned against him he fell like Lucifer. Set against the brilliant backcloth of High Renaissance Italy, his life had the perfect proportions of a Greek tragedy.

Provides a study of Harvard Divinity School, its diverse students, the meaning of religion in today's secular society, and a reevaluation of the author's own Jewish faith

Months after Anna Korlov opened a door to Hell and sacrificed herself for seventeen-year-old ghost hunter Cas Lowood, persistent visions of Anna being tortured cause Cas to decide to save her as she once saved him.

Falling in love with Luke, a talented football player with a promising future, Julie Ellis encourages him to see a doctor when he falls ill, and she is horrified when
