Features an audio read-along! With a simple, witty story and free-spirited illustrations, Peter H. Reynolds entices even the stubbornly uncreative among us to make a mark -- and follow where it takes us. Her teacher smiled. "Just make a mark and see where it takes you." Art class is over, but Vashti is sitting glued to her chair in front of a blank piece of paper. The words of her teacher are a gentle invitation to express herself. But Vashti can't draw - she's no artist. To prove her point, Vashti jabs at a blank sheet of paper to make an unremarkable and angry mark. "There!" she says. That one little dot marks the beginning of Vashti's journey of surprise and self-discovery. That special moment is the core of Peter H. Reynolds's delicate fable about the creative spirit in all of us.

Volume 4: Myth, manners, and memory. This volume addresses the cultural, social, and intellectual terrain of myth, manners, and historical memory in the American South. Evaluating how a distinct southern identity has been created, recreated, and performed through memories that blur the line between fact and fiction, this volume paints a broad, multihued picture of the region seen through the lenses of belief and cultural practice. Richard Pousette-Dart (1916–1992) is best known as an American painter of mid-20th-century Abstract Expressionism, although his work was distinct for its spiritual content and his elaborate layering of materials. His works on paper are remarkable for their varied use of materials and techniques, and reflect the artist's shift from figurative representation to semi-abstract forms emerging out of free calligraphic drawing, to a form of pointillism, and a return to spontaneous drawing. Pousette-Dart's later works include evocative graphite drawings touched with white paint, bold black and white paintings, hand-colored etchings, and colorful acrylics on handmade paper. The authors employ close stylistic and technical analysis to trace for the first time the narrative of Pousette-Dart's career as a draftsman. Generously illustrated with nearly 200 color images, this revelatory publication presents an unprecedented examination of the artist's works on paper, focused on his dynamic experimentation with media and styles over nearly seven decades.

L'artiste native de Cuba Carmen Herrera (née en 1915) peint depuis plus de sept décennies, mais ce n'est que ces dernières années que la reconnaissance pour son travail a projeté l'artiste vers la notoriété internationale. Ce beau volume offre le premier examen soutenu d'elle, depuis le début de sa carrière en 1948 jusqu'en 1978, et s'étend sur les mondes de l'art de La Havane, de Paris et de New York. Les essais considèrent les premières études de l'artiste à Cuba, son implication dans le Salon des Réalités Nouvelles dans le Paris d'après-guerre et sa sortie révolutionnaire de New York. Puis l'ouvrage situe son travail dans le contexte d'un art d'avant-garde latino-américain plus large. Un essai de Dana Miller considère le travail de New York d'Herrera depuis les années 1950 jusque dans les années 1970, lorsque Herrera arrivait et perfectionnait son style de signature. Des photographies familiales personnelles des archives de Herrera enrichissent le récit, et une chronologie traitant de l'intégralité de sa vie et de sa carrière présente des images documentaires supplémentaires. Plus de quatre-vingts œuvres sont illustrées sous forme de plaques de couleur. Ce livre est la représentation la plus étendue des travaux de Herrera à ce jour. (d'après l'éditeur).

"Edward Fella, a former commercial artist, creates posters that break every known rule of typographic convention and designer good taste," says Rick Poynor. Ellen Lupton has written, "In Fella's work, the unfettered mind of a Dada/Fluxus hippie confronts the dextrous hand of a traditional commercial artist." Bruce Mau calls him "brilliant." Peter Hall says Ed Fella is "an agitator, an experimentalist, an educator, and an inspiration to a new generation of type designers" and says his "anti-slick, rule-breaking designs" are "eccentric to the point of being impossible to imitate." Clearly everyone agrees that Ed

Fella is one of the most daring and extreme graphic designers in America today. Famous for his obsessive hand-drawn alphabets and glyphs, Fella creates work with the power and spontaneity of raw art that nonetheless is born from a great knowledge of the theory and technique of typography and graphics. As Rick Poynor says, "Fella doesn't so much take his line for a walk as force-feed it hallucinogens and release it babbling on to the page." This first book on Fella, designed by Lorraine Wild, contains numerous examples of the designer's work, including his radical typeface designs, which have been described as "spun, tilted, stretched, sliced, fractured, drawn as if with a broken nib, and set loose among fields of ink-blotter doodles and networks of rules." This title also features Fella's collection of Polaroid snapshots of the signs and symbols he sees on the streets. These photos, taken over a period of many years, serve as a record of vernacular architecture around the world as well as inspiration for Fella's own designs. The result is a book which will appeal to all designers and art directors, whether their love is photography or fonts, art direction or art.

This is the story of LSD told by a concerned yet hopeful father, organic chemist Albert Hofmann. He traces LSD's path from a promising psychiatric research medicine to a recreational drug sparking hysteria and prohibition. We follow Dr. Hofmann's trek across Mexico to discover sacred plants related to LSD, and listen in as he corresponds with other notable figures about his remarkable discovery. Underlying it all is Dr. Hofmann's powerful conclusion that mystical experience may be our planet's best hope for survival. Whether induced by LSD, meditation, or arising spontaneously, such experiences help us to comprehend the wonder, the mystery of the divine in the microcosm of the atom, in the macrocosm of the spiral nebula, in the seeds of plants, in the body and soul of people. Now, more than sixty years after the birth of Albert Hofmann's problem child, his vision of its true potential is more relevant, and more needed, than ever.

This stunning book is the first compendium of art made with ballpoint pens. Ballpoint drawing has evolved into a thriving art form since the pen emerged as a writing tool in the 1940s, when the Hungarian journalist and inventor László Bíró fled war-torn Europe and began manufacturing the pens in Argentina. Throughout the 1950s and '60s, as the ballpoint became cheaper and more accessible, Alberto Giacometti, Jean Dubuffet, Andy Warhol, Francis Bacon, Nam June Paik, Louise Bourgeois, and many others, sketched with the pens. Today, those who make art with ballpoint pen are no longer confined by size or style. They draw on sculpture, wallpaper, canvas, architecture, and 50-foot sheets of paper, depicting a wide range of subjects – from psychologically charged portraits to mutant animals to abstract scribbles. This book features 30 artists from around the world who are currently creating masterpieces with ballpoint, and discusses their methods, the messages in their work, and their personal connections to the pen.

Ann Quin's Tripticks offers an episodic account of the narrator's flight across a surreal American landscape, pursued by his "No. 1 X-wife" and her new lover. This masterpiece of pre-punk aesthetics critiques the hypocrisy and consumerism of modern culture while spoofing the 'typical' maladjusted family, which in this case includes a father who made his money in ballpoint pens and a mother whose life revolves around her overpampered, all-demanding poodle. In 1970, Sara Ehrenreich boards a small plane and returns to New York City with much fanfare; she will be featured in *Life* magazine. She has not left Ta'un'uu—the South Seas island upon which she and her husband, Philip, were marooned during a storm—in more than thirty years. Sara doesn't know that man has landed on the moon. She has never seen a ballpoint pen. Her body is covered, head to toe, in tattoos. Flashback: it's 1918 and Sara, a shop girl and aspiring artist, meets Philip, a wealthy member of the avant-garde elite. The two fall in love, marry, and collaborate to make art, surrounded by socialites and revolutionaries—until the Depression cripples not just Sara and Philip, but most of their patrons. When Philip is offered a job gathering masks from the South Seas, they jump at a chance to escape America's sorrows, traveling to Ta'un'uu for what they think will be a week's stay. The rest is history—a history Sara records on her skin through the traditional tattoos that become her masterpiece and provide an accounting of her days. Narrated in vivid and starkly moving prose, *The Tattoo Artist* reminds us of the unforeseeable forces that shape each human life.
