

The Wars Of The Roses The Key Players In The Struggle For Supremacy

Explores the events of the Wars of the Roses through the eyes of the key players. Discover the personalities behind the fight for the throne.

This book is also available as part of the Men-at-Arms series as no. 145: 'Wars of the Roses'. Much myth and fantasy surrounds the events of the Wars of the Roses: a bloody and prolonged dynastic struggle between the houses of York and Lancaster. Terence Wise's fascinating text lays bare the real story, and examines the armies, liveries and badges of the conflict. The author's readable account provides a comprehensive guide as to who fought whom, where, when, why and for what, from the origins of the Wars to such famous battles as Tewkesbury and Bosworth. The accompanying photographs, illustrations and colour plates by Gerry Embleton clearly detail the arms, armour and standards of the time.

The brilliant retelling of the Wars of the Roses continues with *Bloodline*, the gripping third novel in the new series from historical fiction master Conn Iggulden. Winter 1461: Richard, duke of York, is dead--his ambitions in ruins, his head spiked on the walls of the city. King Henry VI is still held prisoner. His Lancastrian queen, Margaret of Anjou, rides south with an army of victorious northerners, accompanied by painted warriors from the Scottish Highlands. With the death of York, Margaret and her army seem unstoppable. Yet in killing the father, Margaret has unleashed the sons. Edward of March, now duke of York, proclaims himself England's rightful king. Factions form and tear apart as snow falls. Through blood and treason, through broken men and vengeful women, brother shall confront brother, king shall face king. Two men can always claim a crown--but only one can keep it. Following Margaret of Anjou, *Bloodline* is the third epic installment in master storyteller Conn Iggulden's new Wars of the Roses series. Fans of the *Game of Thrones* and the *Tudors* series will be gripped from the word "go." From the Hardcover edition.

The Wars of the Roses, which tore apart the ruling Plantagenet family in fifteenth-century England, was truly a domestic drama, as fraught and intimate as any family feud before or since. But as acclaimed historian Sarah Gristwood reveals, while the events of this turbulent time are usually described in terms of the men who fought and died seeking the throne, a handful of powerful women would prove just as decisive as their kinfolks' clashing armies. A richly drawn, absorbing epic, *Blood Sisters* reveals how women helped to end the Wars of the Roses, paving the way for the Tudor age—and the creation of modern England.

First published in 1990. Routledge is an imprint of Taylor & Francis, an informa company.

In this new edition of *The Wars of the Roses*, A.J. Pollard has incorporated new research and consideration of the debates which have emerged from the first edition.

The Wars of the Roses raged from 1455 to 1485 - the longest period of civil war in English history. They barely affected the daily routine of the civilian population, yet for the leaders of the opposing houses of York and Lancaster, the wars were devastating. First hand accounts reveal how the lives of their women and children were blighted during three decades of war, as many of their male relatives met with violent deaths. This book examines in detail the causes, course and results of each of the main wars and concludes with a fascinating insight into why the wars ended so abruptly.

Each of these lavishly illustrated books serves up a brief and manageable portion of the Fraser-edited and much-touted *Lives of the Kings and Queens of England*. A set of six jewels for Fraser's crown.

The dynastic struggles of the Wars of the Roses (1455-85) have traditionally been portrayed as belonging to one of the most dramatic periods in the history of England, an age of murder and melodrama. In this classic history of the wars, charting their origins, progress, conclusions and effects, Professor Lander sets the record straight. By putting the wars into their contemporary context, using the written records of the time (many of which are reproduced in the text) and the results of modern research and scholarship, the true picture emerges. The wars were, in fact, very limited. While not denying that contemporary English society was disorderly and violent, Lander suggests that this state of affairs was due far less to civil war than to habits of violence among all classes of society. Fluently and clearly written "The Wars of the Roses" is the perfect overview of one of the most famous of medieval conflicts. Shedding light, as it does, on fifteenth-century history as a whole, the roots of the Tudor dynasty, and the background to Shakespeare's history plays, this book deserves a place on the bookshelf of anyone interested in this most turbulent period.

"The Wars of the Roses were a series of dynastic wars fought between supporters of two rival branches of the royal House of Plantagenet: the houses of Lancaster and York (whose heraldic symbols were the red and the white rose, respectively) for the throne of England. They were fought in several sporadic episodes between 1455 and 1485, although there was related fighting both before and after this period. They resulted from the social and financial troubles following the Hundred Years' War. The final victory went to a relatively remote Lancastrian claimant, Henry Tudor, who defeated the last Yorkist king Richard III and married Edward IV's daughter Elizabeth of York to unite the two houses. The House of Tudor subsequently ruled England and Wales for 117 years."--Wikipedia.

A riveting account of the Wars of the Roses, focusing on the human side of the story. The war between the houses of Lancaster and York for the throne of England was characterized by treachery, deceit and, at St. Albans, Blore Hill and Towton, some of the bloodiest and most dramatic battles on England's soil. Between 1455 and 1487, the royal coffers were bankrupted and the conflict resulted in the downfall of the House of Lancaster and the House of York, and the emergence of the illustrious Tudor dynasty. Alison Weir's lucid and gripping account focuses on the human side of history, on the people and personalities involved in the conflict. At the centre of the book stands Henry VI, the pious king whose mental instability led to political chaos; Richard Plantagenet, Duke of York and Henry's rival; and most important of all, Margaret of Anjou, Henry's wife who took up arms in her husband's cause and battled for many years in a violent man's world.

King Henry V - the great Lion of England - is long dead. In 1437 his gentle son comes of age and takes the throne. Frail in body and mind, King Henry VI is dependent on his

supporters to run his kingdom. Richard, Duke of York, however, believes that without a strong king England will fall.

The Wars of the Roses which took place in England during the 15th century have passed into folk-memory as bloody, vicious struggles for power, with the throne as the prize and ordinary people as the victims. William Shakespeare's propaganda for the Tudor dynasty played a great part in creating this legend. Yet the truth was rather more complex. Although power changed hands often, and sometimes with bewildering speed, English society in general was relatively stable, and prosperous. The Wars of the Roses represent a stage in the evolution of a British nation, emerging from the long shadow of medieval France that had lain over these islands since the Norman Conquest. This popular book covers the period beautifully.

The Wars of the Roses (1455–85) were a major turning point in English history. But the underlying causes for the successive upheavals have been hotly contested by historians ever since. In this original and stimulating new synthesis, distinguished historian Michael Hicks examines the difficult economic, military, and financial crises and explains, for the first time, the real reasons why the Wars of the Roses began, why they kept recurring, and why, eventually, they ceased. Alongside fresh assessments of key personalities, Hicks sheds new light on the significance of the involvement of the people in politics, the intervention of foreign powers in English affairs, and a fifteenth-century credit crunch. Combining a meticulous dissection of competing dynamics with a clear account of the course of events, this is a definitive and indispensable history of a compelling, complex period.

THE WARS OF THE ROSES is the definitive account of one of the bloodiest episodes in British history - wars between the houses of York and Lancaster. Trevor Royle provides a military history of the Wars while placing the conflict in the context of the time. This was a period with a rich legacy: William Caxton introduced the art of printing; there was a growing body of literature, such as Chaucer, in the English tongue; architecture flourished and great educational institutions were born such as Winchester School and King's College, Cambridge.

The Wars of the Roses The Fall of the Plantagenets and the Rise of the Tudors Penguin

It was no small act of heroism to which the boy made up his mind in those few moments. Those were lawless days, and human life was held very cheap. The band of fierce men who had believed they were carrying off a prince, would think nothing of running him through with their swords when they discovered how they had been tricked, and that by a mere child. Paul set his teeth hard and braced himself up for the task he had set himself. He knew his peril he realized it too; but he was a soldier's son, and had he not said he would live and die for the prince? Would he ever be worthy of the knighthood every lad looked forward to as the goal of his ambition, if he shrank now from the task he had set himself? Hardly had that resolution been taken before there sprang out from the thick underwood two or three fierce-looking men, armed to the teeth.

The Wars of the Roses was a complicated, bloody affair between the houses of Lancaster and York, and witnessed much changing of sides. That disjointed feuding persisted for a staggering thirty years and was a north versus south affair. However, the period and conflicts covered by this title are refreshingly clear. An intriguing tale of treachery and deceit.

This collection of nine essays (including the introduction) by leading British scholars addresses recent debates concerning the Wars of the Roses, especially their origins and the balance between self-interest and principle in the motivation of the participants. The collection brings these issues forward for the consideration of sixth-form and undergraduate students. While offering a summation of current viewpoints, the collection also offers new interpretations on several points.

It was the period when the French beat the English and the English fought among themselves. Traditional historians have glossed over it, considering it the time that wrecked Britain's military greatness. But Gillingham elegantly separates myth from reality, arguing that, paradoxically, the wars actually proved how peaceful the country was. His gifted graphic description makes this exciting and dramatic throughout. "Incisively written and highly readable."—Sunday Times. "Gillingham informs us...with such verve, with and intelligence that we are left dazzled and delighted."—History.

This fascinating account of an unsung English monarch and military leader is "a pleasing and well-informed appraisal of the first Yorkist king" (Dr. Michael Jones, author of *Bosworth 1485: Psychology of a Battle*). Indisputably the most effective general of the Wars of the Roses in fifteenth-century England, King Edward IV died in his bed, undefeated in battle. Yet he has never been accorded the martial reputation of other English warrior kings such as Henry V. It has been suggested that perhaps he lacked the personal discipline expected of a truly great army commander. But, as the author shows in this perceptive and highly readable new study, Edward was a formidable military leader whose strengths and subtleties have never been fully recognized—perhaps because he fought most of his battles against his own people in a civil war. This reassessment of Edward's military skill—and of the Wars of the Roses in which he played such a vital part—provides fascinating insight into Edward the man as well as the politician and battlefield commander. Based on contemporary sources and the latest scholarly research, *Edward IV and the Wars of the Roses* stands as "a valuable and thought-provoking addition to the canon, which ought to become required reading for anyone interested in the reign of the first Yorkist monarch" (*The Ricardian*).

The enthralling story of the dynastic wars fought between the houses of Lancaster and York, the first of a dynamic two-volume history of the Wars of the Roses.

Frequently remembered only as a period of military history which both saw the French beat the English and then the English fight amongst themselves, traditional historians have tended to regard The Wars of the Roses as an episode that wrecked England's military greatness. John Gillingham's highly readable history separates the myth from the reality. He argues that, paradoxically, the Wars of the Roses demonstrate how peaceful England in fact was. From the accession of the infant Henry VI to the thrones of England and France in 1422 to the accession of Henry VII following the Battle of Bosworth in 1485, Gillingham uses his gift for graphic description (particularly with his exciting account of the 1471 campaign) to great effect. He is also good at placing the warfare within its European context, especially in showing the problems encountered in conducting a civil war within a normally peaceful country. *The Wars of the Roses* is an irresistible account of a fascinating period of history that makes available to a much wider audience the work of historians of recent decades. Praise for John Gillingham 'Incisively written and highly readable' - Sunday Times John Gillingham is Emeritus Professor of Medieval History at the London School of Economics and Political Science. On 19 July 2007 he was elected into the Fellowship of the British Academy. He is renowned as an expert on the Angevin empire. His other titles include *Oliver Cromwell: Portrait of a Soldier*.

The brilliant retelling of the Wars of the Roses continues with *Margaret of Anjou*, the second gripping novel in the new series from historical fiction master Conn Iggulden. As traitors advance . . . a queen

defends. It is 1454 and for more than a year King Henry VI has remained all but exiled in Windsor Castle, struck down by his illness, his eyes vacant, his mind blank. His fiercely loyal wife and queen, Margaret of Anjou, safeguards her husband's interests, hoping that her son Edward will one day come to know his father. With each month that Henry is all but absent as king, Richard, the duke of York, protector of the realm, extends his influence throughout the kingdom. A trinity of nobles--York and Salisbury and Warwick--are a formidable trio and together they seek to break the support of those who would raise their colors and their armies in the name of Henry and his queen. But when the king unexpectedly recovers his senses and returns to London to reclaim his throne, the balance of power is once again thrown into turmoil. The clash of the Houses of Lancaster and York may be the beginning of a war that could tear England apart . . . Following Stormbird, Margaret of Anjou is the second epic installment in master storyteller Conn Iggulden's new Wars of the Roses series. Fans of the Game of Thrones and the Tudors series will be gripped from the word "go."

This authoritative A–Z encyclopedia of the Wars of the Roses provides accurate and concise descriptions of the major battles and events and the principal historical figures and issues involved. * More than 275 entries and over 40 illustrations * A map of the Wars of the Roses battle sites * Guide to related topics, chronology, and genealogies * Table showing the involvement of the higher peerage in the Wars of the Roses * List of Popes and English church leaders in the 15th century * List of selected websites for 15th century topics

For historians of the Wars of the Roses William Shakespeare is both a curse and a blessing, a curse because he immortalized Tudor spin on fifteenth-century civil wars that helped justify Elizabeth I's legitimate occupation of the throne; a blessing because, without Shakespeare's eight-play Plantagenet history cycle, hardly anyone beyond the confines of a few elite schools, universities and the Richard III Society would even know of their existence. Moreover, no mere historian will ever paint a more compelling and dramatic picture of England's Lancastrian and Yorkist kings, and the Wars of the Roses, than William Shakespeare. This book begins with an examination of the context, content and significance of Shakespeare's Richard II, Henry IV Parts 1 and 2, Henry V, Henry VI Parts 1, 2 and 3, and Richard III. It then considers the contemporary, near-contemporary and Tudor sources on which Shakespeare drew; how such authors chose to present fifteenth-century kings, politics and society; and why, and in what ways, historians since Shakespeare have sought to reinterpret the Wars of the Roses era. The book ends with a retrospective assessment of Shakespeare's Plantagenet plays, both in performance and as a result of their impact on historical writing.

This book presents a truly coherent account of the Wars of the Roses.

'Iggulden is in a class of his own when it comes to epic historical fiction' Daily Mirror Conn Iggulden's Wars of the Roses Ebook Bundle contain the following: Trinity Stormbird Bloodline Ravenspur

The author of the New York Times bestseller The Plantagenets and The Templars chronicles the next chapter in British history—the historical backdrop for Game of Thrones The inspiration for the Channel 5 series Britain's Bloody Crown The crown of England changed hands five times over the course of the fifteenth century, as two branches of the Plantagenet dynasty fought to the death for the right to rule. In this riveting follow-up to The Plantagenets, celebrated historian Dan Jones describes how the longest-reigning British royal family tore itself apart until it was finally replaced by the Tudors. Some of the greatest heroes and villains of history were thrown together in these turbulent times, from Joan of Arc to Henry V, whose victory at Agincourt marked the high point of the medieval monarchy, and Richard III, who murdered his own nephews in a desperate bid to secure his stolen crown. This was a period when headstrong queens and consorts seized power and bent men to their will. With vivid descriptions of the battles of Towton and Bosworth, where the last Plantagenet king was slain, this dramatic narrative history revels in bedlam and intrigue. It also offers a long-overdue corrective to Tudor propaganda, dismantling their self-serving account of what they called the Wars of the Roses.

Henry VI (1422-61), a man 'more given to God and devout prayer than handling worldly and temporal things', was the third, and least successful, Lancastrian king of England; his wife Margaret of Anjou, 'a great and strong laboured woman', became a formidable political force in her own right; and the Wars of the Roses, so dramatically portrayed by William Shakespeare as bloody dynastic struggles fought for the possession of the crown, brought the usurpation of Edward IV (1461-83), the humiliation and exile of Margaret of Anjou, and the murder of her husband in the Tower of London. Combining a framework of interpretation and a rich selection of passages from contemporary and near-contemporary sources, this compilation enables readers to appreciate just why the rule of Henry VI resulted in the outbreak of the Wars of the Roses, what these internecine conflicts were like, and how they culminated in the end of the House of Lancaster. Keith Dockray was formerly Senior Lecturer in Medieval and Early Modern History at the University of Huddersfield. This volume, following in the footsteps of his Edward IV: From Contemporary Chronicles, Letters and Records (2015) and Richard III: From Contemporary Chronicles, Letters and Records (2013) completes a trilogy of source readers covering English kings, politics and war circa 1450 to 1485

The classic American tale of divorce, and the inspiration for the famous, nasty-spirited movie.

Witness the rise of the Tudor dynasty—in this concluding volume to Conn Iggulden's vigorous and commanding retelling of the Wars of the Roses. England, 1470. A divided kingdom cannot stand. King Edward of York has been driven out of England. Queen Elizabeth and her children tremble in sanctuary at Westminster Abbey. The House of Lancaster has won the crown, but York will not go quietly. Desperate to reclaim his throne, Edward lands at Ravenspur with a half-drowned army and his brother Richard at his side. Every hand is against them, every city gate is shut, yet the brothers York go on the attack. But neither sees that their true enemy is Henry Tudor, now grown into a man. As the Red Dragon—"the man of destiny"—his claim to the throne leads to Bosworth Field and a battle that will bring an end to the Wars of the Roses . . .

The first major study of the role of the castle in the Wars of the Roses. The Wars of the Roses is one of the most dramatic and fascinating periods in medieval history. Much has been written about the leading personalities, bitter dynastic rivalries, political intrigues, and the rapid change of fortune on the battlefields of England and Wales. However, there is one aspect that has been often overlooked, the role of castles in the conflict. Dan Spencer's original study traces their use from the outbreak of civil war in the reign of Henry VI in the 1450s to the triumph of Henry VII some thirty years later. Using a wide range of narrative, architectural, financial and administrative sources, he sheds new light on the place of castles within the conflict, demonstrating their importance as strategic and logistical centers, bases for marshaling troops, and as fortresses Dan Spencer's book provides a fascinating contribution to the literature on the Wars of the Roses and to the study of siege warfare in the Middle Ages.

"Westeros is probably closer to medieval Britain than anything else." - George R.R. Martin, creator of Game of Thrones. Kings who were insane or imprisoned; feuding families, disputed successions and monarchs executing their brothers; exiled nobles- the history of the Wars of the Roses is so filled with drama that it feels like fiction. In fact, it

The brilliant retelling of the Wars of the Roses continues with Trinity, the second gripping novel in the new series from historical fiction master, Conn Iggulden. 1454: King Henry VI has remained all but exiled in Windsor Castle, struck down by his illness for over a year, his eyes vacant, his mind a blank. His fiercely loyal wife and Queen, Margaret of Anjou, safeguards her husband's interests, hoping that her son Edward will one day know the love of his father. Richard Duke of York, Protector of the Realm, extends his influence throughout the kingdom with each

month that Henry slumbers. The Earls of Salisbury and Warwick make up a formidable trinity with Richard, and together they seek to break the support of those who would raise their colours in the name of Henry and his Queen. But when the King unexpectedly recovers his senses and returns to London to reclaim his throne, the balance of power is once again thrown into turmoil. The clash of the Houses of Lancaster and York will surely mean a war to tear England apart . . . Following on from Stormbird, Trinity is the second epic instalment in master storyteller Conn Iggulden's new Wars of the Roses series. The Wars of the Roses is one of the most dramatic and fascinating periods in medieval history. Much has been written about the leading personalities, bitter dynastic rivalries, political intrigues, and the rapid change of fortune on the battlefields of England and Wales. However, there is one aspect that has been often overlooked, the role of castles in the conflict. Dan Spencer's original study traces their use from the outbreak of civil war in the reign of Henry VI in the 1450s to the triumph of Henry VII some thirty years later. Using a wide range of narrative, architectural, financial and administrative sources, he sheds new light on the place of castles within the conflict, demonstrating their importance as strategic and logistical centres, bases for marshalling troops, and as fortresses. Dan Spencer's book provides a fascinating contribution to the literature on the Wars of the Roses and to the study of siege warfare in the Middle Ages. *Romancing Treason* focuses on late medieval English literature written during the Wars of the Roses. It analyses this period's canonical text, Malory's *Morte Darthur*, alongside lesser-known contemporary texts of the same genre of prose romance, and in connection with non-literary texts such as chronicles, letters, political verses, and parliamentary attainders. Concentrating on the theme of treason that is a shared concern across all of these texts, this book relates the secular English literature of the mid-to-late fifteenth century to the crises and civil war of the time, arguing that this is a literary culture that insistently engages with the problems of contemporary England. This book suggests the idea of a literature of the Wars of the Roses as a way of understanding an understudied period, helping to contextualise both the literary achievements that came before - with Chaucer, the Gawain-poet, and Lydgate - and the Tudor or early modern literature that followed.

The third beautifully written novel in the War of the Roses series by bestselling author Conn Iggulden. 'Superbly plotted and paced' The Times *** - Winter 1461 - Richard Duke of York is dead, his ambitions in ruins, his head spiked on the walls of the city. King Henry VI is still held prisoner. The Mediaeval and Modern History of England are divided from one another by the Wars of the Roses. Out of the troubles of that time a New England arose. The period has been described by the historian Stubbs in a memorable passage: "Weak as is the fourteenth century, the fifteenth is weaker still, more futile, bloodier, and more immoral. "But out of the weakness came strength. The Wars of the Roses were a rough schooling to England, but they ushered in the glories of the Tudor reigns. It was a period when in Europe national states were slowly being evolved. The Wars of the Roses were a series of dynastic wars fought between supporters of two rival branches of the royal House of Plantagenet: the houses of Lancaster and York (whose heraldic symbols were the red and the white rose, respectively) for the throne of England. They were fought in several sporadic episodes between 1455 and 1485. This work includes the several Battles that occurred along the years of the dispute of the throne of England.

The Wars of the Roses (c. 1455-1487) are renowned as an infamously savage and tangled slice of English history. A bloody thirty-year struggle between the dynastic houses of Lancaster and York, they embraced localised vendetta (such as the bitter northern feud between the Percies and Nevilles) as well as the formal clash of royalist and rebel armies at St Albans, Ludford Bridge, Mortimer's Cross, Towton, Tewkesbury and finally Bosworth, when the usurping Yorkist king, Richard III, was crushed by Henry Tudor. Powerful personalities dominate the period: the charismatic and enigmatic Richard III, immortalized by Shakespeare; the slippery Warwick, the Kingmaker', who finally over-reached ambition to be cut down at the Battle of Barnet; and guileful women like Elizabeth Woodville and Margaret of Anjou, who for a time ruled the kingdom in her husband's stead. David Grummitt places the violent events of this complex time in the wider context of fifteenth-century kingship and the development of English political culture. Never losing sight of the traumatic impact of war on the lives of those who either fought in or were touched by battle, this captivating new history will make compelling reading for students of the late medieval period and Tudor England, as well as for general readers.
