One of Glamour's Best Books of 2020 Popular podcast host and personal finance expert Lindsay Goldwert explores what professional dominatrixes can teach us about confidence, power, and happiness. Imagine, for a moment, a world where the usual power dynamic is turned on its head. Where women not only stop apologizing, but seize—and enjoy—control. This is the quickly mainstreaming world of BDSM (bondage, discipline, sadism, masochism)—and it has a lot to teach women about empowerment, negotiation, open-mindedness, and more. Journalist Lindsay Goldwert, intrigued by this seismic cultural shift, traveled across the United States to meet the stars of the subculture, who spoke frankly with her about their lives and work. In this “lively, funny, thoughtful channeling of wisdom” (Sara Benincasa, author of *Real Artists Have Day Jobs*), these Alpha women show you how you can reset the power dynamic in any situation to get what you want—whether it's from a husband, a boss, or partner. They share strategies for revolutionizing not only your sex life, but your career, your relationships, and most importantly, your inner foundations. With bondage gear popping up on the big screen, the runway, the red carpet, and in celebrity lingerie lines, BDSM is officially moving out of the dungeon and into the sun. Let *Bow Down* help you learn how to use it. “Whether your fantasies lie in the bedroom or the boardroom, Lindsay will give you the courage to go forth and dominate.” (Sarah Cooper, author of *How to Be Successful without Hurting Men's Feelings*).

The Archer's Bow is a work of literary nonfiction that offers parents a change of paradigm, suggesting a new way for them to look at their children's upbringing, and revealing the lasting and positive impact that doing so will have on their children's lives. The author, a seasoned life and business coach, invites parents to consider the role they play in encouraging (or conversely, discouraging) their children in becoming all that they can be. Starting in their earliest childhood, parents do their best to give their children the building blocks for their future. The question is: why does something so natural often feel so challenging? In a radical departure from the trend toward ambitious, goal-oriented parenting, this book urges parents to step back and provide support through love and discipline as their children discover their own unique calling, waiting to emerge. Affirming that we can all become great parents, the author calls upon parents to trust and tap into their own innate wisdom to raise children blessed with happiness, emotional security, and the ability to create a life that they love. Inspired by the poem “On Children” by Khalil Gibran, *The Archer's Bow* sheds light on the benefits of providing an upbringing that meets children's creative needs, affirming that our children already have within them what they need to thrive. Parents are empowered to find a new way to be with their children, in a manner that feels authentic to them and supports their children in reaching their fullest potential. “Reminiscent of Toni Morrison's *The Bluest Eye*.” —The New York Times “One

of the best books I have ever read...will live in the hearts of readers for the rest of their lives.” —Colby Sharp, founder of Nerdy Book Club “An emotional, painful, yet still hopeful adolescent journey...one that needed telling.” —Kirkus Reviews (starred review) “I really loved this.” —Sharon M. Draper, author of the New York Times bestseller *Out of My Mind* This deeply sensitive and “compelling” (BCCB) debut novel tells the story of a thirteen-year-old who must overcome internalized racism and a verbally abusive family to finally learn to love herself. There are ninety-six reasons why thirteen-year-old Genesis dislikes herself. She knows the exact number because she keeps a list: -Because her family is always being put out of their house. -Because her dad has a gambling problem. And maybe a drinking problem too. -Because Genesis knows this is all her fault. -Because she wasn't born looking like Mama. -Because she is too black. Genesis is determined to fix her family, and she's willing to try anything to do so...even if it means harming herself in the process. But when Genesis starts to find a thing or two she actually likes about herself, she discovers that changing her own attitude is the first step in helping change others.

The gathering of the tribes of the Mongols has been a long time in coming but finally, triumphantly, Temujin of the Wolves, Genghis Khan, is given the full accolade of the overall leader and their oaths. Now he can begin to meld all the previously warring people into one army, one nation. But the task Genghis has set himself and them is formidable. He is determined to travel to the land of the long-time enemy, the Chin and attack them there. The distances and terrain—the wide deserts, the impenetrable mountains—make it a difficult venture even for the legendary Mongolian speed of movement, but the greatest problem is that of the complex fortifications, a way of fighting wars of a settled urban population which the nomadic Mongolians had never come across. Finding ways to tackle that and keeping his tribes together in a strange environment presents another new and exciting challenge for Genghis Khan. Not only must Genghis succeed in this incredible campaign, but he must also reconcile the restless factions among his own generals, mediate between his ambitious brothers and cope with his own reactions to his growing sons. The young warrior has become a notable and victorious military commander of thousands: he must now learn to become a

great leader of peoples of many different races and religions. LORDS OF THE BOW is a deeply satisfying novel. It is epic in scope, convincing, and fascinating in the narration of an extraordinary story. Above all Genghis Khan continues to dominate the scene as he matures from the young boy of Wolf of the Plains to the great Conqueror.

Throughout the story, several essential thoughts are reflected: our daily efforts and work, how to overcome difficulties, steadfastness, and courage to take risky decisions. Paulo Coelho has managed to express in these pages many of the values which inspire our daily work: innovation, flexibility, adaptation to changes, enthusiasm, and team work.

Siddhartha is an allegorical novel by Hermann Hesse which deals with the spiritual journey of an Indian boy called Siddhartha during the time of the Buddha. The book was written in German, in a simple, yet powerful and lyrical style. It was first published in 1922, after Hesse had spent some time in India in the 1910s. The story revolves around a young man who leaves his home and family on a quest for the Truth. Embarking on a journey that takes him from the austerities of renunciation to the profligacy of wealth. That leads him through the range of human experiences from hunger and want, to passion, pleasure, pain, greed, yearning, boredom, love, despair and hope. A journey that leads finally to the river, where he gains peace and eventually wisdom. This is the story of Siddhartha as told by Nobel Laureate Hermann Hesse in his most influential work.

Now in tradepaper is the first book of spiritual teachings in several years from international best-selling author and beloved spiritual teacher Dr. Wayne W. Dyer.

Audio lectures of Wayne's from the 1990s and 2000s are restructured in a cohesive way to offer a fresh take on his teachings. "When you change the way you look at things, the things you look at change." This was something Dr. Wayne Dyer said often, and it was the inspiration for this book. The material contained within is taken from speeches and presentations he gave to many varied audiences, over many years. Yet it seemed that no matter who he talked to, he returned to a few themes over and over again, and these themes are woven throughout the pages of *Happiness Is the Way*. As Wayne will show you, there is no magic potion for getting what you want from life. All you could ever want or need can be found inside of you--you simply need to learn to reframe your thinking. No matter what your present circumstances are, you have the power to overcome them. This book will show you the impact of your attitudes, choices, and expectations, leading you to a great sense of empowerment; help you recognize how you are likely much more successful than you ever realized, regardless of the challenges you may be facing; and illuminate the importance of a personal mission. It also includes specific questions and journal exercises to help you chart the way to the life you've dreamed of. In the process, you'll discover that you contain the seeds for greatness within, leading you to a life of true happiness.

What happens when a liberal, free-spirited, modern American girl goes on a spiritual quest into structured, disciplined, traditional Japanese Zen life? Gesshin Claire Greenwood was a liberal, free-spirited American girl who found meaning and freedom in disciplined, traditional Japanese Zen life. However, she came to question not only contemporary American values but also traditional monastic ones. This book is about becoming an adult—about sexuality, religion, work, ethics, and individuality—but it is also about being a human being trying to be happy. Questioning is a theme that runs throughout the book: how can I be happy? What is true? What is authentic? The reader is invited along a journey that is difficult, inspiring, sad, funny, and sincere.

To make the journey into the Now we will need to leave our analytical mind and its false created self, the ego, behind. From the very first page of Eckhart Tolle's extraordinary book, we move rapidly into a significantly higher altitude where we breathe a lighter air. We become connected to the indestructible essence of our Being, "The eternal, ever present One Life beyond the myriad forms of life that are subject to birth and death." Although the journey is challenging, Eckhart Tolle uses simple language and an easy question and answer format to guide us. A word of mouth phenomenon since its first publication, *The Power of Now* is one of those rare books with the power to create an experience in readers, one that can radically change their lives for the better.

The Way We Live Now is Anthony Trollope's longest novel, published in two volumes in 1875 after first appearing in serial form. After an extended visit to Australia and New Zealand in 1872, Trollope was outraged on his return to England by a number of financial scandals, and was determined to expose the dishonesty, corruption, and greed they embodied. *The Way We Live Now* centers around a foreign businessman, Augustus Melmotte, who has come to prominence in London despite rumors about his past dealings on the Continent. He is immensely rich, and his daughter Marie is considered to be a desirable catch for several aristocratic young men in search of a fortune. Melmotte gains substantial influence because of his wealth. He rises in society and is even put up as a candidate for Parliament, despite a general feeling that he must be a fraudster and liar. A variety of sub-plots are woven around this central idea. The

Way We Live Now is generally considered to be one of Trollope's best novels and is often included in lists of the best novels written in English. This book is part of the Standard Ebooks project, which produces free public domain ebooks.

Emme and Ethan have been in a band together through all four years of school, but wonder if they could be more than just friends and bandmates. Carter has been acting since he was a baby, and isn't sure how to admit that he'd rather paint than perform. The Senior Showcase is going to make or break each of the four, in a funny, touching, spectacular finale that only Elizabeth Eulberg could perform.

I was living in a culture vastly different to my sheltered upbringing, one filled with adventure. In a city of love, and a city of heartbreak, I found both. I wasn't searching for the man of my dreams. He found me. Then he disappeared... My father also taught me to never give up. So, I set a challenge to find the man who swept me off my feet. He's hiding a secret and I'm determined to find answers. Even if it meant doing the one thing my father warned about—entering the jungle. I won't come out the same. *Ulara* is a story about forbidden love and a tortured hero, set between Australia and South America. *Does not contain a cliffhanger ending.

The Breakfast Club meets The Silver Linings Playbook in this powerful, provocative, and heartfelt novel about twelve endearing strangers who come together to make the most of their final days, from New York Times bestselling and award-winning author J. Michael Straczynski. Mark Antonelli, a failed young writer looking down the barrel at thirty, is planning a cross-country road trip. He buys a beat-up old tour bus. He hires a young army vet to drive it. He puts out an ad for others to join him along the way. But this will be a road trip like no other: His passengers are all fellow disheartened souls who have decided that this will be their final journey—upon arrival in San Francisco, they will find a cliff with an amazing view of the ocean at sunset, hit the gas, and drive out of this world. The unlikely companions include a young woman with a chronic pain sensory disorder and another who was relentlessly bullied at school for her size; a bipolar, party-loving neo-hippie; a gentle coder with a literal hole in his heart and blue skin; and a poet dreaming of a better world beyond this one. We get to know them through access to their texts, emails, voicemails, and the daily journal entries they write as the price of admission for this trip. By turns tragic, funny, quirky, charming, and deeply moving, Together We Will Go explores the decisions that brings these characters together, and the relationships that grow between them, with some discovering love and affection for the first time. But as they cross state lines and complications to the initial plan arise, it becomes clear that this is a novel as much about the will to live as the choice to end it. The final, unforgettable moments as they hurtle toward the decisions awaiting them will be remembered for a lifetime.

The Way of Archery provides a detailed introduction to practicing archery in the traditional Chinese military style. It explains the basics of how to shoot using the Asian thumb ring: proper posture, training regimen, equipment, and avoiding pitfalls in shooting. The thorough translation and commentary (with original and new illustrations) provide a fresh and practical perspective on Gao Ying's 1637 archery treatise (which, itself, influenced generations of archers in East Asia). The authors themselves are active practitioners of Chinese archery, having spent an endless amount of time and effort vetting their understanding of this old manual and putting its ideas into practice. Through this process, the authors have been able to make this archery text accessible to modern readers. Not only will the reader come to understand the technical side of the Way of Archery, but will connect with the philosophy and spirit of the ancient Chinese warriors.

A piercing and scientifically grounded look at the emergence of the coronavirus pandemic and how it will change the way we live—"excellent and timely." (The New Yorker) Apollo's Arrow offers a riveting account of the impact of the coronavirus pandemic as it swept through American society in 2020, and of how the recovery will unfold in the coming years. Drawing on momentous (yet dimly remembered) historical epidemics, contemporary analyses, and cutting-edge research from a range of scientific disciplines, bestselling author, physician, sociologist, and public health expert Nicholas A. Christakis explores what it means to live in a time of plague—an experience that is paradoxically uncommon to the vast majority of humans who are alive, yet deeply fundamental to our species. Unleashing new divisions in our society as well as opportunities for cooperation, this 21st-century pandemic has upended our lives in ways that will test, but not vanquish, our already frayed collective culture. Featuring new, provocative arguments and vivid examples ranging across medicine, history, sociology, epidemiology, data science, and genetics, Apollo's Arrow envisions what happens when the great force of a deadly germ meets the enduring reality of our evolved social nature.

A fascinating introduction to Zen principles and learning.

I can't really explain my attraction to the bow and arrow. I can't explain the pull of a camp fire either, or the ocean, or the open hills where you can see forever. It's just there. These things are in all of us I think, some vestige of our primitive past buried so deep in our genome as to be inseparable from what it is to be human. What we think of as civilization is a new experiment in the eyes of Father Time. Experts say that humans have been around for some fifty thousand years. We've

been carrying the bow for maybe five thousand (atlatls and spears before that), and pushing the plow for maybe two thousand. We have been hunters forever. We are built to run, to pursue big game on the open savannas, to kill and eat them. With the dwindling of the Pleistocene mega fauna, mammoths and such, the bow became more important and indeed helped to make us who we are today. It still holds that attraction, same as the hearth. When I was a kid I would make crude bows from green plum branches, big at one end and small at the other. A discarded hay string would serve as a bowstring. My arrows were fat and unfletched and would scarcely fly more than a few yards, usually tumbling over in midair. The small creatures around our home were plenty safe. When I was about 12 or so my brother brought me two old Ben Person recurves he'd found at a yard sale. One was a short bow, probably no more than 48 inches and the other was more of a standard size. They both drew about 50 lbs if I recall. That fall happened to be a good year for cottontails around our little farm and I spent countless hours walking the fields and shooting at them as they busted from underfoot. Although I'd get several shots a day I never did hit one on the fly but I remember that fall fondly nonetheless. The pleasure of jumping rabbits and seeing the feathered shaft streaking toward them was a thrill I've never forgotten. I made my first "real" bow when I was in high school, after getting a copy of the Traditional Bowyers Bible in the mail (more on this in a moment). My first bow, a decrowned mulberry flatbow, broke within about 10 shots. The second held together quite well and is probably still around somewhere and capable of shooting an arrow, though it would probably draw about 70lbs. When I first started making bows I used the woods I had close at hand; mulberry, common persimmon, red maple, white cedar, etc. I'd probably made more than a dozen bows of various woods before I ever saw a piece of Osage. People often ask me where they can find a bow stave and, invariably, I tell them to use what they have close by. No matter where you live, you'll have something near that will make a bow. Go cut it down and get started. This book is an attempt to share some of what I've learned over my years of bow making. The Traditional Bowyers Bible series, as mentioned earlier, is still a great source of information. Why write another book on making wood bows you might ask? The simple answer is that there are so many ways of doing and explaining things. There are still unanswered questions and we'll cover many of them here. We will cover all of the most frequently asked questions, and lay out a simple plan that should guide you through the entire process, from finding a stave to stringing your bow and shooting your first arrow. Some of what you'll find here, you'll find nowhere else. A young Jewish rebel is filled with hatred for the Romans and a desire to avenge his parents' deaths until Jesus of Nazareth teaches him love and understanding of others. A Newbery Medal book. Instant #1 New York Times bestseller. "The Atlantic writer drafts a history of slavery in this country unlike anything you've read before" (Entertainment Weekly). Beginning in his hometown of New Orleans, Clint Smith leads the reader on an unforgettable tour of monuments and landmarks—those that are honest about the past and those that are not—that offer an intergenerational story of how slavery has been central in shaping our nation's collective history, and ourselves. It is the story of the Monticello Plantation in Virginia, the estate where Thomas Jefferson wrote letters espousing the urgent need for liberty while enslaving more than four hundred people. It is the story of the Whitney Plantation, one of the only former plantations devoted to preserving the experience of the enslaved people whose lives and work sustained it. It is the story of Angola, a former plantation-turned-maximum-security prison in Louisiana that is filled with Black men who work across the 18,000-acre land for virtually no pay. And it is the story of Blandford Cemetery, the final resting place of tens of thousands of Confederate soldiers. A deeply researched and transporting exploration of the legacy of slavery and its imprint on centuries of American history, *How the Word Is Passed* illustrates how some of our country's most essential stories are hidden in plain view—whether in places we might drive by on our way to work, holidays such as Juneteenth, or entire neighborhoods like downtown Manhattan, where the brutal history of the trade in enslaved men, women, and children has been deeply imprinted. Informed by scholarship and brought to life by the story of people living today, Smith's debut work of nonfiction is a landmark of reflection and insight that offers a new understanding of the hopeful role that memory and history can play in making sense of our country and how it has come to be.

The Step-by-step practical guide to Occultism and Inner Exploration A colossal fence has been raised separating our current society from the flow of life and magic that permeates the whole of Creation. Humanity is gradually succeeding in its self-destruction, asphyxiating itself through the suppression of what is beyond the mere five physical senses. The art of Occultism has been forgotten. In fact, Occultism has been despised, ridiculed and denigrated into a mere fantasy, make-believe or magical thinking. This book brings this ancient secret tradition back to life using a contemporary yet powerful method. This is a book centered on occult practices. Here the reader will find detailed occult practices that will assist him in exploring the subtle inner nonphysical realms, culminating in the unveiling of the highest mystery of Occultism. The academy may claim to seek and value diversity in its professoriate, but reports from faculty of color around the country make clear that departments and administrators discriminate in ways that range from unintentional to malignant. Stories abound of scholars--despite impressive records of publication, excellent teaching evaluations, and exemplary service to their universities--struggling on

the tenure track. These stories, however, are rarely shared for public consumption. *Written/Unwritten* reveals that faculty of color often face two sets of rules when applying for reappointment, tenure, and promotion: those made explicit in handbooks and faculty orientations or determined by union contracts and those that operate beneath the surface. It is this second, unwritten set of rules that disproportionately affects faculty who are hired to "diversify" academic departments and then expected to meet ever-shifting requirements set by tenured colleagues and administrators. Patricia A. Matthew and her contributors reveal how these implicit processes undermine the quality of research and teaching in American colleges and universities. They also show what is possible when universities persist in their efforts to create a diverse and more equitable professorate. These narratives hold the academy accountable while providing a pragmatic view about how it might improve itself and how that improvement can extend to academic culture at large. The contributors and interviewees are Ariana E. Alexander, Marlon M. Bailey, Houston A. Baker Jr., Dionne Benson-Smith, Leslie Bow, Angie Chabram, Andreana Clay, Jane Chin Davidson, April L. In the future, the UN has brought back an ancient way to keep the peace. The children of world leaders are held hostage—if a war begins, they pay with their lives. Greta is the Crown Princess of the Pan Polar Confederacy, a superpower formed of modern-day Canada. She is also a Child of Peace, a hostage held by the de facto ruler of the world, the great Artificial Intelligence, Talis. The hostages are Talis's strategy to keep the peace: if her country enters a war, Greta dies. The system has worked for centuries. Parents don't want to see their children murdered. Greta will be free if she can make it to her eighteenth birthday. Until then she is prepared to die with dignity, if necessary. But everything changes when Elian arrives at the Precepture. He's a hostage from a new American alliance, and he defies the machines that control every part of their lives—and is severely punished for it. Greta is furious that Elian has disrupted their quiet, structured world. But slowly, his rebellion opens her eyes to the brutality of the rules they live under, and to the subtle resistance of her companions. And Greta discovers her own quiet power. Then Elian's country declares war on Greta's and invades the prefecture, taking the hostages hostage. Now the great Talis is furious, and coming himself to mete out punishment. Which surely means that Greta and Elian will be killed...unless Greta can think of a way to save them.
