

Too Few Too Far The True Story Of A Royal Marine Commando The Royal Marines On South Georgia

Organizational Wrongdoing is an essential companion to understanding the causes, processes and consequences of misconduct at work. With contributions from some of the world's leading management theorists, past theories on misconduct are critically evaluated, and the latest research is introduced, expanding the boundaries of our knowledge and filling in gaps highlighted in previous studies. A wide range of unethical, socially irresponsible, and illegal behaviors are discussed, including cheating, hyper-competitive employee actions, and financial fraud. Further multiple levels of analysis are considered, ranging from individual to organization-wide processes. By providing a contemporary overview of wrongdoing and misconduct, this book provides solid and accessible foundations for established researchers and advanced students in the fields of behavioral ethics and organizational behavior.

April 2nd 1982 - the day that the Falklands War erupted. Just sixty Royal Marines stood in the way of an armada of thousands, 8,000 miles from home and with no support. The story that followed was one of a shameful defeat and ignominious surrender. A story which has lasted for 35 years. Now, with first-hand accounts from the Royal Marines themselves, from the Argentine Marines who fought against them and from the people of Stanley who watched the battle rage on their very doorsteps, a new history has emerged. It is the story of an epic and heroic defence on a scale with Rorke's Drift; a story which neither the British nor the Argentine governments wanted told. It is a battle denied; the battle of Stanley, a battle which - we are told - never happened. The second edition has updated stories, more information and is an even more dramatic read!

A young woman's story of growing up Hawaiian-Chinese. The short chapters deal with various aspects of her upbringing such as mixing poi, pouring tea and learning to dance the hula. Other chapters describe the impact of general events on the family, such as Pearl Harbor and the Vietnam War.

Water, Crime and Security in the Twenty-First Century represents criminology's first book-length contribution to the study of water and water-related crimes, harms and security. The chapters cover topics such as: water pollution, access to fresh water in the Global North and Global South, water and climate change, the commodification of water and privatization, water security and pacification, and activism and resistance surrounding issues of access and pollution. With examples ranging from Rio de Janeiro to Flint, Michigan to the Thames River, this original study offers a comprehensive criminological overview of the contemporary and historical relationship between water and crime. Coinciding with the International Decade for Action, "Water for Sustainable Development," 2018–2028, this timely volume will be of particular relevance to students and scholars of green criminology, as well as those interested in critical geography, environmental anthropology, environmental sociology, political ecology, and the study of corporate crime and state crime.

True Detective meets X-Files in the first installment of the Luke McWhorter series. Nine physicists are dead. The medical examiner has determined that the victims died from drinking coffee laced with rat poison. The owner of the house, Professor Thaddeus Huntgardner, isn't suspected, but his claim that a piece of the debris from Roswell's 1947 UFO crash was hidden in Flagler might be true. Enter Luther "Luke" Stephens McWhorter, a Yale Divinity School-educated West Texas sheriff with all the right questions. Is the fragment real? If so, who is trying to locate it? And what has fueled the byzantine activities of Abbot County's two secret societies for the past 70 years? Working with FBI agent and girlfriend, Angie Steele, Sheriff Luke begins to put together all the pieces and come to understand the connection between seemingly unrelated phenomena.

Prominent economists consider the role of financial innovation in economic crises.

A story of a young girl's life experiences from age four to fourteen. Born and raised in Los Angeles to a motherless teen mom, who left her to be raised by relatives in California that subsequently left her homeless on her own to make a life for herself. The heart-wrenching tales of Pepper Love will leave you wanting more, as she expresses in her own words the pain and the fear she endured growing up in a poverty-stricken neighborhood, living through and surviving the crack epidemic of the '80s, and learning that a liar will take you to nowhere fast.

Based on cutting-edge research from behavioral science and economics, this eye-opening examination of how scarcity affects our daily lives reveals how individuals and organizations can better manage scarcity for greater satisfaction and success.

Uncover the secrets of the Swedish philosophy of life called Lagom – meaning 'just enough'. At its core is the idea that we can strike a healthy balance with the world around us without having to make extreme changes, and without denying ourselves anything.

From USA Today bestselling author Lisa Desrochers comes the third book in her sizzling new adult series. If you play with fire ... Tossed out of college and cut off by her parents, Samantha West is in pretty dire straits. So when her rocker best friend hooks her up with a job dancing at a gentlemen's club, who is she to turn it down? Plus, there are rules to dancing at Benny's: No touching, keep your clothes on at all times, and never get closer than three feet. Unfortunately for Sam, her first private client makes her want to break every single one of them. Harrison Yates is scorching hot, but he's got a past that involves being left at the altar not too long ago. Sam is determined to make him forget about his ex, but when she makes her move, it flings her life into a spiral of chaos she never saw coming. Because Harrison Yates isn't who he seems to be. And his secret will probably get her killed.

NP 8901 Royal Marine George Thomsen is enjoying a drink at a farewell party after spending a 12 month tour of duty on the Falklands. But celebrations on 'going home' are cut short as he is hauled from the party to learn that his duties in the South Atlantic are very far from over. He is ordered to pick 8 men and to embark on the HMS Endurance the next morning, for the most dangerous mission of his career. 800 miles to the south East, scrap merchant Davidoff accompanied by argentine troops masquerading as his employees, have raised the Argentine flag over the distant frozen island of South Georgia - British

territory and the base of The British Antarctic Survey Team. Davidoff has held up one finger at The Empire and set the match to the touch paper that will escalate into all out war. Lightly armed and stranded by a departing HMS Endurance, the tiny besieged and outnumbered force make ready for a classic battle to protect the island and its scientists, against massive odds, from the air, land and sea.

Examining the increasingly common dilemma experienced by consumers who face an overabundance of choices, *Overchoice: Too Much to Choose From, Too Little Time* provides a much-needed context for the quandary and offers tools to help cope with it. The book creates an unobstructed overchoice narrative. It examines overchoice as a psychological theme and establishes its sociological foundations. It explores the economic nature of overchoice and its impact on the marketplace. It provides an overview of consumer culture, consumer overload, and the resultant consumer disenchantment. Lastly, it addresses the informational complexity created by overchoice. Developed to help readers recognize that the most plentiful choice is not necessarily the best one, *Overchoice* shows them how to analyze and make discerning decisions about the abundance that is regularly offered to consumers today. This timely text is well-suited for courses in marketing, consumer behavior, social psychology, and economics.

Christian Gilde received his Ph.D. from the University of Bath and is now an associate professor of business in the Business and Technology Department at the University of Montana Western. His teaching interests include marketing and consumer behavior, and his research focuses on consumer psychology and culture. The former operations manager for a multi-million dollar company, Fredrick Chilson went on to pursue his Ph.D and now serves as a professor of business and the chair of the Business and Technology Department at the University of Montana Western. Dr. Chilson is also a managing editor for the *Journal of Excellence in Business Education*.

This volume provides a unique collection of contributions addressing both the 'too much' and 'too little' sides of the nitrogen story. Building on analyses started at the 6th International Nitrogen Conference, Kampala, the book explores the idea of 'just enough nitrogen': sufficient for sustainable food production, but not so much as to lead to unsustainable pollution and climate problems. The range of nitrogen threats examined, solutions evaluated and science-policy analyses presented here has provided the foundation to agree the 'Kampala Statement-for-Action on Nitrogen in Africa and Globally,' as reported in this volume. Humanity today faces unprecedented challenges: How to feed a growing population? How to reduce air pollution, water pollution and climate change? How to handle regional differences in an era of increasing globalization? These questions are at the heart of this edited volume which examines the multi-dimensional nature of the global nitrogen challenge. While humans have massively altered the nitrogen cycle, the consequences have become polarized. Some regions have too much nitrogen, associated with pollution and wasteful use of a valuable resource, while other regions have too little nitrogen, leading to constraints on food production and depletion of soil nutrient stocks. The volume provides a unique collection of contributions addressing both the 'too much' and 'too little' sides of the nitrogen story. Building on analyses started at the 6th International Nitrogen Conference, Kampala, the book explores the idea of 'just enough nitrogen': sufficient for sustainable food production, but not so much as to lead to unsustainable pollution and climate problems. The range of nitrogen threats examined, solutions evaluated and science-policy analyses presented here has provided the foundation to agree the 'Kampala Statement-for-Action on Nitrogen in Africa and Globally,' as reported in this volume. Together, the contributions in this book are now informing actions by the International Nitrogen Initiative (INI) in working with the United Nations Environment Programme and others to establish the International Nitrogen Management System (INMS). A key outcome has been to catalyse development of the first Resolution on Sustainable Nitrogen Management, as adopted by the fourth UN Environment Assembly (UNEA/EA.4/Res.14). The work is written for researchers and policy makers and all those interested in seeing how sustainable nitrogen management can contribute to meeting many of the UN Sustainable Development Goals.

In the follow-up to Lisa Desrochers' explosive new adult novel *A Little Too Far*, Alessandro Moretti must face the life he escaped and the girl he left behind. Twenty-two-year-old Hilary McIntyre would like nothing more than to forget her past. As a teenager abandoned to the system, she faced some pretty dark times. But now that's all behind her. Hilary has her life on track, and there's no way she'll head down that road again. Until Alessandro Moretti—the one person who can make her remember—shows up on her doorstep. He's even more devastatingly gorgeous than before, and he's much too close for comfort. Worse, he sees right through the walls she's built over these last eight years, right into her heart and the secrets she's guarding. As Hilary finds herself falling back in love with the man who, as a boy, both saved and destroyed her, she must decide: Past or future? Truth or lies?

Many Americans believe that people who lack health insurance somehow get the care they really need. *Care Without Coverage* examines the real consequences for adults who lack health insurance. The study presents findings in the areas of prevention and screening, cancer, chronic illness, hospital--based care, and general health status. The committee looked at the consequences of being uninsured for people suffering from cancer, diabetes, HIV infection and AIDS, heart and kidney disease, mental illness, traumatic injuries, and heart attacks. It focused on the roughly 30 million -- one in seven--working--age Americans without health insurance. This group does not include the population over 65 that is covered by Medicare or the nearly 10 million children who are uninsured in this country. The main findings of the report are that working-age Americans without health insurance are more likely to receive too little medical care and receive it too late; be sicker and die sooner; and receive poorer care when they are in the hospital, even for acute situations like a motor vehicle crash.

A funny and touching story about how to deal with the struggles of adulthood, how to live a good life, and how money can complicate it all. Michael Baughman's hope was to send his oldest grandson off to his first year of college in the fall of 2012 with an informed and thoughtful attitude toward what has long been a powerful American fixation: the frantic quest for money. Complicating the issue was the fact that income disparity in America was increasing alarmingly, and a political campaign featuring a wealthy Republican presidential candidate who told transparent lies on a daily basis was well underway. Baughman, now an emeritus professor of English, has visited forty-nine states. As a youth he attended Punahou, the private Honolulu prep school that graduated Barack Obama. During subsequent travels he washed dishes, pumped gas, butchered meat, sold women's lingerie at Saks Fifth Avenue in Manhattan, and served as an enlisted man in the Army. Because of these diverse experiences, Baughman's friends and acquaintances have included the very poor as well as the very rich. Throughout most of his adult life his own income has been close to the national average. He brought all of this, and more, into his parting conversations with his grandson Billy. *Money Sucks* is the culmination of those discussions, rumination on the haves and the have-nots and a frank, thought-provoking look at some of the toughest questions life throws our way: What makes us happy? How much is enough? Funny and inspiring in equal measures, it's a must-read for anyone who cares about the future of their children, grandchildren, and the friends and family they love.

Called to action on 2 April 1982, the men of 45 Commando Royal Marines assembled from around the world to sail 8,000 miles to recover the Falkland Islands from Argentine invasion. Lacking helicopters and short of food, they yomped in appalling weather carrying overloaded rucksacks, across the roughest terrain. Yet for a month in mid-winter, they remained a cohesive fighting-fit body of men. They then fought and won the highly successful and fierce night battle for Two Sisters, a 1,000 foot high mountain which was the key to the defensive positions around Stanley. This is a first hand story of that epic feat, but it is much more than that. The first to be written by a company commander in the Falklands War, the book gives a compelling, vivid description of the yomp and infantry fighting, and it also offers penetrating insights into the realities of war at higher levels. It is a unique combination of descriptive writing about front-line fighting and wider reflections on the Falklands War, and conflict in general. Gritty and moving; sophisticated, reflective and funny, this book offers an abundance of timeless truths about war. Postscript: Yomping was the word used by the Commandos for carrying heavy loads on long marches. It caught the public's imagination during this short but bitter campaign and epitomized the grim determination and professionalism of our troops.

**** NEW YORK TIMES BESTSELLER! **** The Tonight Show Summer Reads Pick **** "Insanely readable." —Stephen King** Hailed as "breathtakingly suspenseful," Jean Hanff Korelitz's *The Plot* is a propulsive read about a story too good not to steal, and the writer who steals it. Jacob Finch Bonner was once a promising young novelist with a respectably published first book. Today, he's teaching in a third-rate MFA program and struggling to maintain what's left of his self-respect; he hasn't written—let alone published—anything decent in years. When Evan Parker, his most arrogant student, announces he doesn't need Jake's help because the plot of his book in progress is a sure thing, Jake is prepared to dismiss the boast as typical amateur narcissism. But then . . . he hears the plot. Jake returns to the downward trajectory of his own career and braces himself for the supernova publication of Evan Parker's first novel: but it never comes. When he discovers that his former student has died, presumably without ever completing his book, Jake does what any self-respecting writer would do with a story like that—a story that absolutely needs to be told. In a few short years, all of Evan Parker's predictions have come true, but Jake is the author enjoying the wave. He is wealthy, famous, praised and read all over the world. But at the height of his glorious new life, an e-mail arrives, the first salvo in a terrifying, anonymous campaign: You are a thief, it says. As Jake struggles to understand his antagonist and hide the truth from his readers and his publishers, he begins to learn more about his late student, and what he discovers both amazes and terrifies him. Who was Evan Parker, and how did he get the idea for his "sure thing" of a novel? What is the real story behind the plot, and who stole it from whom?

"Too Much Schooling with its educational focus, fits into the Afrocentric school of thought with its aim to develop subject-centered analysis and solutions for African children. This book is an attempt to illustrate and demonstrate some of the ways we can use our cultural base to educate children." -- Molefi K. Asante, Author of Africa World Press titles: Afrocentricity; Kemet, Afrocentricity, and Knowledge; The Book of African Names; Thunder and Silence; African Culture. "It is our responsibility as African-American parents, educators and citizens to develop educational settings - formal and informal - where cultural understandings (political, historical, literary, technological, financial, health, law, etc.) are not transmitted accidentally, but by design. Too Much Schooling, Too Little Education is an over-needed addition to the ongoing search for meaningful African-centered education. Dr. Shujaa has edited a collection that is not only a first in this field, he has also assembled in one volume some of the best thinkers and practitioners working today. This book is more than impressive, it is required reading." -- Haki R. Madhubuti, Publisher of Third World Press."--taken from back cover.

#1 NEW YORK TIMES BESTSELLER • Meghan, The Duchess of Sussex's first children's book, *The Bench*, beautifully captures the special relationship between father and son, as seen through a mother's eyes. The book's storytelling and illustration give us snapshots of shared moments that evoke a deep sense of warmth, connection, and compassion. This is your bench where you'll witness great joy. From here you will rest. See the growth of our boy. In *The Bench*, Meghan, The Duchess of Sussex, touchingly captures the evolving and expanding relationship between father and son and reminds us of the many ways that love can take shape and be expressed in a modern family. Evoking a deep sense of warmth, connection, and compassion, *The Bench* gives readers a window into shared and enduring moments between a diverse group of fathers and sons—moments of peace and reflection, trust and belief, discovery and learning, and lasting comfort. Working in watercolor for the first time, Caldecott-winning, bestselling illustrator Christian Robinson expands on his signature style to bring joy and softness to the pages, reflecting the beauty of a father's love through a mother's eyes. With a universal message, this thoughtful and heartwarming read-aloud is destined to be treasured by families for generations to come.

Care too little, you'll lose them. Care too much, you'll get hurt. This is a lined notebook (lined front and back). Simple and elegant. 110 pages, high quality cover and (6 x 9) inches in size. In the tradition of *Who Owns the Future*, an MIT Media Lab scientist imagines how everyday objects can intuit our needs, improve our lives, and form "an ethereal interconnection of gadgets and human desires that...will pervade our lives in the very near future" (*The Wall Street Journal*). We are now standing at the precipice of the next transformative development, a world in which technology becomes more human. Soon, connected technology will be embedded in hundreds of everyday objects we already use: our cars, wallets, watches, umbrellas, even our trash cans. These objects will respond to our needs, come to know us, and even learn to think ahead on our behalf. David Rose calls these devices—which are just beginning to creep into the marketplace—*Enchanted Objects*. In Rose's vision of the future, technology atomizes, combining itself with the objects that make up the very fabric of daily living. Such innovations will be woven into the background of our environment, enhancing human relationships, channeling desires

for omniscience, long life, and creative expression. The enchanted objects of fairy tales and science fiction will enter real life. Groundbreaking, timely, and provocative, *Enchanted Objects* is a “delightful” (The New York Times) blueprint for a better future, where efficient solutions come hand in hand with technology that delights our senses. It is essential reading for designers, technologists, entrepreneurs, business leaders, and anyone who wishes to take a glimpse into the future.

This book is the first to present a vivid and accurate picture of the thousands of women who worked weeding the rice fields in northern Italy during the early part of the nineteenth century. It explores a wide range of issues including the political, economic, and social history of Italy; labor legislation; the role of the judicial system; the sexual division of labor; family structure; class conflict between the rural proletariat and the politically influential capitalist farmers; work-related diseases; internal migration of labor; and child labor. The author provides penetrating insights into the Socialist Party's efforts to wrest women workers from the influence of the Catholic Church; the history of Italian feminism and the campaign for the vote; and finally, the workers' opposition to Italy's entrance into World War I. She analyzes the weeders' relations with labor organizers; their desire to preserve their autonomy; and their decisions regarding labor actions; and she highlights similarities between the weeders' experiences and those of other women workers and labor organizers in Europe and the U. S..

You couldn't picture a sweeter couple than Troy and Emma. Troy's a former Division One college wrestler. A walking water park at two-sixty-five, with shoulders no woman could get her arms around and a set of abs you could scrub laundry on. Emma's a sweet little Georgia Peach. Pretty as can be in her proper dresses; she's a good girl from a good family that raised her right. You couldn't tell by looking at them that they were two straight-up freaks that loved to push each other's kinky buttons. Emma, with all her book club shyness, loves to be manhandled, loves to be lifted off her feet and dominated. Troy is a monster with a six-hundred-fifty-pound deadlift and she's like a feather in his arms. Troy likes to be humiliated. He knows he doesn't have much 'down there' and he likes his virginal wife to tell him he's no good and she'd have to get what she wanted elsewhere. Couple of closet freaks. A summer housewarming party on a scorching hot West Texas day puts a gift in their lap. A big, larger-than-life playtoy for Emma to tease her husband with. He wants her to. She wants to do it. But once it starts, where do you stop? What's going too far?

Bob demonstrates his storytelling skills in this collection of seventeen of his best short stories. Bob set his story *Three for Dinner* in Boston, where he lived for many years, because he couldn't find a five-star French restaurant within hundreds miles of the Chihuahuan desert where he now lives, writes and sets most of his stories. He's become an accomplished researcher seeking out interesting historical figures before he magically bends time and injects himself into the lives of these real but long-since-dead people. In *Lottie* Bob tells us of his love affair with the most colorful woman in the old West and in *My Evening with the Family* he describes his night with a group of hippies before they became infamous household names. And, don't miss *My Date with the Butcher*, Bob's story about his meeting with Pancho Villa's most trusted lieutenant, General Pablo Lopez. On 1 April 1982 Major Mike Norman, commander of Naval Party 8901, was looking forward to a peaceful yearlong tour of duty on the Falkland Islands. But events turned out differently, for the next day the Argentines invaded and he and his forty-three Royal Marines found themselves fighting for their lives. They took up defensive positions around Government House and on the approach to Stanley from Cape Pembroke to protect the Governor Rex Hunt and delay the advance to Stanley. They were prepared to die executing his orders. After a desperate battle in the gardens and even inside the house against superior numbers Rex Hunt ordered them to lay down their arms. As the surrender took place, an Argentine told a marine: The islands are ours now. The response was simple: We will be back. They were, and this is their story. The Royal Marines of Naval Party 8901 as well as some members of the previous detachment volunteered to join the Task Force and, some seventy-five days later, the men who witnessed the raising of the Argentine flag over the islands on 2 April saw the triumphant return of the Union Jack. Mike Normans dramatic account draws on his own vivid recollections, the log recording the defense of Government House, the testimony of the marines under his command and newly released files from government archives. It is a powerful and moving tribute to the marines who confronted the Argentines when they invaded and then fought to force them out.

Neelambari Adigal and her young associate, Kayal, together run *Biblio*, a one-of-a-kind store of rare books in Chennai, specializing in modern Indian first editions. The lives of these passionate bookwomen revolve around curious browsers, eccentric book collectors, private-press printers and the occasional thrill of unexpected discoveries of the antiquarian kind. On a book-collecting trip to Ooty, Kayal stumbles upon an incendiary manuscript, long thought to be a myth, purportedly authored by explorer and translator Sir Richard Francis Burton. Almost simultaneously, a cache of priceless editions that looks like it could be from the 300-year-old library of one of the greatest book collectors the world has ever known, turns up at the bookshop. When it falls upon the two women to authenticate their finds, Neela and Kayal discover, quite suddenly, that their lives are more full of bibliographic intrigue than they could ever have imagined. India's first-ever biblio-mystery, *The Book Hunters of Katpadi*, is the book every lover of the written word has been waiting for. In the tradition of the greatest in the genre, it holds within its pages adventure, action, suspense ? and the sheer thrill of close encounters with prized print-on-paper.

Have you ever gone just a little too far? Lexie Banks has. Yep. She just had mind-blowing sex with her stepbrother. In her defense, she was on the rebound, and it's more of a my-dad-happened-to-marry-a-woman-with-a-super-hot-son situation. But still, he's been her best friend and confidant for the better part of the last few years . . . and is so off limits. It's a good thing she's leaving in two days for a year abroad in Rome. But even thousands of miles away, Lexie can't seem to escape trouble. Raised Catholic, she goes to

confession in hopes of alleviating some of her guilt . . . and maybe not burning in hell. Instead, she stumbles out of the confessional and right into Alessandro Moretti, a young and very easy-on-the-eyes deacon . . . only eight months away from becoming a priest. Lexie and Alessandro grow closer, and when Alessandro's signals start changing despite his vow of celibacy, she doesn't know what to think. She's torn between falling in love with the man she shouldn't want and the man she can't have. And she isn't sure how she can live with herself either way.

After learning that Lala's new man has touched one of his daughters, Tre is furious and allows his anger to drive him too far. All sense of logic goes out the window as he seeks revenge on everyone that he feels is responsible. In the midst of this tragic situation he also learns a few things about the new lady in his life, but will he be prepared for the things that are revealed?

Why too much work and too little time is hurting workers and companies—and how a proven workplace redesign can benefit employees and the bottom line Today's ways of working are not working—even for professionals in "good" jobs. Responding to global competition and pressure from financial markets, companies are asking employees to do more with less, even as new technologies normalize 24/7 job expectations. In *Overload*, Erin Kelly and Phyllis Moen document how this new intensification of work creates chronic stress, leading to burnout, attrition, and underperformance. "Flexible" work policies and corporate lip service about "work-life balance" don't come close to fixing the problem. But this unhealthy and unsustainable situation can be changed—and *Overload* shows how. Drawing on five years of research, including hundreds of interviews with employees and managers, Kelly and Moen tell the story of a major experiment that they helped design and implement at a Fortune 500 firm. The company adopted creative and practical work redesigns that gave workers more control over how and where they worked and encouraged managers to evaluate performance in new ways. The result? Employees' health, well-being, and ability to manage their personal and work lives improved, while the company benefited from higher job satisfaction and lower turnover. And, as Kelly and Moen show, such changes can—and should—be made on a wide scale. Complete with advice about ways that employees, managers, and corporate leaders can begin to question and fix one of today's most serious workplace problems, *Overload* is an inspiring account about how rethinking and redesigning work could transform our lives and companies.

A Little Too Far Harper Collins

My Overdue Book: Too many stories not to tell: spells out the varied episodes in the life of a man who spent decades working in Hollywood. He began as a little boy in Cincinnati impressed early on by the broadcasting magic of radio and then TV in the middle of twentieth century America. His drive to get into broadcasting culminates in an early success that gets interrupted by an unexpected sidebar in The US Army and a subsequent tour as an Infantryman in Vietnam in the late 1960's. His yearlong excursion in "Fun City East," with its repeated life and death experiences, had lifelong effects on this soldier-of-media. Following his wanderings through the jungles of Vietnam, Bright's interactions with many of America's top public figures throughout his decades in radio and television come to life with intriguing stories that are personal, professional, positive and negative. It's life without a filter! Readers across generations will share and co-experience numerous real life feelings and emotions with writer Bright as his winding trail of life opens in front of them. book endorsement for peter bright; i always thought that peter bright and i had many things in common; we both grew up in ohio, we both had careers in the live event and variety side of television, and the few times we had times to talk i thought we shared a mutual philosophy toward the ups and downs of life. but it wasn't until i read his "overdue" book that i realized just what a rich and storied life peter has had and how much more deeply he had experienced the highs and lows, particularly during his years in the military, than i ever could have imagined. it really amazes me just how little we know about people we think we know, and just how much more we appreciate who they are when we are fortunate enough to have that background filled in by someone as articulate and able to express both facts and feelings as peter has in this book. when i started to read it, i thought all of those common events that we shared would be an interesting parallel track to my life and as such i would have a great frame of reference, but as i read on, i realized just what an amazing story peter has to tell and just how well he tells it. ken ehrlich, executive producer, the grammy awards
