When the war ended on August 15, 1945, I was a naval engineering cadet at the Kure Navy Yard near Hiroshima, Japan. A week later, I was demobilized and returned to my home in Tokyo, fortunate not to find it ravaged by firebombing. At the beginning of September, a large contingent of the American occupation forces led by General Douglas MacArthur moved its base from Yokohama to Tokyo. Near my home I watched a procession of American military motor vehicles snaking along Highway 1. This truly awe-inspiring cavalcade included jeeps, two-and-a-half-ton trucks, and enormous trailers mounted with tanks and artillery. At the time, I was a 21-year-old student in the Machinery Section of Engineering at the Tokyo Imperial University. Watching that magnificent parade of military vehicles, I was more than impressed by the gap in industrial strength between Japan and the U. S. That realization led me to devote my whole life to the development of the Japanese auto industry. I wrote a small article concerning this incident in Nikkei Sangyo Shimbun (one of the leading business newspapers in Japan) on May 2, 1983. The English

The book follows the two children as they embark on an adventure, which begins with the discovery of a hidden witch's haven in a graveyard and Jordan's first encounter with the spirit world - but by know means the first for Sebastian. Then a haunted observatory on the outskirts of town yields a clue - a piece of an intriguing map leading to, what they believe to be, hidden treasure. After collecting the rest of the clues from around the town, Jordan and Sebastian search for the treasure, but instead of rubies, emeralds and gold doubloons, they find themselves lead to a doorway into another world, called the Phantom Realm.
